

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

BIENNIAL REPORT

*For the period from September 18, 1905, to June 30, 1906.

THIRTY-FOURTH BIENNIAL REPORT OF THE SUPER- INTENDENT OF PUBLIC INSTRUCTION.

IN GENERAL.

The biennial period covered by this report has been one of unusual interest educationally in Iowa. Never before in an equal period has there been such wide-spread attention to teacher preparation, such effort on the part of teachers to better equip themselves for the important work of teaching, such marked increase in the aggregate salaries paid teachers, and such a general turning of young men and young women to the secondary schools and colleges for instruction.

An examination of the statistics submitted herewith will show that Iowa teachers were paid in the aggregate \$14,849,803.85 within the two years ending June 30, 1908, while for the preceding two years the aggregate of salaries paid was \$13,589,196.96—an increase of \$1,260,606.89. At least two-thirds of this amount represents salary increase, the remainder going to support 112 new positions created within the past two years, and for added expense of instruction due to the slightly lengthened school year.

Until very recently the county normal institutes furnished teachers practically their only opportunity for academic and professional study during the summer vacation. Now, summer schools for teachers are conducted in nearly all of the leading colleges and normal schools of the state. This fact accounts for the decrease in normal institute attendance in recent years.

In 1895 the total enrollment in our normal institutes was 22,360; in 1900 it was 19,544; in 1905 it was 18,925, and in 1908, 17,433. But the summer school attendance for 1908, added to the normal school attendance would give a total of at least 23,000.

The trend to the summer schools is all the more notable, since in these schools instruction is given for six full weeks, while the

average length of the normal institutes is but 7.2 days. No other single fact indicates more clearly the earnest spirit of preparation on the part of Iowa teachers. It is also a most significant fact that practically every higher institution of learning has enjoyed a phenomenal growth within the past two years. In the three state educational institutions the attendance last year was about 27 per cent. greater than two years ago, as the following figures show:

	Enrolled 1905-6	Enrolled 1907-8
State University of Iowa.....	1,815	2,315
Agricultural College	1,389	2,319
Iowa State Normal School.....	2,490	2,478
Total.....	5,594	7,112

The prosperity of the state schools and independent colleges has an important bearing on the question of teacher supply since an increasingly large per cent. of the students in these higher institutions of learning are looking forward to teaching as a profession and are making special preparation for the teacher's work.

This tendency is particularly welcome, since we do not have an adequate supply of thoroughly competent teachers with which to fill our more than nineteen thousand public school positions. But while marked increase in attendance has been enjoyed by the secondary schools and colleges, as well as increased efficiency in very many of these schools, the attendance in the elementary schools does not show any advance. The enrollment in recent years, with the average daily attendance in all the public schools of the state, including the high schools, is set forth in the following table:

	Total Enrollment	Avg. Daily Attendance
1904-05.....	550,376	375,563
1905-06.....	549,449	375,639
1906-07.....	532,577	366,419
1907-08.....	526,269	363,565

Taking the figures for the past year, of the 526, 269 enrolled, 261,720 were in the graded schools and 64,549 were in the one-room county schools, while the average daily attendance for the graded schools was 200,650 and for the ungraded schools 162,915. When it is remembered that 7,270 teachers were able to furnish the instruction for all the pupils in the graded schools where the average daily attendance for the year was a little over 200,000, and

that 12,571 teachers were required to furnish the instruction in the one-room country schools, where the average daily attendance was a little less than 163,000, a situation is presented that demands the thoughtful attention of the General Assembly.

The following table shows the number of school rooms in country districts in each county, together with the total enrollment for the last school year, the total average daily attendance, and the average enrollment and average daily attendance per teacher.

A study of the table will reveal the fact that at least 40 per cent. more teachers are employed in country schools than should be required to instruct all the children enrolled in these schools, assuming of course that the children could be gathered in schools of reasonable size.

*In computing averages fractions of one-half or over are counted as one. Fractions of less than one-half, not counted.

If a means can be found whereby a large number of the rural schools may be abandoned without working an injustice to the children for whom the schools are maintained, it is imperative in the interest both of economy and efficiency that the means be discovered and applied.

At the present time it is necessary to issue a great many certificates to teachers of very indifferent scholarship, in order that the school positions may be filled. If there were fewer school positions, fewer low-grade certificates would be issued, and the quality of instruction for the state would be raised materially.

THE UNIFORM COUNTY CERTIFICATE LAW

The Thirty-first General Assembly passed making county certificates of state wide validity and transferring the granting of such certificates from the county superintendent to the State Educational Board of Examiners. This law went into effect October 1, 1906. That difficulties would arise in the transition from the old to the new system was inevitable. Such difficulties are inseparable from the introduction of great improvements. Happily the transition is now complete, and a sufficient time has elapsed to form a reasonably accurate judgment of the value of the law, although its superiority over the old method of certifying teachers will be more manifest after it has been longer in operation.

For the twenty-one months ending June 30, 1908, 34,134 applications for uniform county certificates were received by the Educational Board of Examiners. During the same period 4,637 first grade, 9,004 second grade, 4,806 third grade and 8,012 provisional certificates were granted, while 7,675 applicants failed to secure certificates. The phenomenal number of provisional certificates issued was made necessary during the transition period. While a large number of these temporary certificates were issued to persons of very inferior scholarship, and issued because of the urgent need of teachers to fill the schools, the greater number do not represent low scholarship or lack of experience. The necessity for issuing provisional certificates has now largely disappeared.

The Illinois Educational Commission appointed to revise and codify the school laws of that State recently, on its own motion, made an investigation of the Iowa certificate law, and has published

in one of its bulletins the result of this investigation. Since the investigation was conducted by a commission of eminent educators of another state who were seeking information for their guidance on the best method of licensing teachers, and since the information was furnished by that class of Iowa school men who have had the best opportunity to study the Iowa law and its working, viz., the county superintendents, I cannot do better than to reproduce the report on the certificate law as published by the Illinois Commsision.

"The experience of Iowa is of sufficient importance to justify a separate discussion. In Iowa, until recently, a State board of examiners consisting of five persons issued, on examination, State diplomas, state certificates and special certificates. County superintendents, on examination conducted by themselves issued county certificates of two grades, good only in the county. The county superintendent had no power to endorse certificates from another county or to renew a certificate issued by himself.

"Two years ago a new plan was adopted. Under this new plan the State Educational Board of Examiners issues all certificates, county as well as state. County examinations are conducted by the county superintendents on questions provided by the State Educational Board of Examiners. At the completion of a county examination the county superintendent forwards to the Superintendent of Public Instruction a list of all applicants examined, with the standings of each in didactics and oral reading, as determined by him, and his estimate of each applicant's personality and general fitness, other than scholarship, for the work of teaching. He forwards also the answer papers of the applicants with the exception of those in didactics. These papers are graded under the direction of the Board and the results are entered upon a certificate provided by the Board, which certificate is transmitted to the county superintendent of the county in which the applicant resides, for delivery to him.

"Inasmuch as the change in Iowa is recent and consequently the workings of the old plan and the new is still vivid in the minds of the county superintendents, it was thought that it would be especially interesting and informative to secure from the county superinendents from that State their opinions in regard to the law after it has had two years' trial. Accordingly a list of questions bearing upon the merit and workings of the new law was sent to

each of the county superintendents of the State. Of the ninety-nine county superintendents in Iowa, eighty-one replied.

"The questions presented were as follows:

"1. Do you regard the present method of certification as superior to the former method?

"2. Has the change in the method of certification strengthened or weakened the county superintendent in his work of supervising schools?

"3. Has the new law reduced or increased the annoyances of the county superintendent?

"4. Has the new law affected favorably or unfavorably the standing of the county superintendent as a school officer?

"5. Does the new law, in your opinion, tend to raise the standard of the teaching force?

"6. Is the new law more or less satisfactory than the old law to the teachers themselves?

"The replies to these questions show that so far as the Iowa superintendents are concerned they are almost unanimous in support of the law. To the first question, 'Do you regard the present method of certification as superior to the former method?' seventy-three answered yes, many of them adding some emphatic expression of opinion as 'decidedly,' 'very much superior,' 'far superior,' 'most emphatically,' 'there can be no question about it,' 'most assuredly,' 'indeed I do,' and the like. The following is characteristic: 'Our law is splendid. I have worked under the old way, too. I know personally that our present method is much to be preferred.' One superintendent declares, 'It has increased the professional interest of my teachers about fifty per cent, for the first year. Our schools are in better shape, due to the new law.' Eight superintendents are doubtful in regard to the superiority of the law, or think it has not had time to prove that it is superior. Some of these express the conviction that time will prove its superiority.

"To the second question, 'Has the change in the method of certification strengthened or weakened the county superintendent?' fourteen superintendents answer that it is too early to determine whether it has or has not. Nine think the superintendent has been weakened because he has been deprived of his certificating power. Fifty-five, however, answer that the new law has strengthened the county superintendent by making it possible for him to spend more time in visiting schools and conducting teachers' meetings. His power as a supervisor is strengthened. One declares, 'It has strengthened

the real superintendent and probably weakened the mere politician.' Another says, 'It has strengthened his power unless he be a driver rather than a leader.'

"As to whether the new law has reduced or increased the annoyances of the county superintendent. (the third question), nine answer that no change has been noticed. Sixteen think their annoyances are increased, and fifty-four say that the law has resulted in a reduction of the annoyances of the county superintendent. 'In time it will reduce the annoyances,' says one superintendent, 'but just now the shortage of teachers is causing us a great deal of trouble and the people, knowing that we are short, are causing a great deal of annoyance by asking for permits to teach when of course we are unable to grant them.'

"The fourth question was, 'Has the new law affected favorably or unfavorably the standing of the county superintendent as a school officer?' Twenty-eight superintendents had noticed no change. Nine were inclined to think that the standing of the superintendents had been affected unfavorably, but were not positive in regard to it. Three expressed no opinion. One prominent superintendent says: 'Probably from the old standpoint it has had an unfavorable effect. He is looked on now in some quarters as a mere clerk. When the law is better understood it probably will place the county superintendent in a more favorable light.' Another says, 'In the popular opinion, I suppose, it has affected him unfavorably; for the people think that since the only thing that county superintendents ever did (!) has been taken away from them, it certainly has reduced his power. I think that the opposite is true.' Forty superintendents, however, are decidedly of the opinion that the law has affected favorably the standing of the county superintendent. 'It has in my opinion,' says one, 'raised the dignity of the office. Best of all it has started us out for the first time in a real profession.' 'It is my impression,' says another, 'that the superintendent is thought of by teachers and patrons more as a supervisor than as an examining clerk.'

"In answering the fifth question, 'Does the new law in your opinion tend to raise the standard of the teaching force?' sixty-nine say *yes*, eight say *no* and four reply that they have noticed no change. One of the older superintendents says: 'I think it

does.' It certainly cuts out those who are not prepared to take a full examination and have their papers graded at Des Moines. It has made considerable difference in ——— county. Wages have advanced in many rural schools.' Another says, 'The teachers under my supervision are working harder than ever. Nearly all are following some line of professional reading. The requirements have been raised and the teachers are trying to reach that requirement.' Still another says, 'Yes, in this county. A good many of the old teachers who have been teaching schools on second grades, and a few who have first grades, were unable to pass the examination and have been dropped, and almost all who are now teaching are doing work to raise their grades, and a good many are reading professional books.' 'Teachers are coming to the opinion,' says another superintendent, 'that if they expect to teach they must fit themselves first and not use a school as a place to get a little money to go to school on.' Still another says, 'I know it does raise the standard in the state. As far as my county is concerned there is very little change. Only one teacher who had taught under the old law failed under the new. Only four received a lower grade of certificate.'

"On the sixth question, 'Is the new law more or less satisfactory to the teachers themselves?' five are in doubt, six answer 'less' and sixty-nine say that it is more satisfactory. One does not answer. Many say in substance that it is more satisfactory to the competent teachers, less to the incompetent. 'To the really good teachers, those who have an education and training, which really fit them to be teachers,' says one, 'the law is without question satisfactory. The poorly educated teacher, without professional training, of course has a harder time.' 'The teachers were afraid of the change at first,' says another, 'but now they are well satisfied, and many of our teachers have worked up to a better certificate than they held under the old law.' Still another says, 'At first there were so many misrepresentations by the press that the teachers became uneasy. Since they have come to understand it the progressive all approve. If put to a test I am confident that teachers would strongly uphold it. To the same effect another says, 'To the good teachers it is much more satisfactory, but the poor ones and the incompetent do not like it at all. In time we are going to

have a teachers' profession in Iowa. Then all the teachers will approve of the law that helped to create the profession."

EXPENSE OF EXECUTING THE CERTIFICATE LAWS.

All the expenses incurred by the Educational Board of Examiners for salaries, traveling expenses, of readers and members of the board, clerical assistance, etc., are paid from fees received from applicants for certificates, each applicant for a uniform county certificate paying into the State treasury fifty cents, and each applicant for a State certificate paying two dollars.

For the two years ending June 30, 1908, there was paid into the State treasury in fees and placed to the credit of the Educational Board of Examiners, \$21,907.00. During the same period warrants were drawn against this fund to the amount of \$19,140.33.

Prior to the enactment of the uniform county certificate law the expense of the State Board for salaries, traveling expenses and clerical help was \$1,500.00. If, then, we deduct from the total expended the \$3,000.00 that would in any event have been expended within the biennial period in taking care of that part of the work pertaining to State certificates, we have remaining \$16,140.33, which may properly be said to represent the cost of executing the certificate law for twenty-one months or approximately \$163.00 per county.

But this is not an outlay without direct return to the counties. Formerly, county superintendents were required to spend much time in examining teachers. They now have more time for the work of supervision. The number of visits made by county superintendents to the schools during the biennial period was 30,930 as against 25,244 for the two years immediately preceding. This would indicate that on an average each county superintendent spend at least twenty-five more days in school visitation during the last two years than during the preceding two years, and this, too, when the labor of transferring from the county to the State system was in progress with all its attendant difficulties.

ACCREDITED COLLEGES FOR THE TRAINING OF TEACHERS.

The Thirty-second General Assembly passed a law empowering the State Educational Board of Examiners to grant State certificates without examination to graduates of the State Normal School, the

State University and the State College of Agriculture and the Mechanics Arts, and to the graduates of other colleges and normal schools in the State maintaining courses adjudged to be of equal rank to the regular and collegiate courses offered by the three State institutions named.

The Board found it a very difficult matter to classify colleges under this act, since but few of the standard colleges at the time the act went into effect maintained departments of education offering the equivalent of the work done in this department of the State University, and no Normal School, other than the State Normal School, maintained a thoroughly equipped training school covering the first eight grades of school work. In addition to this deficiency the equipment and support of some of the colleges was not reassuring. It was, however, the judgment of the Board that it was the clear intent of the General Assembly that what are known as standard colleges maintaining a liberal arts course of four full years of college work should have recognition at the hands of the Board. After mature reflection the Board determined to classify what are known as the standard colleges (in so far as such colleges applied for accrediting) in three groups. As a basis for this classification the following definition was adopted, together with objective standards, known as the "Eight Points":

DEFINITION.

An institution whose graduates are entitled to certificates shall provide at least a sufficient number of class hours of college grade to offer opportunity for freshman, sophomore, junior and senior years' work, making a total minimum of sixty hours for any one semester. Laboratory hours shall be reckoned as not less than two for one recitation hour.

THE EIGHT POINTS.

I The number of class hours for the heads of departments and students shall not exceed twenty a week.

II. A faculty properly qualified shall consist of graduates of colleges who have pursued graduate work equivalent at least to that that no change has been noticed. Sixteen think their annoyances are required for a master's degree.

III. The library shall consist of at least five thousand volumes, selected with reference to college subjects and exclusive of public documents.

IV. The laboratory equipment shall be worth not less than \$5,000 and so distributed as to establish at least an efficient chemical, physical, botanical and zoological laboratory.

V. The means of support is defined as requiring a permanent endowment of not less than \$200,000, or a fixed assured income exclusive of tuition equivalent to the interest derived from at least \$200,000.

VI. The average salary of the heads of departments, exclusive of the salary of the president, shall be at least \$1,000.

VII. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of these departments should be devoted to college work.

VIII. The graduates must show the completion of a four-year secondary course and four-year college course above the usual eight grades of the common schools, and the standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

A college coming under the above definition and fully meeting the eight points is denominated by the Board a *Group A* college; one meeting at least five of the eight points a *Group B* college, and one meeting not less than three of the eight points a *Group C* college. As at first classified, but six of the independent colleges fell in Group A, but after a strenuous year's campaign for additional equipment and support, and in some instances the strengthening of the faculty, four more of the independent colleges came into Group A; so the classification at this time stands as follows:

Group A.

Iowa College
Drake University
Simpson College
Parsons College
Iowa Wesleyan University

Cornell College
Coe College
Upper Iowa University
Morningside College
Highland Park College

Group B.

Leander Clark College
Des Moines College
Lenox College
Tabor College

Penn College
Central University
Luther College

Group C.

Buena Vista College
St. Joseph's College

Charles City College

The third group was designed to be temporary, and it is the purpose of the board to discontinue this group after July 1, 1909, since it is believed sufficient time will have elapsed by that date to enable all the colleges deserving of recognition by the board to at least enter Group B.

USE OF THE TWO-YEAR CERTIFICATE.

A graduate of either a Group A or Group B college who has had the required professional training is granted the five-year state certificate of the first grade as the law requires. A graduate of either a Group A or Group B college, who has had all the required work save the professional training, is given the two-year state certificate. The same is true with a graduate of a Group C college. This use of the two-year certificate authorized by Chapter 115, Acts of the Twenty-Ninth General Assembly, and designed to be issued on examination only, was to meet what the board regarded as an emergency. The period covered by the two-year certificate will enable its possessor either to prepare for the examination in the professional subjects, or to acquire the requisite credits in these subjects in an approved college. The two-year certificate will not be renewed, and it is the purpose of the board to discontinue at an early date the use of this temporary certificate.

ACCREDITED NORMAL SCHOOLS.

As above stated, no normal school in this state other than the state normal maintains a fully appointed training school. The board was of the opinion, however, that those normal schools well equipped, with high entrance requirements, and offering courses practically the same as those offered in the state normal school should have recognition under the law.

The normal schools so far accredited are as follows:

The Normal School of Drake University.

The Normal School of Highland Park College.

The Normal School of Upper Iowa University.

The Normal School of Simpson College.

Here again the board has used the two-year certificate in order that the graduates may acquire teaching experience under the supervision of the board in lieu of the practice work offered in the training school at the state normal. When such experience satisfactory to the board is acquired the five-year state certificate will be granted without examination.

The law authorizing the board to accredit colleges and normal schools is proving of great value in that our higher institutions of learning are equipping strong departments of education for the benefit of the increasingly large number of college students who are preparing for service as teachers in the public schools.

INDUSTRIAL EDUCATION.

Any movement looking to the successful introduction of new subjects in to the school curriculum must of necessity be slow. The need of radical changes in courses of study and in methods of instruction are felt long before effective changes can be brought about. For many years the introduction of agriculture, manual training and domestic science in the public schools has been advocated, and public sentiment is coming rapidly to the support of this radical innovation. Doubtless as rapid progress along the lines of industrial education is being made in this state as present conditions warrant.

At the present time 46 towns and cities have departments of manual training, while domestic science is now taught in the public schools of 5 Iowa cities.

While these numbers seem small in comparison with the large number of towns and cities of the state, it must be remembered that but few teachers are thoroughly equipped and available for this line of work.

The introduction of manual training and domestic science in any school system may well be delayed until teachers of skill and special training can be put in charge of the new departments of work.

In this connection it is encouraging to know that the number of competent manual training and domestic science teachers is increasing every year, which gives promise of a gradual extension of industrial education in our graded schools.

AGRICULTURE IN RURAL SCHOOLS.

While much in the way of suggestion may be given in the country schools touching the subject of elementary agriculture, it is unreasonable to expect large results where the teachers have had no scientific training in this subject. Such training, not one in a hundred of Iowa teachers has had.

The first step toward a sane teaching of agriculture is to train teachers for the work expected. The second step is to gather the country children in large consolidated schools with ample grounds for experimental work. It is within reason to expect that a sufficient number of teachers could be scientifically trained so one such teacher could be employed in each consolidated school to direct the work in this subject in all grades of the school. Until this condition can be brought about, the next best thing is now being done in very many counties, viz: to place in the hands of each teacher a text on elementary agriculture, and have a few fundamental facts bearing on the subject emphasized by competent instruction in the normal institutes and summer schools.

In this way a few things may be well taught in the rural schools, but in a wholly incidental manner.

THE EDUCATIONAL COMMISSION.

It is not exaggeration to say that the most important bill that will engage the attention of the Thirty-third General Assembly is that to be submitted by the Educational Commission.

In my last Biennial Report I said:

"There is the most urgent need of a thorough revision of the school laws to the end that contradictory sections be brought into harmony and that all be simplified. This work no one General Assembly can be expected to accomplish. A commission should be named by the Thirty-second General Assembly to perform this important work and to report to the Thirty-third General Assembly."

In compliance with this recommendation, the Thirty-second General Assembly empowered the Governor to appoint a commission

of three members to "rearrange, revise and codify the existing laws relating to the public schools and to recommend additional needed legislation." The Governor appointed as members of the commission: Dr. F. E. Bolton, Attorney W. H. Baily, and Attorney Arthur Springer. The commissioners have performed their duties faithfully and well. The bill drafted, together with a comprehensive report by the commission, is published in another volume; hence no mention of the report need be made here, other than to say that I am confident that the enactment into law of the bill reported will mean a great forward step for our public schools.

ONE YEAR UNDER THE UNIFORM COUNTY CERTIFICATE LAW.

The uniform teachers' certificate law, which became effective October 1, 1906, combines the strongest features of similar laws enacted years ago in the states of New York and Minnesota, and more recently in Nebraska and South Dakota.

Contrary to general report, the county superintendent still exercises large powers in the licensing of teachers. He alone passes upon the general fitness and moral character of each applicant. If he withholds his recommendation of an applicant a certificate is not granted, even though the scholarship is strong. The State Board of Examiners passes upon the scholarship only.

Certificates Issued.

Within the year ending October 1, 1907, there were filed with the State Board through the county superintendent 26,138 applications for teachers' certificates. Within the same period certificates were issued by the State Board as follows:

Special Certificates	351
First Grade	3,737
Second Grade	7,635
Third Grade	4,061
Provisional	5,464

This shows the total number of failures to have been 4,844 or 102 more than for the year 1905, when the aggregate number of failures reported by county superintendents was 4,742

Certificates In Force.

Prior to October 1, 1907, third grade and provisional certificates issued last year to the number of 3,060 had expired, leaving the following number of certificates in force in Iowa on October 1, 1907:

Life Diplomas	365
State Certificates	2,974
First Grade or Two-Year County Certificates Is- sued by County Superintendents after July 1 and Prior to October 1, 1906.....	3,264
Special Uniform County Certificates.....	351
First Grade Uniform County Certificates.....	3,737
Second Grade Uniform County Certificates.....	7,635
Third Grade Uniform County Certificates.....	3,486
Provisional Certificates	2,979

The Number of Teachers Required.

The actual number of different teachers required in the course of the year cannot be accurately known. The school secretaries reported 29,650 teachers employed in 1906, but these figures are every misleading. The custom has been quite general in rural districts to employ the teachers for a term of two, three or four months. A teacher might teach a fall term in one district; a winter term in another district; and a spring term in still another district, and would, of course, be reported by the secretary of each school where she had taught. So in the aggregate of 29,650 teachers reported for 1906 many hundreds were counted twice and a great many counted three times. The number of teachers required to fill the schools at any one time is 19,729, but a larger number of persons actually teach in the course of the year, since many who begin in the fall leave the work for various reasons before the close of the school year. As already stated the number of certificates now in force is 24,791. The number of different persons holding certificates, however, is but 24,016, since 775 teachers wrote in both the June and July examinations and secured certificates as the result of both. The total number of different persons licensed to teach at this time (October 1, 1907) is, therefore, 24,016 or 4,287 more than there are positions to fill; yet county superintendents report a shortage of teachers in many counties. This apparent contradiction is easily explained. Many women receiving first grade and state certificates one, two, three or four years ago have since married; others have entered other fields of work; others have left the state, lured by higher salaries; many others holding certificates secured this year are in college or normal school, while still others will not each except in favored positions already filled. More than one-third of all the persons holding State certificates and life diplomas have gone to other states where wages are higher or have retired from the work of teaching.

The New System of Examinations Adds No Financial Burden to the State.

Teachers in this State have always been required to pay an examination fee of \$1, which went toward supporting the county normal institute. Under the new law the same fee is charged as formerly, but one-half of it is now paid into the State treasury. The amount paid into the State treasury in this way for the year ending October 1, 1907, was \$13,064. Within the same period the total expenses of executing this law (which under the statute cannot exceed the fees paid in, amounted to \$12,365.20.

The Saving to the Counties.

Under the old law the county superintendents quite generally employed a part or all of the institute instructors for from one to four days in assisting in conducting examinations and reading answer papers. This service is no longer required in the counties, and the institute instructors now devote all the time for which they are employed to instruction. County superintendents who had experience under the old system, with two exceptions, report that they were required to spend many more days in the work of examining teachers, reading answer papers and transmitting returns, than is required for like service under the new law, the average saving reported being 30 days. This extra time saved will enable the county superintendent to do more effective supervision. Rated at \$4.00 per day (the former pay of a county superintendent) the value of this time equals the total cost of executing the certificate law.

The New System Is Fair.

The following question was submitted to the county superintendents on October 1, 1907:

"To your knowledge or belief has any one examined since October 1 1906, been denied a certificate who YOU believe should have received one?"

Eighty-six county superintendents out of 94 reporting answer this question No; 6 others find that in the aggregate 14 teachers have been denied certificates who should in the opinion of the county superintendents have received same, while 2 superintendents think their teachers to the number of 66 should have received higher grade certificates than granted.

The Shortage of Teachers.

From official reports received from 94 counties it is shown that 421 schools in these counties were closed on October 1, 1907, for want of teachers and that 183 were closed for a like reason one year ago, when county superintendents had full licensing power. It is also shown that county superintendents have knowledge of 412 unemployed teachers, 117

of whom will accept schools at good salaries, and where suitable boarding accommodations can be provided. The county superintendents, who are better able than any other class to state the reasons for the prevalent shortage of teachers, do not ascribe the shortage in any important sense to the new certificate law. Seven county superintendents express the opinion that the false and misleading reports that have been widely circulated concerning the examinations and the granting of certificates have had the effect to frighten some competent persons away from the examinations, and in this way their services have been lost to the schools. But all recognize that the difficulty of securing teachers has been growing more and more acute for the past five years. After every effort to secure teachers a year ago, when the licensing power was in the hands of the superintendents, there were 183 schools unfilled for lack of teachers.

In answering the question:

"Why, in your opinion, is there difficulty at present in securing an adequate supply of competent teachers?" County superintendents very generally give as reasons:

1. The better salaries offered in occupations that give employment for the full year and that require less time and expense in preparation.
2. The general prosperity of the country and easy circumstances of farmers and others, relieving young women from the necessity of earning their own way.
3. The better salaries offered teachers in the western states.
4. Low estimate placed upon the value of education by the people.
5. Increased opportunities for employment, many more doors of opportunity opening before young men and young women than formerly.

(a) Practically all the county superintendents place the question of low wages as the chief reason why more competent persons are not attracted to and held in the profession of teaching.

The Question of Salaries.

For the past five years teachers' salaries in this State have been gradually rising, but not in proportion to the constantly increasing cost of living. Taking the State over the advance in salaries within the past six months has been more general and more marked than for any previous year. From county superintendents' reports just made it is shown that not less than 58 per cent. of the schools of the state are paying teachers higher wages this year than last, the increase ranging from \$2.00 to \$10.00 per month, with an average of about \$5 per month.

Longer Contracts.

The old custom, almost universal in rural districts, of contracting with teachers for a term of two, three or four months, is giving place to a more rational policy. Yearly contracts with rural teachers have been made this year in many of the districts in at least 56 counties, and

in nearly every instance the county superintendent reports this number greater than ever before.

Provisional Certificates.

In the transition from the old system to the new it was inevitable that a large number of temporary certificates should be issued. The provisional certificate does not necessarily stand for poor scholarship. But a large per cent, possibly over half of the provisional certificates now in force, were issued on grades lower than those required for a third grade certificate. These low class certificates would not have been issued had it been possible to secure more teachers capable of creditably passing the examinations. They were issued in every instance upon the request of the county superintendent and in response to local demand. It is expected that teachers with low grade provisional and third grade certificates will soon merit better certificates. There is a strong incentive offered for self-improvement on the part of these teachers. A third grade certificate is valid for six months, a second grade is valid for twenty-four months, a first grade is valid for thirty-six months, while a regular State certificate is valid for sixty months. Aside from the longer life of the better certificates the custom is becoming general with school boards to pay salaries according to the grade of certificates. It is safe to say that never before have teachers in this State been so earnestly engaged in study in the hope to attain a higher grade of certificate than that now held.

Time the Test of the Law.

The putting into force the new system of certifying teachers which directly affected 26,000 persons, could not be done without some friction. Naturally the administration will work more smoothly from this time on. The law so far as tested is regarded as successful by those best able to judge. It will, however, require considerable time to demonstrate its great value in uplifting standards and in advancing the cause of popular education.

In the opinion of our leading educators it will take five years to get a condition that the new law will have produced.

That educational conditions in Iowa are improving is made clear in the report set out in the preceding paragraphs. We believe these conditions will continue to improve and that the new certificate law wisely and impartially administered, will be recognized as one of the factors in this improvement.

JOHN F. RIGGS,

October 30, 1907.

Superintendent of Public Instruction.

OFFICIAL CALLS, CIRCULARS AND COMMUNICATIONS.

Official Call.

To the County Superintendent:

You are hereby called officially to a meeting of county superintendents to be held at Des Moines, Wednesday and Thursday, December 26 and 27, 1906. Under provision of section 2742, your expenses will be defrayed.

JOHN F. RIGGS,
Superintendent of Public Instruction.

December 15, 1906.

Official Call.

To the County Superintendent:

In accordance with Section 2622 of the Code, you are hereby called to meet with the Superintendent of Public Instruction in convention as follows:

Red Oak, April 3.
Centerville, April 5.
Cherokee, April 9.
Cedar Rapids, April 12.
Des Moines, April 17.

In all the meetings, except the one at Centerville, the first session will convene at nine o'clock in the morning, and it is very important that this, as well as the afternoon session, be well attended. The Centerville meeting will be held in room 19 of the high school building promptly at two o'clock on the afternoon of April 5th, and will be presided over by the Superintendent of Public Instruction.

Every county superintendent is expected to attend one of the meetings announced in this call, and is entitled, under Section 2742 of the school laws, to all expenses incurred in attendance upon such meeting.

The discussions will be wholly informal, and any subjects of general interest to county superintendents, in addition to those in the suggestive list, may be taken up.

JOHN F. RIGGS,
Superintendent of Public Instruction.

March 18, 1907.

Suggestive Subjects for Discussion.

1. Annual Reports.
 - a School officers to county superintendents;
 - b County superintendents to state superintendent.
2. Recent School Legislation.
 - a Uniform school year;
 - b Uniform county certificates.
 - (1) Examinations.
 - (a) Regular.
 - (b) Special.
 - (2) Renewals.
 - (3) Registration.
 - (4) Transmitting returns.
3. The Present Outlook for Consolidating Schools.
4. School Visitation.
5. Local and County Educational Meetings.

Official Call.

To the County Superintendents of Iowa:

You are called officially to meet in Des Moines on December 31st and January 1st, 2nd and 3rd.

It is suggested that superintendents time their arrival in Des Moines so as to assemble in the Chamber of the House of Representatives at the Capitol at 3:00 o'clock on the afternoon of Tuesday, December 31st. This initial meeting will be wholly informal, and is held to afford superintendents the opportunity to become better acquainted and to exchange opinions on questions pertinent to their work.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

December 10, 1907.

Official Call—April 15 and 16, 1908.

A conference of county superintendents will be held in the Capitol Building at Des Moines on Wednesday and Thursday, April 15 and 16.

For many years three or more meetings of county superintendents have been held each spring in the different parts of the State; but it is thought by many that greater good will result from all the superintendents meeting together for conference. The discussions will all be informal.

This call is made under the provisions of Section 2622, the necessary expenses for which will be defrayed by your county under Section 2742.

Respectfully,

Superintendent of Public Instruction.

JOHN F. RIGGS,

PROGRAM.

April 15—10 a. m.

The Institute. The discussion on this topic will be limited to a consideration of ways and means for increasing the efficiency of the institute as we now have it. The proposition to change the law on this subject will be discussed at a subsequent session.

The Rules Governing Examinations. All questions concerning examinations should be called up under this head to the end that all the rules may be thoroughly understood by every county superintendent.

2. p. m.

School Officers Reports. Under this head the means of securing prompt and accurate reports will be discussed and explanations made, if desired, concerning any features of the county superintendent's annual report.

Awakening Public Sentiment. Many county superintendents have achieved notable success in one way or other in arousing a sentiment favorable to school improvement. Under this topic, tell what has been accomplished in your county within the past year.

6:30 p. m.

Dinner at Savery Hotel.

April 16—9:30 a. m. and 1:30 p. m.

Proposed Changes in Our School Laws. (a) A change from the district to the county system of school organization.

(b) Abolishing the Normal Institute as now provided and establishing in its stead a short institute during the school year, requiring attendance on the part of all teachers with full pay.

(c) Providing for free high school instruction for country youth.

(d) Other changes suggested by county superintendents.

TOPICS FOR DISCUSSION.

Changes in School Law—Suggested by County Superintendents.

April 15, 1908.

1. Make term of office of county superintendent begin and end with school year.

2.. Abolish office of school treasurer.

3. Give county superintendent authority to condemn unfit school buildings.

4. Make the appointment of a truant officer compulsory in all school corporations.

5. Require some professional and secondary school training as a condition to entering a teacher's examination.

6. Discontinue the issuing of provisional certificates on low grades. How low?

7. The institute enrollment fee or the registration fee—which shall we abolish?

8. Denying a district the right to maintain a school for less than ten pupils, and requiring transportation where necessary.

9. Make the legal school year seven months instead of six.

10. A county educational board to select text-books where county uniformity prevails.

11. Amend Section 2803 so as to give every child the advantages of the nearest school of the grade to which he belongs, free and without controversy.

12. Election of county superintendent by county board, which board should also have control of all school affairs which relate to the county in general.

13. Empower the county superintendent to cause to be withheld from the apportionment fund of districts which neglect or refuse to comply with the provisions of the library law by a specified time, the sum of five cents for each person of school age, said amount to be expended in the purchase of library books.

14. Make it optional with school boards whether or not to distribute library books semi-annually.

Note—The above topics are numbered for reference. They will be discussed in the order determined by the county superintendents present.

**CIRCULARS TO COUNTY SUPERINTENDENTS CONCERNING
PROVISIONAL CERTIFICATES AND SPECIAL
EXAMINATIONS.**

For the Guidance of County Superintendents—The Provisional Certificates and Special Examinations.

For the present, and until the teachers of the State become thoroughly familiar with all the provisions of the new certificate law, many provisional certificates are likely to be required. Such certificates will be issued promptly in all cases that come clearly under Provisions (a) and (b), pages 11 and 12 of the Rules Governing Examinations.

Since most of the certificates now in force are county certificates issued by county superintendents it is found necessary to extend the privileges of Provision (a) to teachers who hold good certificates in full force in one county, but who desire to teach in another county. County superintendents will take note of this extension of Provision (a) and they will also note that no certificate will be issued under either Provision (a) or Provision (b) unless the county superintendent so recommends.

The county superintendent should not refer to this department any inquiry concerning the provisional certificate. He can determine quite as well under which provision of Rule 24 any given case will fall.

If a particular case cannot be classified under either of the two provisions to which reference has been made, and it is the judgment of the county superintendent that the services of the teacher are required, the case must then fall under Provision (c), page 12 of the Rules Governing Examinations.

The county superintendent should utilize the best teachers available; that is to say, where the services of a teacher of undoubted success are required for any particular position in a county, and such teacher can under the rules secure a legal certificate only by examination, it will be well for the county superintendent to ask for a special examination that the provisional certificate may be issued.

Section 19 of the certificate law will not be construed to mean that every person in the county holding a certificate, however low the grade, must be employed before a special examination can be asked. In all such cases the county superintendent must exercise his best judgment. It is suggested in this connection that if possible, not more than one special examination be requested between any two regular examinations, and that such special examination, if one is required, be so timed as to satisfy all cases of like nature.

The only certificate granted on the special examination is the provisional certificate and is valid only in the county in which the examination is taken.

Grades earned in a special examination can not be given any credit in a subsequent regular examination.

JOHN F. RIGGS,
Superintendent of Public Instruction.

November 15, 1906.

COUNTY SUPERINTENDENT'S DUTIES.

Circular No. 1—1907.

To County Superintendents:

You today assume the duties of a public office second in importance to none in the country. With most of you the duties are new and some little time will be required in which to master them. In extending to you our most cordial greetings and best wishes, we desire to offer some suggestions that may be of assistance, particularly to new superintendents.

Your office is not a sinecure as many good people believe it to be. On the contrary your energies will be severely taxed in meeting unaided, all your official duties. An office clerk, or deputy, is desirable and it is suggested that if possible you prevail upon your Board of Supervisors to provide such assistance.

There is a false impression abroad that recent school legislation has lessened the work of the county superintendent. It has, in fact, increased it. True, the work of examining teachers has been reduced, but the enforced visitation of schools has been added. The superintendent will be in the schools more and in the office less. It is, however, desirable that school officers and others should find the county superintendent's office open when they call. A clerk or deputy should be in charge to give required information, aside from performing the still more important work of keeping the office records and performing other clerical duties, for it is most desirable that the time of the county superintendent be employed in planning and executing the larger things for his county.

I desire to mention a few, only, of these larger duties:

1. **School Visitation.** The law requires that the county superintendent visit the different schools of his county at least once each school year, spending not less than one-fourth of a day in each school. This compulsory visitation is understood to extend to rural and village schools only. During his visit the superintendent may, if he thinks best, hear recitations and give instruction to pupils, but usually the regular

work of the school should proceed under the immediate direction of the teacher.

For further suggestion on this subject, see page 66, Part I, of the Report of the Superintendent of Public Instruction for 1904-05; also pages 51 to 57 of the Proceedings of the Iowa State Teachers' Association for 1905.

2. Teachers' and School Officers' Meetings. Local and county teachers' meetings may be made the means of great educational uplift if they are wisely planned and if the hearty co-operation of teachers and patrons is secured. They should be as free as possible from formality and each meeting should have a definite aim. See page 67, Part I, Report Superintendent Public Instruction, 1904-05.

In this connection the organization of mothers' or parents' clubs and the holding of school officers' meetings at stated times is commended to the thoughtful consideration of county superintendents. Such organizations, if carefully planned and skillfully directed, are powerful agencies in awakening and sustaining a good school sentiment.

3. The Hand-Book. You should know the Hand-Book thoroughly that you may render the greatest assistance to your teachers in your visits. The instruction on the content and use of the Hand-Book, given to inexperienced teachers at the normal institute, may very properly be given by the county superintendent. He should know the Hand-Book so thoroughly as to be better able than any of the institute instructors to give this instruction.

4. Special Days. A supply of "Special Days, School Year 1906-07" was sent to your office about November 1, 1906. A copy of this pamphlet should be in every schoolroom. We can send you a few additional copies if you find you have need of them. This pamphlet is not the property of the teacher, but of the school, and should remain in the school library.

5. The Institute. In perfecting your plans for the normal institute you will observe that the institute **MUST** be in session at least six days and that no institute can be in session profitably during the time of a teachers' examination, i. e., the 26th, 27th and 28th days of June and the 24th, 25th and 26th days of July. It is not necessary that the institute precede the examination. The best institutes in the past have **NOT** been places to cram for an examination. Most fortunate is it that **NO** Iowa institute in the future can be such a place. The institute should impart knowledge and give inspiration and those attending ought to be better able to pass a subsequent examination; but preparing for an examination is not the end and aim of the institute. Teachers are expected to show their professional spirit by attending the institute and teachers' meetings. The teacher who takes no interest in such matters can not expect a favorable recommendation from the county superintendent when

she appears in a teachers' examination or seeks the renewal of her certificate.

6. The New Certificate Law. You are asked to make yourself thoroughly familiar with EVERY SECTION of the new certificate law and to be equally familiar with the printed rules and regulations adopted by the Educational Board of Examiners. You will have many inquiries from teachers in these matters within the next six months and it is most important that you be able to give clear and correct answers. Do not refer teachers to this department. If you have questions you can not answer, write us clearly and fully and we will, if possible, give YOU the desired information.

7. The January Examination. (a) On January 19th we will send you 40 lists of questions in each certificate subject; also a supply of preliminary papers (Form E). If you have reason to believe that you will have more than forty applicants, let us know by the 15th.

(b) In the examination, follow the Rules Governing Examinations strictly, except that Rule 4 may be modified to this extent: If applicants are late at any session, the remainder of the half day may be divided as you may elect between the subjects for that half day; but in no case may a subject assigned for any half day be taken at another session.

(c) In your marking on general fitness, didactics and oral reading, mark on the scale of 100. Enter in duplicate the names, postoffice address and the required markings for each applicant on Form F. Send BOTH blanks to the State office; also send every preliminary paper (Form E).

(d) Admit no one to the examination who is not 18 years of age or who will not be 18 years of age by the date of the next regular examination. If an applicant is not yet 18 give the date, following the name, on which said applicant will be 18.

8. The Provisional Certificate. Rule 24, pages 11 and 12 of the Rules Governing Examinations, and our circular of November 15th on Provisional Certificates and Special Examinations will enable you to determine most cases under this head.

There are, however, some teachers in every county whose certificates expire before the close of the present school year. Where such teachers are unsuccessful and, in the judgment of the county superintendent, their services should be continued, provisional certificates will be issued when requested by the county superintendent, it being deemed unwise to require them to leave their schools to attend the January examination.

The county superintendent, under authority of sections 9 and 20 of the new certificate law, may extend THIRD GRADE and PROVISIONAL certificates (without fee) until July 1st, provided such certificates were issued by the State Board. HE HAS, HOWEVER, NO RIGHT TO EXTEND THE LIFE OF A CERTIFICATE ISSUED

PRIOR TO OCTOBER 1, 1906; but as above stated, he may request the State Board to issue the provisional certificate in such cases, and same will be issued for the remainder of the school year, no examination and no theme paper being required, the only papers to be submitted being the preliminary paper (Form E), filled out by the teacher and the county superintendent's statement (Form B), on which the standings from the old county certificate should be recorded.

In all other cases of granting the provisional certificate as provided in (a) and (b), Rule 24, and in circular of November 15th on Provisional Certificates and Special Examinations, the paper, as in renewals, will be required, the same to be passed upon by the county superintendent.

9. Fees. (a) A fee of \$1 must be collected from everyone writing an examination either in part or in whole, from every one applying for a provisional certificate and from everyone applying for the renewal of a certificate. Onehalf of the amount so collected must be paid into the Institute Fund and the other half must be forwarded to the Treasurer of State, Des Moines, Iowa. These fees should be deposited on the **FIRST DAY OF THE MONTH**. Do not remit to the State Treasurer on any other date.

(b) A registration fee of \$1 is required before a teacher can begin teaching. You can register a certificate only to the close of the current school year. All registration fees must be paid into the Institute Fund.

10. Renewals of County Certificates. The Rules Governing Renewals were designed to answer fully all questions on this subject. Please make yourself thoroughly familiar with these rules and observe:

(a) That the complete set of renewal papers comprise the following:

1. Application blank (Form A) to be filled out by applicant.
 2. County superintendent's statement (Form B).
 3. Director's statement (Form C). From majority of Board, if and independent district from the director under whom the teacher has taught, if a school township.
 4. In case of city teachers, city superintendent's statement (Form D).
 5. A brief, concise and accurately written paper on one of the topics listed on page 8 of the Rules Governing Renewals. The teacher and NOT the county superintendent will select the topic.
- (b) Do not forward the papers until they are complete nor until the fee of \$1 is paid. Enter in the proper space on FORM A the date you receive the fee, and sign your name. **DO NOT FORWARD THE RENEWAL PAPERS WITHOUT THIS ENTRY.**

(c) In case of a second grade certificate when but part of the grades are accepted [see (d), page 8, Rules Governing Renewals], the

applicant must write in the remaining subjects at some regular examination this year—preferably the June examination. The paper on professional or current topic is required in all such cases and it may be written at the time of the examination, or at other time chosen by the county superintendent.

Where a part examination is required, do not file the renewal papers [see (a), paragraph 10 above], until the examination is completed.

In recording second grade certificate per cents on the county superintendent's statement (Form B), give ALL the per cents, those below 90, as well as those 90 and above.

(d) Where a teacher of long and successful experience holds a certificate either without per cents or of a name that does not readily admit of classification under Section 11 of the Certificate Law, such teacher may, if so recommended by the county and city superintendent make application under Rule 3, page 8, of the Rules Governing Renewals. [See last paragraph of page 5 and first half of page 6 of the address on "Our School Laws."] Such applicants should file their papers by May 1, 1907, that there may be ample time to pass upon them before the date of the June examination.

11. Take inventory of your circulars and forms, and see that you have an adequate stock of each.

For convenience in ordering from this department, refer to the Form letter as entered in red ink on the sample forms that accompany this circular.

Respectfully,

JOHN F. RIGGS,

January 7, 1907.

Superintendent Public Instruction.

MOTHERS' CLUBS IN CONNECTION WITH THE PUBLIC SCHOOLS.

Circular No. 2—1907.

To Superintendents, Teachers and Parents:

No school can be at its best where there is not perfect co-operation between parents and teachers. The homes individually and collectively must render loyal support to school and teacher.

A good school sentiment may be awakened and sustained in any community, for at heart every parent is a loyal friend of the public school and is most solicitous that it render the largest possible service to childhood. How may such a sentiment be awakened and sustained and the influence of parents count for the most in child culture?

One method that has proved most fruitful of good in many districts is for mothers, or better, parents, to form societies having child study as

an object, and the best physical surroundings of the school as an especial care.

The National Congress of Mothers, also the State Organizations (of which there are thirty, Iowa being one) claim for these local circles:

"That the child study is rich with possibilities. The object of the organization is to raise the standard of home life; to promote confidence between parents and teachers upon questions vital to the welfare of children, and to bring into closer relations the home and the school. It aims to assist educators and legislators in procuring the best mental, moral and physical training of children; to further develop the manifold interests of the home and the school.

The cause readily lends itself to local conditions. It is alike needed in the busy city or the sparsely settled district.

A spirit of helpfulness pervades the circle, and parents and teachers turn confidently, one to the other, for knowledge and counsel, for sympathy and friendship.

Parents come to look at school work from a new point of view, and learn why certain things are included in the curriculum and why others are prohibited."

How to Organize a Child Study Circle.

2. Call a meeting and secure the attendance of parents, teachers and if possible, members of the Board of Education.

2. State the object of the meeting as outlined above.

3. Make it well understood that the movement is a common sense effort to bring the home and the school in closer touch.

4. Elect a president (choosing a mother if possible), a secretary and a treasurer. Adopt simple rules for conducting the business of the circle.

5. The program committee may properly consist of two mothers and one teacher. The teacher member should be excused from active duty on the committee but should always be consulted as to topics. No subject should be chosen not in harmony with the school spirit, and no factional discussions should be permitted.

Child study circles may be formed in any community without having connection with other like societies, but it is earnestly urged that such circles join the Iowa Congress of Mothers, that they may feel the benefit of mutual helpfulness and a common purpose, as expressed in such words as co-operation, reciprocity, unity.

Any child study circle connected with a public school may join the Iowa Congress of Mothers and thereby the National Congress of Mothers by payment of yearly dues of ten cents for each member. One-half of this sum remains in the State treasury; the remaining half is sent to the National Congress of Mothers. The dues should be paid to Mrs. A. O. Ruste, Treasurer, Charles City, Iowa, and a notice of affilia-

tion sent to the president, Mrs. Walter S. Brown, 2141 West Grand Avenue, Des Moines.

For further information concerning the organization of Parents' or Mothers' Clubs, or Child Study Circles, address Edith Payne-Parsons, Extension Secretary, 827 Seventh Street, Des Moines, Iowa.

The Free Traveling Library.

If you do not have access to a local public library your club or circle can, through your officers, enter into an agreement directly with the Library Commission for the loan of a library of fifty books, to be exchanged at stated periods by subscribing to the following agreement:

Organization Agreement for Traveling Library.

....., Iowa,, 190....

We, the officers, in behalf of.....Circle, affiliated with the Iowa Congress of Mothers, hereby apply to the Iowa Library Commission for the loan of books from the Free Traveling Library.

We hereby agree to pay the expenses of transportation of these books from and to Des Moines, and to provide a suitable place for them; that the books shall be loaned without charge; that we will return the books promptly upon request and be responsible for their safe return in good condition, paying promptly on demand of the Library Commission all loss or damage to books or cases not occasioned by ordinary wear or use.

.....is designated as librarian, and is authorized to represent this organization in all correspondence and dealings with the Library Commission.

Signature.....
President.

.....
Secretary.

All communications regarding the Traveling Library should be addressed to Iowa Library Commission, Traveling Library Department, Des Moines, Iowa.

ALICE S. TYLER,
Secretary, Des Moines.

I commend to county and city superintendents and village principals the object set forth in this circular, believing it a most important educational movement.

JOHN F. RIGGS,
Superintendent of Public Instruction.

January 14, 1907.

IOWA MAPS—RENEWALS.

Circular No. 3—1907.

To County Superintendents:

Your attention is called to the following:

1. **Iowa Maps.** The Thirty-first General Assembly passed a law directing the Board of Railroad Commissioners to provide each school room in the State with a copy of the official map of Iowa. Maps for your county were sent to your office during the summer of 1906. It was thought that most of these would be distributed by the county superintendents while on their tours of visitation. Since the process is slow it is suggested that you notify the secretary of each district not yet supplied that the maps are in your office and that they will be delivered to properly authorized persons calling for them. This course is made necessary from the fact that letters in great number are being received from districts that have not been supplied with maps to which they are entitled.

I strongly urge that you complete the distribution as soon as possible. Please fill out the enclosed card and mail it to this office at once.

2. **Renewals—Second Grade Certificates.** The following directions in connection with Paragraph (c) Section 10, "Renewal of County Certificates," of Circular No. 1, is given for your guidance in filing renewal papers of teachers with second grade certificates but whose cases are of such exceptional nature as to require special consideration. The Board has made no change or modification in the Rules Governing Renewals; but in the application of Rule (d), page 8 (which applies to second grade certificates only), long experience and superior credentials may very properly be accepted in lieu of examination in one or two subjects that are very near but not quite the 90 per cent mark as required by Rule (d) while all the other subjects are 90 per cent or above.

This ruling will also apply to teachers whose certificates bear marking in one, two or three of the first grade certificate subjects in addition to the ten second grade subjects. A general announcement of the foregoing is not advised as there will be few such cases in a county and you can deal with them as individuals since every case of renewal must in any event have your personal and critical attention. Where, in your judgment, a teacher deserves special consideration you should state at the bottom of Form B or in a typewritten note attached thereto the reasons why you consider the case sufficiently exceptional to warrant a modification of Rule (d) within the limits stated.

In this connection let me urge that you re-assure old and successful teachers who must write a part or all of the examination. There has been within the past few months so much ill advised newspaper comment about the rigidity of the examinations under the new order

that there is danger of many worthy teachers failing "through fear of failure." Let your teachers know before they write the examination the lowest grade they may receive in a subject and still secure a certificate. (See minimum markings, page 9, Rules Governing Examination.) Also, call attention of your teachers to Rule 12 of Rules Governing Examinations.

3. **Renewals—First Grade.** Teachers holding first grade certificates prior to October 1, 1905, and who secured two year certificates between that date and October 1, 1906, should not apply for renewals earlier than sixty days before the date the new certificate will be required. All applications for renewals made prior to August 1, 1907, will be disposed of before September 1, 1907. We can not hold in this office renewal papers where the certificate is not wanted before 1908.

JOHN F. RIGGS,

Superintendent of Public Instruction.

January 23, 1907.

LIBRARIES—TUITION.

Circular No. 4—1907.

To County Superintendents:

1. **The Rural Library.** The rural library law (Chapter 110, Laws of the Twenty-eighth General Assembly) makes it mandatory upon the treasurer of every RURAL school corporation on the third Monday in September to set aside not less than five cents for each person of school age, but it is left to the discretion of the Board to increase this amount to fifteen cents for each person of school age.

It further requires the county superintendent, together with the president and secretary of each Rural Board, between that date and December 1st, to expend the money so set aside in the purchase of library books.

It is now reasonably certain that the courts will enforce this law, although no case has been carried to the Supreme Court. The cases that have come before different District Courts have all been decided in favor of the law. We cite but two of which we have official information: State of Iowa by N. Willett, County Attorney, vs. O. T. Lommen, Treasurer of Rural Independent District No. 5, Military Township, Winneshiek County, May Term of District Court, 1905; and the case of State of Iowa vs. Rural Independent District No. 3, Eden Township, Benton County, December Term of District Court, 1904.

If any of your rural corporations have not complied with the law this year, we suggest that you spare no effort to secure a compliance with it before June 30, 1907. The law is mandatory but not retroactive.

The present board may be compelled to purchase for this year, but the board which will organize July 1, 1907, may not be compelled to purchase for the year ending June 30 preceding. It is, therefore, essential that compliance be secured before the close of the school year.

2. THE SCHOOL LIBRARY—SECRETARY'S REPORT.

This year, as last, the secretary of each corporation, whether rural or city, town or village, will make a library report. Much trouble and annoyance may be avoided if the secretaries and treasurers will keep accurate records. The secretary will be asked to report (a) the number of books purchased and (b) the amount expended from (1) the teachers' fund; (2) the schoolhouse fund, and (3) the contingent fund; also the amount raised and the number of volumes purchased by voluntary effort.

All purchases under the rural library law must be paid from the teachers' fund; section 2749 authorizes the electors to vote school house tax for the purchase of library books; and section 2783 authorizes the board to expend from the contingent fund not to exceed \$25 in any one year for each school room in the purchase of books or apparatus. Purchase cannot be made from the schoolhouse fund unless authorized by the electors.

Section 2762 requires that every warrant shall show the fund upon which it is drawn. It is essential that this requirement be complied with strictly. If it is it will not be difficult for either the secretary or the treasurer to determine the correct amount expended from each fund.

3. TREASURER'S REPORT.

The treasurer also, will report the amount expended from each fund for library books and the amounts reported by him must agree with the amounts reported by the secretary.

4. NON-RESIDENT PUPILS AND TUITION—SECRETARY'S REPORT.

This year, as last, all secretaries will report (1) the number of non-resident pupils enrolled during the year and (2) the amount of tuition paid by them (a) below the ninth grade and (b) in ninth grade and above.

The secretary should have an account with each non-resident pupil in attendance and all collections should pass through his hands before being paid to the treasurer. This will enable him to keep a correct cash account as contemplated by the law—one by which to check the treasurer's books. All collections made on or before June 30, 1907, should be paid to the treasurer and by him included in his report. The secretary should include in his tuition report only cash actually paid to the treasurer on or before June 30, and by that officer included in his report. Cash in the hands of the secretary and not included in the treasurer's report should be held over and reported for the year beginning July 1, 1907.

5. TREASURER'S REPORT.

Each treasurer will also report the amount of tuition paid into the teachers' fund which amount should agree with that reported by the secretary.

6. A SUGGESTION.

A little care on the part of these officers as the transactions are made will save much annoyance and extra labor for them, for you and for us. We would suggest that you call their attention to the necessity and advantage of carefully kept records as an aid to correct reports, and if necessary lend them such aid as they desire or as you think necessary.

7. CONDITION OF SCHOOLHOUSES AND SHADE TREES.

You will be asked to report the number of school buildings (a) poor; (b) fair; (c) good, and also the number of PLANTED trees in thrifty condition on school sites. It will aid you materially if while visiting schools you take note of these things and make a record of them. There are many other things that should receive your attention while calling on schools but we mention these because it will aid you directly in the preparation of your forthcoming annual report for which full directions and all necessary blanks will be sent you in due time.

Very truly yours,

JOHN F. RIGGS,

Superintendent Public Instruction.

January 28, 1907.

Sub-District Meeting—Circular No. 5.

To the Director of the Subdistrict:

sire to call your attention to the statutory provisions governing this meeting and urge you to do all in your power to so notify the electors that all questions that may come before the meeting may be legally presented.

JOHN F. RIGGS,

Superintendent Public Instruction.

February 14, 1907.

1. No Change in Times For Meetings of Electors. The amendments to the school law passed by the Thirty-first General Assembly made no change as to the times for the regular meetings of the voters. As formerly the subdistrict meeting will be held on the first monday and the township meeting on the second Monday in March.

2. Subdistrict Meeting Date. The meeting of the voters of the subdistrict shall be held on the first Monday in March. (Section 2751.)

3. Notice. At least five days' notice shall be given by posting in

at least three places in the district. (Section 2751.) If a special school-house tax is to be voted on the property of the subdistrict, ten days' notice must be given. (Section 2753.)

4. **By Whom Posted.** Notices for the regular subdistrict meeting shall be posted by the director. If there is no director they shall be posted by the secretary of the board. (Section 2751.)

5. **Hour of Beginning.** The subdistrict meeting shall not organize earlier than nine o'clock a. m. (Section 2751.)

6. **Hour of Closing.** The subdistrict meeting shall not adjourn earlier than twelve o'clock m. (Section 2751.)

7. **Duration of Meeting.** The polls shall remain open at least two hours. (Section 2754.)

8. **Organization and Conducting.**

I. Call the meeting to order. Any qualified voter can do this.

II. Judges. Elect a chairman and secretary from among the voters present. (Section 2751.)

III. Polls Open. Chairman shall declare the polls open for the purpose of electing a director for the subdistrict and for such other business as may come before the meeting, stating each proposition.

IV. Closing. When the hour for closing arrives the chairman should declare the polls closed and the judges of election should then proceed to canvass the vote.

V. Declaring the Result. The chairman and secretary as judges of election will certify the result to the secretary of the school township and issue to the successful candidate for the office of director a certificate of election.

9. **Judges May Vote.** The chairman and secretary of the sub-district meeting may vote the same as other electors. (Note 8, Section 2751.)

10. **Judges Not to Qualify.** The chairman and the secretary of the subdistrict meeting are not required to qualify. (Note 7, Section 2751.)

11. **Tie Vote.** A tie vote shall be publicly determined by lot forthwith, before adjournment, under the direction of the judges. (Section 2754.)

12. **By Ballot.** The subdirector shall be chosen by ballot. (Section 2751.) All propositions coming before the meeting shall be voted upon by ballot.

13. **Caucus.** An informal ballot or caucus can be no part of the subdistrict meeting. If it is desired to select candidates this must be done before the organization of the district meeting. But one lawful ballot may be cast or one vote taken. (Note 13, Section 2751.)

14. **Who May Vote.** To have the right to vote at the annual subdistrict meeting one must have the same qualifications as for voting at the general election and must at the same time be a resident of the subdistrict. (Section 2744.)

15. Qualifications of Electors. To be entitled to the right of suffrage, a person must be (1) a male, (2) a citizen of the United States, (3) at least twenty-one years of age, (4) a resident of the State six months next preceding the election, (5) of the county sixty days. (Constitution, Article 2, Section 1. 69 Iowa, 368, and 75 Iowa, 220. See Note 1, Section 2747, School Laws 1902.) Foreign born citizens must have completed naturalization to be eligible to vote.

16. Citizenship. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the State wherein they reside. (Constitution of United States, Amendment XIV.)

17. Who May Be a Director. A director may be of either sex, and must at the time of election or appointment, be a citizen and a resident of the corporation and over twenty-one years old, and if a male, he must be a qualified voter of the corporation. (Section 2748.)

18. Vacancies. Vacancies may be created in the office of director of a subdistrict by (1) death, (2) resignation, (3) accepting the office of secretary or treasurer, (4) removal from the subdistrict, (5) failure of one who might hold over to qualify. (Section 1266, 2757.)

19. Vacancies; How Filled. Vacancies are filled (1) by the board of directors until the next election, and (2) by the electors for the remainder of the term. If a vacancy exists for your subdistrict or one has been filled by the board prior to this meeting, some one should be chosen to serve out the remainder of the term from the date of the subdistrict meeting until July 1, 1907. (Section 2758, 2771.) This should be done at the same time that the director for the term commencing July 1 is chosen and on the same ballots. One candidate should be designated as "director for the term commencing July, 1907," and the other as "director to fill vacancy." One person may be candidate "to fill vacancy" and at the same time a candidate for the "term beginning July 1."

20. Term. The term of the director elected at the subdistrict meeting begins July 1 following the date of election and continues for one year. One elected to fill a vacancy assumes the duties of his office as soon as he qualifies.

21. Failure to Elect; Hold-Over. In case of the failure of a subdistrict to elect a director at the regular meeting, the director in office on June 30 may hold over by re-qualifying within ten days. Or if a director-elect fails to qualify by the close of July 1st, unless he is his own successor, the old director may hold over by re-qualifying within ten days.

22. When to Qualify. The person elected director for the term which commences July 1 has until the close of that day in which to qualify. (Section 2758.) A person elected or appointed to fill a vacancy has ten days from the date of his election or appointment. (Section 1275.) A director who holds over has ten days from the date of the organization of the board.

23. Powers of Electors at Subdistrict Meetings.

I. To elect a chairman and secretary. (Section 2751.)

II. To elect a director for the subdistrict. (Section 2751.)

III. To vote additional schoolhouse tax on the subdistrict. (Section 2753.)

24. Limit of Special Tax. The amount of the special tax voted at the subdistrict meeting and the schoolhouse tax voted by the school township shall not exceed fifteen mills on the dollar. (Section 2753.)

25. Special Tax Certified. The secretary of the subdistrict meeting shall immediately certify to the secretary of the school township a special tax voted by the electors of the subdistrict. (Section 2753.)

26. Vote of Subdistrict Is Not Notice. A vote of the electors at a subdistrict meeting is not legal notice that such proposition will come before the electors at the school township meeting as contemplated in Sections 2746, 2749 and 2755.

ANNUAL MEETING.**Circular No. 6—1907.**

To the Secretary of the Board:

As the time for the annual meeting of the electors of the school corporation draws near, we wish to call your attention to the statutory provisions concerning this meeting and urge you to do all in your power to so notify the electors that all propositions which the board, or the electors by petition, desire presented, may legally come before the meeting.

JOHN F. RIGGS,

Superintendent Public Instruction.

February 14, 1907.

1. No Change In Time For Meeting of Electors. The amendments to the school law passed by the Thirty-first General Assembly made no change as to the times for the regular meetings of the voters. As heretofore the annual meeting of the voters will be held on the second Monday in March.

2. Annual Meeting; Date. The annual meeting of the voters of the corporation shall be held on the second Monday in March. (Section 2746.)

3. Notice. It is mandatory upon the secretary to post notices for the annual meeting in at least five public places not less than ten days before the date of the meeting. (Section 2746.) For corporations of 5,000 or more inhabitants a notice shall be posted in each precinct and published in a newspaper once each week for at least two weeks. (Section 2755.)

4. Importance of Notice. It is of the greatest importance that notice be given as indicated in paragraph 3 above and as required by Sections 2746 and 2755 since the Supreme Court has held that none of the powers enumerated in Section 2749 may be exercised by the voters unless proper notice has been given. (188 Iowa, 207.)

5. Secretary Must Be Directed to Post Notices. The secretary may not give notice of any proposition unless directed to do so by the board. (Supreme Court of Iowa in case of McNees et al. vs. School Township of East River, Page County. Opinion January 18, 1907.)

6. Board May Direct. Unless petitioned it is discretionary with the board of directors whether notice be given that a proposition will be submitted. (Section 2749.)

7. When Notice Is Mandatory. When petitioned as provided in Section 2749 it is mandatory upon the board to provide for submitting any proposition included in the petition. Since ten days' notice is required it is necessary that petitions should be filed with the board more than ten days before the meeting to enable it to act.

8. Hour of Beginning. In school corporations of five thousand or more inhabitants the polls shall open at 9:00 a. m. (Section 2756.) In all other corporations the polls shall open at 1:00 p. m. (Section 2754.)

9. Duration of Meeting. In school corporations having five thousand or more inhabitants the polls shall remain open from 9:00 a. m. to 7:00 p. m. (Section 2756.) In independent city or town districts not included in above class they shall remain open at least five hours. (Section 2754.) In rural independent districts and school townships they shall remain open at least two hours. (Section 2754.)

10. Organization of Meeting. The president and secretary of the board, with one of the directors, shall act as judges of election. In the absence of any of these officers, the electors present shall fill the vacancy from their number. (Section 2746.) For corporations of five thousand or more the board shall select one of its members and two voters of the precinct as judges of election. (Section 2756.)

11. Director; Election Of. In all independent school corporations directors shall be chosen at this meeting. (Section 2746.) If a vacancy exists, or if one has been filled by the board prior to this meeting, the electors in addition to choosing a director for the regular term should also elect persons to fill the vacancies. (Section 2771.) The ballot should designate whether the person is a candidate for the full term or to fill vacancy.

12. School Township—Directors—Elected at Large. School townships having an even number of districts elect a director-at-large at the annual meeting. Those not divided into subdistricts elect three directors at the annual meeting. (Section 2752.)

designate his choice by writing the word "yes" or "no" in an appropriate place on the ballot. (Section 2749.)

28. Organization of Boards. The board of school townships, rural independent districts and independent district townships, will organize July 1, 1907. The present board will continue to act until that date. The terms of directors of rural independent districts which would have expired on the 3d Monday in March, had there been no change in the law, are extended to July 1, 1907, by Chapter 137, Laws of the Thirty-first General Assembly. If such directors desire to serve during the extension it will be necessary for them to requalify within ten days from the third Monday in March.

The boards of independent city, town, and village corporations will organize on the third Monday of March as usual.

Persons elected to fill vacancies on any board will assume the duties of their office as soon as they qualify.

29. Treasurer. In independent city and town corporations a treasurer shall be chosen at the same time and in the same manner that directors are chosen. The term of office begins July 1 following the election and continues two years. The term of any treasurer of an independent city or town corporation which would have expired on the third Monday of March, had there been no change in the law, is extended to July 1, 1907. If any such treasurer desires to serve during the extension it will be necessary for him to requalify for it.

30. Financial Statement. It is the duty of the board to exhibit at the annual meeting, by posting, a statement of the receipts and expenditures since the last annual meeting. In independent city or town corporations the statement may be published two weeks before the annual meeting by one insertion in one or more papers published in the corporation. (Section 2780, 2781.)

ORGANIZATION OF BOARDS.

Circular No. 7—1907.

To the Board of Directors of Independent City, Town and Village Corporations:

As the time for the organization of the boards of directors of independent city, town and village districts is approaching, we desire to submit the following suggestions and references to the school law to clear up any misunderstanding that may exist and to aid you to comply fully with the law.

Very truly yours,

JOHN F. RIGGS,
Superintendent Public Instruction.

ORGANIZATION AND POWERS OF BOARD.

Organization, Date. School boards of independent city, town and village districts shall organize on the third Monday in March. (Section 2757 as amended by Section 3, Chapter 136, Laws of the Thirty-first General Assembly.) The time for the organization of boards of school townships and rural independent districts is by the same act changed to July 1st.

Independent City, Town and Village Corporations—What Constitutes. An independent district containing all or part of a city, town or village (of 100 inhabitants or more) constitutes an independent city, town or village corporation. Such corporations containing or contained in a city of the first class, or a city under special charter, shall have seven members to constitute the board. Other independent city, town or village corporations shall have five members. (Section 2754.)

Organization—How Effected. The organization may be effected by electing a president. (Section 2757.)

President a Member. The president shall be a member of the board. (Section 2757.)

President May Vote. The president has the same right to vote that any member has. (Section 2757.)

Directors Qualify. Each person shall upon assuming his duties as director qualify as such. (Section 2758.) So also, the member chosen as president shall qualify as such. (Constitution, Article 11, Section 5.)

Who May Administer. A director may administer the oath to a director-elect. (Section 2758.) For other officers who may administer the oath, see Section 393 of the Code.

Secretary May Not Administer. The secretary is not authorized to administer the oath to a director-elect or to a president-elect. (101 Iowa, 382.)

When May Directors Qualify. A director-elect has until the close of the third Monday in March in which to qualify. (Section 2758.) One who holds over has ten days from the third Monday in March. (Code, Section 1275.) One appointed to fill a vacancy on the board has ten days from the date of appointment in which to qualify anew. (Code, Section 1265.)

Hold Over. If a director fails to qualify by the close of the third Monday in March, if he is not his own successor, his predecessor may hold over by qualifying anew. (Code, Section 1265.)

Vacancies—How Created. 1. By death. 2. By resignation. 3. By failure of director-elect, who was chosen to succeed himself, to qualify by the close of the third Monday in March. 4. By failure of one who might hold over to qualify within ten days from the third Monday in

March. 5. By failure of one appointed to fill a vacancy to qualify within ten days from such appointment.

Vacancies—How Filled. Vacancies shall be filled by the board, until the next annual meeting of the electors. (Section 2758.)

Vacancies Not Anticipated. The board may not anticipate a vacancy. Appointments may not be made until the vacancy occurs. (Section 2758.)

By Ballot. All officers of the board and all persons appointed to fill vacancies shall be chosen by ballot. (Sections 2757 and 2771.)

Quorum. A majority of the board constitutes a quorum and may transact business. (Section 2771.) A minority may not transact business, but may arrange for an adjourned meeting of the board. (Section 2771.)

No Quorum at March Meeting. In case there is not a quorum at the regular March meeting, the minority present should affect a temporary organization by choosing a temporary president (Section 2772) and should fix a date and place for an adjourned meeting, at which time a permanent organization may be effected. (Section 2771.)

School Taxes; by Whom Estimated. Schoolhouse taxes for the erection, repair of schoolhouses or the purchase of roads to and from a school site, or the payment of debts contracted therefor, shall be voted by the electors. (Section 2749.)

All other school taxes shall be estimated by the board. (Sections 2806 and 2813.)

When Estimated. The board shall estimate the amounts necessary for the teachers' fund, the contingent fund and for schoolhouse fund to pay on bonds and interest, at the annual meeting JULY 1st, or at a special meeting called for that purpose between that time and the third Monday in August. The board may estimate NO TAXES before July 1st. (Section 2806 as amended by Section 14, Chapter 136, Acts of 31st General Assembly.)

Treasurer. In independent city and town corporations the treasurer elected on the second Monday in March will assume the duties of his office JULY 1st. The treasurer whose term would have expired on the third Monday in March had there been no change in the law may continue to act until JULY 1st, but it will be necessary for him to requalify and give bond for the extension of his term. (Section 2754 as amended by Section 2, Chapter 136, Laws of 31st General Assembly.)

Election of Teachers. As soon as organized, the new board may elect teachers for the school year commencing the July 1st following, and to fill any vacancies occurring in the teaching force for the current year not provided for by the retiring board. (Section 2778.)

In General. The board may take any action authorized by law or clearly implied for the improvement of the schools of the corporation.

SCHOOL CENSUS.

Circular No. 9—1907.

After careful reading, preserve for future reference.

To the County Superintendent:

The time for taking the annual enumeration of persons of school age will soon be here. You, as County Superintendent, have supervision over the officers taking this census and reporting the same. We desire at this time to call your attention to some of the important matters connected therewith and to urge you to spare no effort to secure accurate and prompt reports.

THE SCHOOL CENSUS.

1. **Importance.** The enumeration is important, not merely because it is required by law nor because valuable information is obtained thereby, but because it furnishes the basis for the distribution of the semi-annual apportionment among the school corporations.

2. **By Whom Taken.** (a) **The Secretary's Duty.** Section 2764 as amended by the Thirty-first General Assembly makes it the duty of the secretary to compile a list of the heads of families and of the name, age and sex of every person between the ages of five and twenty-one years residing in the corporation.

(b) **The Duty of the Director of the Subdistrict.** Section 2785 as amended by the Thirty-first General Assembly requires the director of each subdistrict to make a list of the heads of families and of the name, age and sex of each person of school age residing in his subdistrict.

3. **When Taken.** The enumeration shall be taken as of the first day of June. The director of the subdistrict shall take the enumeration if his district between the first and fifteenth days of June (Section 2785 as amended by Thirty-first General Assembly.)

The secretary must complete the enumeration for the corporation between the first day of June and the first day of July. (Section 2764 as amended by the Thirty-first General Assembly.) In no case shall the enumeration be taken before the first day of June nor after the first day of July.

4. **When and to Whom Report.** (a) The director of the subdistrict must report to the secretary of the school township on or before June 20. (Section 2785 as amended by the Thirty-first General Assembly.)

(b) The secretary must report the enumeration of the corporation to the board of directors at the time of the annual settlement, July 1, and to the County Superintendent not later than July 6. (Section 2765 as amended by the Thirty-first General Assembly.)

(c) The County Superintendent shall compile the reports of the secretaries and file his report with both the Superintendent of Public Instruction and the County Auditor not later than the last Tuesday in August. (Section 2739 as amended by the Thirty-first General Assembly.)

5. Whom to Include in the Enumeration. The enumeration must include all persons of the ages of five to twenty-one residing in the corporation on the first day of June. This will include persons of school age who are temporarily absent to attend school or to work. Married persons, if of school age, are to be included also, and children in charitable or reformatory institution whose parents or guardians reside in the corporation are to be enumerated.

6. Seven to Fourteen. When taking the enumeration of persons of the ages of five to twenty-one years, it is the duty of the director of the subdistrict or the secretary of the school corporation to ascertain the following additional information:

(a) The number of persons of the ages of seven to fourteen years inclusive.

(b) The number of persons of the ages of seven to fourteen who have not attended school sixteen weeks during the school year ending June 30, 1907. (See Section 2823-i, Supplement to the Code, or Section 9, Chapter 128, Twenty-ninth General Assembly.)

7. Seven to Fourteen Years Inclusive—Meaning. "The language of the section 'to fourteen years' can not be construed to extend beyond the time when the child becomes fourteen years of age. The word 'inclusive,' following, clearly applies to the time intervening between the ages of seven and fourteen."—Atty. Gen. Rep., 1904, page 95.

8. Communicate With School Officers. It is suggested that you communicate in person or by circular with every officer whose duty it is to take or assist in taking the enumeration. Make clear to them in a tactful way the requirements of the law and the necessity and advantage of correct and prompt reports.

9. Blanks. The secretary of each corporation should have a book for keeping a permanent record of the enumeration. The work of taking the enumeration may be upon temporary blanks and the data later transferred to the permanent record.

We would suggest that you place in the hands of the director of each subdistrict and of those secretaries who may need them, the blanks necessary for securing the data for the enumeration. These blanks should be such as to enable these officers to secure the names of the heads of families, together with the name, age and sex of each person of school age; also the number of persons of the ages of seven to fourteen, and the number of the age of seven to fourteen who did not attend school sixteen weeks as provided in the compulsory attendance law. In each case pro-

vision should be made for keeping the data for males and that for females separate.

These blanks should be placed in the hands of the proper officers sometime during the last week of May. It is not well to send them out so early that many will lose them, but every officer should have his blanks on the first day of June.

10. Accuracy. Impress upon your officers the imperevative need of accuracy, which can be secured only by careful, painstaking effort. Remind them that every person eligible to enumeration omitted from their report reduces the amount justly belonging to the corporation. On the other hand, everyone included who was not eligible tends to destroy the legal and just ratio of distribution and cheats every other corporation of its just portion of the school fund.

11. Promptness. The process of taking the annual enumeration is a great system wherein each one has a duty, the performance of which affects the work of every other and the result as a whole. When each does his part promptly and carefully, the work moves along pleasantly and with dispatch, and reliable data and accurate reports are obtained. On the other hand, if the director of the subdistrict is careless and dilatory, it becomes more difficult, often impossible, for the secretary to report promptly and accurately to the County Superintendent. If the secretary neglects or slights his work, the County Superintendent finds himself embarrassed because unable to file with the Superintendent of Public Instruction a prompt and accurate report.

12. In Conclusion. Last year we prepared circulars for distribution among those officers who take or assist in taking the school census. We shall not do so this year, believing that you with your acquaintance with the officers and the local conditions, can more successfully take personal charge of the enumeration.

We urge you to watch with care the progress of this enumeration, and indeed the preparation of all reports to be sent you, and to lend any possible assistance to your officers because of the importance of correct reports and because the ease or difficulty with which you will prepare your report will depend upon how well those who report to you have performed their work.

Blanks for the annual reports of the secretaries and treasurers will be sent you about June 10.

Yours truly,

JOHN F. RIGGS,

Superintendent Public Instruction.

May 10, 1907.

(c) The County Superintendent shall compile the reports of the secretaries and clerks' report with both the Superintendent of Public Instruction and the County Auditor not later than the last Tuesday in August. Section 177 is amended by the Thirty-first General Assembly.

5. **Whom to Include in the Enumeration.** The enumeration must include all persons of the ages of five to twenty-one residing in the corporation on the first day of June. This will include persons of school age who are temporarily absent to attend school or to work. Married persons, if of school age, are to be included also, and children in charitable or reformatory institutions whose parents or guardians reside in the corporation are to be enumerated.

6. **Seven to Fourteen.** When taking the enumeration of persons of the ages of five to twenty-one years, it is the duty of the director of the subdistrict or the secretary of the school corporation to ascertain the following additional information:

(a) The number of persons of the ages of seven to fourteen years inclusive.

(b) The number of persons of the ages of seven to fourteen who have not attended school sixteen weeks during the school year ending June 30, 1917. See Section 1833-4, Supplement to the Code, or Section 9, Chapter 128, Twenty-ninth General Assembly.)

7. **Seven to Fourteen Years Inclusive—Meaning.** "The language of the section 'to fourteen years' can not be construed to extend beyond the time when the child becomes fourteen years of age. The word 'inclusive' following, clearly applies to the time intervening between the ages of seven and fourteen."—Atty. Gen. Rep., 1904, page 95.

8. **Communicate With School Officers.** It is suggested that you communicate in person or by circular with every officer whose duty it is to take or assist in taking the enumeration. Make clear to them in a tactful way the requirements of the law and the necessity and advantage of correct and prompt reports.

9. **Blanks.** The secretary of each corporation should have a book for keeping a permanent record of the enumeration. The work of taking the enumeration may be upon temporary blanks and the data later transferred to the permanent record.

We would suggest that you place in the hands of the director of each subdistrict and of those secretaries who may need them, the blanks necessary for securing the data for the enumeration. These blanks should be such as to enable these officers to secure the names of the heads of families, together with the name, age and sex of each person of school age; also the number of persons of the ages of seven to fourteen, and the number of the age of seven to fourteen who did not attend school sixteen weeks as provided in the compulsory attendance law. In each case pro-

vision should be made for keeping the data for males and that for females separate.

These blanks should be placed in the hands of the proper officers sometime during the last week of May. It is not well to send them out so early that many will lose them, but every officer should have his blanks on the first day of June.

10. Accuracy. Impress upon your officers the imperevative need of accuracy, which can be secured only by careful, painstaking effort. Remind them that every person eligible to enumeration omitted from their report reduces the amount justly belonging to the corporation. On the other hand, everyone included who was not eligible tends to destroy the legal and just ratio of distribution and cheats every other corporation of its just portion of the school fund.

11. Promptness. The process of taking the annual enumeration is a great system wherein each one has a duty, the performance of which affects the work of every other and the result as a whole. When each does his part promptly and carefully, the work moves along pleasantly and with dispatch, and reliable data and accurate reports are obtained. On the other hand, if the director of the subdistrict is careless and dilatory, it becomes more difficult, often impossible, for the secretary to report promptly and accurately to the County Superintendent. If the secretary neglects or slights his work, the County Superintendent finds himself embarrassed because unable to file with the Superintendent of Public Instruction a prompt and accurate report.

12. In Conclusion. Last year we prepared circulars for distribution among those officers who take or assist in taking the school census. We shall not do so this year, believing that you with your acquaintance with the officers and the local conditions, can more successfully take personal charge of the enumeration.

We urge you to watch with care the progress of this enumeration, and indeed the preparation of all reports to be sent you, and to lend any possible assistance to your officers because of the importance of correct reports and because the ease or difficulty with which you will prepare your report will depend upon how well those who report to you have performed their work.

Blanks for the annual reports of the secretaries and treasurers will be sent you about June 10.

Yours truly,

JOHN F. RIGGS,

Superintendent Public Instruction.

May 10, 1907.

(c) The County Superintendent shall compile the reports of the secretaries and file his report with both the Superintendent of Public Instruction and the County Auditor not later than the last Tuesday in August. (Section 2739 as amended by the Thirty-first General Assembly.)

5. Whom to Include in the Enumeration. The enumeration must include all persons of the ages of five to twenty-one residing in the corporation on the first day of June. This will include persons of school age who are temporarily absent to attend school or to work. Married persons, if of school age, are to be included also, and children in charitable or reformatory institution whose parents or guardians reside in the corporation are to be enumerated.

6. Seven to Fourteen. When taking the enumeration of persons of the ages of five to twenty-one years, it is the duty of the director of the subdistrict or the secretary of the school corporation to ascertain the following additional information:

(a) The number of persons of the ages of seven to fourteen years inclusive.

(b) The number of persons of the ages of seven to fourteen who have not attended school sixteen weeks during the school year ending June 30, 1907. (See Section 2823-i, Supplement to the Code, or Section 9, Chapter 128, Twenty-ninth General Assembly.)

7. Seven to Fourteen Years Inclusive—Meaning. "The language of the section 'to fourteen years' can not be construed to extend beyond the time when the child becomes fourteen years of age. The word 'inclusive,' following, clearly applies to the time intervening between the ages of seven and fourteen."—Atty. Gen. Rep., 1904, page 95.

8. Communicate With School Officers. It is suggested that you communicate in person or by circular with every officer whose duty it is to take or assist in taking the enumeration. Make clear to them in a tactful way the requirements of the law and the necessity and advantage of correct and prompt reports.

9. Blanks. The secretary of each corporation should have a book for keeping a permanent record of the enumeration. The work of taking the enumeration may be upon temporary blanks and the data later transferred to the permanent record.

We would suggest that you place in the hands of the director of each subdistrict and of those secretaries who may need them, the blanks necessary for securing the data for the enumeration. These blanks should be such as to enable these officers to secure the names of the heads of families, together with the name, age and sex of each person of school age; also the number of persons of the ages of seven to fourteen, and the number of the age of seven to fourteen who did not attend school sixteen weeks as provided in the compulsory attendance law. In each case pro-

vision should be made for keeping the data for males and that for females separate.

These blanks should be placed in the hands of the proper officers sometime during the last week of May. It is not well to send them out so early that many will lose them, but every officer should have his blanks on the first day of June.

10. Accuracy. Impress upon your officers the imperevative need of accuracy, which can be secured only by careful, painstaking effort. Remind them that every person eligible to enumeration omitted from their report reduces the amount justly belonging to the corporation. On the other hand, everyone included who was not eligible tends to destroy the legal and just ratio of distribution and cheats every other corporation of its just portion of the school fund.

11. Promptness. The process of taking the annual enumeration is a great system wherein each one has a duty, the performance of which affects the work of every other and the result as a whole. When each does his part promptly and carefully, the work moves along pleasantly and with dispatch, and reliable data and accurate reports are obtained. On the other hand, if the director of the subdistrict is careless and dilatory, it becomes more difficult, often impossible, for the secretary to report promptly and accurately to the County Superintendent. If the secretary neglects or slights his work, the County Superintendent finds himself embarrassed because unable to file with the Superintendent of Public Instruction a prompt and accurate report.

12. In Conclusion. Last year we prepared circulars for distribution among those officers who take or assist in taking the school census. We shall not do so this year, believing that you with your acquaintance with the officers and the local conditions, can more successfully take personal charge of the enumeration.

Blanks for the annual reports of the secretaries and treasurers will be sent you about June 10.

Yours truly,
JOHN F. RIGGS,
Superintendent Public Instruction.

May 10, 1907.

REPORT OF THE RENEWAL OF SECOND GRADE CERTIFICATES.

Circular No. 10—1907.

TO THE COUNTY SUPERINTENDENT:

At the recent meeting of the Educational Board of Examiners, it was decided to classify under Rule 3, Page 8 of the **Rules Governing the Renewal of County Certificates**, all Second Grade certificates held by teachers who have been continuously engaged in teaching for the past five years. No examination will be required of such teachers; provided, that in each case the credentials are strong and a satisfactory theme paper is presented, as is required in all cases of renewal.

"Continuous teaching for the past five years" means at least six months' teaching in each year since July 1, 1902. The board made no other extension or modification of the printed rules governing the issuance of uniform county certificates.

County Superintendents are asked to carefully examine any reports on renewal papers submitted from this office and to correct such reports in so far as an examination in one or more subjects is indicated as due from any teacher now exempted from all examination by the recent action of the board as set forth in this circular. Any corrections thus made must be at once reported to this office. Hereafter, in submitting the renewal papers of candidates claiming this exemption, the County Superintendent should make the following notation on the margin of the County Superintendent's statement blank: "Has taught continuously for past five years."

Very truly yours,

JOHN F. RIGGS,
President Board of Examiners.

May 15, 1907.

REPORT OF SECRETARY AND TREASURER.

Circular No. 11—1907.

TO THE COUNTY SUPERINTENDENT:

We are sending you by prepaid express a supply of blanks for the annual report of the secretaries and treasurers of your county, and to counties having joint districts blanks for special report of enumeration in joint districts are included also. In this connection we desire to make some suggestions concerning the preparation of the blanks for distribution, their use, the gathering of the data, and to call your attention to the July meeting of the school boards.

1. Preparing Blanks for Distribution. (a) Treasurers' Blanks. Before sending out the treasurers' blanks the following data should be entered in red ink in the places provided for that purpose for each fund. (1) The amount "on hand July 1, 1906"; (2) the amount "received from district tax;" and (3) for the teachers' fund the amount "received from semi-annual apportionment".

(b) Secretaries' Blanks. No data is to be entered in the blanks for the secretary's annual report.

2. Where Data May Be Obtained. (a) The amount "on hand July 1, 1906" for each fund may be found in the right hand column of the report of your county for last year, a copy of which is on file in your office, under the heading "On Hand".

(b) The amount "received from district tax" for each fund and the amount of the semi-annual apportionment for the teachers' fund may be obtained from the county treasurer.

3. Why Give This Data. We believe it will require less time and labor to prepare the blanks in this way than to correct the errors resulting from a failure to do so. Whether you enter this data or not, it will be necessary for you to obtain all of this information in order to test the accuracy of the reports of your treasurers. If you give these officers this data, with which to compare their accounts, fewer mistakes will be made and hence less correspondence, annoyance and delay will be caused. In his connection we suggest that you request the treasurer to report to you on the blank in which you have entered the data.

4. Distributing Blanks. Two blanks for the annual report should be sent to each secretary and to each treasurer. One of these blanks when filled out and approved will be filed among the records of the corporation, and the other with you. These blanks should be sent out in time that these officers may have them ten days or two weeks before the date for the annual meeting of the board July 1, 1907.

5. Balances That Must Agree. The amount "on hand July 1, 1906," must be the same as the amount reported as "on hand" in the report of your county for last year as shown in the right hand column of the report for the different funds. It matters not what the true conditions may have been, the balance reported as "on hand" last year must be the balance "on hand July 1, 1906." **NEVER CHANGE A BALANCE OF LAST YEAR TO CORRECT A MISTAKE.**

6. Errors and Overdrafts—Correction of. Errors of last year and overdrafts of last year or this, must be corrected by entering the amount of the error or overdraft under the heading "received from other sources" or "paid for other purposes" as the case may require. For particular and definite directions concerning this, see Suggestion 16 on the back of the treasurers' report blanks.

7. Agreement of Reports. We desire to call your attention particularly to two points in which the reports of the secretary and the treasurer of a corporation must agree. If they do not, an error exists which must be located and corrected.

(a) **Tuition Received.** The secretary should report the tuition actually received and paid to the treasurer since the date of last report. The treasurer should place the amount "received from tuition" in the teachers' fund. His report should show all money received by him for tuition from July 1, 1906, to and including June 30, 1907. When both do this, their reports will agree in this respect.

Last year many secretaries reported tuition due but not collected. This made a disagreement between the reports of the secretary and the treasurer, the correction of which caused much correspondence and delay. See also suggestions on the blanks for the secretary and treasurer.

(b) **Library Report.** The secretaries of all corporations will make this report. The blanks both for the secretary and the treasurer provide for reporting the amount expended from each fund from July 1, 1906, to June 30, 1907; hence their reports, if correct, will agree. See also suggestions on the blanks for the secretary and treasurer.

8. Suggestions. On the back of the blanks for secretaries and treasurers will be found full directions for preparing the reports of those officers. It will also be noticed that with each heading on the ruled side of the blank will be found a number referring to the appropriate suggestion, so the officer may have no trouble in finding the particular information he may need when in doubt what to do.

9. Omit No Data. It is important that every item of information asked for be given. If the secretary fails to report on any item to you, it will be impossible for you to report fully to us. It then becomes necessary for us to correspond with you concerning the matter and in turn for you to call the attention of the officer to his omission. Impress upon your officers the importance of filling every blank, and should any fail to do so you should take the matter up with them as soon as their report is received.

10. School Building Bond Fund. Chapter 135, laws of the Thirty-first General Assembly amends section 2768 by providing that all funds "collected for the payment of school building bonds shall be known as the SCHOOL BUILDING BOND FUND." This makes it necessary for the first time for the treasurer of each school corporation to open an account with the School Building Bond Fund and to report to you concerning it the same as for other funds.

11. Indebtedness. There are no records in this office or elsewhere by which one may determine the financial condition of any school corporation. In order that our records may be more complete, we are

this year asking, for the first time, a report of the interest bearing liabilities of each corporation under the following heads: (1) Outstanding Bonds and (2) Outstanding Interest Bearing Warrants. It will be observed that under the second heading we desire only the amount of the warrants that have been presented to the treasurer and by him indorsed "not paid for want of funds." The giving of this data will add very little to the labor of the district treasurer and will be of great value.

12. When Officers Report. Both the secretary and the treasurer of each school corporation must report to the school board for settlement July 1 (See 15-(a) of this circular). Within five days (or not later than July 6) the secretary shall file with you a copy of his approved report, while the treasurer must file a copy of his approved report immediately after settlement. (Sections 2765 and 2767 as amended by the Thirty-first General Assembly.)

13. Correcting Approved Reports. Because the reports filed with you have been "approved" by the board does not release you from your duty to inspect them critically and to require the correction of any errors that may be found. Errors cannot "stand approved," but must be corrected. The sooner corrected the less the difficulty and annoyance.

14. Joint District. By a joint district we are to understand a school corporation having territory in two or more counties.

15. Jurisdiction Over Joint Districts. When an independent city, town or village corporation as provided in section 2794, is organized from territory lying in two or more counties, the board of the corporation in which the portion of the town plat having the largest number of voters is situated shall have charge of the organization of the corporation. This determines the county in which such corporations are officially located at the time of organization. The official location of consolidated independent districts organized under chapter 141, laws of the Thirty-first General Assembly, is determined in the same manner.

Other joint districts are formed by attaching territory of one county to a corporation in an adjoining county. No confusion arises from this because the location and jurisdiction of the corporation to which territory is attached is the location and jurisdiction of the corporation after the additions have been made.

The official location of corporations organized by the subdivision of independent districts as provided in section 2798 or by the uniting of independent districts as provided in section 2799 is determined by the residence of a majority of the electors at the time of organization.

The jurisdiction thus determined does not change. Under the former law it determined also the county superintendent who should issue certificates to its teachers. Under the present law it determines the county superintendent through whom certificates will be issued to its teachers and with whom their certificates shall be registered. It de-

reminds also the county superintendent to whom appeals from the action of the board must be taken.

14. To Whom Officers of Joint Districts Report. The extended explanation of the preceding paragraph is necessary because it is important to know to whom the officers of joint districts shall make their annual reports. Both the secretary and the treasurer are required to make a full report for the entire corporation to but one county superintendent, and that superintendent is the one having jurisdiction over his corporation as indicated in the preceding section.

If then you or your predecessor formerly issued certificates to the teachers of a joint district those teachers must register their certificates with you and the secretary and treasurer must file their annual reports for the corporation with you; likewise appeals from this district will come to you.

15. What the Secretary of a Joint District Should Report. In his annual report the secretary of a joint district should report to the county superintendent having jurisdiction over his corporation all of the data required by the secretary's blank. This data should be for the whole corporation, except in the three following items: (1) Number between five and twenty-one; (2) number seven to fourteen; and (3) number seven to fourteen who did not attend school sixteen weeks during the year ending June 30, 1907. For these three items his regular report should give those **only** who reside in the same county with the superintendent to whom the report is made. He should then report to the county superintendent of each county containing territory of the corporation the number (1) five to twenty- one; (2) seven to fourteen; and (3) seven to fourteen who did not attend school sixteen weeks during the year ending June 30, 1907, giving the number residing in each county separately. This will enable each county superintendent to report to us those residing in his county.

To enable the secretary to report these items to the several county superintendents we are sending blanks for a "Special Report of Joint District." On this blank he will report to you not only the number on the portion of his district in your county, but for the portions in the other counties also. As soon as you have received these reports enter the data in the larger blank for "Special Report of Joint Districts" and mail it to us.

16. Annual Meeting of Board. The regular meeting or the school board occurs on July 1, 1907. This is the only regular meeting for boards of school townships and rural independent districts and is the most important meeting of any board. Directors and the officers of the boards should know the date and the importance of the meeting.

17. Important Matters to be Considered. (a) **Annual Settlement.** The most important business of this meeting is the examination of the books of the secretary and the treasurer and the settlement with those

officers. This duty is mandatory upon the board and it is also mandatory upon the secretary and treasurer to have their books and reports ready for settlement that day.

In school townships and rural independent districts this should be done early in the day to give the new boards time in which to organize and transact the business before it the same day. (Sections 2757, 2765 and 2769 as amended by the 31st G. A.)

(b) **Election of Officers.** Every school board must elect a secretary at this meeting and the boards of independent village corporations, school townships and rural independent districts must elect a treasurer also. (Section 2757, as amended by the 31st G. A.) A truant officer also may be elected at this meeting. In corporations of 20,000 or more this is mandatory. (Section 5, Chapter 115, 29th G. A.)

(c) **Estimate Taxes.** The board shall estimate the amounts needed for the teachers' and contingent funds at this meeting or at a special meeting called for that purpose on or before the third Monday in August. No tax may be estimated by the board before July 1. (Section 2757, as amended by the 31st G. A.)

(d) **Library Fund.** The board may at this meeting determine the amount, above five cents and not exceeding fifteen cents for each person of school age, that the treasurer shall set aside on the third Monday in September for the purchase of library books as provided in Chapter 110, laws of the 28th G. A. This law directs the treasurer to set aside not less than five cents for each person of school age and authorizes the board to increase the amount to fifteen cents. We believe this law is now generally recognized as mandatory, although no case has ever been before the supreme court, the district courts in different parts of the state having uniformly so declared it.

(e) **Elect Teachers—General.** At this meeting the boards of independent city, town and village corporations, if they have not already done so, and the new boards of school townships and rural independent districts may elect teachers and make other arrangements for the school year beginning that day. Many questions may be acted upon at this meeting, but it is not deemed necessary to enumerate here more than the mandatory duties and those most essential.

20. In Conclusion. As with the school enumeration, we suggest that you do all you can to aid your officers to prepare correct reports and to file them with you promptly. Some of the suggestions made may, to you, seem simple and useless, but we assure you no suggestion is made that experience with school officers and in examining superintendents' reports has not proven necessary.

Blank books for your annual report to the superintendent of public instruction will be sent you about June 30.

Yours truly,
JOHN F. RIGGS.

Superintendent of Public Instruction.

June 5, 1907.

THE TEACHER SUPPLY AND RELATED TOPICS.

Circular No. 12—1907.

TO SCHOOL DIRECTORS.

THE TEACHER SUPPLY.

The selection of competent teachers is the most important and the most difficult duty a school board is called upon to perform. The duty would be more simple were the supply of competent teachers greater. But we have in Iowa many more public school positions than we have teachers of even ordinary qualifications. Some schools must, therefore, be closed or they must be filled by immature persons of very indifferent scholarship. In the past, the second alternative has been taken, for every well informed person knows that there are practically as many good teachers to be had this year as were to be had last year or the year before. That is to say, the number of competent persons leaving the profession is not greatly in excess of the number of competent persons entering the profession. It is doubtless true that in past years many persons carried certificates that were neither earned nor merited; hence the certificate could not always be relied upon to show the true standing of the teacher. But the complaints of poor and inefficient work that have come to the office of the Superintendent of Public Instruction within the past three years prove beyond question that inefficient teachers have been employed in some, often in many, of the schools of practically every county in the state.

Since positions in the graded schools are usually the more attractive ones to teachers, the boards controlling such schools have the chance to select the best teachers. They do not always do so, to be sure, but rural school boards are placed at a disadvantage, since a larger per cent of inexperienced and low grade teachers find employment in the country than are employed in graded schools.

There are two ways in which this unfortunate condition may be at once remedied in part:

First. Pay better wages for high grade teachers. In this way, you will attract more competent people to this branch of the public school service.

Second. Close the small schools where possible. In this way many of the weak and poorly qualified teachers may be rejected altogether.

THE QUESTION OF SALARY.

Everyone is aware that the cost of living has been constantly increasing for a decade, that wages in all occupations have advanced in proportion, and that opportunities for employment were never so many

or so attractive as at present. While this condition exists the only possible way to prevent many good teachers from abandoning the teaching profession for other employment is to make teaching more attractive from the salary viewpoint. A higher wage for teachers will also attract to the profession many capable young men and women who now do not consider teaching at all, but at once enter other occupations that are more remunerative.

I do not recommend an indiscriminate raise of salaries. The salaries should be graded. A teacher with a record of successful experience, and with a high grade certificate, should be paid a high salary. A teacher with a lower grade certificate should be paid a less salary, while a teacher with a very low grade, if such a one must be employed, should be paid a still lower salary.

It is strongly advised that every school board adopt a scale of wages for teachers in keeping with the grade of certificate held that will at least equal the present standard of wages in other callings.

SMALL SCHOOLS MAY BE CLOSED.

Another means by which the rural schools may be immediately improved is by temporarily uniting the school in contiguous districts where there are but few children of school age. A school of twenty or twenty-five pupils is usually a better school than one of five or ten pupils. There are many schools in every county of the state that could unite with other schools for the year, thereby reducing the number of teachers required and making it possible to select the better qualified ones. This would not commit any district to the policy of permanent consolidation. Each district would continue its organization undisturbed, the school being closed (with the consent of the County Superintendent) only for such time as called for by contract with the other district.

Two adjoining districts entering into such an agreement (clearly authorized by section 2774 of the School Laws) could, if desired, maintain the school in one district one year and in the other district the next year, continuing the arrangement until a changed condition should exist in one or both of the districts. In school townships with from seven to nine districts, it is not always necessary or advisable that all the schools be kept open. The board of directors at the July meeting or at a special meeting called thereafter, should determine the number of schools that may properly be kept open next year and, where one or more schools are closed, provide for the transportation of the children to the other schools. Where two or more schools are united and placed under one teacher, a first class teacher should be required and a high salary should be paid. All the children will then have the advantages of

a better school, and the aggregate cost to the districts interested will be no more, since the cost of transportation from a district where there are but few children will be much less than the salary of an additional teacher who would otherwise be required.

NO FORCED CONSOLIDATION.

I have already said that competent teachers can not be had in sufficient numbers to fill the schools unless a policy as suggested in the foregoing paragraphs is widely adopted.

This does not mean that teachers of the poorer class can not be had to make good the deficiency. While I strongly advise the closing of as many of the small schools as possible, thereby reducing the number of teachers required, I have no desire to force a single district to adopt this policy.

As you are aware, the licensing of teachers is now a duty shared jointly by the County Superintendent and the State Educational Board of Examiners. The County Superintendent passes upon the general fitness and professional qualifications of all applicants. The state board determines the grade of scholarship, as shown by the answer papers written in the examinations.

Where a sufficient number of certificates can not be issued as a result of the regular examinations, which are held only the last of January, June, July and October in each year, the County Superintendent may ask for provisional certificates for those nearest the passing mark for a third grade certificate. He may also ask for a special examination where other applicants who were not present at the regular examination may write for a provisional certificate. So if, in the opinion of the County Superintendent, the exigencies in his county require it, provisional certificates may be issued in sufficient number to permit practically all the schools to be opened. But it should be distinctly understood that provisional certificates are in every instance issued on the recommendation of the County Superintendent. The granting of such certificates, where the average falls under 60 per cent, is not approved by the state board. If certificates are required for persons of lower scholarship, the County Superintendent, and not the state board, must bear the responsibility for causing their issue.

LENGTH OF SCHOOL TERM OR YEAR.

In practically all the cities of the state and in very many of the country districts as well school is maintained for nine months each year. However, a shorter term prevails in enough districts to bring the aver-

age for the entire state down to eight and one-half months. I believe it should be the settled policy of every school board to provide a nine months' term. Where this is at present impossible, means should be taken to come to this standard a year hence. Probably two-thirds of the children of the state are now offered school privileges for nine months in the year. The remaining third have such privileges for but six, seven or eight months. Not only should the school year reach the nine months' limit in all districts; it should also be a continuous term, broken only by a one or two weeks' vacation at the holiday season and a like vacation in the spring. The old method of dividing the school year into distinct terms of two, three or four months, often with a different teacher for each term, resulted in great loss in efficiency. When you employ a teacher to begin work in September, it should be with the distinct understanding that such teacher, if her work is reasonably satisfactory, is to continue through the entire year.

THE TEACHER'S CONTRACT.

If the teacher is unknown, it will be well to draw the contract with the proviso that either party to the contract, by giving ample notice to the other party, may terminate it at the end of the second or third month; but both directors and teacher should expect the school beginning in September or October to remain under the same management for the entire school year.

The law expressly provides that: "Contracts with teachers must be in writing, and shall state the length of time the school is to be taught, the compensation per week of five school days, or month of four weeks, and such other matters as may be agreed upon, signed by the president and the teacher, and filed with the secretary before the teacher commences to teach under such a contract."

A teacher's contract is just as binding on the contracting parties as any other contract.

The school board that breaks a contract with the teacher without sufficient cause is amenable for damages and the same is true with the teacher who abandons her work without the consent of the board.

JUNE EXAMINATION.

Circular No. 13—1907.

DIRECTIONS FOR CONDUCTING THE JUNE EXAMINATION.

To prevent errors and to avoid delay and annoyance both in the state and the county offices, the following directions must be followed to the letter:

1. **Before the Examination Begins.** (a) Make ample provision for room and employ competent persons to assist in the examination. There will be a large number of examinees and it is imperative that you have assistance which you are entitled to under Section 3 of the Certificate law. Rules 7 and 8 must be rigidly enforced.

(b) Take the book in which you keep the record of examination fees and note the number of the last fee received. Beginning with the next higher number enter on a quantity of preliminary papers the numbers in consecutive order.

(c) While the examinees are assembling, place on each desk a copy of the "Rules Governing Examinations" and a copy of the slip "Think Before You Write." These should be collected later for like use at the next examination.

2. **Assigning Numbers.** Rule 13 so far as it directs that the names of the examinees shall be arranged alphabetically is to be disregarded. Give each examinee preliminary paper on which you have entered a number. When later you enter the names on examination sheets the numbers are to follow in consecutive order; but you are to pay no attention to the alphabetical arrangement of the names.

3. **Each Half Day a Unit.** If examinees complete a subject before the hour set for the next subject to begin (See Rule 3), the next subject may be taken up at once, but work scheduled for one-half day can not be taken on any other half day. Examinees arriving late may divide the remainder of the half day between the subjects to be written as they may elect.

4. **Inspect Every Paper.** Every sheet of paper handed in must bear the number assigned to the examinee at the beginning of the examination. The only way you can be sure this is always done is to personally inspect every paper when it comes to your hands. In both the October and January examinations we had a number of papers without any distinguishing number; hence the necessity of the precaution here urged.

5. **Admitting Persons Under Eighteen Years of Age.** Persons under eighteen years of age may be admitted to either the June or July examination provided they will be eighteen November 1, 1907.

An applicant under eighteen must write on the preliminary paper the day and month he will be eighteen. Any papers submitted by an applicant under age who fails to give this date or whose eighteenth birthday falls after November 1, 1907, will be returned to the county superintendent, unread. Persons admitted under this regulation whose examination entitles them to a second grade certificate shall receive the same at once for one year. Those whose examination entitles them to a third grade certificate shall receive the same on the day the eighteenth birthday is reached.

6. **Examination in Writing.** The examination in Writing (omitted from the printed program) will be given following Grammar on Thursday afternoon.

7. **Sealing Answer Papers.** In sealing answer papers use the strips of paper we send for that purpose or use large envelopes 9x11 as you find most convenient. Mark on every sealed package the name of the subject and the number of answer papers the package contains.

8. **The Preliminary Papers.** Put in one package all the Preliminary papers and mark on the package the number of papers it contains. This package should be included in the shipment with answer papers.

9. **The Examination Sheets.** Two examination sheets, one the exact duplicate of the other, and the number of examinees in consecutive order, are to be made out and sent to the state office. If possible for you to have these ready when you ship the answer papers, they may be included with this shipment; otherwise send them by mail just as soon as you can possibly get them ready.

10. **Theme and Renewal Papers.** (a) Where no Examination Is Required. Put in one package all theme and renewal papers where no examination is required. Mark this package: "Complete Renewals." Do not enter the names on the Examination Sheet.

(b) Where Part Examination Is Required. Put in a separate package all theme and renewal papers where examination is required in one or more subjects. Mark this package: "Part Renewals." Enter these names with the distinguishing number for each, in duplicate on separate examination sheets.

The package of renewal papers may be included in the same shipment with answer papers.

JOHN F. RIGGS,
President Board Examiners.

REPORT OF THE
EXAMINATION IN ANOTHER COUNTY.
Circular No. 14—1907.

To the County Superintendent:

If you have teachers in attendance upon a summer school in some other counties who desire to complete the examination under the following regulations, you should collect the fee from each at least one week before the date of the examination and furnish each a copy of the "Certificate of Admission to Examination" properly filled out, and with examination number assigned.

The expense the county superintendent guarantees is a legitimate expense for clerical help in connection with the examination and should be paid by the county as are other claims.

It is to be remembered that a county superintendent can not be required to appoint a second or supplementary examination. However, there will always be a number of teachers resident in the county where a large summer school is held who would be accommodated by having the second or supplementary examination. It is believed therefore that the county superintendent for the convenience of his own teachers will appoint the second examination and name a competent deputy to conduct it. Having appointed the second examination for his own teachers he should not object to admitting teachers from other counties, since no expense results to his county, and no report of such examination is to be made under Section 6 of the law.

JOHN F. RIGGS,
President Educational Board of Examiners.

REGULATIONS BY WHICH EXAMINERS MAY PAY THE EX-
AMINATION FEE IN THE COUNTY OF THEIR RESI-
DENCE AND WRITE THE EXAMINATION IN AN-
OTHER COUNTY.

1. **Where Applicable.** These regulations shall apply only to teachers in attendance upon a summer school and where the county superintendent appoints a supplementary examination in connection with such school.

2. **On What Conditions the Supplementary Examination Should Be Appointed.** The county superintendent of the county in which a summer school is held should require as a condition in granting a second examination as authorized by Section 3 of the Certificate law that the summer school management furnish free of charge a suitable room (or rooms) in which to hold the examination, and at least one competent person to assist in conducting the examination. It is the intent of the law that the supplementary examination be conducted by a competent person appointed by the county superintendent. Such additional help as may be needed should also be furnished.

3. Who Shall Report to the State Superintendent Names of Examinees and Their Grades in General Fitness, Didactics and Oral Reading. The county superintendent of the county where the examination fee is paid shall enter on a separate examination sheet the names of persons from his county from whom he has received fees and who write in other counties and shall mark each in general fitness and didactics. The answer papers in didactics shall be forwarded to him by mail or express by the person in charge of the supplementary examination, who shall also transmit to him the grade of each applicant in oral reading, the marking being on the scale of 100.

4. How Dispose of Other Answer Papers. At the conclusion of the examination in each subject, the person in charge of the examination shall seal in one package the answer papers of all persons who have paid the examination fee in other counties and mark the package: "Answer papers in _____ for other counties." He shall at the same time seal all other answer papers in a second package and mark the same with the subject and name of the county in which the examination is written. At the conclusion of the examination all answer papers shall be delivered to the county superintendent of the county in which the examination is written, who shall transmit the same to the State Superintendent.

5. Name of County Must Appear of Every Paper. If the examinee is not furnished with examination paper having the name of his county printed at the head, he must write at the head of each sheet of paper used the name of the county in which the fee was paid.

6. Part Renewals. The foregoing regulations apply also to persons who are entitled to part renewals, who have written the theme paper in the home county and have paid the examination fee to the home county superintendent. Such persons should be furnished the "Certificate of Admission to Examination" and no further fee be required.

OPINION OF ATTORNEY GENERAL.

Sir:—I have the honor to acknowledge receipt of your communication requesting my opinion upon the question as to whether or not it would be admissible under the law to permit applicants for teachers' certificates to take the examination in a county other than that of their residence by paying the examination fee to the county superintendent of their residence, with proposed regulations governing such examinations, for which it appears that the plan proposed to be adopted is for the convenience of teachers who are necessarily absent from their home county during the months in which examinations are required to be held.

In response thereto I submit the following:

Section 3 of the act providing for uniform county certificates, in so far as it is material to the inquiry here, provides in substance:

First. That the county superintendents shall on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July and October, examine all applicants for teacher's certificate.

Second. That such examinations shall be held at the county seat.

Third. That the county superintendent at his discretion may cause to be held under certain circumstances an additional examination at some other place in the county.

Fourth. That the questions used in such examinations shall be printed and furnished by the Educational Board of Examiners.

Fifth. That the examinations shall be conducted strictly under rules prescribed by the Board.

Section 6 of the same act provides:

"A record shall be kept by the county superintendent of all examinations taken within his county, with the name, age and residence of each applicant, and the date of the examination."

The other provisions of the act refer to the subjects to be covered by the examination, the kind of certificates to be issued, when and under what circumstances they may be renewed, the manner and the circumstances under which they may be revoked, and other provisions of like character.

I find nothing in either of the sections quoted that would make it illegal to permit an applicant for a teachers' certificate, who is otherwise qualified as required by the act in question, to take the examination under the plan proposed in the paper accompanying your request entitled, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county."

* * * * *

I take it that the examination includes not only writing the answers to the questions propounded, but the preparation of the questions at the beginning, and later the marking and grading of the papers. If I am right in this, then necessarily under the provisions requiring the Board to have the questions printed and later to read and pass upon the examination papers, at least as to part of the subjects, the examination takes place partly in Polk county and partly in the county of the applicant's residence, and it would be just as reasonable to say that the applicant is actually examined where the questions are prepared, or where the papers are read and graded, as it is to say that the examination takes place where the answers are written, and to permit an applicant to write in a county other than his residence the answers to questions furnished as the law provides, such questions and answers to be returned and passed upon by the county superintendent and the board as required, would in my judgment be a substantial compliance with the law.

I therefore conclude, that it would be entirely legal and proper to permit examinations of applicants for teachers' certificate to be taken as proposed under the rules set out in the paper prepared by the state superintendent under the title, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county," and in all such cases the county superintendent in the county of the applicant's residence should make the record required by Section 6 the same as if the answers to the examination questions were written in such county.

Respectfully,
H. W. BYERS,
Attorney General of Iowa.

June 4, 1907.

HON. JOHN F. RIGGS,
Superintendent Public Instruction.

COUNTY SUPERINTENDENT'S REPORT.

Circular No. 15—1907.

To The County Superintendent:

In Circular No. 9 we called your attention to the school enumeration and made some suggestions concerning it. In Circular No. 11 suggestions were made concerning the annual reports of district secretaries and treasurers. We are now sending you under separate cover report books and blanks for making your annual report to the Superintendent of Public Instruction and county auditor, and in the following paragraphs we desire to call your attention to some important matters that must be observed in order to prepare a correct report. We doubt not many suggestions here made will seem simple and useless, but no suggestion is made or direction given that has not been the subject of correspondence in former years.

1. **Three Report Books.** We are sending you three blank report books to be used as follows: one is to be used as a "preliminary book," in which to assemble the data. When the data has been assembled in this book and has been thoroughly tested and found correct it should then be copied into the two remaining books. There are two reasons for using the third book: first, it is impossible to assemble data without making some mistakes which will necessitate erasures; second, by assembling the data in the preliminary book and copying carefully, your permanent report may be free from blots and erasures.

2. **Order of Reporting Corporations.** Write the names of your school corporations in the "preliminary book" first, being careful to observe the following order:

(a) **School Township Corporations.**—In your report books, you will find the words "School Township Corporations," on the first line

First. That the county superintendents shall on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July and October, examine all applicants for teacher's certificate.

Second. That such examinations shall be held at the county seat.

Third. That the county superintendent at his discretion may cause to be held under certain circumstances an additional examination at some other place in the county.

Fourth. That the questions used in such examinations shall be printed and furnished by the Educational Board of Examiners.

Fifth. That the examinations shall be conducted strictly under rules prescribed by the Board.

Section 6 of the same act provides:

"A record shall be kept by the county superintendent of all examinations taken within his county, with the name, age and residence of each applicant, and the date of the examination."

The other provisions of the act refer to the subjects to be covered by the examination, the kind of certificates to be issued, when and under what circumstances they may be renewed, the manner and the circumstances under which they may be revoked, and other provisions of like character.

I find nothing in either of the sections quoted that would make it illegal to permit an applicant for a teachers' certificate, who is otherwise qualified as required by the act in question, to take the examination under the plan proposed in the paper accompanying your request entitled, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county."

* * * * *

I take it that the examination includes not only writing the answers to the questions propounded, but the preparation of the questions at the beginning, and later the marking and grading of the papers. If I am right in this, then necessarily under the provisions requiring the Board to have the questions printed and later to read and pass upon the examination papers, at least as to part of the subjects, the examination takes place partly in Polk county and partly in the county of the applicant's residence, and it would be just as reasonable to say that the applicant is actually examined where the questions are prepared, or where the papers are read and graded, as it is to say that the examination takes place where the answers are written, and to permit an applicant to write in a county other than his residence the answers to questions furnished as the law provides, such questions and answers to be returned and passed upon by the county superintendent and the board as required, would in my judgment be a substantial compliance with the law.

I therefore conclude, that it would be entirely legal and proper to permit examinations of applicants for teachers' certificate to be taken as proposed under the rules set out in the paper prepared by the state superintendent under the title, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county," and in all such cases the county superintendent in the county of the applicant's residence should make the record required by Section 6 the same as if the answers to the examination questions were written in such county.

Respectfully,
H. W. BYERS,
Attorney General of Iowa.

June 4, 1907.
HON. JOHN F. RIGGS,
Superintendent Public Instruction.

COUNTY SUPERINTENDENT'S REPORT.

Circular No. 15—1907.

To The County Superintendent:

In Circular No. 9 we called your attention to the school enumeration and made some suggestions concerning it. In Circular No. 11 suggestions were made concerning the annual reports of district secretaries and treasurers. We are now sending you under separate cover report books and blanks for making your annual report to the Superintendent of Public Instruction and county auditor, and in the following paragraphs we desire to call your attention to some important matters that must be observed in order to prepare a correct report. We doubt not many suggestions here made will seem simple and useless, but no suggestion is made or direction given that has not been the subject of correspondence in former years.

1. **Three Report Books.** We are sending you three blank report books to be used as follows: one is to be used as a "preliminary book," in which to assemble the data. When the data has been assembled in this book and has been thoroughly tested and found correct it should then be copied into the two remaining books. There are two reasons for using the third book: first, it is impossible to assemble data without making some mistakes which will necessitate erasures; second, by assembling the data in the preliminary book and copying carefully, your permanent report may be free from blots and erasures.

2. **Order of Reporting Corporations.** Write the names of your school corporations in the "preliminary book" first, being careful to observe the following order:

(a) **School Township Corporations.**—In your report books, you will find the words "School Township Corporations," on the first line

First. That the county superintendents shall on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July and October, examine all applicants for teacher's certificate.

Second. That such examinations shall be held at the county seat.

Third. That the county superintendent at his discretion may cause to be held under certain circumstances an additional examination at some other place in the county.

Fourth. That the questions used in such examinations shall be printed and furnished by the Educational Board of Examiners.

Fifth. That the examinations shall be conducted strictly under rules prescribed by the Board.

Section 6 of the same act provides:

"A record shall be kept by the county superintendent of all examinations taken within his county, with the name, age and residence of each applicant, and the date of the examination."

The other provisions of the act refer to the subjects to be covered by the examination, the kind of certificates to be issued, when and under what circumstances they may be renewed, the manner and the circumstances under which they may be revoked, and other provisions of like character.

I find nothing in either of the sections quoted that would make it illegal to permit an applicant for a teachers' certificate, who is otherwise qualified as required by the act in question, to take the examination under the plan proposed in the paper accompanying your request entitled, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county."

* * * * *

I take it that the examination includes not only writing the answers to the questions propounded, but the preparation of the questions at the beginning, and later the marking and grading of the papers. If I am right in this, then necessarily under the provisions requiring the Board to have the questions printed and later to read and pass upon the examination papers, at least as to part of the subjects, the examination takes place partly in Polk county and partly in the county of the applicant's residence, and it would be just as reasonable to say that the applicant is actually examined where the questions are prepared, or where the papers are read and graded, as it is to say that the examination takes place where the answers are written, and to permit an applicant to write in a county other than his residence the answers to questions furnished as the law provides, such questions and answers to be returned and passed upon by the county superintendent and the board as required, would in my judgment be a substantial compliance with the law.

I therefore conclude, that it would be entirely legal and proper to permit examinations of applicants for teachers' certificate to be taken as proposed under the rules set out in the paper prepared by the state superintendent under the title, "Regulations by which examinees may pay the examination fee in the county of their residence, and write the examination in another county," and in all such cases the county superintendent in the county of the applicant's residence should make the record required by Section 6 the same as if the answers to the examination questions were written in such county.

Respectfully,
H. W. BYERS,
Attorney General of Iowa.

June 4, 1907.
HON. JOHN F. RIGGS,
Superintendent Public Instruction.

COUNTY SUPERINTENDENT'S REPORT.

Circular No. 15—1907.

To The County Superintendent:

In Circular No. 9 we called your attention to the school enumeration and made some suggestions concerning it. In Circular No. 11 suggestions were made concerning the annual reports of district secretaries and treasurers. We are now sending you under separate cover report books and blanks for making your annual report to the Superintendent of Public Instruction and county auditor, and in the following paragraphs we desire to call your attention to some important matters that must be observed in order to prepare a correct report. We doubt not many suggestions here made will seem simple and useless, but no suggestion is made or direction given that has not been the subject of correspondence in former years.

1. **Three Report Books.** We are sending you three blank report books to be used as follows: one is to be used as a "preliminary book," in which to assemble the data. When the data has been assembled in this book and has been thoroughly tested and found correct it should then be copied into the two remaining books. There are two reasons for using the third book: first, it is impossible to assemble data without making some mistakes which will necessitate erasures; second, by assembling the data in the preliminary book and copying carefully, your permanent report may be free from blots and erasures.

2. **Order of Reporting Corporations.** Write the names of your school corporations in the "preliminary book" first, being careful to observe the following order:

(a) **School Township Corporations.**—In your report books, you will find the words "School Township Corporations," on the first line

of each list of corporations. Immediately under this heading you will enter in alphabetical order the names of all your school townships. Should you have any of those township corporations which, years ago, as district townships, organized as "independent township districts" under provision of Section 1814 of the Code of 1873, you will not include them in the list of school townships. Such organizations must be classed as rural independent districts, unless a city, town or village has sprung up in them, in which case they belong in the independent city, town and village class of corporations following:

(b) Independent City, Town and Village Corporations.—Having completed your list of school townships, you will write on the next line the following title: "Independent City, Town and Village Corporations." Under this heading you will enter in alphabetical order the names of all INDEPENDENT corporations consisting in whole or in part of cities, incorporated towns and villages. Corporations of this class have either five or seven members on the board.

(c) Rural Independent Corporations.—On the line immediately following the names of your independent city, town and village corporations, enter the following heading: "Rural Independent Corporations." This list should contain all rural independent districts and all independent township districts, mentioned above, should you have any, not containing a city, town or village. The number of rooms in one of these independent township corporations will be reported in the column "No. Rooms in Rural Schools," but the districts will not be reported as sub-districts.

Enter in alphabetical order the names of the townships containing rural independent districts and the districts located in each township (1) alphabetically if designated by name or (2) consecutively if by number.

(d) Joint Districts.—On the line immediately following the list of rural independent corporations, place the words: "Joint Districts." Under this head enter alphabetically the names of such joint districts as the secretary reports to you the three items of enumeration, only, viz., the number five to twenty-one, the number seven to fourteen and the number seven to fourteen who did not attend school sixteen weeks. These are the corporations over which you do not have jurisdiction. The treasurers of these districts make you no report; hence this group of corporations will be entered but once.

Joint district from which you receive full reports from both the secretary and the treasurer should be classified under (a), (b), or (c), above as may be necessary from the nature of the corporation. These are the corporations over which you have jurisdiction. See paragraphs 14, 15, 16 and 17 of Circular No. 11.

Entering Data. (a) **Original Entries.**—As previously suggested make all original entries of data in the preliminary book. Enter no data until you know it is correct. To determine this you must inspect carefully the reports of both the secretary and the treasurer of each corporation, and for some data comparing the report of one officer with that of the other.

(b) **Checking.**—By examining the blanks for secretaries' report you will observe that those officers are directed not to make certain computations. This is left for you to perform to secure greater accuracy. (See directions for "Computing Averages," page 5 of this circular.) When you have made these computations and have found the data already given to be correct, you are ready to transcribe it in the preliminary book. After entering the data from any report you should immediately check back to prevent errors or omissions.

(c) **Testing Entries.**—When entering in any fund, data from the report of the treasurer of a corporation, in addition to checking back as suggested in paragraph 3-b of the circular, you should add the items entered in the columns on the debit side of the fund. The sum thus obtained must agree with the amount entered in the column "total debits and credits." Perform the same operation upon the items entered in the columns from the credit side. This sum also should agree with the total debit and credit. If there should be lack of agreement, find the error before entering any other data.

4. Testing Reports. (a) **The Secretary's.**—Much of the secretary's report can be tested approximately only, but your knowledge of local conditions should aid you in determining the correctness of the report. In this line you should inspect it for inconsistencies as between enumeration, enrollment, and attendance, and for omissions. If it is your belief that an error has been made, call the attention of the secretary to the matter at once.

(b) **Treasurer's Report.**—(1) Compare the balance "on hand July 1, 1906" and the "amount received from district tax" and "from semi-annual apportionment" as directed in paragraphs 1, 2 and 5 of Circular No. 11. (2) When these are found correct, add the items in the debit side of each account and those in the credit side. See that the sum of the debits agrees with the sum of the credits. You will save yourself much time by exercising great care in this part of the work.

(c) **Library and Tuition Reports.**—These reports are tested by comparing the report of the secretary with the report of the treasurer, as indicated in paragraph 7, of Circular No. 11.

(d) **Number of Schoolhouses.**—The number of school houses reported by the secretaries and the number given by you in your special report on the "condition of schoolhouses" must agree.

(e) **School Corporations and School Officers.**—In your special report of school corporations and school officers the number of officers reported

should correspond to the number of corporations and the class to which the corporations belong as provided in the law. For instance: (1) each school township should have one director for each sub-district plus a director-at-large for each township having an even number of sub-districts. (2) In independent city, town and village corporations, each corporation contained in or having any territory in a city of the first class or a city under special charter should have seven directors, while all other corporations of this class and independent district townships should have five members on the board. (3) Each rural independent district must have three members.

5. Examination and Certification of Teachers. It will be observed that from July 1 to October 1, 1906, examinations were conducted under the old law and all of the examination fees then received went into the institute fund, while for the period from October 1, 1906, to June 30, 1907, one-half of the fee has gone into this fund. This has made it necessary to ask for two reports of examinations, one under the old law; the other under the new.

6. Registration and Enrollment Fees. The term "registration fees" was formerly used in connection with the institute enrollment, but under the new law this term is made to refer to the fees collected by county superintendents for the registration of certificates. It is therefore necessary to use the term "enrollment fees" to refer to the institute enrollment.

7. Institute Fund, Test Of. The debit of your account with this fund must agree with your report of examinations, registration of certificates and institute enrollment, and will be tested by us as follows:

(a) "On hand July 1, 1906," must agree with the amount reported as "on hand" at the close of last year.

(b) Examination fees received from July 1 to October 1, 1906, must be as many dollars as equal the total number of candidates examined during that time plus "one dollar additional" for each first grade two-year certificate issued.

(c) Examination fees received from October 1, 1906, to June 30, 1907, must equal one-half dollar for each candidate making application for a certificate during that time.

(d) Registration fees received must be as many dollars as equal the total number of certificates registered by you from October 1, 1906, to June 30, 1907.

(e) Enrollment fees received must be as many dollars as there were persons enrolled in the institute. If two institutes were held between July 1, 1906, and June 30, 1907, the enrollment fees will equal the combined enrollment.

8. Errors and Overdrafts—Correction Of. See paragraph 6 of Circular No. 11 and suggestion 16 on treasurer's blank.

9. **County Uniformity—Text Books.** If the text-books in use in the rural schools of your county were adopted by the COUNTY BOARD OF EDUCATION you should report the names of the texts adopted, and the price of each. Adoptions made by school boards are not to be reported.

10. **School Visitation.** The number of schools visited will never exceed the number of visits made. If more than one visit is made to any school, the number of visits will exceed the number of schools visited.

11. **Graded Schools.** To secure uniformity, report "graded schools" according to the following:

"A Graded School is one that maintained not less than two rooms for at least eight months during the school year ending June 30, 1907, and in which the principal teacher was the holder of a certificate of first grade or higher."

12. **Copying.** Having completed your preliminary report and finding it correct, you are now ready to transcribe it into the blanks provided for the permanent report. Do all copying from the "Preliminary Report." After having copied both permanent reports from the preliminary report, compare one permanent report with the other. Do not rest satisfied with having copied and read or checked back all items, but insure absolute certainty by adding the columns again.

13. **Double Reports.** If yours is a double report, that is if there is not a sufficient number of lines on one page to contain the names of all of the school corporations of your county, you will carry the totals of all columns on the first page to the first line of the second page. Do not place the totals at the bottom of the first page in such reports.

14. **Reports Due.** By Section 2765 the secretary's report must be filed with you 'within five days after the first day of July.' Section 2769 requires the district treasurer to file his report with you immediately after the first day of July. A correct report is due from each county superintendent at this office the last Tuesday in August, as provided in Section 2739.

15. **Two Reports.** Your reports are now completed. You will now send both copies to this department for examination and approval. When found to be correct, they will be approved and one copy returned to you to be placed on file in your office.

16. **Care of Reports.** Keep your report clean and as free from blots and erasures as possible. Do not crease or fold it. To do so would injure it for binding. When bound and placed on file in this office for the inspection of the public its appearance will determine whether or not it is a source of credit to you.

**DIRECTIONS TO THE COUNTY SUPERINTENDENT
For Computing Averages for the Annual Report to the Superintendent of
Public Instruction.**

FOR THE SCHOOL CORPORATION (Secretary's Report.)

17. By consulting the blanks for the secretary's report, it will be found that the officer is directed NOT to enter totals for the columns headed "Number of months of school," "average compensation of teachers," "average daily attendance" and "average cost of tuition." To secure greater accuracy these are left for the county superintendent to compute. To aid in that work and to secure uniformity in reporting, the following directions are submitted.

18. **Average Daily Attendance for the Corporation.** (a) The secretary's report gives the average attendance for each school or district in the corporation.

(b) To find the total average attendance for the corporation, find the sum of the average attendance of all the schools or districts in the corporation.

(c) Example. Suppose the average attendance of district No. 1 is 17; of No. 2, 6; of No. 3, 27. The total average attendance for the corporation will be 17 plus 6, plus 27, or 50.

19. **Average Number Months of School During the Year.** (a) The secretary's report gives the number of months each school was in session and the average daily attendance of each.

(b) Multiply the number of months each school was in session by the average daily attendance for that school.

(c) Divide the sum of the products thus obtained by the total average daily attendance for the corporation.

(d) Example. Suppose the secretary's report gives the following data:

District No. 1, number months 7, average attendance 17.

District No. 2, number month 6, average attendance 6.

District No. 3, number months 8, average attendance 27.

SOLUTION.

	Average Attendance	
7 months multiplied by 17 equals	119,	the total attendance in months
6 months multiplied by 6 equals	36,	the total attendance in months
9 months multiplied by 27 equals	243,	the total attendance in months
	Totals, 50	398, the total attendance in months

The total attendance of the corporation in months, 398, divided by 50 equals, 7.96 months, the average number of months of school offered each pupil in actual attendance in the corporation.

Since you report months to the nearest tenth, the average number of months the schools of this corporation were in session should be reported as 8, which should be placed at the foot of the column headed,

"Number months of school since September of last year" in the secretary's report.

20. Average Compensation of Teachers for the Corporation—Male and Females. (a) The secretary's report gives the total number of months all males and all females were employed and the average monthly compensation of each in each school or district in the corporation.

(b) Multiply the average compensation for each district or school by the number of months employed, male or female.

(c) Divide the sum of the products thus obtained by the total number of months, male (or females) were employed. The result will be the average compensation per month, for males or females.

(d) Example. Suppose the secretary's report gives the following data:

STATEMENT.

District	Total No. Months Employed		Average Compensation	
	Males	Females	Males	Females
No. 1	4 mo.	3 mo.	\$40	\$35
No. 2	3 mo.	3 mo.	35	35
No. 3	3 mo.	6 mo.	45	40

SOLUTION.

District	Males			Females		
	Time	Salary	Total	Time	Salary	Total
No. 1	4 times	\$40	equals \$160	3 times	\$35	equals \$105
No. 2	3 times	35	equals 105	3 times	35	equals 105
No. 3	3 times	45	equals 135	6 times	40	equals 240
Total.....	10 months	\$400	12 months	\$450

Average for males, \$400, divided by 10 equals \$40.

Average for females, \$450, divided by 12 equals \$37.50.

21. Average Cost of Tuition for the Corporation. (a) In finding the average compensation for teachers it will be observed that you will find the total amount paid males and the total paid females.

(See above illustration.)

(b) To the amount paid males add the amount paid females. This will give the total amount paid all teachers of the corporation.

(c) Divide the total amount paid all teachers thus found by the average number of months the schools of the corporation were in session and this quotient by the average daily attendance of the corporation.

(d) Example. In the preceding illustration the total amount paid teachers was: males \$400, females \$450, making a total for all teachers of \$850. \$850 divided by 8 (average number of months of school by preceding illustration) equals \$106.25, which is the total paid teachers each

month. \$106.25 divided by 50 (average attendance by preceding illustration) equals \$2.01, the average cost per pupil for one month.

FOR THE COUNTY.

22. Superintendent's Report. The averages for the county are found in the same manner as for the corporation, remembering that in this the corporation is the unit, while in computing for the corporation the district or school is the unit.

23. Average Daily Attendance. The average daily attendance for the county is the total for the column headed "Total average attendance in the corporation."

24. Average Number of Months of School. (a) Multiply the average number of months of school in each corporation by the average attendance for that corporation.

Note—Time and labor may be saved if the "total attendance in months" which was found when computing the "average number of months of school" for the corporation is entered in column 1 of the blank for preserving "products," on the line corresponding to the one in your report book on which the name of the corporation is entered. For example, in the illustration for finding the average number of months, we found the total attendance in months to be 398. This should be placed in column 1 for future use and reference. (See paragraph 19.)

(d) Divide the sum of the products thus found under (a) and as shown by the total to column 1, of the "Products" blank by the total average attendance for the county. The result will be the average number of months of school offered to each child in actual attendance in the county.

25. Average Compensation of Teachers, Male and Female. (a) Multiply the average compensation of males and of females of each corporation by the total number of months each are employed.

Note—Here, also, time and labor may be saved if the total amount paid males and the total amount paid females as found when computing the average compensation for the corporation are entered in column 2 for the males and 3 for females of the blank for preserving "products." Foreexample, in the illustration given the total amount paid males, \$400, should be entered in column 2 and the total amount paid females, \$450, should be entered in column 3. (See paragraph 20.)

26. Average Cost of Tuition. (a) The total paid all teachers of the county will be found by adding the total paid males, found in computing the average compensation of males, to the total amount paid females, also found in computing the average compensation of teachers. The sum of the totals of columns "2" and "3" of the "Products" blank will give the total paid teachers.

(d) Divide this sum, which is the total amount paid all teachers of the county, by the average number of months the schools of the county were in session, and the quotient thus obtained by the total average attendance for the county. The result will be the average cost of tuition per month for each pupil of the county in actual attendance.

27. Conclusion. The value of statistical information depends upon

its accuracy and completeness. In order that your report may possess these characteristics, we urge you to give careful attention to every item for which data is asked, whether specially mentioned or not.

Yours truly,
JOHN F. RIGGS,
Supt. Public Instruction.

June 20, 1907.

JUNE EXAMINATION.

Circular No. 16—1907.

REPORT ON THE JUNE EXAMINATION.

To the County Superintendent:

You should receive by express not later than July 20th the report from the examination given in your county the last week in June.

1. **Care in Checking.** The greatest care has been exercised to prevent mistakes, a double system of checking being employed, and we forward the report confident that it is practically free from errors, but as a further precaution we ask that you critically examine the report made on each examinee and if an error is clearly evident that you withhold the individual report required to be made to the examinee until you have had time to communicate with this office.

2. **No Report on Examinees Under Age.** When you have admitted applicants in violation of paragraph 5, page 2 of Circular No. 13, no report of grades is made, and it is useless for you to write for these, as they will not be furnished, unless it is shown that the eighteenth birthday will be reached before November 1st. In many cases examinees gave the age as seventeen and did not give the date of the eighteenth birthday. It is probable that some of these will be eighteen before November 1, 1907. If so, the report will be sent if you state the day on which the eighteenth birthday will be reached.

3. **The Re-Examination.** There is a case here and there where the examinee wrote the full examination on the last of October, 1906, and failed in a part of the subjects and was re-examined in these subjects the last of January. In such cases the full examination should have been required in June, and where it was not required the report is incomplete, since the rules do not permit combining the results of more than two examinations. The attempt was also made in one or two cases to bring forward grades previously made in a "special examination." You are asked to read again the rule on "Re-Examination" (paragraph 14, page 4, form J) and note the limitations it imposes.

4. **Other Cases Where the Report is Not Complete.** In a few cases there was confusion in numbering, or failure to number answer papers, and in some cases no papers could be found. Where a grade is missing

and you have certain evidence that the answer paper was written at the June examination, it is suggested that you permit the examinee to write another paper at the July examination; that no fee be charged, and the name be omitted from the list of July examinees. In such a case you will at the proper time write at the head of the paper: "Credit to No. June Examination."

5. **Missing Grades in Didactics.** In some instances the county superintendent failed to report a grade in didactics. We can not complete the report on such cases until the missing grades are supplied.

6. **Appeals.** You may have examinees who will ask to have their papers re-read. It is suggested that you advise such to re-write in the subjects in which they are low. We had a number of appeals following both the October and January examinations, and in but one case was the grade of certificate changed by the re-reading of the answer papers. It will be much safer for the discontented to re-write in July, rather than trust to a re-reading of their June papers.

7. **Reporting Failures.** In forwarding the failure slips to unsuccessful examinees, it is suggested that you encourage those whom you think should succeed and who wrote in June for the first time under the new law, to re-write in July. It is also urged that you use your best endeavor to get the largest possible number of prospective teachers to write in July, as there is every indication that the state will be short of teachers next year.

8. **Per Cents Omitted From Certificates.** Where examinees who wrote for the first grade certificates and failed in one or more of the advanced subjects, receiving a second grade certificate, the standing earned in the advanced subjects are not entered on the certificate. If the teacher wishes these per cents on her certificate, you are authorized to write in the subjects copying the grades from your duplicate sheet.

9. **July Questions.** Questions for all the second grade certificate subjects will be sent you by prepaid express on July 20th. Special questions called for, and questions for the four advanced subjects will be sent you on July 23d. If you have candidates for special certificates, your request for questions in the special subjects must reach us not later than July 19th.

Respectfully,

JOHN F. RIGGS,

Superintendent Public Instruction.

July 16, 1907.

SCHOOL BUILDING BOND FUND.

Circular No. 17—1907.

To the County Superintendent:

We desire to call your attention to four matters that may cause you some trouble in preparing your annual report:

1. **School Building Bond Fund.** Chapter 138, laws of the Thirty-first General Assembly, amends Section 2768 by inserting in that section the following:

"That (money) collected for the payment of school building bonds shall be called the **school building bond fund.**"

Section 2749 empowers the electors at the annual meeting:

"To vote a schoolhouse tax not exceeding ten mills on the dollar in any one year for the purchase of grounds, construction of school houses, the payment of debts contracted for the erection of schoolhouses, not including interest on bonds, procuring libraries for and opening roads for schoolhouses."

Under provision of this section electors may vote a tax commonly known as schoolhouse tax to be paid on school building bonds; but under the provision of Chapter 139, laws of the Thirty-first General Assembly, this money when collected must be paid in the "school building bond fund."

Also Section 2813 provides that:

"The board of each school corporation shall at the same time and in the same manner as provided with reference to other taxes, fix the amount of tax necessary to be levied to pay on any amount of principal or interest due or becoming due next year on lawful bonded indebtedness, etc."

If the board estimates a tax for the payment of "school building bonds" the amount received from such tax must be placed in the "school building bond fund," because the amendment creating this fund specifies that moneys collected for the payment of "school building bonds" shall be known as the "school building bond fund."

Moneys collected to pay on other indebtedness contracted for the erection or repair of schoolhouses or for "school funding bonds" should go in the "schoolhouse fund" as heretofore. But anything collected for the payment of "school building bonds" or interest on such bonds must go in the "school building bond fund."

There are then two ways by which the "school building bond fund" may receive money from district taxes: (a) Schoolhouse tax voted by the electors to pay on "school building bonds," and (b) schoolhouse tax estimated by the board to pay on "school building bonds."

Further, Chapter 140, laws of the Thirty-first General Assembly, authorized the board to issue school funding bonds to pay indebtedness under bonds lawfully issued. Under this authority, "school funding bonds" may have been issued to obtain funds to pay off "school building bonds." When this was done the amount so received should be placed in the debit of the "school building bond fund" and when the "school building bonds" are paid the "school building bond fund" should be credited.

When ever money is received from either of these sources the "school building bond fund" should be debited.

When "school building bonds" are paid off or "interest" on them is paid, the "school building bond fund" should be credited.

2. **Schoolhouse Fund—Received From Sale of Bonds.** (a) In the treasurer's blank for reporting to the county superintendent provision is made for reporting the amount "received from sale of bonds," but this data was overlooked when preparing "copy" for the county superintendent's report books. You will therefore report the amount "received from sale of bonds" with the amount "received from other sources" as has been done in former years.

(b) We desire, however, that you report to us on a separate sheet the "amount received from sale of bonds" for each corporation and forward it with your report. Arrange the names of the corporations in the same order they appear in your report.

3. **June Examination.** Do NOT include the June examination in your report for the year ending June 30, 1907, for the following reasons: (a) The fees are not deposited until July 1, 1907, the beginning of the new year; (b) you will not know how to report those failing to receive a regular certificate but are starred (*) for provisional certificates; (c) the certificates are dated July 1, 1907.

4. **Institute Report.** (a) In some counties, no institute was held during the year from July 1, 1906 to June 30, 1907. In those counties there will be no report of institute attendance to make. On the other hand, there are some counties in which two institutes were held during the same time, in which case there will be two institutes to report. Where two institutes were held, report both by placing the date and attendance of the first above the date and attendance of the other in the blanks for such data. In those counties in which one institute was held, no difficulty will be encountered.

(b) In the report of Institute Fund, you will report the receipts and disbursements regardless of the number of institutes held.

Yours truly,

JOHN F. RIGGS,

Superintendent Public Instruction.

July 23, 1907.

TEMPORARY ACCREDITING.

Circular No. 18—1907.

TEMPORARY ACCREDITING OF COLLEGES AND NORMAL SCHOOLS.

The great amount of labor required in classifying colleges and normal schools and in determining their proper status under the law authorizing the State Board of Examiners to accept graudtiaon in lieu of an examination for a state certificate, and the urgent call from grad-

uates who must soon be certificated in some way makes imperative a temporary arrangement pending the definite classification of colleges and normal schools.

It is therefore ordered by the State Educational Board of Examiners:

1. That graduates from a full four years' liberal arts, scientific or philosophical course of the following named institutions of the class of 1907 and former graduates of said institutions who have been continuously engaged in educational work since graduation, shall upon filing proper proofs and paying the statutory fee of two dollars, be granted the two-year State certificate without examination:

Iowa College	Simpson College
Drake University	Highland Park College
Des Moines College	Penn College
Upper Iowa University	Cornell College
Iowa Wesleyan University	Morningside College
Tabor College	Central University
Leander Clark College	Coe College
Parsons College	Luther College
Buena Vista College	Lenox College

2. That graduates from the following named normal schools where such graduation shows two full years of work above the minimum entrance requirement given under "a" or three full years of work above the minimum entrance requirements given under "b" of page 8 of the Regulations of the State Board of Educational Examiners governing the accrediting of colleges and normal schools, shall upon filing proper proofs and paying the statutory fee of two dollars be granted the two year State certificate without examination—this privilege to extend to the graduates of the class of 1907 and to former graduates who have been continuously engaged in educational work since graduation.

Normal School of Drake University
 Normal School of Highland Park College
 Normal School of Upper Iowa University.

3. That no one securing a certificate under this temporary arrangement shall thereby acquire any right to the renewal of such certificate, and no college or normal school enumerated in paragraphs one or two shall be considered accredited only for the time being, the Board reserving the right to make such future classification of colleges and normal schools as in the judgment of its members may seem proper.

JOHN F. RIGGS.

July 20, 1907.

President Board Examiners.

SPECIAL EXAMINATION, AUG. 16 AND 17, 1907.

Circular No. 19.

To County Superintendents:

Through the failure of the express company to deliver promptly the returns from the June examination and the questions for the July examination many applicants for certificates, as well as county superintendents, were greatly inconvenienced. Teachers who wrote in June and failed in a part of the subjects and were not informed of their failure in time to write again in July should in all fairness be given an opportunity to write at a special examination and have the results credited to the regular July examination. The same is true of persons who were unable to write in July because the questions were not received on time.

County superintendents are therefore directed to announce if necessary a special examination for August 16 and 17. All persons who should have written in July, but who did not do so because of circumstances beyond their control, should be notified at once of the date of the examination. The names of such persons should be entered first on the examination sheets and each name checked with red or blue pencil. If the county superintendent is of the opinion that there will be need of additional teachers in this county, he should also admit to this special examination any who wish to write for provisional certificates. In counties where there is no necessity for a special examination, none should be announced by the county superintendent. Since it is impossible for us to know which counties will need questions we will send to all, mailing fifteen lists in each subject to each county superintendent on August 12th.

The subjects for August 16th will be orthography, reading, geography, arithmetic, didactics, penmanship and music. The subjects for the 17th will be history, physiology, grammar, algebra, physics, economics and civics.

JOHN F. RIGGS,

August 1, 1907.

President Board of Examiners.

REGISTRATION OF CERTIFICATES.

Circular No. 20—1907.

To the County Superintendent:

As the time for the opening of the schools is near at hand, we submit herewith the law governing the registration of certificates and an opinion of Hon. H. W. Byers, Attorney General, concerning its application.

1. **The Law.** Section 17, Chapter 122, Laws of the Thirty-first General Assembly, provides that "No person shall teach in any public school in this state whose certificate has not been registered with the county

superintendent of the county in which such school is located. A registration fee of one dollar shall be charged for each year, or part of the year, for which the certificate or diploma is registered. All registration fees shall be paid into the county institute fund."

2. Opinion of Attorney General. The following is from the opinion of Attorney General H. W. Byers concerning the scope and application of this law:

"Under this provision every person holding either a state certificate, a state diploma, a county certificate, special certificate, or a certificate to teach in kindergartens, who desires to teach in any of the public schools of this state must cause his certificate to be registered with the county superintendent of the county in which he desires to teach, no matter when the certificate was issued, whether before or since October 1, 1906."

3. Term of Registration. Registration validates a license for the remainder of the school year; i. e., until July first following, unless such license expires sooner, in which case, registration validates it only until the date of its expiration. When the term of third grade or a provisional certificate is extended until July first following its issue, as provided in Sections 9 and 20 of the uniform certificate law, the term of registration is likewise extended to July 1st. No registration fee should be collected on account of the extension.

Yours truly,

JOHN F. RIGGS.

August 6, 1907.

Superintendent Public Instruction.

EXAMINATION AUGUST 31, 1907.

Circular No. 21—1907.

To the County Superintendent:

The Educational Board of Examiners is empowered by law to issue certificates without examination to persons holding state certificates from other states where such certificates were secured under conditions as exacting as those prevailing in Iowa.

In accepting certificates from other states, except in the case of applicants who have taught for one or more years in this state, the Board requires an examination in civics and history of Iowa. Since the opportunity to pass the examination in these subjects was not given this class of applicants in July, it seems necessary to appoint Saturday, August 31st. as the date at which any person required to pass this examination may, if the county superintendent approves, appear at the office of the superintendent and write the answer papers in these subjects.

A few sets of questions will be mailed to reach you not later than August 30th, and you are requested to offer the examination to such per-

sons as may present themselves, and of whom it is required, and to forward the answer papers promptly to this office.

Please take note that the examination fee of \$2.00 is to be forwarded by the applicant direct to the Superintendent of Public Instruction, and in no case is it to be paid to the county superintendent.

JOHN F. RIGGS,

Superintendent Public Instruction.

August 15, 1907.

EXAMINATION FEES.

Circular No. 22—1907.

To the County Superintendent:

Owing to the fact that some confusion exists concerning applications for certificates and examination fees, we request your attention to the following:

1. **APPLICATIONS—TO WHOM MADE.** (a) **County.** Candidates for uniform county certificates must make application to the county superintendent.

(b) **State.** Candidates for state certificates must make application to the Superintendent of Public Instruction, who is ex-officio president of the Educational Board of Examiners.

2. **FEES.** (a) **To Whom Paid.** (1) **County.** County examination fees must be paid to the county superintendent.

(a) **State.** State examination fees must be paid to the Superintendent of Public Instruction for the Educational Board of Examiners.

(b) **WHEN PAID.** In every case, whether the candidate is an applicant for a county or a state certificate, the fee must accompany the application.

(c) **AMOUNT.** (1) **For County Certificate.** The fee for a county certificate is one dollar, whether the certificate is obtained by examination, complete renewal, or by partial renewal. When more than one examination is taken, a fee is required for each.

(2) **For State Certificate.** The fee for a state certificate is two dollars, whether such certificate is obtained by examination, renewal, on college credit, or on certificate from another state. When more than one examination is taken a fee is required for each.

(d) **REFUND.** The law does not authorize the refunding of any part of any examination fee. The county superintendent must account for one dollar for each application for a county certificate filed with him, and the Superintendent of Public Instruction, for the Educational Board of Examiners, must account for two dollars for each application for a state certificate.

3. STATE DIPLOMAS. Applications for state diploma must be filed with the Superintendent of Public Instruction and the fee five dollars, must accompany the application.

Yours truly,

JOHN F. RIGGS,

Superintendent Public Instruction.

August 20, 1907.

EXTENSION OF CERTIFICATES.

Circular No. 23—1907.

EXTENSION OF THIRD GRADE AND PROVISIONAL CERTIFICATES.

Under Sections 9 and 20 of the Certificate Law the County Superintendent may, at his option, extend the life of any third grade or provisional certificate to the first day of the July following the date of its issue.

While each county superintendent will follow his own best judgment in the matter of extending low grade certificates, we venture to submit the following, trusting it may prove of some assistance at this juncture.

It was the thought of the General Assembly that enacted the Certificate Law that teachers holding third grade certificates should in general have such certificates extended to the end of the school year. It was thought by making the extension a matter of discretion with the county superintendent that this officer would be enabled to require definite professional progress and reasonable success in the school-room as conditions for extending the certificate. Young teachers who are "making good" deserve encouragement. The fact that the sluggards are denied an extension is no reason why all should be denied.

The bringing up of teachers for the October or January examination disturbs the work of the school and adds to the teachers' expenses.

We believe deserving teachers who are really alive and working hard for self-improvement should be spared this expense and receive the encouragement that an extension of the certificate carries.

There is another matter worthy the consideration of county superintendents. Under the law but two third grade certificates may be issued to the same person. The teacher who receives a third grade certificate should have as wide opportunity as possible to prepare for a subsequent examination, and this period of preparation should, where practicable, include at least a part of the summer vacation, where the teacher may have the advantage of summer school or institute attendance. When in the judgment of the county superintendent the certificate would be extended to July 1, no fee may be charged for such extension.

Very truly yours,

JOHN F. RIGGS,

President Board of Examiners.

September 30, 1907.

REPORT OF THE
OCTOBER EXAMINATION.

Circular No. 24—1907.

To County Superintendents:

Please note the following suggestions concerning the October examination:

1. **October Questions.** Questions for the October examination will be sent from this office by mail or express on Thursday, October 17th.

2. **Change in Program.** The first half day of the examination will be devoted hereafter to orthography and arithmetic, and the second half day to geography, didactics and reading (both oral and written).

3. **Rules Applicants Should Know.** When examinees are assembled you should call particular attention to Rules 9, 10, 11, 12, 13 and 16, as found in "Form J," Rules Governing Uniform County Examinations.

4. **Exclude Applicants Under Age.** Please read again Rule 3 of "Form J" and follow it strictly.

5. **Inspect Answer Papers.** Inspect every answer paper to be sure it bears the applicant's number. Arrange all the answer papers on each subject in numerical order.

6. **Another Word on the Second Trial.** It seems advisable to extend the privileges of Rule 14 so as to apply to any regular examination held within one year after the first examination is completed. Under this interpretation, one who wrote in October 1906, and who has not written in a subsequent regular examination, may re-write in October, 1907, bringing forward the good grades from the examination taken in October, 1906. Let it be clearly understood that but two regular examinations may be combined. If an applicant appears in a third regular examination, all subjects must be written, unless such applicant holds a second grade uniform county certificate, and is writing for a first grade certificate, in which case the examination need not be taken in subjects which have black ink grades of 85 per cent or above, or red ink grades of 90 per cent or above, on such second grade certificate. This exception applies to second grade certificates only.

7. **Copying Grades on Check Sheets.** The check sheets are always to be sent to the State Department in duplicate, showing on both copies the name, age and examination number of each applicant, the record of teaching experience, together with the grades in general fitness, didactics and oral reading, each marked on the scale of 100.

In addition, the superintendent should copy in the appropriate spaces in black ink the grades to which an applicant is entitled from a former regular examination, always being sure that the applicant has previously written in but one regular examination.

You are urged to make these entries with extreme care and to satisfy yourself in every case that the applicant claiming grades from a former examination has not already combined the results of two examinations,

either in your own or some other county. You should also enter in the appropriate space after the grades the date of the examination from which grades are brought forward, and the number assigned the applicant, and the county in which it was written.

Yours truly,

JOHN F. RIGGS,
President Board of Examiners.

October 15, 1907.

RENEWAL OF SECOND GRADE UNIFORM COUNTY CERTIFICATES.

Circular No. 25—1907.

To the County Superintendent:

The Educational Board of Examiners desires you to communicate to those of your teachers holding second grade uniform county certificates that will expire prior to September, 1908, the following regulations governing the renewal of such certificates:

REGULATIONS GOVERNING RENEWAL OF SECOND GRADE UNIFORM COUNTY CERTIFICATES.

1. The applicant shall have taught under such certificate for at least six months.

2. The county superintendent under whom the applicant has taught must recommend that the certificate be renewed.

In deciding whether a renewal will be recommended, the county superintendent should consider the teachers' success in the school-room, and her professional spirit as evidenced by the reading of professional books and papers, and where practicable, attendance upon educational meetings and institutes.

3. The applicant must write an examination in elementary psychology. This examination should be written on the last day of the regular June or July examination. The questions (ten in number) will be based upon the outlines given in "Facts Teachers Should Know," pages 9 to 17, and the answer papers will be read and marked in the State Superintendent's office.

Facts Teachers Should Know. You should also see that a copy of "Facts Teachers Should Know" is in the hands of each teacher holding such a certificate.

JOHN F. RIGGS,
President Board of Examiners.

November 20, 1907.

JANUARY EXAMINATION

Circular No. 1—1908.

To County Superintendents:

Please note carefully the following suggestions concerning the January examination:

1. **January Questions.** Questions for the January examination were sent from this office by prepaid express on January 23d.

NOTE—Give at least two full hours for arithmetic. Those writing this subject may work into the oral reading period.

2. **Change in Program.** In the examination for Wednesday, didactics will be given at the hour scheduled for arithmetic and arithmetic will be given at the hour scheduled for didactics.

3. **Rules Applicants Should Know.** When examinees are assembled you should call particular attention to Rules 9, 10, 11, 12, 13 and 16, as found in "Form J."

4. **Exclude Applicants Under Age.** Please read again Rule 3 of "Form J" and follow it strictly.

5. **Inspect Answer Papers.** Inspect every answer paper to be sure that it bears the applicant's number. Arrange all the answer papers on each subject in numerical order. Read Rule 20, Form J.

6. **The Check Sheet—Names of Candidates.** The county superintendent shall fill out in duplicate check sheets showing on both copies the (1) name, (2) address, (3) age, (4) examination number, (5) record of teaching experience of each candidate, together with the grades in (1) general fitness, (2) didactics, and (3) oral reading. All names shall be entered in the order of their examination number.

7. **Black Ink Grades.** In addition to the above he will enter in black ink the grades earned by each candidate in the last regular examination written by him and for which he is entitled to credit, always being sure that grades from but one regular examination are so entered. (See Rule 14, Form J.)

8. **Red Ink Grades.** In case of those entitled to partial credit on account of holding a renewable county certificate (see small folder enclosed,) the county superintendent shall also enter in red ink the grades in those subjects in which examination is not required.

The county superintendent cannot be too careful in making these entries. It is vital that no mistake be made in this record.

In the case of complete renewals, no examination being required, no data should be entered on the check sheet.

Yours truly,

JOHN F. RIGGS,

President Board of Examiners.

January 23, 1908.

EMERGENCY CIRCULAR.

Circular No. 2—1908.

GOVERNING THE ISSUE OF PROVISIONAL CERTIFICATES.
ADDITIONAL TO RULES 39, 39-a, 39-b, 39-c, 39-d and
39-e, OF THE REGULATIONS GOVERN-
ING THE ISSUING OF UNIFORM
COUNTY CERTIFICATES.

To the County Superintendent:

The following emergency provisions are to be invoked only in counties where the means of securing teachers as set out in the regulations governing the issuing of uniform county and provisional certificates have been completely exhausted, and it is the opinion of the county superintendent that there is need of additional teachers for the county, which can be secured only under one of the following provisions:

1. **Expired Certificates—College Credits.** When all the provisions of the regulations for licensing teachers have been exhausted in any county, and teachers are still required, a provisional certificate may be issued without examination to such person as the county superintendent recommends; provided the person so recommended has within three years taught successfully on a certificate of at least the second grade, or has completed at least one full year's work above high school grade in a college or normal school. But one provisional certificate may be issued to the same person under this provision.

NOTE: Papers to File. A candidate for a certificate under this provision will file with the county superintendent a preliminary, and the expired certificate or evidence of college or normal school work, and pay the usual fee, one dollar. When the case is complete, the county superintendent will forward to the Superintendent of Public Instruction a request for a provisional certificate, the preliminary, and a "statement" for the certificate (the certificate should not be sent), or the proof of college work.

2. **Previous Examination.** When all the provisions of the regulations for licensing teachers have been exhausted in any county, and teachers are still required, a provisional certificate may be issued to any person the county superintendent selects, provided such person has earned an average standing of at least 60 per cent in a regular or special examination taken in the county in which it is desired, within the six months immediately preceding. Any certificate issued under this provision shall bear on its face the following:

"The County Superintendent assumes the responsibility of causing the issue of this certificate. The educational Board of Examiners disapproves the issue of certificates where the scholarship is as low as here indicated."

Note 1. PAPERS TO FILE. When a certificate is desired under this regulation, the County Superintendent will file a request for a provisional certificate. No additional fee or papers are required of the applicant.

Note 2. ADHERE TO REGULATION. Every provisional certificate hereafter issued will be issued in strict compliance with one of the provisions of the "regulations" or of this "emergency circular."

JOHN F. RIGGS,

President Board of Examiners.

February 1, 1908.

SCHOOL BUILDING BOND FUND.

Circular No. 3—1908.

To the District Treasurer:

I desire to call your attention to that part of Section 2768 of the School Laws of 1907 which reads: "That collected for the payment of school building bonds shall be called the school building bond fund."

The insertion of this clause by the Thirty-first General Assembly makes it necessary for each school treasurer to open an account with the school building bond fund, which must be charged with all money received to pay on school building bonds.

Money for this fund may be obtained from the following sources:

1. Schoolhouse tax voted by the electors to pay on school building bonds, as provided by paragraph 7, Section 2749.

2. Schoolhouse tax estimated by the board to pay on school building bonds and interest on school building bonds, under Section 2813.

3. Sale of school funding bonds issued by the board to procure funds to pay on school building bonds under authority of Section 2812-c.

It will be observed that money for the school fund is obtained from the same three sources. The only thing the treasurer need observe to determine to what fund to charge money from these sources is the purpose for which it is raised. If money is raised under these provisions of law to pay on school building bonds it shall be charged to the school building bond fund, but if it is raised for any other purpose it shall be charged to the schoolhouse fund.

When money is paid on school building bonds, or on interest on such bonds, the school building bond fund must be credited, provided the school building bond fund has been charged with the money raised for that purpose as directed above. In case money raised for such purpose has been improperly charged to the schoolhouse fund, as was formerly required, it will be necessary to pay from the schoolhouse fund as formerly, but care should be taken to avoid such errors as money voted or raised to pay on school building bonds may not be used for any other purpose while there are any outstanding school building bonds.

When school funding bonds are issued to exchange for school building bonds, the school building bond fund should be debited with the amount received for the school funding bonds and credited with the amount of the school building bonds taken up.

JOHN F. RIGGS,

Superintendent Public Instruction.

February 1, 1908.

SPECIAL EXAMINATIONS.

Circular No. 4—1908.

To the County Superintendent:

As you have undoubtedly noticed by reading paragraph 2-a of the Regulations Governing Uniform County Certificates, the Educational Board of Examiners does not expect to authorize more than one special examination in any month, and none in the month of a regular examination.

It is believed that one thoroughly advertised examination in any month will be sufficient. Neither you nor this department can afford to hold examinations so frequently as has been done in many counties.

SPECIAL EXAMINATIONS.

March Special. Questions are being prepared for a special examination to be held March 20 and 21. If you desire to hold an examination this month, and none has been appointed for your county, questions will be sent you on your request.

April Special. For those who find it necessary to hold another examination to fill the spring schools, questions are being prepared and a special examination will be appointed for April 3 and 4. Questions for this examination, as with the other, will be sent only upon request.

Very truly yours,

JOHN F. RIGGS,

Superintendent Public Instruction

March 7, 1908.

ENUMERATION—TUITION—LIBRARY.

Circular No. 5—1908.

To the County Superintendent:

Some time ago we sent you blanks for procuring data for the special report on graded schools and on consolidation.

We are now sending you blanks for the report of educational institutions and those for school officers' reports, and for the various reports you are to make.

We are of the opinion it would be well for you, if you have not already done so, to call the attention of your officers to some features of their reports and show them what is desired and how to accomplish the result. The points that may need special stress in one county may not be the ones that should be presented in another. You will know what should be emphasized in your county.

Three things, however, usually need special attention to secure prompt and accurate reports.

Enumeration. School boards and school secretaries should know the importance of a correct enumeration of persons of the ages of 5 to 21 years residing in the corporation on the first day of June, and the neces-

sity of making the enumeration during the month of June. No part of it may be made before July first or after June 30th.

In school townships, the director of every subdistrict should know that it is his duty to make the enumeration of his district between June first and fifteenth and the necessity of filing his report not later than June twentieth. This is necessary, not merely to comply with the law, but to enable the secretary to have his report to the school board ready by July 1.

The report of enumeration must show the names, ages, sexes of the children, and the names of the parents or guardians. It should also show the number of days of attendance of each pupil of the ages of 7 to 14, and the reason for non-attendance of those not in attendance at least sixteen weeks during the school year. (See Form 32, page 164, School Laws, 1907.)

The secretary of each school corporation shall make a permanent record of this report. (Section 2764.) Blanks should be provided for making a temporary record during the process of making the enumeration. This should then be transferred to the permanent record. If they prefer to do so secretaries of independent corporations may take the enumeration in their permanent record, but in school townships the directors must use temporary blanks.

Tuition. If secretaries fully understand that they are to report only such amounts as have been collected and paid over to the treasurer, and by him included in his report, there will be no difficulty over this matter. The treasurer should include in his report all money received by him before the close of business June thirtieth. When both officers do this, their reports will agree.

Sections 2774 and 2803 provide for paying tuition out of the teachers' fund. Since this is so, and since the law does not authorize a transfer from the teachers' fund, we are clearly of the opinion that tuition received should go into the teachers' fund. However, if a school board has directed the treasurer to make other disposition of money received from tuition, make a note to that effect and forward to us with your report.

Library Report. The secretaries and treasurers of all school corporations should know that all are to make a report on the library books purchased during the year. Since library books may be purchased from each of three funds, the secretary and treasurer of each corporation will report for each fund separately and their report of the amounts expended will agree. The secretary should also be careful to report the number of books purchased from each fund and from funds raised by voluntary efforts, together with the amount so raised.

Very truly yours,

JOHN F. RIGGS,

Superintendent Public Instruction.

May 5, 1908.

Circular No. 6—1908.

ORDER OF REPORTING CORPORATIONS.

Circular No. 7—1908.

To the County Superintendent:

As the time for the gathering of data for the reports of the various school officers is at hand, we invite your attention to the following:

Blanks Sent. You should now have in your possession the following blanks: 1. Secretary's report; 2. Treasurer's report; 3. County Superintendent's annual report; 4. Report of school officers; 5. Graded school report; 6. Private denominational and higher educational institutions; 7. On consolidation; 8. Enumeration Report to county auditor; 9. Product sheet.

Should any of the above enumerated blanks be missing, or if a sufficient quantity has not been sent, please let us know, indicating the number wanted and others will be sent.

Names of Corporations—Order of Reporting. Please observe the following directions when entering the names of the corporations of your county in your annual report:

1. **School Townships.** Under the words "School Townships" (which you will find at the top of the column for names of corporations) enter in alphabetical order the names of all school township corporations. Put in this class those township organizations which are divided into sub-districts and those not divided into sub-districts but having a board of three directors. (See Section 2752) Township organizations without sub-districts but having a board of seven members belong in one of the two following classes of corporations.

2. **Independent City, Town and Village Corporations.** On the line underneath the list of school townships write as a heading, "Independent City, Town and Village Corporations." In this class should be placed all independent corporations containing or contained in a city, town, or village of over one hundred inhabitants. A rural independent district becomes a corporation of this class when a village of over one hundred inhabitants, or a town, or a city, is established in it.

3. **Rural Independent Districts.** On the line following the independent city, town and village corporations, place the heading "Rural Independent Districts." This will include all independent corporations not included in class "2" above. Those township organizations organized as independent township districts under an old law, and having a board of seven members, should be included in this class unless a city, town, or village has sprung up therein, in which case it should be classed in "2."

4. **Joint Districts.** In some counties a fourth class of corporations will be necessary in the first list of corporations in your report. It will consist of those joint districts that do not make a complete report to you. A joint district that does make a complete report to you should be

placed in one of the three preceding classes to be determined by the character of the corporation. The joint districts to be placed in the fourth class are those that report to you enumeration only. (We are sending you blanks for special report of enumeration of joint districts).

Graded Schools. Your special report on graded schools will not of necessity include the same corporations listed as "Independent City, Town and Village Corporations," as described in class "2." In this special report we desire you to classify a school as a "graded school" when it has maintained with reasonable continuity at least two departments for not less than eight months during the school year ending June 30, 1908.

Yours truly,

JOHN F. RIGGS,

Superintendent Public Instruction.

June 8, 1908.

JUNE EXAMINATION.

Circular No. 8—1908.

To the County Superintendent:

As indicated by the cards mailed you, questions have been shipped you by express for the examination to be held June 24, 25, 26. In preparing these packages of questions we have exercised all the care possible and believe that you will find every package exactly as labeled. In order to avoid the possibility of finding yourself without even a sample list of questions, we are sending you another set consisting of one list of questions in each subject. These also are arranged by half days, as are the regular packages.

In order that no injustice may be done the candidates it is necessary that the county superintendent, or the one in charge of an examination, should be thoroughly familiar with the rules governing examinations. These appear in the pamphlet of Regulations Governing the Issuing of County Certificates, which are now in your hands, and which we believe are sufficiently complete to answer every question that may arise. We would, however, call your especial attention to the following:

Minimum Age for Admission to Regular Examination—Rule 6.

Program of Examination—Rules 9, 9-a and 10.

Preliminary Blank—Numbering—Rules 11, 11-a, 11-b, 11-c, 11-d.

Seating of Applicants—Rule 15.

No Communication—Rule 16.

Answer Papers Shall be Written in Ink—Rule 20.

Answer Papers Must Bear Number, But Not Name of Applicant—Rule 21.

First Examination and Subjects Required—Rule 22.

Under this rule a person writing in common branches only may not claim at a subsequent examination to have been a candidate for a first grade certificate.

Second Trial—Re-Examination—Rule 23.

The privilege of combining the results of two examinations does not authorize one who wrote only in the common branches, under Rule 22, to add the four advanced subjects under provision of Rule 23. The second trial offered by Rule 23 is the second trial for the kind of certificate for which the candidate wrote in the first examination under Rule 22. The candidate who writes only in the common branches at the first examination, under Rule 22, and obtains a second grade certificate, will pass to a first grade certificate under Rule 45.

Third Examination—Rule 24.

Passing Grades—Rules 27, 27-a, 27-b, 39-c.

Passing From a Second Grade to a First Grade—Rule 45.

General Fitness, Didactics, Oral Reading—Rule 28.

Check Sheet—Entering Names of Candidates—Rule 29.

Entering Grades—Rules 29-a, 29-b.

In entering black ink grades from a preceding regular examination the county superintendent should bring forward all grades earned in such examination. The county superintendent should enter black ink grades and red ink grades in the lower or "starred" spaces on the check sheet. Place nothing in the upper spaces. This is reserved for entering the new grades. Also leave the columns headed "Grade of Certificate," "Date Issued" and "Time Valid" blank for our use.

Directions For Preparing Returns For Shipment to the State Superintendent—Rules 29-c to 31-b, inclusive.

Send Answer Papers For Special County Certificates in Separate Package—Rule 40-h.

Supplemental Examinations.

County superintendents appointing supplemental examinations should also read carefully Rules 35 and 35-a and see that the conductors for such examinations understand the regulations referred to above.

Examination in Other Counties.

Those having candidates taking examinations at a summer school in a different county should be familiar with Rules 36 to 36-i, inclusive, and note the fact that the preliminaries for all such candidates come from the county superintendent to the state superintendent along with the other preliminaries and that the names of such candidates, together with their grades in general fitness, Didactics and oral reading should be entered on the regular check sheet for the county.

Issuing Certificates—Rule 38-c.

We wish to call attention in particular to the fact that candidates who may have grades sufficient for a first grade certificate, but who

lack in experience, will receive a second grade certificate dated on the first day of the month following the examination. When they have taught thirty-six weeks under authority of this second grade certificate they may pass to a first grade certificate in the same manner that holders of a first grade uniform county certificate will procure a renewal of such certificate, for which see Rules 44 to 44-f, inclusive.

Sending Returns.

As soon as the check sheet for your county can be prepared, your copy will be sent to you before the certificates are written. This is done, first, that you may inspect it to see whether there seems to be any error or an injustice to any candidate; second, that you may know the results as soon as possible, and in time that the candidates may make their plans concerning the July examination.

One week after mailing you your check sheet, we shall begin to write the certificates indicated thereon. We desire, therefore, that you report to us without delay any errors you may discover.

JOHN F. RIGGS,

Superintendent Public Instruction.

June 20, 1908.

N. B.—State Certificate Examination.

A candidate for a state certificate who desires to write at the time of a county examination should file his application and fee, \$2, with the state superintendent before the examination begins. Should any candidate who has not done this appear for examination, the county superintendent may give such candidate the examination, provided he has obtained the questions to be used in such examination. The superintendent shall also obtain the application of the candidate and the examination fee and forward them to the state superintendent.

All answer papers of candidates for state certificates shall be sent to the state superintendent in a different package from the one enclosing the answer papers for the county certificates.

EDUCATIONAL BOARD OF EXAMINERS.

Report of State Examinations.

List of persons receiving State Diplomas and Certificates.

Regulations governing the accrediting of colleges and issuing of State Certificates.

Regulations governing the issuing of Uniform County Certificates.

REGULATIONS

of the Educational Board of Examiners Governing the Classification of Certificates and the Accrediting of Colleges and Normal Schools.

June, 1907.

CLASSIFICATION OF CERTIFICATES.

(The minimum age of one eligible for a uniform county certificate is eighteen years; for a state certificate nineteen years.)

1. **Provisional Certificate.** Issued only in emergency cases and on recommendation of the county superintendent for six months. Valid upon registration only in the county for which it is issued.

2. **Third Grade Uniform County Certificate.** Issued upon examination for six months. Valid upon registration in any county. But two certificates of this grade may be issued to the same person. The county superintendent is not required to register third grade certificates if the schools can be filled with teachers holding higher grade certificates.

3. **Second Grade Uniform County Certificate.*** Issued in first instance upon examination for a term not to exceed two years. Valid in any county upon registration. Subject to one renewal upon examination in one professional subject.

4. **First Grade Uniform County Certificate.*** Issued in first instance upon examination for three years. Valid upon registration in any county. Subject to renewal upon examination in one professional subject.

5. **Special Uniform County Certificate.** Issued for three years. Entitles the holder to teach only the subject or subjects named in certificate. Subject to renewal upon examination in one professional subject.

6. **Second Grade State Certificate.** Issued in first instance upon examination or upon graduation from an approved normal school, or upon a state certificate of proper rank from another state. Valid in any county upon registration. Subject to renewal upon credentials.

7. **First Grade State Certificate.** Issued upon examination or upon graduation from an approved college or university of this state, or upon graduation from a four-year approved normal school of this state, or upon a state certificate of proper rank from another state. Valid in any county upon registration. Subject to renewal on credentials.

8. **Life Diploma.**** Issued upon examination for life. No person eligible to examination who has not held a state certificate and who has not taught for at least three years under the supervision of the State Board. Valid in any county upon registration.

*In transferring from the old system to the new certain county certificates issued prior to October 1, 1905, are renewed under the rules already announced by the Board.

**Examination is not required in subjects already taken for the state certificate held.

SUBJECTS IN WHICH SATISFACTORY KNOWLEDGE MUST BE SHOWN.

1. **For Provisional, Third Grade and Second Grade Uniform County Certificates**, didactics, reading, orthography, writing, arithmetic, geography, grammar, U. S. history, music, physiology.

2. **For First Grade Uniform County Certificate**, all the above and in addition elementary civics, elementary economics, mass physics and algebra to quadratics.

3. **For Second Grade State Certificate**, all the above and in addition bookkeeping (single and double entry), drawing (including composition, illustration, elementary perspective), general botany, civil government of Iowa, algebra (as regards quadratics, ratio, proportion, variation and logarithms), physics (including the topics, light, electricity, magnetism and heat as related to ether physics), economics (including the topics, the marginal theory of value and the laws of distribution, money, its nature and history in the United States, the quantity theory, monopolies and trusts, public ownership or regulation), an examination in English that will require the possession of a good knowledge of rhetoric and American literature, didactics (consisting of the history of education, Iowa school law, elementary psychology, public school management and general methods of instruction applicable to public schools).

4. **For First Grade State Certificate**, all the above and in addition rhetoric, American and English literature, geometry, general history, psychology (including the theory and practice of construction of courses of study for public schools and the management and work of secondary schools).

5. **For Life Diploma**, all the above and in addition trigonometry, chemistry, zoology, geology, astronomy, history of education and school supervision.

HOW A TEACHER MAY PASS FROM ONE GRADE OF CERTIFICATE TO THE NEXT HIGHER.

1. The holder of a uniform county certificate of second grade may pass to a uniform county certificate of first grade by writing the examination in all subjects required for a first grade in which he has no grade and in those in which his black ink grades are below 85 per cent or the red ink grades below 90 per cent.

2. The holder of a first grade uniform county certificate who makes application for a second grade state certificate will receive credit for grades of 85 per cent in common branches which were made in examinations before the Board.

WHEN EXAMINATIONS MUST BE TAKEN.

1. **For Uniform County Certificates.** Examination at each county

seat on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July and October.

2. **For State Certificates.** By arrangement in advance with the county superintendent, applicants for state certificate may write at any regular examination as stated in last paragraph, provided application on a blank furnished for the purpose by the county superintendent is properly filled out and filed in the office of the superintendent of public instruction with the examination fee of \$2, at least twenty days before the date of the examination.

3. **For Life Diploma.** At the office of the superintendent of public instruction at the time the State Teachers' Association is in session.

4. **For Provisional Certificate.** If the exigencies of the case require it, the county superintendent may, with the approval of the president of the Board of Examiners, hold a special examination. No certificate but the provisional can be issued as the result of such an examination.

CERTIFICATES WITHOUT EXAMINATION TO GRADUATES OF UNIVERSITIES, COLLEGES AND NORMAL SCHOOLS LOCATED IN THIS STATE.

THE LAW.

Be It Enacted by the General Assembly of the State of Iowa:

SEC. 2634-f. *Graduates of Accredited Colleges.* That the State Educational Board of Examiners may accept graduation from the regular and collegiate courses in the State University, state normal schools, and the State College of Agriculture and Mechanic Arts and from other institutions of higher learning in the state having regular and collegiate courses of equal rank, as evidence that a teacher possesses the scholarship and professional fitness for a state certificate.

SEC. 2634-g. *State Certificate Granted.* That in all cases where such graduation shows the extent and quality of scholarship that is required by section 2629 of the supplement to the code and when the teacher possesses a good moral character and satisfies the board of being professionally qualified, there shall be granted by the said board of examiners a state certificate valid for five years to teach in any public school in the state.

SEC. 2634-h. *RENEWAL.* That at the close of said five years' period upon proof of at least three years' successful teaching experience, the educational board of examiners may renew such state certificate.

Any college or normal school in Iowa seeking privileges under this law should write the president of the Board for a blank on which to make formal application for accrediting.

I. College Standard.

1. A college or university seeking privileges under this statute must be an institution of higher learning recognized as a standard college of liberal arts, with a faculty properly qualified and possessing adequate equipment and means of support, and maintaining at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination, the college must maintain at

least eight chairs, one of which shall be devoted exclusively to education or at most to psychology and education.

2. The graduates must show the completion of a four-year secondary course and a four-year college course above the usual eight grades of the common schools and the standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

3. The instructor in the professional subjects must be the equal of the members of the faculty in other departments of the institution in ability, scholarship, and specific and technical preparation. Mere successful experience as a teacher will not be accepted as proof of ability to give instruction in the modern subjects of the science of education. It is definitely intended that teachers of education, as in other departments shall have training such as is represented in our best present day graduate departments of education in universities.

4. Applicants from colleges whose general standing, equipment and work are approved by the Educational Board of Examiners, who have not the professional training required, may be granted a state certificate upon successfully passing an examination in psychology and education as hereinafter provided, or upon taking a required course in professional training in approved institutions.

5. The minimum amount of professional work in any college which for students who graduate during the academic year ending June, 1908, will be accepted by the Board of Examiners may be stated as follows: the requirements will be education 1 year, 5 hours per week, and psychology 1 year, 3 hours per week. After the year ending June, 1908, the requirements will be education the equivalent of 1 year 7 hours per week and psychology 1 year 3 hours per week. It will also be required that the college library be adequately supplied with standard works and periodicals on psychology and education. This is intended to mean that the various professional lines shall be so well represented as to enable students to keep fully abreast of current educational thought and practice.

Beginning September, 1908, the work in psychology shall comprise what is usually understood as general or descriptive psychology. The work in education shall comprise:

- (a) Principles of science of education, which may include child study.
- (b) History of education.
- (c) General and special methods of teaching which may include courses in secondary education.

6. To enjoy the privileges provided for by his act each applicant shall present on a blank furnished for this purpose the following information properly certified by an officer of the institution of which he is a graduate:

- (a) A recommendation of good moral character.
- (b) The name of the high school or academy from which the applicant was received into the college, together with the date of completion of the secondary course.
- (c) The number and nature of preparatory credits.
- (d) The course in the college into which the applicant was admitted, the number and nature of his collegiate credits and the degree granted.
- (e) The length of time devoted to the preparatory course and to the college course.

(f) A detailed statement of the nature and amount of professional work pursued in the college.

7. The benefits of this act shall apply to two classes of graduates.

(a) To those who graduate from accredited colleges and universities in June, 1907, or subsequently, who furnish satisfactory evidence that the required conditions stated in this circular have been satisfied.

(b) To those who have already graduated from accredited colleges and universities and who have been engaged regularly in educational work since graduation.

8. When an examination is required in psychology and education it is intended to cover the work required in college courses in these subjects.* One full day will be required for the examination. By arrangement of the county superintendent and completion of application as required by paragraph 2, page 5, of this circular, the professional examination may be taken in any county on the last Friday of January, June, July or October.

9. Graduates of accredited colleges and universities who satisfy the conditions of his circular will be granted the first grade state certificate.

10. The requirements of Section 2629 of the Code must be met by the subjects named therein being taken either in the secondary school or in college. If such credits are not filed, an examination will be required.

II. Normal School Standard.

1. The normal school seeking privileges under this act must be an institution devoted exclusively to the training of teachers and not simply a duplicate of the common and secondary schools. It must maintain at least seven separate and distinct chairs or departments under as many competent instructors not including teachers in the model or practice school. One of the departments shall be devoted exclusively to professional work and training.

It must give actual practice as to laboratory methods to its students in a well organized and conducted training school where classes of pupils are observed and taught under expert supervision and personal inspection and where critic work and lectures are given. Not less than a full year of such laboratory work will be required. The standing and char-

*The courses offered in psychology and education at the state university may be had by application to that institution.

acter of the normal school and its work must be such that its graduates are admitted to junior classification in colleges accredited by the State Educational Board of Examiners as provided under the law quoted on page 5 of this circular.

2. The minimum entrance requirements to an accredited normal school shall be:

(a) The completion of a secondary course offering at least the following work:

Algebra, one and one-half years; plain and solid geometry one year; arithmetic and bookkeeping one year; English grammar one-half year; English composition, rhetoric, American and English literature of good quality and quantity, two and one-half years; history of the United States, one year; general history, one year; civics of the United States and Iowa, one-half year; elements of political economy, one-half year; science, one and one-half years, selected from physiology, botany, physics, zoology and physiography; Latin or German may be offered as a substitute or equivalent for science or other subjects here mentioned provided that the total amount offered represents at least 24 semester credits.

With the above entrance requirement a two-year course representing not less than 1,360 hours of actual class work will be required for a second grade state certificate; a three-year course representing not less than 2,040 hours of actual class work, for a first grade state certificate.

(b) The holder of a first grade uniform county certificate.

With this entrance requirement a three-year course representing not less than 2,040 hours of actual class work, will be required for a second grade state certificate a four-year course representing not less than 2,720 hours of actual class work for a first grade state certificate.

(c) The competition of a four-year accredited high school course.

With this entrance requirement a two-year course representing not less than 1,360 hours of actual class work will be required for the second grade state certificate, a three-year course representing not less than 2,040 hours of actual class work for the first grade state certificate.

As regards the proper division of the hours between the scholastic and the professional studies, it is assumed that the approximate ratio will be three to one. By the professional is meant psychology, school management, history of education, methods of instruction, school administration and practice teaching in the training school.

3. By the term "hour" is meant not less than a 50-minute period of actual recitation. If a shorter period of time is given, computation will be made on this basis to determine whether the standard quantity shown is sufficient.

4. The requirements of Section 2629 of the Code must be met by such subjects being taken as part of the course, either in the secondary school or in the normal school. In every individual case in which such is not shown an examination will be necessary.

5. In order to give opportunity to comply with the standard set out by the Board, this basis will be in force after June 1, 1908. During the interim an approximate standard which is in harmony with this statement will be in force, certificates being granted upon proofs of equivalent scholarship and training. This same method of application of rules will be in force regarding graduates of normal schools previous to 1907, since some of the data now deemed necessary may not be obtainable, the intention being to treat on equal terms with the recent graduates others who are experienced and successful teachers.

6. Twenty hours a week shall constitute the maximum allowance a school may grant each student in order to receive the consideration of the board. In cases where faculties allow more work to be carried the formal examination will be considered as necessary to establish the quality and quantity of scholarship.

RECOGNITION OF CERTIFICATES FROM OTHER STATES.

THE LAW.

SECTION 2630-c. *Validation Authorized.* The State Educational Board of Examiners is hereby empowered to validate certificates issued by state departments of education in other states, where such certificates were issued upon evidence of scholarship and experience equivalent to that required for like certificates under the laws of this state. [32 G. A., ch. 149.]

A state certificate of either the first grade or the second grade will be granted without examination to the holders of state certificates from other states when it is shown that such certificates represent the quality and quantity of scholarship required for like certificates in this state.

It will be required, however, that all persons claiming privileges under this law who did not teach one or more years in Iowa prior to July 1, 1907, shall pass an examination in the history and civil government of Iowa.

By arrangement with the county superintendent and by completing the application as required by paragraph 2, page 5, of this circular, this examination may be taken in any county on the last Friday of January, June, July or October.

STATE CERTIFICATES BY EXAMINATION.

1. **Application.** When a state certificate is sought through examination, application must first be made to the president of the board on a blank provided for that purpose which may be secured at the office of any county superintendent. The application must be accompanied by the examination fee of \$2.

2. **When Examination May Be Taken.** By arrangement with the county superintendent in advance the examination may be taken at any county seat on the last Friday and the Wednesday and Thursday preceding in the months of January, June, July or October of each year.

REPORT OF THE

Other examinations may be appointed by the Board where a large number of applicants will be accommodated.

3. **The Program.** The examination will all be written and must be taken strictly in accordance with the following:

PROGRAM.**FOR SECOND GRADE STATE CERTIFICATE.**

WEDNESDAY A. M.—8:00 to 12:00.

Arithmetic

English

Reading

WEDNESDAY P. M.—1:30 to 5:00.

Geography

Drawing

Botany

THURSDAY A. M.—8:00 to 12:00.

U. S. History

Bookkeeping

Physiology

THURSDAY P. M.—1:30 to 5:00.

Music

Psychology

Grammar

FRIDAY A. M.—8:00 to 12:00.

Algebra

School Law

Economics

History of Education

FRIDAY P. M.—1:30 to 5:00.

Civics

Methods and Management

Physics

ADDITIONAL SUBJECTS FOR FIRST GRADE CERTIFICATE.

SATURDAY A. M.—8:00 to 12:00.

Rhetoric

Literature (American and English)

SATURDAY P. M.—1:30 to 5:00.

Psychology

General History

Geometry

FOR PRIMARY STATE CERTIFICATE.

WEDNESDAY AND THURSDAY.

All subjects, except music and didactics, scheduled for Wednesday and Thursday of a regular uniform county certificate examination. (See page 150.)

NOTE.—Holders of first or second grade uniform county certificates are excused from this part of the examination.

FRIDAY A. M.—8:00 to 12:00.

Psychology of the Child

Primary Methods

History of Education

Plant Study

FRIDAY P. M.—1:30 to 5:00.

Vocal Music

School Management

Physical Training

School Law

Drawing

FOR SPECIAL STATE CERTIFICATES*

FRIDAY A. M.

Examination in the subject for which certificate is desired.

4. **Documentary Examination.** In addition to the formal examination set out in the above programs the following credentials must be filed with the application and fee (See paragraph 1 above).

a. If a regular state certificate—Credentials from county superintendent, city superintendent, and school board showing that applicant has had at least two years of thirty-six weeks each successful experience. These must be original, of recent date, of specific character, and addressed to the State Educational Board of Examiners.

b. If a primary state certificate—1. Credentials from county superintendent, city superintendent and school board showing at least two years of thirty-six weeks each of successful work in regular primary grades, or certified statement of graduation from a two-year training course in a well organized normal school whose course of study is approved by the Board.

2. A satisfactory thesis of at least one thousand words must be presented prior to or at the time of the examination. The subject for thesis is assigned when application is filed.

c. If a special state certificate—1. Credentials from county superintendent, city superintendent and school board showing at least two years of thirty-six weeks each of successful work as a teacher of the subject in which a certificate is asked, or a certified statement of graduation from a two-year training school whose course of study is approved by the Board.

RENEWALS.

For renewal of any state certificate the applicant will be required to file proofs of continuous successful work in the school room during the life of the certificate and pay a fee of \$2.

LIFE DIPLOMA EXAMINATION.

1. **Application.** Any one seeking a life diploma must make application to the president of the board not later than September 1 of the year, using a blank provided for that purpose, and must file with the application the examination fee of \$5 and the credentials specified under paragraph 4 below.

2. **Where Held.** The examination for life diploma is given at the office of the Superintendent of Public Instruction at the time the State Teachers' Association is in session.

*The law authorizing the Educational Board of Examiners to issue special state certificates limits that authority to the following subjects: Music, penmanship, drawing.

3. **Formal Examination.** The state board having previously determined each applicant's proficiency in the first grade state certificate subjects, examination will be required in following only: Trigonometry, chemistry, zoology, geology, astronomy, history of education and school supervision.

4. **Documentary Examination.** Every candidate will be required to file with his application the following credentials:

a. Documentary evidence showing the standing and ability of the applicant as an educator. This evidence should cover recent work.

b. He should also refer to at least three persons of good scholarship and professional success engaged in educational work who can vouch for his success and character.

c. Credentials should be original, of recent date, of specific character, and addressed to the State Educational Board of Examiners.

REGULATIONS GOVERNING THE ISSUING OF UNIFORM COUNTY CERTIFICATES.

February, 1908, Part I—By Examination.

1. **The Examination—Who Must Take.** All applicants for uniform county certificates are required under the law to pass a satisfactory examination, except that under provision of Section 2734-g, 2734-h and 2734-k, School Laws of 1907, and rules 43 and 44 of these regulations, the holders of renewable certificates may offer the same in lieu of part or all of the examination.

2. **Dates—Regular.** Regular examinations for uniform county certificates are held on the last Friday and the Wednesday and Thursday preceding of the months of January, June, July and October. (See Section 2734-c, School Laws of 1907.)

2-a. **Special.** Special examinations may be appointed by the president of the Educational Board of Examiners, upon request of the county superintendent when a sufficient number of licensed teachers cannot be secured, (Section 2734-s, School Laws of 1907) but not more than one special examination should be requested in any one month, and none during the month of a regular examination. A special examination should be advertised in the local press at least two weeks.

3. **Conductor.** The county superintendent shall have charge of the examination and shall determine who may be admitted under the law and the regulations of the Educational Board of Examiners. In case a supplemental examination is appointed (see rule 35) he shall appoint a suitable person to take charge of such examination.

4. **Admission of Applicants.** The county superintendent shall admit to any examination only such persons as meet the requirements of Section 2734-1, School Laws of 1907 (rule 5), and who are of proper age, as determined by rule 6 of these regulations.

5. **Qualification of Applicants.** Before admitting any one to the examination, the county superintendent must be satisfied that the person seeking a certificate is of good moral character, of which fact he may require proof, and is in all respects other than in scholarship possessed of the necessary qualifications as an instructor. Section 2734-1, School Laws of 1907.

6. **Minimum Age For Admission to Regular Examination.** (a) If writing in the January examination, the eighteenth birthday must be reached by the first day of next July.

If writing in the June or July examination, the eighteenth birthday must be reached by the first of the next November.

If writing in the October examination, the eighteenth birthday must be reached by the first day of the next February.

(b) An applicant under eighteen years of age must write on the

preliminary paper the day and month he will be eighteen, and any papers submitted from an applicant who fails to give this date, or whose eighteenth birthday falls after the dates given as provided in (a) such applicant will receive no report of the examination. (See rule 8.)

(c) Persons admitted to the examination under (a), whose examination entitles them to a second grade certificate, shall receive the same at once for one year. Those whose examination entitles them to a third grade certificate shall receive the same on the date the eighteenth birthday will be reached.

7. **Minimum Age For Admission to Special Examinations.** To be eligible to be admitted to a special examination one must have been eligible to be admitted to the last preceding regular examination, or vice versa, one not eligible to be admitted to a regular examination is not eligible to be admitted to any special examination prior to the next succeeding regular examination.

8. **When Admitted Under Age.** Candidates who are under age will receive no report of the examination, nor will their answer papers be returned. Should one under age be admitted to any examination, the fee collected from such candidate should be refunded.

9. **Program of Examination.** The examination shall be strictly in accordance with the following:

PROGRAM OF EXAMINATION.

WEDNESDAY A. M.

8:00 to 8:30, Preliminary.
8:30 to 10:15, Didactics.
10:15 to 11:10, Orthography.
11:10 to 12, Reading.

WEDNESDAY P. M.

1:15 to 3:00, Geography.
3:00 to 5:00, Arithmetic.
5:00 to 6:00, or at convenience of conductor, Oral Reading.

THURSDAY A. M.

8:00 to 8:10, Preliminary.
8:10 to 10:10, U. S. History.
10:10 to 12, Physiology.

THURSDAY P. M.

1:00 to 2:00, Elements of Vocal Music.
2:00 to 4:00, English Grammar.
4:00 to 5:00, Penmanship.

FRIDAY A. M.

8:00 to 8:10, Preliminary.
8:10 to 10:15, Elementary Algebra.
10:15 to 12:00, Elementary Economics.

FRIDAY P. M.

1:00 to 2:45, Elementary Civics.

2:45 to 5:00, Elements of Physics.

9-a. **Each Half-day a Unit.** If a candidate completes a subject before the time set for the examination in the next subject is to begin (see rule 9), the county superintendent may permit such candidate to begin work on the next subject at once, but work scheduled for any half-day may not be taken on any other.

The conductor may also permit candidates who are unavoidably late to divide the remainder of the half-day between the subjects to be written that half-day.

10. **No Change in Program.** The examination in any subject may not be written at any other time than that indicated in the program of examination as set out in rule 9 and modified by rule 9-a.

11. **The Preliminary Blank.** Before beginning to write at any examination the candidate shall fill out a preliminary blank and file with the county superintendent or conductor in charge of the examination, together with the examination fee, one dollar. If the applicant is not known to the county superintendent the preliminary shall be filed with that officer at least one week before the examination. If the candidate has not yet reached his eighteenth birthday, but is eligible to be admitted, he shall enter upon the preliminary the date of the eighteenth birthday.

NOTE—*Number All Preliminary Blanks.* To facilitate the preliminary arrangements, it is suggested that a sufficient number of preliminary blanks previously numbered be placed upon the desks before the opening of the examination. In every case a number should be placed on the preliminary blank before it is handed to the applicant.

11-a. **Assigning Numbers—Regular Examination.** In assigning numbers to applicants, the county superintendent will begin a new series of numbers on the first day of July of each year. The first application, whether for complete renewal, partial renewal or examination, filed in July will be numbered ONE, and the others will be numbered in the order of filing whether the application is for renewal, for a regular or a special examination. No number is to be used more than once during the year in any county.

11-b. **Complete Renewals** shall be numbered but not entered on the grade sheet.

11-c. **Part Renewals.** A candidate who is entitled to a partial renewal will file both an application for renewal and a preliminary (rule 43-d). The number assigned to the paper filed first must appear on both and be used by the candidate in his first examination. Should subsequent trials become necessary, he shall file a preliminary and be assigned a number for each.

11-d. **Supplemental Examinations.** Numbers assigned for a supplemental examination shall be distinguished from those assigned for the one at the county seat by the addition to each number of "B" and the

supplemental examination should begin with the same number as the one held at the county seat.

EXAMPLE—If the numbers in the county seat begin with 25, the series of numbers used at the supplemental examination should begin with 25-B and continue as 26-B, 27-B, 28-B, etc.

NOTE—Care should be exercised both by the candidate and by the conductor to see that the letter "B" is added to the number each time it is written.

12. Examination Fee. At the time of filing the preliminary the candidate shall pay the examination fee, one dollar, which fact shall be indorsed on the preliminary and be certified to by the county superintendent.

13. Distributing Questions. Promptly at the time set in the program for the beginning of the examination in each subject the conductor will clearly announce the subject of examination and the time to be devoted to it; and thereupon will open the proper package of questions and give a list to each applicant.

14. Collecting Answer Papers. At five minutes before the time set in the program for the end of the examination in any subject, the conductor will give a signal preparatory to closing and, in four minutes thereafter, another signal, at which every applicant shall cease writing and shall immediately pass the answer papers to the conductor, except that candidates who are unavoidably late may be granted more time as provided in rule 9-a. Conductors will take up every paper written. No paper should be folded.

15. Occupy Separate Seats. Each applicant must occupy a seat alone during the entire examination, must be as far removed as practicable from other applicants, must not have in his possession any books, notes or papers, except the paper distributed by order of the conductor, and must not leave his seat until the examination on a subject is completed and the answer papers are passed to the conductor.

16. No Communication. An applicant who seeks either to receive or give aid by any form of communication must be dismissed by the conductor, and his papers shall not be forwarded to the department of public instruction. The county superintendent shall in his returns to the State Superintendent report all such cases and the action taken by him in each case.

17. No Explanations. The conductor is to make no explanation of or comment upon the questions or their meaning.

18. Examinations Not to be Divided. No examination may be divided into parts to be taken at different sessions. Having begun to write on a set of questions, the applicant must finish it before intermission.

19. Work Must be in Full. In mathematics no credit will be given for mere results. All operations must be fully indicated by signs or by written analysis.

20. Definite Answers. Answers should be definite and concise. Write no statement of fact not called for by the questions; write every statement called for. All answer papers shall be written in ink.

21. Answer Papers Must Bear Number, But Not Name of Applicant. At the beginning of the examination the county superintendent (conductor) will give to each applicant a preliminary blank on which he has placed a number, which number but not the name of the applicant must appear at the top of every answer paper handed in. Every sheet shall also bear the name of the county in which the examination is held, or of the candidate's residence.

22. First Examination—Subjects Required. A candidate appearing for the first time at a regular examination must write in all of the subjects required for the grade of certificate desired, unless he is entitled to credit on a renewable certificate (rule 43). The examination may not be divided. A portion of the subjects may not be written at one time and the remainder at another.

23. Second, or Re-Examination—Subjects Required. At a second trial made at a regular examination within a year from the first, the candidate will be required to write only in such subjects as are necessary to enable him to meet the requirements for the grade of certificate he desires. *Those who, in the first examination, applied for certificates requiring an examination in the common branches only, but who desire to become candidates for first grade certificates at a second examination within a year may have credit for the grades of 85 per cent or higher earned in such first examination.

Note 1. *Two Minimum Grades.* The candidate must bear in mind that there is a minimum grade and an average grade requirement. At the second trial it is the safer plan to write in all subjects in which the grade is below the required average. See rules 27 and 27-a.

Note 2. *Best Grades.* In combining two examinations, the applicant will receive the benefit of the best grades earned in both.

Note 3. *"Within a Year."* The expression "within a year" is construed to include the four successive regular examinations following the one in which the first trial is made.

Note 4. *Options.* When a candidate writes the entire examination at the second trial, he may elect whether to combine the results of such examination with the "first examination" (rule 22) or to consider it as a "first examination" of a new attempt. The choice must be indicated on the check sheet and when made may not be changed. When the check sheet indicates nothing, it is understood that the candidate desires this examination to be combined with the first.

Note 5. *Using Grades More Than Once.* The combination for which rule 23 provides may be made even though a certificate was issued on the standings earned in the first regular examination (rule 22), or the results of the first examination were combined with a subsequent special examination to procure a provisional certificate. (Note 1, rule 29-c.)

*Reprint from Circular No. 10, 1908.

24. The Third Examination. If an applicant appears in a third examination all subjects required in the first examination must be written, unless such applicant holds a second grade uniform county certificate and is writing for a first grade certificate, in which case the examination need not be taken in subjects which have black ink grades* of 85 per cent or above or red ink grades* of 90 per cent or above on such second grade certificates. (See rule 45.) The third examination is the first trial of another attempt to secure a certificate.

**Note. Black and Red Grades.* Black ink grades are those earned at a regular uniform county examination under the Educational Board of Examiners and red ink grades are those earned under a county superintendent prior to October 1, 1905.

25. Grades of Certificates—Subjects Required. Candidates for second grade, third grade or provisional certificates shall pass examination in didactics, reading, orthography, writing, arithmetic, geography, grammar, United States history, elements of vocal music and physiology. Those for first grade certificates, in addition to the above subjects, must pass examination in elementary civics, elementary economics, elementary physics, and elementary algebra. For the subjects required for special certificates, see rules 40-c, 40-d, and 41.

25-a. Terms of Issue. First grade and special certificates shall be issued for a term of three years; second grade certificates for a period of not to exceed two years; and third grade and provisional certificates for six months, which term the county superintendent may extend to July 1 following the date of issue. (See Sections 2734-e, 2734-g, 2734-h, 2734-i and 2734-t, School Laws of 1907.)

Note. Number Limited. Section 2734-i, School Laws, 1907, limits the number of third grade certificates that may be issued to any one person to two. This does not limit the number of such certificates that a teacher may receive in any one school year, but is construed to mean that a teacher may not teacher under the authority of third grade certificates for a longer period than two years, the possible time limit of two third grade certificates.

26. Experience Necessary| Candidates for first grade certificates shall have had thirty-six weeks of successful experience. For other grades of county certificates no previous experience is required.

27. Passing Grades—Regular Certificates. The minimum passing mark in any subject is indicated by the following table, but an average in all subjects for a first grade certificate shall be 85 per cent; for a second grade certificate, 75 per cent; for a third grade certificate, 65 per cent.

27-a. Table of Minimum Grades.

Subjects	First Grade	Second Grade	Third Grade
Orthography	75	70	60
Reading	75	70	60
Writing	75	70	60
Arithmetic	75	70	60
Geography	75	70	60
Grammar	75	70	60
History of U. S.	75	70	60
Didactics	75	70	60
El. Vocal Music	75	70	60
Physiology and Hygiene	75	70	60
El. Civics	75
El. Algebra	75
El. Economics	75
El. Physics	75

27-b. Passing Grades—Provisional Certificates. For passing grades for provisional certificates, see rule 39-c.

28. General Fitness—Didactics—Oral Reading. The county superintendent shall grade the papers in didactics and assign grades in the general fitness of each candidate. He or the conductor of the examination shall also examine each candidate in oral reading. All grades thus assigned shall be on the basis of 100 per cent.

Note. Fitness—Basis For. In assigning a grade in general fitness, scholarship should not be considered. This grade is based upon the other qualities that go to make a successful teacher. The rank of the applicant will be determined by applying the table of averages (rule 27) to the grade in fitness assigned to such candidate.

29. The Grade Sheet—Names of Candidates. The county superintendent shall fill out in duplicate grade sheets, showing on both copies the (1) name, (2) address, (3) age (4) examination number, (5) record of teaching experience of each candidate, together with the grades in (1) general fitness, (2) didactics, and (3) oral reading. All names shall be entered in the order of their examination number.

29-a. Black Ink Grades. In addition to the above he will enter in black ink the grades earned by each candidate in the last regular examination written by him and for which he is entitled to credit, always being sure that grades from but one regular examination are so entered. (See rule 23.)

29-b. Red Ink Grades. In the case of those entitled to partial credit on account of holding a renewable certificate (rule 43-d), the county superintendent shall also enter in red ink the grades in those subjects in which examination is not required.

Note 1. No Data Entered. In cases of complete renewals, no examination being required, no data should be entered on the grade sheet.

Note 2. Use Care. The county superintendent cannot be too careful in making these entries. It is vital that no mistake be made in this record. (Rules 29 to 39-b.)

29-c. Inspect Answer Papers. The conductor of any examination shall inspect every sheet of answer paper to see that it bears (1) the can-

didate's number and (2) the name of the county of the candidate's residence.

29-d. Check Answer Papers Written. Before sealing the answer papers in any subject as directed in rule 30, the conductor will indicate on one of the grade sheets the candidates writing in that subject by placing, in pencil, a dot or small check-mark in the proper lower or starred space.

30. Sealing Answer Papers. At the close of the examination in any subject, the conductor will arrange the papers in a flat package in the order of the numbers assigned, and seal the package in the presence of the class. This may be done either with strips of paper or by inclosing in a heavy envelope prepared for that purpose. Each package shall bear the name of the subject and the number of answer papers it contains.

31. Forwarding Returns—Answer Papers. Immediately after the close of an examination the county superintendent shall forward to the Superintendent of Public Instruction by prepaid express all answer papers written in his county, except those in didactics.

31-a. Preliminary Papers. The preliminary papers of all candidates shall be arranged in numerical order, sealed and labeled, and the number thereof indicated on the outside of the package. This package should be shipped to the Superintendent of Public Instruction in the same manner and at the same time the answer papers are forwarded.

31-b. Grade Sheets. Not later than five days after the close of an examination the county superintendent shall forward to the Superintendent of Public Instruction by mail or prepaid express the grade sheets of the examination in his county filled out as provided in rules 29 to 29-d.

32. Appeal. In case an applicant believes a mistake has been made in his markings by the State Board of Examiners or in transcribing the grades, he may appeal his case to the Superintendent of Public Instruction for final hearing, provided his appeal is accompanied by a fee of one dollar to cover the expenses of reviewing the papers and tracing the error. No appeal will be considered later than thirty days after the time the applicant is notified of the result of the examination.

33. Papers Kept Ninety Days. The answer papers of all applicants will be kept on file in the office of the State Superintendent for ninety days, after which they will be destroyed. The answer papers in didactics will be kept on file in the office of the county superintendent for a like period of time.

34. Examined in County of Residence. An applicant should attend the examination in the county of his residence or in the county where he last taught or in the county where he has contracted to teach. When a compliance with this regulation is clearly impracticable, the applicant

may arrange in advance with the county superintendent of another county to take the examination in said county. (See rule 36.)

35. Supplemental Examinations—Appointment—Manner of Conducting. When the request of a county superintendent for a supplemental examination is filed with the president of the Educational Board of Examiners at least twenty days before the first day of any regular examination, such supplemental examination may be appointed at any place, in the county, other than the county seat, designated in the request. Such examination shall be conducted in the same manner as the one held at the county seat and shall be in charge of a conductor appointed by the county superintendent, who shall perform all of the duties of the county superintendent at that examination as required by rules 28, 29, 29-c, 29-d, 30 and 31-a, except that he may not give grades in general fitness and didactics, and provided further that he shall send all papers to the county superintendent. (See rule 35-a.)

Note 1. When Authorized. It is only in exceptional cases and where a large number of applicants will be accommodated that a second examination will be authorized. The request for such examination shall state the probable number of applicants that will be accommodated thereby.

Note 2. Numbers. See rule 11-d.

35-a. Forwarding Returns. At the close of the examination in didactics, the conductor shall forward to the county superintendent the answer papers in this subject, and at the close of the examination the answer papers in all other subjects and the preliminary papers, together with the grade sheet.

The county superintendent shall grade the answer papers in didactics, as provided in rule 28, make the necessary entries on the grade sheets to make them conform to the requirements in rules 29 and 29-d, and forward to the Superintendent of Public Instruction the answer papers, preliminaries and grade sheets, as required in rules 31 to 31-b.

36. Examination in a County Other Than That of the Residence of the Applicant. An applicant attending an educational institution in a county other than that of his residence may write the examination at such institution at the time of the regular examination under the following regulations, provided an examination has been authorized at such institution.

36-a. Application—Fee. An applicant desiring to write an examination held at such institution (rule 36) shall file with the county superintendent of the county of his residence a preliminary blank properly filled out, together with the examination fee, one dollar, at least one week before the date for the examination.

36-b. Certificate of Admission—Number. Upon receipt of the preliminary properly filled out and the examination fee the county superintendent shall at once assign such applicant an examination number and forward to him a certificate of admission, which shall also give

the examination number to be used in said examination. The county superintendent shall also indorse upon the preliminary of such candidate the examination number thus assigned and his acknowledgement of the receipt of the fee and forward to the Superintendent of Public Instruction as provided in rule 31-a. If the county superintendent is of the opinion that a candidate should not be admitted to such examination, he shall at once return the fee and the preliminary to the candidate.

36-c. The Examination—Appointment—Admission of Candidates. With the consent of the county superintendent of the county in which such institution is located, such applicant may upon presentation of said certificate of admission, be admitted to a supplemental examination appointed to be held at such institution; or if the county superintendent has not requested a supplemental examination at such institution or declines to admit such candidate to an examination appointed for that place, the Educational Board of Examiners will appoint an examination where twenty or more applicants will be accommodated, and name a conductor for the place, at which such candidate may be admitted upon the presentation of said certificate.

36-d. Rules. Such examinations shall be conducted under the rules for regular examinations, so far as applicable.

36-e. Name of County. The name of the county of the applicant's residence and his examination number must appear at the top of every sheet of the answer papers written by him at such examination. (See rule 29-c.)

36-f. Answer Papers—Where Sent. As soon as the examination in any subject is completed, the answer papers shall be collected, those from each county fastened together and all into one package which shall be sealed and labeled with the name of the branch and number of papers inclosed. When the examination in all subjects is completed and the answer papers packaged as above directed, they shall be shipped to the Superintendent of Public Instruction, except the papers in didactics, which shall be forwarded to the county superintendent as directed in rule 36-h.

36-g. Grade Sheet. The conductor of such examination shall prepare a grade sheet (one copy) which shall show the names and numbers of all candidates. The candidates from each county shall be arranged in the order of their numbering and the counties alphabetically. The grade sheet shall also show the subjects written by each candidate as directed in rule 29-d. When completed it shall be sent to the Superintendent of Public Instruction.

36-h. General Fitness—Didactics—Oral Reading. As soon as the examination in didactics is completed the conductor of such examination shall forward to the county superintendent of the county of the applicant's residence by mail or express the answer papers in this subject, and

when the examination in oral reading is completed he will forward by mail the grades in this subject.

Upon receipt of the answer papers in didactics the county superintendent shall grade the same and shall enter the grades in general fitness, didactics and oral reading on the same grade sheet in like manner as the grades for the other candidates are reported.

36-i. Part Renewals. The foregoing regulations apply also to persons who are entitled to part renewal, who have written the theme paper in the home county and have paid the examination fee to the home county superintendent.

37. Scope of Examinations. The examination for second grade certificate will cover the required subjects, as treated in standard current text-books.

The examination in the four advanced subjects will cover the following:

Physics—Mass physics, as distinguished from ether physics, including mechanics of solids, mechanics of fluids, sound, and the greater part of heat.

Algebra—As far as quadratic equations, including factoring, fractions, simple equations with one or more unknown quantities, involution, and evolution.

Civics—The constitution and government of the United States, and the general government of the state of Iowa.

Economics—Fundamental definitions with especial attention to discrimination between utility and value, goods and wealth; the departments of economics; the agents of production, including business management and government protection; the Malthusian doctrine; the law of diminishing returns; co-operation; socialism; trades unions; arbitration.

38. Grading Answer Papers. The head readers and assistant readers, previously appointed by the Educational Board of Examiners, will assemble at the office of the Superintendent of Public Instruction on the Monday following any regular examination and proceed to grade the answer papers under the supervision of the President of the Educational Board of Examiners.

38-a. Order of Grading. The packages will be opened in the order received, as near as may be determined, and the same order will be observed, as near as practicable, in the grading, checking, issuing of certificates and sending reports.

38-b. Full Credit For Work Done. Applicants undertaking one grade of examination and failing to attain the standard required for a certificate of that grade will be given the highest grade of certificate their standings and the recommendation of their county superintendent will warrant.

38-c. Issuing the Certificates. Certificates will be issued to all who earn them even though the applicant be at the time the holder of one or more unexpired certificates. But one certificate may be issued upon one examination fee. Those failing to earn certificates will receive statements showing the grades earned. Candidates whose examination and recommendations entitle them to first grade certificates, but who on account of age or experience are ineligible to receive the same, will receive second grade certificates which may be exchanged for first grade certificates in the same manner as provided for the renewal of uniform first grade certificates. (See rules 44 to 44-f.)

38-d. Date of Certificates. All certificates and statements issued from any regular examination will bear date of the first of the month following the examination, unless that date falls on Sunday, in which case of the day following.

Note. Depositing Fees. This fact makes it highly desirable that examination fees be deposited on the first day of the month, particularly the June examination fees so that the record of fees may be of the same school year as the record of the examination and certification of teachers as the result of that examination.

38-d. Date of Certificates. All certificates and statements issued for a county are ready for distribution, they will be wrapped in a flat package and shipped to the county superintendent of said county for distribution. A copy of the grade sheet will be inclosed with the certificates or mailed as soon as completed.

39. Provisional Certificates. When in the judgment of the county superintendent additional teachers are necessary for his county, provisional certificates may be obtained, but in no case will a provisional certificate be issued, except upon the application of the county superintendent of the county for which it is desired.

39-a. On Previous Regular Examinations. Upon the request of the county superintendent, provisional certificates may be issued to those applicants in a preceding regular examination whose grades meet the requirements set out in rule 39-c, provided that no provisional certificate may be requested on grades earned prior to the last preceding regular June examination.

Note. Papers to File. When a provisional certificate is requested on a previous examination in the county for which it is desired, no additional fee should be collected and the only additional paper to be filed is the county superintendent's request for a provisional certificate which shall give the date of the examination and the candidate's number. In every case that a provisional certificate is requested, the county superintendent of the county for which the provisional certificate is desired shall file this blank with the Superintendent of Public Instruction.

39-b. Special Examinations. If a shortage of teachers still exists a special examination for the county may be appointed by the president of the Educational Board of Examiners (rule 2-a) upon the request of the county superintendent. Such examination shall be conducted in the same manner as a regular examination, except that the county superin-

tendent may determine the program of examination. Grades earned at a special examination may not be credited on a certificate of first, second or third grade, or a special certificate.

Note. Minimum Age. See rules 7 and 8.

39-c. Standings Required. To be entitled to a provisional certificate in addition to the request of the county superintendent, the applicant must have an average of 65 per cent, with no grade below 55 per cent, all or part of which are earned in an examination in the county for which the certificate is desired, except as provided in rule 39-e.

Note 1. Combining Results. In order to obtain standings for a provisional certificate, a candidate may combine the results of (a) two regular examinations as provided in rule 23; (b) two consecutive (as to taking) special examinations written during the same school year (rule 39-d); or (c) a regular examination with the first special examination taken thereafter.

39-d. Provisional. Certificates on Previous Special Examinations. Provisional certificates may not be requested upon special examinations held prior to the last preceding regular June examination.

Note. Papers to File. The county superintendent shall file a request for a provisional, when a certificate is desired under this provision.

39-e. Provisionals On Standings Earned In Other Counties. When a county superintendent requests a provisional certificate for one whose grades were earned in another county, such grades if they meet the requirements set out in rule 39-c will be transferred to the county for which the certificate is desired, and the certificate issued thereon, provided (1) the applicant files a preliminary with the county superintendent of said county and pays him the examination fee, and (2) that said county superintendent forwards such preliminary, on which he has certified to the receipt of the fee, to the Superintendent of Public Instruction, together with a request for a provisional certificate. (Rule 39-a, note.)

39-f. Provisional Certificates to Candidates From Other States. When a teacher of another state of well established experience and efficiency, of which fact the county superintendent may require proof, is chosen to a public school position in this state and must enter upon the duties of such position before the date of the next regular county examination, a provisional certificate will be issued without examination upon the recommendation of the county superintendent, provided the person so recommended has within three years taught on a certificate of at least the second grade or has such a certificate in force in another state. This provision will also apply to graduates of standard colleges of other states, where such graduates cannot be granted an Iowa state certificate.

39-g. Papers to be Filed. A candidate for a provisional certificate under rule 39-f shall file with the county superintendent of the county in which he desires to teach a preliminary properly filled out, together with the fee, one dollar, and the certificate upon which he desires the provisional certificate to be issued. Candidates for such certificates may

38-c. Issuing the Certificates. Certificates will be issued to all who earn them even though the applicant be at the time the holder of one or more unexpired certificates. But one certificate may be issued upon one examination fee. Those failing to earn certificates will receive statements showing the grades earned. Candidates whose examination and recommendations entitle them to first grade certificates, but who on account of age or experience are ineligible to receive the same, will receive second grade certificates which may be exchanged for first grade certificates in the same manner as provided for the renewal of uniform first grade certificates. (See rules 44 to 44-f.)

38-d. Date of Certificates. All certificates and statements issued from any regular examination will bear date of the first of the month following the examination, unless that date falls on Sunday, in which case of the day following.

Note. Depositing Fees. This fact makes it highly desirable that examination fees be deposited on the first day of the month, particularly the June examination fees so that the record of fees may be of the same school year as the record of the examination and certification of teachers as the result of that examination.

38-d. Date of Certificates. All certificates and statements issued for a county are ready for distribution, they will be wrapped in a flat package and shipped to the county superintendent of said county for distribution. A copy of the grade sheet will be inclosed with the certificates or mailed as soon as completed.

39. Provisional Certificates. When in the judgment of the county superintendent additional teachers are necessary for his county, provisional certificates may be obtained, but in no case will a provisional certificate be issued, except upon the application of the county superintendent of the county for which it is desired.

39-a. On Previous Regular Examinations. Upon the request of the county superintendent, provisional certificates may be issued to those applicants in a preceding regular examination whose grades meet the requirements set out in rule 39-c, provided that no provisional certificate may be requested on grades earned prior to the last preceding regular June examination.

Note. Papers to File. When a provisional certificate is requested on a previous examination in the county for which it is desired, no additional fee should be collected and the only additional paper to be filed is the county superintendent's request for a provisional certificate which shall give the date of the examination and the candidate's number. In every case that a provisional certificate is requested, the county superintendent of the county for which the provisional certificate is desired shall file this blank with the Superintendent of Public Instruction.

39-b. Special Examinations. If a shortage of teachers still exists a special examination for the county may be appointed by the president of the Educational Board of Examiners (rule 2-a) upon the request of the county superintendent. Such examination shall be conducted in the same manner as a regular examination, except that the county superin-

tendent may determine the program of examination. Grades earned at a special examination may not be credited on a certificate of first, second or third grade, or a special certificate.

Note. Minimum Age. See rules 7 and 8.

39-c. Standings Required. To be entitled to a provisional certificate in addition to the request of the county superintendent, the applicant must have an average of 65 per cent, with no grade below 55 per cent, all or part of which are earned in an examination in the county for which the certificate is desired, except as provided in rule 39-e.

Note 1. Combining Results. In order to obtain standings for a provisional certificate, a candidate may combine the results of (a) two regular examinations as provided in rule 23; (b) two consecutive (as to taking) special examinations written during the same school year (rule 39-d); or (c) a regular examination with the first special examination taken thereafter.

39-d. Provisional. Certificates on Previous Special Examinations. Provisional certificates may not be requested upon special examinations held prior to the last preceding regular June examination.

Note. Papers to File. The county superintendent shall file a request for a provisional, when a certificate is desired under this provision.

39-e. Provisionals On Standings Earned In Other Counties. When a county superintendent requests a provisional certificate for one whose grades were earned in another county, such grades if they meet the requirements set out in rule 39-c will be transferred to the county for which the certificate is desired, and the certificate issued thereon, provided (1) the applicant files a preliminary with the county superintendent of said county and pays him the examination fee, and (2) that said county superintendent forwards such preliminary, on which he has certified to the receipt of the fee, to the Superintendent of Public Instruction, together with a request for a provisional certificate. (Rule 39-a, note.)

39-f. Provisional Certificates to Candidates From Other States. When a teacher of another state of well established experience and efficiency, of which fact the county superintendent may require proof, is chosen to a public school position in this state and must enter upon the duties of such position before the date of the next regular county examination, a provisional certificate will be issued without examination upon the recommendation of the county superintendent, provided the person so recommended has within three years taught on a certificate of at least the second grade or has such a certificate in force in another state. This provision will also apply to graduates of standard colleges of other states, where such graduates cannot be granted an Iowa state certificate.

39-g. Papers to be Filed. A candidate for a provisional certificate under rule 39-f shall file with the county superintendent of the county in which he desires to teach a preliminary properly filled out, together with the fee, one dollar, and the certificate upon which he desires the provisional certificate to be issued. Candidates for such certificates may

38-c. Issuing the Certificates. Certificates will be issued to all who earn them even though the applicant be at the time the holder of one or more unexpired certificates. But one certificate may be issued upon one examination fee. Those failing to earn certificates will receive statements showing the grades earned. Candidates whose examination recommendations entitle them to first grade certificates, but who on account of age or experience are ineligible to receive the same, will receive second grade certificates which may be exchanged for first grade certificates in the same manner as provided for the renewal of uniform first grade certificates. (See rules 44 to 44-f.)

38-d. Date of Certificates. All certificates and statements issued from any regular examination will bear date of the first of the month following the examination, unless that date falls on Sunday, in which case the date will be the first of the day following.

Note. Depositing Fees. This fact makes it highly desirable that examination fees be deposited on the first day of the month, particularly the June examination fees so that the record of fees may be of the same school year as the record of the examination certification of teachers as the result of that examination.

38-d. Date of Certificates. All certificates and statements issued for a county are ready for distribution, they will be wrapped in a flat package and shipped to the county superintendent of said county for distribution. A copy of the grade sheet will be inclosed with the certificates or mailed as soon as completed.

39. Provisional Certificates. When in the judgment of the county superintendent additional teachers are necessary for his county, provisional certificates may be obtained, but in no case will a provisional certificate be issued, except upon the application of the county superintendent of the county for which it is desired.

39-a. On Previous Regular Examinations. Upon the request of the county superintendent, provisional certificates may be issued to the applicants in a preceding regular examination whose grades meet the requirements set out in rule 39-c, provided that no provisional certificate may be requested on grades earned prior to the last preceding regular June examination.

Note. Papers to File. When a provisional certificate is requested on a previous examination in the county for which it is desired, no additional fee should be collected. The only additional paper to be filed is the county superintendent's request for a provisional certificate which shall give the date of the examination and the candidate's number. In every case that a provisional certificate is requested, the county superintendent of the county for which the provisional certificate is desired shall file this blank with the Superintendent of Public Instruction.

39-b. Special Examinations. If a shortage of teachers still exists, a special examination for the county may be appointed by the president of the Educational Board of Examiners (rule 2-a) upon the request of the county superintendent. Such examination shall be conducted in the same manner as a regular examination, except that the county superintendent

tendent may determine the program of examination. Grades earned at a special examination may not be credited on a certificate of first, second or third grade, or a special certificate.

Note. Minimum Age. See rules 7 and 8.

39-c. Standings Required. To be entitled to a provisional certificate in addition to the request of the county superintendent, the applicant must have an average of 65 per cent, with no grade below 55 per cent, all or part of which are earned in an examination in the county for which the certificate is desired, except as provided in rule 39-e.

Note 1. Combining Results. In order to obtain standings for a provisional certificate, a candidate may combine the results of (a) two regular examinations as provided in rule 23; (b) two consecutive (as to taking) special examinations written during the same school year (rule 39-d); or (c) a regular examination with the first special examination taken thereafter.

39-d. Provisional. Certificates on Previous Special Examinations. Provisional certificates may not be requested upon special examinations held prior to the last preceding regular June examination.

Note. Papers to File. The county superintendent shall file a request for a provisional, when a certificate is desired under this provision.

39-e. Provisionals On Standings Earned In Other Counties. When a county superintendent requests a provisional certificate for one whose grades were earned in another county, such grades if they meet the requirements set out in rule 39-c will be transferred to the county for which the certificate is desired, and the certificate issued thereon, provided (1) the applicant files a preliminary with the county superintendent of said county and pays him the examination fee, and (2) that said county superintendent forwards such preliminary, on which he has certified to the receipt of the fee, to the Superintendent of Public Instruction, together with a request for a provisional certificate. (Rule 39-a, note.)

39-f. Provisional Certificates to Candidates From Other States. When a teacher of another state of well established experience and efficiency, of which fact the county superintendent may require proof, is chosen to a public school position in this state and must enter upon the duties of such position before the date of the next regular county examination, a provisional certificate will be issued without examination upon the recommendation of the county superintendent, provided the person so recommended has within three years taught on a certificate of at least the second grade or has such a certificate in force in another state. This provision will also apply to graduates of standard colleges of other states, where such graduates cannot be granted an Iowa state certificate.

39-g. Papers to be Filed. A candidate for a provisional certificate under rule 39-f shall file with the county superintendent of the county in which he desires to teach a preliminary properly filled out, together with the fee, one dollar, and the certificate upon which he desires the provisional certificate to be issued. Candidates for such certificates may

offer proof of graduation from a regular course of a standard educational institution in lieu of the certificate required above.

39-h. County Superintendent to Forward Papers. When the above have been filed with the county superintendent, if he is of the opinion that such certificate should be issued, he will forward to the Superintendent of Public Instruction the preliminary, a request for a provisional certificate, a county superintendent's statement covering the certificate filed (the certificate should not be sent) or proof of college graduation and such other credentials as may have been filed.

40. Special Certificates—Examination. An applicant for a special uniform county certificate who is not a holder of a certificate issued by a county superintendent prior to October 1., 1905, for the subject or group of subjects for which the certificate is desired, may obtain the same subject to the following regulations:

40-a. Character—Preparation. An applicant for a special certificate shall be a person of good moral character and shall be recommended by the county superintendent and by at least one other educator as specially fitted to teach successfully the subject or group of subjects for which the certificate is sought.

40-b. Application—Fee. Every applicant for a special certificate shall file with the county superintendent a preliminary properly filled out and the recommendation required by rule 40-a and pay the examination fee, one dollar.

40-c. Subjects Required—Professional. The applicant for a special certificate shall pass a satisfactory examination in psychology, school management and principles and methods of instruction, as applied to secondary education, in addition to the scholastic examination.

Note. Kindergarten Teachers will be examined on the principles and methods of instruction as applied to primary education.

40-d. Subjects Required—Scholastic. The applicant for a special certificate shall pass a thorough examination in the special subject or group of subjects for which the certificate is sought.

40-e. Scholastic Credit. Graduates of standard educational institutions may file record of credits which may be accepted in lieu of the examination in the subject or group of subjects for which the certificate is desired.

40-f. Examination Dates. Examinations for special certificates will be held on the last Friday and the Thursday preceding of January, June, July and October, provided the county superintendent requests questions for such examination at least twenty days before it is to be held.

40-g. Program of Examination. 1. Thursday—Psychology, school management and principles and methods of instruction.

2. Friday—The scholastic examination in the subject or group of subjects for which a certificate is desired.

Note. Order of Examination. The county superintendent will determine the order in which the subjects of each day will be taken up.

40-h. Forwarding Returns. The answer papers for special county certificates shall be put in a package by themselves, sealed and labeled with the names of the subjects and number of papers. They shall then be forwarded to the Superintendent of Public Instruction, together with the preliminaries and such other papers as may be in the hands of the county superintendent.

41. Kinds of Special Certificates. Special certificates will be issued as follows:

1, music; 2, penmanship; 3, drawing; 4, kindergarten; 5, domestic science; 6, manual training; 7, Latin; 8, German; 9, Greek; 10, French; 11, physical culture; 12, English, including grammar, rhetoric, English composition and English and American literature; 13, history and political science, including Greek, Roman, English and American history, civil government of Iowa and of the United States, and economics; 14, mathematics, including higher arithmetic, algebra, geometry and trigonometry; 15, natural science, including physiology, physical geography, geology, botany and zoology; 16, physical science, including physics, chemistry and astronomy; 17, commercial, including arithmetic, penmanship, bookkeeping and commercial law; 18, stenography.

42. Subjects Covered by a Certificate. A candidate desiring a special certificate to cover two subjects or groups of subjects may obtain such certificate without an additional fee provided the examination in both subjects or groups of subjects is written at the same time.

Note. Two Subjects. Not more than two subjects or groups of subjects may be included on the same certificate.

Part II—By Renewal.

43. Renewal of Certificates Issued by County Superintendents Prior to October 1, 1905. Any teacher holding a first grade two-year certificate, a special certificate, or a second grade certificate bearing first grade per cents (90 per cent or higher) issued by a county superintendent prior to October 1, 1905, and who has taught successfully for at least six months during the school year preceding the date of application, may offer the same in lieu of part or all of the examination for a uniform county certificate. (See Section 2734-k, School Laws 1907.)

Note. Limit to Renewal. Some holders of renewable certificates received two-year certificates prior to October 1, 1906, which will expire during the year 1908. It will therefore be necessary for the holders of such certificates to procure the renewal of the certificates issued prior to October 1, 1905, before June 30, 1909, in order to meet the experience requirement of section 2734-k, School Laws of 1907.

43-a. Professional Certificates. Certificates issued by county superintendents prior to October 1, 1905, and designated as "Professional" will be classed as first or second grade, and be subject to renewal as such in accordance with the evidence of scholarship and successful experience furnished the Educational Board of Examiners.

43-b. Conditions For Renewal. Candidates for renewal of cer-

tificates issued by county superintendents prior to October 1, 1905, shall file with the county superintendent the following papers properly prepared and pay the usual examination fee, one dollar.

43-c. Papers Necessary to File For Renewal of a County Certificate.

1. Application for Renewal—The candidate shall first file an application for renewal and the certificate to be renewed with the county superintendent.

2. Theme Paper—The candidate for renewal shall write in the presence of the county superintendent, or some person appointed by him, a theme paper of from three hundred to five hundred words on one of the following topics selected by the candidate:

TOPICS.

- (1.) The educational theories of Rosseau.
- (2.) The doctrine of interest.
- (3.) A discussion of Herbert Spencer's Theory of Punishment.
- (4.) The use of the study period.
- (5.) The Panama canal.
- (6.) Reclaiming the arid lands of the West.
- (7.) The value of handwork in public schools.

The county superintendent shall determine when a candidate for renewal may write the above required theme paper.

3. Director's Statement—Director's statements signed by a majority of the members of the board showing at least six months' successful experience during the school year preceding the date of the application for renewal.

4. City Superintendent's Statement—Candidates who taught in a grade school during the year preceding the date of the application for renewal shall file the statement of the city superintendent or principal, certifying to the professional fitness and success of the applicant.

5. County Superintendent's Statement—The county superintendent shall certify that the applicant is a successful teacher of professional spirit; that he is the holder of a renewable certificate and that the grades submitted are correct copies of the grades on such certificate; that said applicant taught successfully at least six months during the school year preceding the date of application.

6. Five Years' Experience—In order that the holder of a second grade certificate with grades below 90 per cent may secure a renewal of such certificate, it will be necessary for the county superintendent to also certify that said applicant has taught successfully at least six months each school year for not less than the five school years next preceding the date of the application.

43-d. Partial Renewal. In case it becomes necessary for a candidate to pass in a portion of the subjects, he shall (1) do so at a regular examination, at which time he will file the usual preliminary blank prop-

erly filled out, (2) file an application for renewal at the time of writing the theme paper, and (3) pay one examination fee of one dollar at the time of filing the one of the above blanks filed first. The renewal fee entitles the candidate to one examination, but if it becomes necessary for him to take more than one examination, an additional fee must be paid for each examination after the first.

The county superintendent shall certify the receipt of the fee on the blank the applicant files at the time he received the same. If both blanks are filed at the same time, this certificate should be made on the preliminary blank. If the application for renewal is received at the time the fee is paid, the certificate should be made upon that blank. In either case the blank not bearing the certificate of the receipt of the fee should recite the fact that the certificate is on the other blank.

Note. Subsequent Credit. The holder of a certificate eligible to partial renewal is entitled to the same credit in subsequent trials as he was entitled in the first.

43-e. Forwarding Credentials. When all of the credentials and the theme paper of any candidate are in the hands of the county superintendent he should fasten them together with the application for renewal first or on top, followed by the county superintendent's statement, city superintendent's statement, director's statement, and theme paper, in the order named. The certificate offered for renewal should not be forwarded.

43-f. Where No Examination Is Required. The credentials and themes of candidates who are required to write no examination should be collected in one package and sealed and labeled "Complete Renewals" and the number of such applications indicated on the outside of the package.

43-g. Where Part Examination Is Required. The credentials of candidates who are required to write a portion of the examination should be collected in another package and labeled "Partial Renewals," and the number of such applications indicated on the outside.

Note. Preliminary Papers. The preliminary blanks should not be enclosed in these packages, but should be sent in a package by themselves, as directed in rule 32-a.

44. Renewal of Uniform County Certificates. Holders of uniform county first and second grade and special certificates may have the same renewed under the following conditions, the second grade being limited to one renewal. (See Sections 2734-g, 2734-h and 2734-e, School Laws of 1907.) Third grade and provisional certificates may not be renewed nor may grades on such certificates receive credit except as provided in rule 23.

44-a. Application For Renewal. A candidate for renewal of a uniform county certificate shall file with the county superintendent an application for renewal and pay the examination fee, one dollar.

44-b. Experience. He shall also file with that officer proof of successful experience under the certificate to be renewed; holders of second

grade certificates to show at least six months' successful experience and holders of first grade and special certificates nine months.

44-c. County Superintendent's Recommendation. The county superintendent under whom the applicant has taught must recommend that the certificate be renewed.

Note. What to Consider. In deciding whether a renewal will be recommended, the county superintendent should consider the teacher's success in the school-room, and her professional spirit as evidenced by the reading of professional books and papers, and where practicable, attendance upon educational meetings and institutes.

44-d. Professional Subjects. The applicant must write an examination in elementary psychology. This examination may be taken on the last day of a regular examination, provided the county superintendent requests questions for such examination at least twenty days before it is to be held.

For the renewal of a first grade or special certificate the questions, ten in number, will be based upon the entire outline given in *Facts Teachers Should Know*, (*Outline of Psychology*) and those for the renewal of a second grade certificate, ten in number, on that part of the outline found on pages 9 to 17 inclusive. All answer papers will be read and graded in the office of the Superintendent of Public Instruction.

Note.—*Facts Teachers Should Know* is now published as *Outline of Psychology for the Renewal of Uniform County Certificates*.

44-e. Professional Spirit. As an evidence of proper professional spirit, the applicant for the renewal of a uniform county certificate shall file with the county superintendent a complete record of institute attendance and attendance at educational institutions during the life of the certificate to be renewed. The record of institute attendance shall be certified by the county superintendent having charge of said institute and shall exhibit the number of days' attendance each year, while the record of attendance at educational institutions shall be certified by the proper officers of the institution and shall exhibit the number of week's attendance each year.

Note. Certificate of Attendance. It is desired that the county superintendent provide each holder of a renewable uniform county certificate with a certified copy of his record of institute attendance. The filing of this record with the application for renewal is required of the candidate in lieu of the report of institute attendance for which section 2734-v provides.

44-f. Forwarding Credentials. When the case is complete, the county superintendent will forward to the Superintendent of Public Instruction the papers filed by the candidate, together with his recommendation, as required in rule 44-c.

45. Passing From a Second to a First Grade Certificate. The holder of a uniform county certificate of second grade may pass to a uniform county certificate of first grade by writing the examination in all subjects required for a first grade in which he has no grade and in those in which

ation fees shall be paid to the county superintendent. The certificates must be
the county superintendent of the county in which the holder desires to
registration fee is one dollar. Registration in a county validates a license
y until the first day of July following.

Additional Fee, either examination or registration, shall be collected when a
r provisional certificate is extended.

Fees. The county superintendent should hold fee for county certificates by
:wal and on credentials from other states until the cases are decided. Those
newal should be held until the candidates take the examination.

Examining Examination Fees. The county superintendent should deposit examina-
-half with the state treasurer and one-half with the county treasurer, on the
month following the examination at which such fees were received. Fees for
partial renewal should be included with those of the examination in which
writes. Those for certificates by complete renewal or on credentials from
ould be deposited the first of the month following the date of the issue of
or of notification that the certificate will be issued.

N LISTS OF QUESTIONS—FIRST GRADE CERTIFI- CATE.

(Answer all.)

out and correct any violations in each of the following sentences:
ng the return trip, we were all tired and sleepy, hence very few stories

r leaving Baltimore, our journey continued without interruption.
ough the soldier performs many duties and undergoes many hardships, the
res for them during their active service and after they have been retired.
is a loose sentence? a periodic sentence? a balanced sentence? parallel

sample of each.

What principles of composition are to be observed in paragraph structure?

: are some of the means of transition from one paragraph to another?

: is a topic sentence?

Give six rules for the use of the comma; two rules for the use of the semi-

REPORT OF THE

GENERAL HISTORY.

(Answer all.)

1. Mention five prominent men in Greek history and state the facts which made each one famous.
2. Describe the life and work of Charlemagne.
3. State five causes of the French revolution.
4. In what ways does the history of England differ from that of the continent of Europe?
5. Give a brief sketch of the Protestant revolution.

GEOMETRY.

(Answer all.)

1. Define median line of a triangle; inscribed circle of a polygon; segment of a circle.
2. Prove that the exterior angle of a triangle is equal to the sum of the two opposite interior angles.
3. Prove that the bisector of an angle of a triangle divides the base into parts proportional to the sides.
4. Construct a circle having its center in a given line and passing through two given points. Under what conditions is this possible?
5. Construct a rectangle having given the perimeter and the diagonal.
6. On each side of a 16" square, equilateral triangles are constructed falling inwards. The four vertices of these triangles are joined. What figure is formed and of what area?
7. Define lune; polar triangle; regular octahedron, and prism.
8. Prove that the area of a spherical triangle is proportional to the excess of the sum of its angles over two right angles.
9. Find a point equidistant from four points not in the same plane.
10. A cone whose angle is 60 degrees is inscribed in a sphere. What fraction of the volume of the sphere is not in the cone?

AMERICAN AND ENGLISH LITERATURE.

(Answer all.)

1. Name the authors of the following works:
 Vanity Fair
 The Sketch Book
 The Deserted Village
 Robinson Crusoe
 Huckleberry Finn
 The Faerie Queene
 Pilgrim's Progress
 The Canterbury Tales
 The Gold Bug
 The Lady of the Lake
2. (a) Name five plays of Shakespeare.
 (b) Tell briefly the story of one of these plays.
3. What are the chief differences between the poetry of Wordsworth and the poetry of Pope.
4. Name three English and three American poets of the nineteenth century and name one work of each.
5. What is the difference between a lyric and an epic?
 Between an epic and a drama?
 Name one example of each.

PSYCHOLOGY (ADVANCED).

(Answer all.)

State specifically what you have studied in psychology (what, where and when).

1. The attributes of sensation.
2. The genetic psychology of sight.
3. Fear.
4. Outline of the psychology of language.
5. The relation of will to character.

SECOND GRADE CERTIFICATE.

ARITHMETIC.

(Answer all.)

1. On a map constructed on a scale of 1-1600000 the distance from Detroit to Chicago is 11.29 in.; how many miles between these cities?
2. What principal will yield \$62.50 interest in 1 yr. 3 mo. at 4 per cent.
3. Define; concrete number; interest; gram; date line; cord foot.
4. (a) Divide $3\frac{1}{2} - \frac{5}{8} \times \frac{1}{16}$ by $21\frac{1}{2} + \frac{3}{10} + 4\frac{1}{2} \times 5$.
(b) What decimal part of a bushel is 2 pk. 4 qt.?
5. What is the area of circle inscribed in a square whose area is 196 sq. in.? of the square inscribed in this circle?
6. A collector has a \$500 note placed in his hands with power to compromise; he accepts 75 cts. on a dollar and charges 5 per cent of the sum collected, and 25 cts. for a draft; what are the net proceeds?
7. What is the difference between local time and standard time at Chicago, the longitude of Chicago being 87 degrees 36 minutes and 42 seconds west?
8. Which is the better discount, 10 per cent, 12 per cent, 5 per cent, or 15 per cent, 6 per cent, 6 per cent? What three equal rates of discount are equivalent to the latter?
9. A cubic foot of water weighs 1000 oz., and in freezing expands 1-40 of itself in length, breadth and thickness; find the weight of a cubic foot of ice.
10. When a Boston draft for \$35,000 can be bought in New Orleans for \$34,030, is exchange at a premium, at par, or at a discount? What is the rate?

READING.

(Answer five.)

1. Indicate by punctuation as far as possible how the thought should be expressed in the following poem:

The brooklet came from the mountain
 As sang the bard of old
 Running with feet of silver
 Over the sands of gold
 Far away in the briny ocean
 There rolled a turbulent wave
 Now singing along the sea-beach
 Now howling along the cave
 But the brooklet has found the billow
 Though they flowed so far apart
 And has filled with its freshness and sweetness
 That turbulent bitter heart

2. To what grade of pupils would you give such a selection for reading? Why?
3. Explain fully what purpose and method you would employ in the teaching of it. Why?
4. Define speech-melody, speech-quality, and speech-rhythm. Illustrate.

REPORT OF THE

3. In what grade should voice training begin? Why?
4. How would you employ supplementary reading? Suggest proper supplementary reading for the fifth grade.
5. With what grade of pupils should the teaching of reading be discontinued? Why?

ENGLISH

(Answer all.)

1. (a) What are the principles of composition to be observed in sentence writing?
- (b) Name a violation of each principle.
2. (a) Define narration; description; exposition; argumentation.
- (b) Define rhetoric; barbarism; expository; impropriety.
3. (a) What is a paragraph?
- (b) Name the different ways of developing paragraphs.
4. (a) Give the rules for the use of quotation marks. Give six rules for the use of the comma; two rules for the use of the colon.
- (b) Write the following sentences using the proper capitals and punctuation marks:
 - (1) Francis Bacon usually known as lord Bacon was born in London England Jan. 22 1561 and died in 1626 he was famous as a scholar a judge and a politician.
 - (2) The present life is not wholly prosaic precise tame and finite to the gifted eye it abounds in the poetic.
 - (3) It has been well said the command thou shalt not kill forbids many crimes besides that of murder.
 - (4) The four greatest names in english poetry are among the first we come to chaucer Spenser, Shakespeare Milton.
5. Write a letter of application for a position.

GEOGRAPHY

(Answer five.)

1. Name the chief colonies of Great Britain.
2. Name the capital and metropolis of England, Scotland, Texas, Australia, Austria, Russia, Japan, China.
3. Discuss the settlement of Canada during the last decade.
4. Indicate the trend of development and settlement in the U. S. during the last two decades.
5. What changes have occurred in the southern states during the last decade.
6. If the axis of the earth were inclined $7\frac{1}{4}$ degrees more, how wide would each zone be?

BOTANY.

(Answer five.)

1. Define simple leaves; compound leaves. What purpose do leaves serve? Illustrate by examples.
2. Describe the process of fertilization in a flower. Define a seed;; a spore.
3. Define pollination; discuss its need, and the agencies concerned in it, with special reference to adaptations on the part of the flower.
4. Define the principal types of fruits, and give example of each.
5. Discuss the relationship and classification of any two of the following plants, and mention other common plants belonging to the same orders: Wake Robin (Trillium); buttercup (Ranunculus); black mustard (Brassica); willow (Salix); red clover (Trifolium); dandelion (Taraxacum).
6. Name six common plants cultivated for their fruit, and give relationship (classification), etc., of each, and name other plants belonging to the same order in each case.
7. Discuss the influence of plants on their environment.

DRAWING.

(Answer five.)

1. Design a placard announcing an exhibition of drawings with date and place. Choose suitable lettering and present an agreeable arrangement.
2. Arrange the given objects and represent the group by means of the pencil. Care should be taken to make an agreeable composition, to produce truthful values and to show good technique.
3. Name three painters of religious subjects, three painters of portraits, three painters of landscape. Mention the century and the school to which each belongs.
4. Discuss the relations between architecture, sculpture and painting. Name an artist who practised all these.
5. Discuss the value of drawing as an element in education.
6. Make working drawings for a table.
7. Represent the above table in perspective at an angle of 45 degrees, and the nearest corner 1 foot to the right.

U. S. HISTORY.

(Answer all.)

1. Name three victories of Washington in the American revolution.
2. Name five leaders of the Federalist party.
3. Name five states in which the capital is not the largest city. Specify both cities in each state which you mention.
4. State three public policies of Thomas Jefferson.
5. Name the slave states which did not secede.
6. Mention the two colonies which kept their charters till the revolution.
7. Mention ten rivers which empty into the Mississippi.
8. Name the presidents who have died in office and the succeeding vice president in each case.
9. Name five explorers for Spain in America.
10. State three great compromises in American history.

PHYSIOLOGY.

(Answer all.)

1. Name and locate the valves of the heart.
2. What are the differences between the arteries and the veins?
3. What foods are tissue builders?
4. What is the function and the value of mastication?
5. Describe the blood clot and give its function.
6. Name the excretory organs and what they excrete.
7. Name and give functions of the covering membranes of the cerebrum.
8. Name the different parts of the blood and give their functions.
9. What is the poisonous substance in tobacco?
10. Name three common sources of infection.

BOOKKEEPING.

(Answer all.)

1. Define (1) Liability; (2) Inventory.
2. Define (1) Insolvency; (2) Indorsement.
3. Discuss the advantages of the Cash Book.
4. What is included in the account of Merchandise? What will the account of Merchandise usually show when the Ledger is closed?
5. Give some prominent points of difference between Single and Double Entry Bookkeeping.
6. What is meant by (a) "accepting a draft," (b) "indorsing a note"?
7. Journalize by Double Entry: Jan. 1, 1907, Received from H. Grant, cash in full for his note and interest, \$287.25. Face of note \$285.00, Interest \$2.25.

REPORT OF THE

MUSIC.

(Answer five.)

1. Write scale, pitch and syllable names, locating them on the staff in the key of A major.
2. Locate the following syllable on the staff in the key of E major.
do me la fa te do.
3. Same as number 2, except key three flats.
4. What is meant by accent in music? State how many accents each of the following has: two-part measure; three-part measure, four-part measure; six-part measure.
5. Locate scale on F or Bass Clef in key of A flat major.
6. (a) What is a rote song?
(b) Its place and value in public school music?

ENGLISH GRAMMAR.

(Answer all.)

I. Of the words in italics tell what part of speech each is, and its exact function in the sentence:

1. *There was a sound of revelry by night*
And Belgium's capital had gathered then
Her beauty and her chivalry."

II. Classify the complements in the following:

1. A smile makes a sad heart glad.
2. The war lasted four long years.
3. The king was a haughty man.
4. The child offered the beggar a penny.
5. Caesar, having conquered many nations, invaded Britain.

III. Classify the dependent clauses and tell how each is used:

1. They said it was a shocking sight after the field was won.
2. Knowledge is the wing wherewith we fly to heaven.
3. The well-springs that supply the streams are seldom spent.

IV. (a) Give the principal parts of *lie*, *dash*, *dive*.

(b) Define adverb.

(c) Distinguish participle and infinitive. Illustrate.

V. (a) Define transitive, intransitive, and copulative verb.

(b) Classify the verbs in the following:

1. The moon causes the tides.
2. Wealth is a doubtful fortune.
3. The cowslip posies will be culled by little boys.
4. The green field sleeps in the sun.
5. The horse seems dead.

PSYCHOLOGY (ELEMENTARY).

(Answer all.)

State specifically what you have studied in psychology (what, where and when).

1. The qualities of sensation.
2. The relation of apperception to
 - (a) Perception.
 - (b) Reason.
 - (c) Action.
3. Mental Images.
4. The human instincts.

ALGEBRA.

(Answer eight.)

1. Simplify,

$$\frac{x^3-2x^2-4x+8}{x^4+3x^3-27x-81} + \left[\left(1 + \frac{3x+5}{x^2+6x+9} \right) \times \left(1 - \frac{4x-13}{x^2-9} \right) \right]$$

2. A train running from A to B meets with an accident which delays it 45 minutes; it then proceeds at five-sixths its former rate and arrives at B 75 minutes late. Had the accident occurred 45 miles nearer A, the train would have been 90 minutes late. Find the rate of the train before the accident and the distance from B to the point of detention.

3. Simplify,

$$(a) \sqrt[3]{54xa+3y^3} + \sqrt[3]{16xa+6y-12} + \sqrt[3]{2x4a}$$

$$(b) (-5x-my^n+2z^4)^{-3} \text{ free the result from negative exponents.}$$

4. (a) Prove that
- $a^0 = 1$
- .

(b) Reduced to its simplest form,

$$\left[\frac{a^q}{\sqrt[p+q]{x^p-q}} \right]^{p-q-1}$$

$$(c) \text{ Rationalize } \frac{7\sqrt{2}-5\sqrt{3}}{4\sqrt{3}-3\sqrt{2}}$$

5. Find the root of $x^2+x+1=0$ and show that each of them is equal to the square of the other.

6. Solve for x,

$$8(5x-3)^{-\frac{1}{2}}-6(5x-3)^{-\frac{3}{2}}=-1$$

7. (a) Determine k so that the equation

$$x^2-8x+15=k \text{ may have equal roots.}$$

(b) Prove that $(x-1)$ is a factor of $x^{2m}-2x^n+1$.

8. Two cubes together contain 23 5/8 cubic inches and the edge of one increased by the edge of the other equals $4\frac{1}{2}$ inches. Find the edge of each cube.

9. If
- $a:b=c:d$
- , prove that

$$a^2+b^2:ac+bd=b:d.$$

10. The distance through which a body falls from rest varies as the square of the time it falls. How far does a body fall in 6 seconds if it falls 64 feet the first two seconds?

ECONOMICS.

(Answer five.)

1. Explain the marginal theory of value.
2. Define standard money, and distinguish it from token and credit money.
3. Enumerate the different kinds of money at present in use in the United States, and indicate the legal tender power of each kind or class of our money.
4. Define monopolies. Distinguish between natural and industrial monopolies.
5. What are the chief methods at the present time in force for the regulation of trusts?

SCHOOL LAW.

(Answer five.)

1. Name all the different classes of teachers' certificates issued in Iowa.
2. State the law relating to school libraries.
3. What are the duties of the secretary of a district board of education?
4. Who may vote at school elections?
5. How may a county high school be established?
6. State the law relating to compulsory attendance.

REPORT OF THE

HISTORY OF EDUCATION.

1. Discuss the Renaissance, indicating (a) its origin, (b) chief characteristics, (c) course of development, (d) chief names connected therewith.
2. Give a synopsis of Spencer's chapter on intellectual education.
3. State the chief educational theories and work of John Dewey.
4. Give a synopsis of the educational theories and activities of Cincinnatus.
5. Give a synopsis of Plato's Republic.
6. Give two names connected with (a) Renaissance, (b) Realism, (c) Scholasticism, (d) Roman education, (e) English education, (f) Early American education.

CIVIL GOVERNMENT.

1. Name the state officers elected by the people and give the duties of each.
2. Describe the system of land surveys used in Iowa.
3. How may a bill become a law without the governor's signature?
4. How are candidates for office nominated at present in Iowa?
5. What is the composition of the executive council of the state?
6. Name the principal county officers and give their duties.
7. How many members of the United States house of representatives are elected from Iowa? What is the term of such representatives and how are they elected?
8. What compensation do the members of the state legislature receive?
9. State ten of the powers of congress as given in the constitution.
10. How are the territories governed?

PHYSICS.

(Answer ten.)

10. How long will it take a train 400 feet long, with a uniform speed of 30 miles per hour, to pass completely through a tunnel $\frac{3}{4}$ of a mile long?
2. What is meant by the mechanical advantage of a simple machine? Derive the expression for the mechanical advantage in the case of an inclined plane.
3. What does a barometer measure? Explain why the barometric reading is lower on moist days than on dry days.
4. A body weighs 50 grams in air and 40 grams in water. What is its specific gravity and volume?
5. What are the three characteristic properties of a sound and upon which physical quantities does each depend?
6. Construct the image formed by a single double convex lens when the object is placed so that the lens is used as a reading glass.
7. The diameter of the moon is 2,160 miles; the distance from the earth to the moon is 240,000 miles, from the sun to the earth is 93 million miles. What is the diameter of the sun if in the case of a total eclipse of the sun its entire surface seems covered by the moon?
8. Explain fully the condensation that forms on the outside of pitchers containing ice water. What is meant by relative humidity?
9. State Ohm's law. How large a current flows through a 16-candle power lamp on a 110 volt circuit if the resistance of the lamp is 180 ohms? What is the watt per candle of this lamp?
10. Trace the energy changes from the coal consumed under a boiler to the light given out by an incandescent lamp.
11. Explain the transmission of speech through a telephone circuit.

METHODS AND MANAGEMENT.

1. Define induction and write an inductive lesson.
2. Define apperception and illustrate specifically how it should be observed in teaching.
3. Give an illustration of proceeding from concrete to abstract.

4. Draw a diagram of the eye showing the cause of myopia. What produces it? How can it be relieved? How detect it?
5. Name the five formal steps in teaching. How closely should they be observed?
6. Outline fully a first day's work in teaching decimal fractions.

PRIMARY STATE CERTIFICATE.

CHILD PSYCHOLOGY.

(Answer five.)

1. Name the organs included in the central nervous system and give the function of each organ.
2. Describe the organ of sight and tell how we see.
3. Distinguish between a precept and a memory image.
4. Illustrate the value of the imagination in learning geography.
5. Define feeling, emotion. Name the different classes of the emotions.
6. Compare instinctive actions with reflex actions. Define motive and deliberation.

HISTORY OF EDUCATION.

(Answer five.)

1. What was the "Orbis Pictus?" Why was it successful?
2. Explain how Pestalozzi used observation in his teaching and what his purposes were in thus using it.
3. How did Horace Mann aid in forming our system of education in the U. S.?
4. Give a short sketch of the German school system.
5. Name ten of the principal books on education, give authors and time of publication.
6. What is Humanism? Who were some of its principal adherents?

PRIMARY METHODS.

(Answer five.)

1. Outline your plan for teaching incidental reading. Little Boy Blue or Tiptoe and Tiptoe may be used to illustrate. Compare the Rational with the Eclectic method of reading.
2. Write ten or twelve lines on the importance of training the senses in the primary grades and outline two lessons in sense training.
3. Discuss the value of beautiful stories, poems and songs for children and explain your method of teaching a story. Give a concrete illustration.
4. Give a language lesson on the apple tree in May and state two aims of language work.
5. Give steps in teaching the number 12. Outline two systems of number work and give five suggestions for drill work by means of games.
6. Discuss the benefits of a school garden for children and state some objections to field excursions.

PLANT STUDY.

(Answer five.)

1. Should plant study be made contributory to awakening an interest in and a knowledge of practical agriculture and horticulture, or should it be simply informational? Give reasons for answer.
2. What reasons can be given for the observance of Arbor Day by the school?
3. Name the three best trees for the school grounds and give reasons for your choice.
4. Why should a weedless garden be cultivated?
5. What are some of nature's provisions for scattering its fruits. Give examples.
6. Give at least six reasons why the dandelion is so prevalent.

VOCAL MUSIC.

(Answer five.)

1. What two things would you aim to accomplish in primary music?
2. Name three songs from Mrs. Gaynor's books, and five other primary songs, giving the author of each.

3. Name four books of primary songs and give the name of one song from each book.
4. How much individual work would you have in the first two grades?
5. Give some special choices to assist the so-called monotone.
6. Outline briefly the work for the first grade. How many rote songs should be given? Name three good books to select them from.

PHYSICAL TRAINING.

(Answer five.)

1. What is the purpose of educational gymnastics? Give basis for the selection of such exercises.
2. What are the three methods of teaching formal gymnastics? Which is best?
3. Give the differences and similarities between the educational and corrective parts of a day's lesson.
4. (a) Name four common deformities found among school children and give causes for each. (b) Discuss treatment of Kyphosis.
5. Discuss exercise as a treatment for constipation.
6. Write out skeleton of a complete gymnastic lesson.

DRAWING

(Answer five.)

1. What is the purpose of art instruction in the primary grades?
2. Make a drawing of a cylinder in horizontal position showing an end and a part of the curved surface and write out the principles shown in the drawing.
3. Make a sketch showing the appearance of receding lines above and below the level of the eye.
4. Make a group in outline of three objects and write out the principles of good grouping.
5. What is the value of picture study in the lower grades?
Make a plan for the study of some picture.
6. Make a plan for a color lesson. What stories or materials may be used to add interest to the color work?

SCHOOL MANAGEMENT.

(Answer five.)

1. State clearly five ways in which scholarship aids the teacher.
2. Define education, teaching, habit. State three ways in which the tendency to form habits is helpful.
3. Write twenty lines on educational waste, the causes of which lie outside of the teacher's direct control.
4. State clearly how leading from the "known to the unknown" is used in beginning primary work.
5. State three ways in which thoughtful child study aids the teacher. State three ways of studying children.
6. In what way is the school a civil community? What use would you make of this idea?

SCHOOL LAW.

(Answer five.)

1. State the law regarding public money for school library.
2. State the number of members, time of election, term of office, time of organization of the school township board, rural independent school board, city school board.
3. State five duties of the school board.
4. State the law regarding women voting.
5. State the time of election, term of office, salary and duties of the State Superintendent of Public Instruction.
6. State the time, manner of election, the term of office, salary and duties of the secretary of a city school board.

QUESTIONS USED IN THE REGULAR EXAMINATION FOR COUNTY CERTIFICATES, JULY 29, 30, 31, 1908.

If more than ten questions are answered only the first ten will receive credits.

DIDACTICS.

(Answer ten.)

1. Give four principles that should govern in the making of the daily program.
2. Describe the mental effects you have noticed on your pupils from (a) loss of sleep, (b) worry or anxiety, (c) poor ventilation, (d) lack of exercise.
3. State four rules to be observed in forming a new habit.
4. What should be the teacher's knowledge of a subject, (a) as treated in the text used, (b) as treated by other authorities? Give one reason for each answer.
5. Define (a) sensation, (b) perception.
6. Give and explain five terms used in discussing the powers of the mind.
7. Mention three worthy incentives and state why they are worthy.
8. Discuss briefly the educational value of imagination in the study of mathematics.
9. Distinguish between drill, review and examination as to (a) purpose, (b) manner of conducting, and (c) frequency each should be used.
10. State three rules that should be observed in teaching.
11. Name the books adopted for the Teacher's Reading Circle of Iowa for the year 1907-1908. State briefly the character and purpose of each book.
12. When a teacher and a school board have entered into contract, (a) how may it be legally broken, (b) what legal rights has the teacher should the board break it, (c) what legal rights has the board should the teacher break it? What is the moral obligation of the parties to the contract?

10:15 to 11:10.

If more than five questions are answered only the first five will receive credit.

ORTHOGRAPHY.

(Answer any three of the following.)

- 1-2. Write twenty words pronounced by the examiner.
3. Define orthoepy, affix, letter, syllable, spelling.
4. Put the diacritical marks to the following: though, plow, caught, minion, earnest.
5. (a) Give the uses of the hyphen. (b) Give two uses of silent letters with examples of each.
6. Write abbreviations for the following: noon, ditto, that is, last month, superintendent, barrels, pounds, postmaster, railroad, April.

WORD LIST.

Spell list of words under the direction of the conductor.

1. discipline
2. license
3. nuisance
4. neuter
5. cougar
6. prairie
7. participle
8. auxiliary.
9. prodigious
10. tingeing
11. supercede
12. asphyxia
13. erysipelas
15. polyp.
15. adjacent
16. suitable
17. primary
18. pendulum
19. center
20. receive

11:10 to 12:00.

If more than five questions are answered only the first five will receive credit.

REPORT OF THE

READING.

(Answer five.)

1. What is the value of teaching phonics in primary grades?
2. Suggest a remedy for (a) nasal quality of voice, (b) throaty voice.
3. (a) Define emphasis. (b) what words should be emphasized? (c) Tell three ways in which words may be made emphatic.
4. (a) Suggest means for securing a conversational tone in reading. (b) What is the value of impersonation?
5. Name a specific prose or poetical selection, the oral reading of which may be made effective in character building.
6. What preliminary work should be required before reading the following:
 As long, long years ago I wandered,
 I seem to wander even yet.
 The hours the idle schoolboy squandered,
 The man would die ere he'd forget.
 O hours that frosty eld deemed wasted,
 Nodding his gray head towards my books,
 I dearer prize the lore I tasted,
 With you, among the trees and brooks,
 Than all that I have gained since then
 From learned books or study-withered men.

—Lowell, in "The Bobolink."

Oral reading under direction of the conductor.

WEDNESDAY P. M.—1:15 to 3:00.

If more than five questions are answered only the first five will receive credit.

GEOGRAPHY.

(Answer five.)

1. (a) Bound Iowa. (b) Name and locate ten important cities of Iowa.
2. Define promontory, estuary, plateau, delta, silvas. Name and locate one example of each.
3. What facts made possible the city of Minneapolis and determined its leading industry? What is this leading industry? Where is this city located?
4. Name and locate two important cities in each of the following: France, Germany, Russia, Canada, Texas.
5. What and where is each of the following: Budapest, Caracas, Titicaca, Melbourne, Madagascar, Honduras, Ceylon, Para, Newport, Itasca.
6. Name and locate one navigable river in each of five countries important for purposes of commerce. Name one of the important products carried on each.

3:00 to 5:00.

ARITHMETIC.

(Answer five. Indicate operations.)

1. (a) Write a number of seventeen orders, separate it into periods and over each period write its name.
 (b) To find the G. C. D. of two or more numbers, what prime factors must be combined? Illustrate your answer.
2. (a) Write the following as decimals: (1) three hundred and twenty-five thousandths, (2) three hundred twenty-five thousandths, (3) three hundred twenty and five thousandths, (4) three hundred twenty-five hundred-thousandths, (5) three hundred twenty five hundredths.
 (b) Writing the numbers as decimals, divide five tenths by twenty-five hundredths and multiply the quotient by thirty-five ten-thousandths.

SCHEME OF PUBLIC INSTRUCTION

3. (a) What is the rate of gain when pens that cost 48 cents a gross sell for 50 cents each?

(b) When the interest on \$360 for 1 yr. 6 mo. 10 da. is \$22, what is the rate?

4. (a) Find the cost of the following load of coal at \$3.50 a ton: 6,540 pounds, tare, 1,450 pounds.

(b) How shall I mark silk that cost \$1.08 per yard that I may sell it below the marked price and yet gain 25 per cent?

5. Find the difference between the true and the bank discount on \$500 for 6 mo. 15 da. at 6 per cent.

6. (a) Find the capacity, in gallons, of a cistern 4 feet in diameter and 6 feet deep.

(b) A field 120 rods long contains 75 A. How wide is it?

7. Name and define the four fundamental operations of arithmetic, define the terms used in each and (c) state a principle involved in each.

5:00 to 6:00.

ORAL READING.

At the above time or at convenience of the conductor.

THURSDAY A. M.—8:10 to 10:10.

If more than five questions are answered only the first five will receive credit.

UNITED STATES HISTORY.

(Answer five.)

1. From each of the three nations that took a leading part in the early history of America, name one explorer and one or more of his discoveries or explorations.

2. Give one important historical fact in connection with each of the following: Plymouth Rock, William Penn, Bunker Hill, Valley Forge, the Alamo, Commodore Perry, Jefferson, Davis, Manila Bay, the Maine, Santiago.

3. Write fully on any two or the topics given below:

The Embargo,

The Hartford Convention,

The Monroe Doctrine,

The Missouri Compromise,

The Dred Scott Decision.

4. Of what importance in the development of this country was the discovery of gold in California?

5. In the Civil War why were the battles of Bull Run, Vicksburg, Gettysburg, and Sherman's March to the Sea important?

6. Explain fully what is meant by "The Spoils System," "Civil Service," "Patronage." 10:10 to 12:00.

If more than five questions are answered only the first five will receive credit.

PHYSIOLOGY.

(Answer five.)

1. Define tendon, ligament, cartilage, gland, capillary.

2. (a) Give two reasons why foods are cooked?

(b) Mention the chief food element or elements other than water found in the following: potatoes, beans, nuts, beef, butter.

3. Name the membrane which invests, (a) the heart, (b) the lungs, (c) the bones, (d) the joints.

4. (a) Give two general effects of alcohol. (b) What is the specific effect of alcohol on, (1) digestion, (2) liver, (3) respiration, (4) heart?

5. (a) Make drawing of the eye. Label and name the parts.

(b) Tell how we see.

6. Distinguish between the functions of gray and white nerve tissue.

(b) Explain reflex action.

7. Trace the circulation of the blood from the left ventricle back to the left ventricle.

THURSDAY P. M.—1:00 to 2:00.

If more than five questions are answered only the first five will receive credit.

MUSIC.

(Answer five.)

1. Name three common faults in school singing and tell how to overcome them.
2. In what grades should rote singing be emphasized most strongly? Name a good book of rote songs.
3. Write the major scale in E flat, G D and F.
4. (a) Write four kinds of notes, four kinds of rests, and three kinds of measures.
(b) Explain the meaning of largo, allegro, diminuendo, and crescendo.
5. Explain why children should learn phrases before measures. Name a song and tell how many phrases it contains.
6. Why is it not wise to have children beat time with the hand while singing?
7. Tell why it is important to have children sing in light, clear, high tones.

2:00 to 4:00.

If more than five questions are answered only the first five will receive credit.

GRAMMAR.

(Answer five.)

1. (a) Name the parts of speech. Give an example of each.
(b) What is inflection.
(c) What parts of speech are inflected?
(d) What does inflection (declension) mark in a pronoun?
(e) What does inflection (conjugation) mark in a verb?
2. Write a sentence containing:
 - (a) A noun in position with the subject.
 - (b) A noun or pronoun as attribute complement.
 - (c) An adjective as attribute complement.
 - (d) A relative pronoun.
 - (e) An adverbial clause.
3. (a) What is meant by principal parts of a verb? What are the principal parts of the English verb?
(b) Give the principal parts of go, eat, see, ride, ring, write, do, fly, sit be.
- 4.

I like the lad who *when* his father thought
To clip his morning nap by hackneyed praise
Of vagrant worm by early songster caught,
Cried, "Served him right! 't is not a tall surprising;
The worm wasc punished, Sir, for early rising."

Classify the above sentence.

Name principal clause or clauses.

Name subordinate clauses.

Tell the kind and give the office of each subordinate clause?

(In naming clauses give only the unmodified subject and the unmodified predicate.)

5. Parse words italicized in 4.

6. Supply words omitted in the following sentences. Give case and office of each word supplied.

- (a) The man —— hesitates is lost.
- (b) The man —— you met is my brother.
- (c) To —— do you refer?

- (d) ——— do you thing I am?
 (e) ——— do you take me to be?

7. (a) Write the plural of the following: knife, hanger-on, wagonload, Miss Smith, axis, datum, alumna, alumnus, 6, °.

(b) Change the prepositional phrase to a possessive in each of the following:

- (1) The quarters of the soldiers.
- (2) The boots of the men.
- (3) The books of somebody else.
- (4) The poems of Burns.
- (5) The reign of William and Mary.

4:00 to 5:00.

If more than five questions are answered only the first five will receive credit.

Series B3.

PENMANSHIP.

(Answer five.)

1. Mention three definite means that you would employ towards breaking up finger movement.

2. Write eight to ten lines on the importance of good penmanship, and let them be a sample of your best work.

3. Write (a) the one space letters; (b) a group of capitals having the same general movements.

4. Mention four essentials of good penmanship.

5. (a) How often should the writing periods come in the primary grades? Give a few suggestions on teaching writing to beginners.

6. Describe the forearm movement. Give three reasons for teaching it.

FRIDAY A. M.

8:10 to 10:15.

If more than five questions are answered only the first five will receive credit.

Series B—3.

ALGEBRA.

(Answer five. Indicate operations.)

1. State the theorem or give the process for determining by inspection the following products: (a) the product of the sum and difference of two quantities, (b) the square of the difference of two quantities, (c) the cube of the difference of two quantities. Solve an original problem to illustrate each.

2. (a) Simplify:

$$\frac{\frac{1}{a}}{1 + \frac{1}{a^2}} + \frac{1}{2} \left(\frac{1}{x-a} \right) - \frac{1}{x+a} =$$

(b) Solve for the value of x:

$$\frac{x-a}{b} - \frac{a+b}{a} + 2=0.$$

3. (a) Divide a into two parts such that m times the first shall be equal to the second divided by n .

(b) What number is that whose five-sixths as much exceeds 25 as one-ninth of it is less than 9.

4. Factor and indicate the factors of the H. C. F. and L. C. M. of the following:

$$x^3 + 2xy + y^3, x^4 - y^4, \text{ and } x^3 - y^3$$

5. If I were to make my field 5 rods longer and 4 rods wider, its area would be increased by 240 sq. rods; but if I were to make its length 4 rods less and its width 5 rods less, its area would be diminished by 210 sq. rods. Find its length, width and area.

6. (a) Define fraction as used in algebra. (b) When is a fraction said to be positive? (c) What does the sign plus indicate when placed before a fraction? (d)

Give direction for clearing an equation of fractions. (e) Under what conditions may we transfer a term from one member of an equation to the other? Give the reason for your answer.

7. (a) Multiply:

$$3\sqrt{5} - 2\sqrt{6} + \sqrt{7} \text{ by } 6\sqrt{5} \\ + 4\sqrt{6} - 2\sqrt{7}.$$

(b) Solve:

$$\sqrt{x-1} + \sqrt{x+4} = \sqrt{4x+5}$$

10:15 to 12:00.

If more than five questions are answered only the first five will receive credit.

ECONOMICS.

(Answer five.)

1. Distinguish between necessities and luxuries.
2. What is meant by land? What is value? Mention some things that are useful but without value.
3. What is tariff? Mention five articles that have been used for money. What have proven best for this purpose? Why?
5. Explain the law of diminishing returns in agriculture. Is there a law of increasing returns? Explain.
6. What effect has the increased facility for immigration on the working out of the Malthusian doctrine? Explain.
7. Define strike, lockout, trust and monopoly.

1:00 to 2:45.

If more than five questions are answered only the first five will receive credit.

Series B—3

CIVICS.

(Answer five.)

1. Give the duties of the President.
2. (a) How may a territory be admitted into the Union as a state?
(b) Name two advantages gained by a territory in becoming a state.
3. Give ten powers granted to congress by the constitution of the United States.
4. (a) What is "a congress?" (b) Explain (1) first session (2) second session. (3) the numbering. (c) How is the representation of a state determined for each branch of congress? (d) Under what conditions may the representation in the lower house be reduced?
5. (a) What officers constitute the Executive Council of Iowa?
(b) Name four important duties devolving upon it.
(c) What was the purpose of the primary election held June 2, 1908?
6. (a) Describe three processes by which a bill may become a law.
(b) What gives the Speaker of the House more influence over legislation than another member has?
7. (a) State two purposes of the judicial department of our government.
(b) What three general classes of cases come under the jurisdiction of the United States courts?
(c) Distinguish between original and appellate jurisdiction.

2:45 to 5:00

If more than five questions are answered only the first five will receive credit.

PHYSICS.

(Answer five.)

1. Define inertia. How is the property manifested in the planets of the solar system? Give a simple, homely illustration of inertia. State Newton's first law of motion.

2. State the law of gravitation for two masses. Define center of gravity. Assuming the radius of the earth to be 4,000 miles, determine the weight of a 500-pound mass 7,000 miles above the earth's surface.

3. Compare the momentum of a 15-pound cannon-ball moving at the rate of 800 feet per second with that of a 3-ounce bullet which has a velocity of 420 yards per second.

4. Express in words or by formulae the laws of falling bodies.

5. Explain the construction and operation of a mercurial barometer. Make drawing.

6. (a) Tell how to find the liquid pressure on the bottom of a vessel. On the side.

(b) State Pascal's Law of the transmission of pressure by a liquid.

7. Define the terms pitch, resonance, interference.

8. What effect does the freezing of water have on the surrounding atmosphere? Define specific heat. Caloric. Explain the term latent heat.

SAMPLE QUESTIONS FOR RENEWAL OF SECOND GRADE UNIFORM COUNTY CERTIFICATES.

PSYCHOLOGY.

(Answer ten.)

1. What are the general divisions of the nervous system, and what are the functions of each division?

2. To what extent can each act independently of the others?

3. Psychologically what is there "good" about a habit?

4. What is the difference between habits and instincts?

5. Define and illustrate the relation between consciousness and attention.

6. What is the most effective means for securing attention?

7. Does attention tend to change the object attended to?

8. What is the material out of which an image is formed?

9. What is the difference between imagination and memory?

10. Describe your image of the multiplication table.

11. What opportunities for persistent will training should every school afford?

PSYCHOLOGY.

(Answer ten.)

1. Distinguish reflex, automatic and conscious action.

2. What is the relation between impression and expression?

3. What is the relation between habit and consciousness?

4. How would you proceed in trying to correct a bad habit?

5. Why do some persons see more in the same objects than others?

6. What are some of the physical effects of attention to moving objects?

7. What are the relations of attentions to the feelings, and to the will?

8. What is the difference between a percept and an image?

9. Show how language depends upon imagination.

10. Illustrate the value of imagination to the scientist.

11. How may the school room contribute to the aesthetic nature of the child?

PSYCHOLOGY.

(Answer ten.)

1. (a) What specific functions does the medulla possess? (b) the cerebellum? (c) the cerebrum? (d) What is the arrangement of the white and the gray matter in the brain? (e) In the spinal cord?

2. (a) Distinguish between sensation and perception.

(b) How many senses have you? Name them.

3. (a) What is meant by training the senses?

(b) If the eyesight is trained will it develop the hearing? Why?

(c) If the eye is trained to detect colors will it be trained to detect forms? Why?

4. (a) Name five habits which you have.

(b) Name some mental habits which you have.

- (c) Name some habits which you gained intentionally.
- (d) Name some habits which you have acquired without knowing it.
- (e) How would you set about to break up an undesirable habit?
- (f) How would you set about to form a new one?
- 5. (a) Can you distinguish between genuine interest in the subject and desire to please the teacher?
- (b) How long ought ten-year-olds to attend to one subject at a time?
- 6. (a) What means can you employ to have pupils gain clear and full ideas of geography?
- (b) Why drill upon the multiplication tables, spelling, etc.
- (c) What should be the means of remembering history? Explain fully.
- (d) When should pupils learn the words of the book?
- (e) Why are reviews desirable?
- 7. What is the beginning of all training of the imagination?
- 8. (a) What is thinking? (b) What mental processes are involved in thinking?
- 9. What is a concept? Give the relations and differences between percepts and concepts; between concepts and images.
- 10. Discuss the relations between thought and language, (a) in children, (b) in the lower and higher races.
- 11. Discuss the importance of the recitation as an aid to clear and exact thinking.

A TOPICAL OUTLINE OF ELEMENTARY EDUCATIONAL PSYCHOLOGY FOR RENEWAL OF UNIFORM COUNTY CERTIFICATES.

Prepared by
FREDERICK E. BOLTON, Ph. D.,

Head of Department of Education, State University of Iowa.

In the following brief outline of topics there is no attempt to make any hard and fast logical system, such as the mechanical rhetorician might demand. An effort has been made to select those topics which the writer's experience as a teacher of the subject has shown to be of interest and importance to teachers. The order of topics has been largely determined by the reference books given. It must not be supposed that all of psychology has been finished when the following topics have been covered through the reading of the elementary texts suggested. It is hoped, however, that the general road has been pointed out and that it will prove so attractive that many more hours may be pleasantly and profitably devoted to this most fascinating subject. At every step the reader should endeavor to draw upon his own personal experiences for concrete illustrations and confirmation of the principles discussed.

Six of the best elementary text-books on the subject have been given as references. While it is not absolutely necessary to use all six, yet each one contributes something special which makes it very desirable. By using all the books a wider view can be gained than by using one only. This will enable the student to make comparisons and will stimulate a desirable questioning attitude. An excellent plan would be for two or three teachers, or even a larger number, pursuing the same course, to work together. After reading a chapter from the different books they should meet for discussion. If difficulties should arise which conference does not make clear, any nearby superintendent of schools or professor of education in a college could be appealed to. The Department of Education of the State University will be glad to answer any questions that may be submitted concerning the work. The following books are recommended:

Halleck, *Psychology and Psychic Culture*, American Book Co.

Betts, *The Mind and Its Education*, D. Appleton & Co.

Tanner, *The Child; His Thinking, Feeling and Doing*, Rand McNally & Co.

Buell, *The Essentials of Psychology*, Ginn & Co.

Thorndike, *The Principles of Teaching*, A. G. Seiler.

Morgan, *Psychology for Teachers*, Chas. Scribner Sons.

I. INTRODUCTION.

References: Halleck, pp. 9, 10; Betts, Chap. 1; Tanner, Chap. 1; Buell, pp. 1-8; Thorndike, Chaps. 1 and 16; Morgan, Chap. 1.

1. Meaning and scope of psychology.
2. Methods of study.
 - a. Intrôpection.
 - b. Observation.
 - c. Experimentation.
3. Meaning of mind.
4. Mutual relations of mind and body.
5. Value of psychology to the teacher.

II. THE NERVOUS BASIS FOR MENTAL ACTIVITIES.

References: Hallack, Chap. 1; Betts, Chap 3; Buell, Chap. 1.

1. The Nervous System.
 - a. Function to generate and transmit stimuli.
 - b. Structure—white matter, gray matter.
 1. Nerve cells.
 2. Nerve fibres.
 3. Ganglia.
 - c. Sub-divisions.
 1. Brain.
 2. Spinal cord.
 3. Peripheral nervous system.
 - d. Brain specialized into medulla, cerebellum and cerebrum.
 - e. Functions of medulla largely to control vital functions, control reflexes, and co-ordinate activities.
 - f. Function of cerebellum quite similar to medulla.
 - g. Cerebrum a center of sensory and motor areas and controls higher mental processes.
 - h. The better the development of the cerebrum the higher the type of mind.
 - i. Meaning of localization and specialization and a study of well defined localized areas such as sight, hearing, touch, taste and smell.
 - j. Relation of nutrition and exercise to development.

SUGGESTIONS AND QUESTIONS.

1. State the general functions of the nervous system. 2. What specific functions does the medulla possess? The cerebellum? The cerebrum? 3. What is the arrangement of the white and the gray matter in the brain? In the spinal cord? 4. What are dendrons? 5. What are neurons? 6. Which is quicker, thought or sound? 7. Compare the nervous system with a telegraphic system. 8. Explain how a person whose leg is amputated still feels pain in the toe. 9. If a piece of skin were cut from the arm and grafted on the forehead, where would the sensation from pricking that piece of skin be felt? 10. What is meant by localization of functions? How have these localized areas been dis-

covered? 11. Draw a diagram of the brain showing four special areas. 12. What is a "reflex arc?" Distinguish between a reflex action and a habit. Name two of each.

III. SENSATION AND PERCEPTION.

References: Hallack, Chaps. 3 and 4; Betts, Chap. 6; Tanner, Chap. 5; Buell, Chaps. 2-6; Morgan, Chap. 4.

1. The sense organs; sight, sound, touch, smell, taste, temperature, weight, direction, etc.
2. Relation between sense organs and nerve endings, nerve fibres, and nerve centers.
3. Relation of senses to physical and chemical stimuli.
4. Meaning of thresholds of sensations.
5. Individual differences in sensitivity.
6. Comparison of senses of animals and human beings.
7. Defects of senses, especially of sight and hearing.
8. Care of senses.
9. Importance of senses in learning.
10. Differences in quickness and accuracy of perception.
11. Perception and apperception.
12. Illusions of perception.
13. Sensory and motor training. (Betts, Chap. 4.)
14. The use and cultivation of perception.

SUGGESTIONS AND QUESTIONS.

1. Distinguish between sensation and perception. 2. Grate some potato, onion, apple and other substances very fine, close the nose and place the substances on the tongue. Can you distinguish the taste of each? Inference? 3. Why has the dog so much better sense of smell than you have? 4. Can you hear the shrill note of a cricket? 5. Test your hearing, if possible, with tones of very high pitch and very low pitch. 6. Can you hear equally well with both ears? 7. Can you see equally well with both eyes? 8. What tests could be used to discover defects of hearing and of sight? 9. How many senses have you? 10. Which do you regard as most important? 11. What is meant by training the senses? 12. If the eyesight is trained will it develop the hearing? 13. If the eye is trained to detect colors will it be trained to detect forms? 14. If the skin is trained to detect heat and cold will it be trained to detect fine needle points or very light substances? 15. State some practical suggestions for protecting the senses of children. 16. State some defects of school rooms which produce sense defects in children. 17. State several practical ways in which children can be trained in sense perception.

IV. HABIT.

References: Betts, Chap. 5; Halleck, pp. 348-352; Tanner, pp. 98-101, 293-4; Thorndike, Chaps. 8 and 14.

1. Meaning of habit.
2. How habits are formed.
3. Habit and memory.
4. The physical basis of habit.
5. Habit a method of economical action.
6. Physical habits.
7. Mental habits.
8. Habit and association.
9. Habit and memory.
10. The importance of habit.
11. The danger of habit.
12. Habit and disease.
13. Habit and conduct.
14. Habit and character.
15. The development of habits.
 - a. Nervous tissue most susceptible to habit.
 - b. Nervous system keeps indelible records.
 - c. Early life time for habit-forming.
 - d. Act with full determination.
 - e. Allow no exceptions.
 - f. Act on every possible occasion.
 - g. Break up old habits by forming new ones.
 - h. Practical effects of habit.
 1. Simplifies our movements.
 2. Renders movements accurate.
 3. Diminishes fatigue.
 4. Diminishes amount of conscious attention.
 5. Makes our actions uniform and sane from day to day.

SUGGESTIONS AND QUESTIONS.

1. Name five habits which you have.
2. Name some mental habit which you have.
3. Do all persons possess the same habits? Indicate some differences.
4. Name some habits which you gained intentionally.
5. Some which you have acquired without knowing it.
6. Ask a friend to observe you and mention all the habits he can notice. Were you aware of all of them?
7. Study a friend to see if he is aware of all the habits manifested. (Consider such actions as walking talking, snapping he fingers, twirling the watch chain, rubbing the face, etc.)
8. Point out the relation between habits and diseases.
9. How would you set about to break up an undesirable habit?
10. To form a new one?
11. State several habits you would like to possess.
12. Do you wish

to pay the price for them? 13. Make a list of habits you would like to have your pupils form. 14. To what extent can you employ suggestion and imitation in getting pupils to form desirable habits? 15. Is it better to break a habit suddenly or to "taper off?" 16. Is there any danger of forming too many good habits?

V. ATTENTION.

References: Betts, Chap. 2; Halleck, Chap 2; Buell, Chap 7; Thorndike, Chap. 7.

1. Nature of attention.
2. Bodily conditions in attention.
3. Mental conditions in attention.
4. Interest and attention.
5. Class of attention.
 - a. Voluntary.
 - b. Non-voluntary.
6. Factors determining attention.
 - a. The condition of the nervous system.
 - b. The character of stimuli.
 - c. Knowledge already in the mind—apperception.
 - d. Will not attach to uninteresting things.
 - e. Attention must be centered upon a small range of ideas.
 - f. Attention cannot remain constant in the same direction for a long period.
7. Attention and habit.
8. Mind wandering—causes and cure.
9. Cultivation of attention.
 - a. Shut out distracting influences.
 - b. Keep sense organs in best condition.
 - c. Keep general bodily health in best condition.
 - d. Attention to things worth while.
 - e. Concentration rather than diffusion.
 - f. Determination to be interested in whatever occupies the attention.
 - g. Development of habits of attention.
 - h. Development of will.

SUGGESTIONS AND QUESTIONS.

1. When you wish to attend to a thing carefully what are some of the ways you employ to accomplish it? 2. In trying to secure good attention from pupils in class what means do you employ? 3. In seat work or home work? 4. Can you distinguish between genuine interest in the subject and desire to please the teacher? Which secures best attention? 5. How long ought ten-year-olds to attend to one subject at a time? 6. Study yourself carefully to see if doing the same kind of

work each day makes attention easier. 7. Can you compel pupils to genuine attention? 8. What do your thoughts turn to most when not doing prescribed tasks? 9. Do you have difficulty in attending to those things? Explain. 10. Have you noted any definite growth of attention in yourself? If so, can you account for it? 11. Why is the telegraph operator not distracted by the constant clicking and other stimuli? 12. To how many things can you attend at once? 13. Is much note-taking a good thing during a lecture? 14. Do you find it advantageous to take notes while reading? Explain on the basis of attention. 15. Is it a good thing frequently to write out one's ideas exactly? Explain on the basis of attention. 16. Mention several suggestions for the guidance of growth of attention.

VI. MEMORY AND ASSOCIATION.

References: Halleck, Chaps. 5 and 6; Betts, Chap. 8; Tanner, Chap. 8; Buell, Chap. 8; Thorndike, Chap. 8; Morgan, Chap. 2.

1. Factors in complete memory: Registration, retention, recall, and recognition.
2. Registration and retention necessary; recall and recognition desirable.
3. Physical basis of memory.
4. Organic memories (Tanner, pp. 97-100).
5. Memories rather than general memory.
6. Relations between memory and perception.
7. Memory and association.
8. Physical basis of association.
9. Classification of association processes.
10. All associations reducible to one type—association by contiguity in experience.
11. Association accounts for recall, determines sequence of ideas and determines character of recall.
12. Different types of memory.
13. Individual differences in memory.
14. Relation between memory and interest.
15. Memory of ideas versus mechanical memory.
16. Relation between attention and memory.
17. Mnemonic systems.
18. Training and wise use of memory.
 - a. Abundant sense perception.
 - b. Comprehension the fundamental fact in retention.
 - c. Opportunity to classify experiences.
 - d. Opportunity to recall experiences.
 - e. Make thoughtful associations.
 - f. Drill on mechanical facts.

- g. Weave into systematic unities.
- h. Ideas rather than words alone.

SUGGESTIONS AND QUESTIONS.

1. Test yourself and a few other grown-up persons on the time to memorize some simple piece of poetry, a piece of prose, a list of names, etc. See if there are differences among you. 2. Test some children of different ages on the same things. Note whether they differ among themselves, and also compare their efforts with yours. 3. Can you remember people's names better now than when ten years of age? 4. Can you remember to mail letters, do errands, etc., any better now than when a child? 5. What has been the effect upon your memory of memorizing arithmetic, grammar, geography, etc? 6. Why can you not forget your home town? Your name? The appearance of members of your family? Pears' soap? What are the special virtues of Ivory soap? Why have you remembered that? 7. Why do boys frequently remember all about the ball games and forget their geography? What means can you employ to have pupils gain clear and full ideas of geography? 8. Why drill upon the multiplication tables, spelling, etc? 10. What should be the means of remembering history? Explain fully. 11. When should pupils learn the words of the book? 12. Why are reviews desirable? 13. Should the work be gone over in a review in exactly the same way as before? Explain. 14. Is it a good plan to "cram" for examinations? 15. What is a better method? 16. Do you read much that you do not care to remember? Does it pay? 17. It is said that "the forgotten still courts." Explain.

VII. IMAGINATION.

References: Halleck, Chap. 7; Betts, Chaps. 7 and 9; Buell, Chap. 9; Tanner, Chap. 7.

1. Meaning of mental imagery.
2. Illustrations of various types of imagery, as, visual, auditory, tactile, etc. (Betts, pp. 90-95.)
3. Relation of imagery to perception.
4. Relation of imagination to memory.
5. Individual differences in power of imagery.
6. Distinction between reproductive and creative imagination.
7. Imagination and fancy.
8. Children's imagination. (Tanner, Chap. 7.)
9. Use and development of the imagination.
 - a. Imagination limited to the reproduction of past experiences in form of exact images or to a combination of such experiences.
 - b. All training in imagination begins by storing the mind with sensory experiences.

- c. Imagination in scientific discovery.
- d. Imagination in art.
- e. Imagination in literature.
- f. Imagination in every-day affairs.
- g. Imagination and ideals of life.

SUGGESTIONS AND QUESTIONS.

1. Look at some building carefully. Look away from it and observe whether you can "see" it in imagination. 2. Do the details come clearly? 3. Can you draw it without looking at it? 4. Can you revive a vivid picture of an absent acquaintance? Is it as clear as a photograph? 5. Can you imagine plainly a friend's voice? 6. Can you revive the sound of your old school bell? 7. Have some one strike a key on the piano and see if you can reproduce it after a few seconds. 8. Why does the music director strike a key, sound a tuning fork, blow a tone on a pitch pipe? 9. Can you imagine the tune "America"? Was it sung or played? If played, on what instrument? The accuracy and definiteness with which the details are reproduced indicate the power of imagery in the several directions. 10. Can you cut a pattern for a base ball cover? For a coat? For a dress? For a book cover? 11. Imagine a three-inch cube, painted blue. Imagine it sawed into one-inch cubes. How many of the one-inch cubes have paint on three faces? On two faces? On one face? How many have no paint? 12. How many sensory experiences be gained for images in geography? 13. Show definitely how both reproductive and creative imagination can be used in science. In literature. 14. Is literature a subject which provides or which utilizes stores of imagery? What mistake is often made in this respect? 15. Suggest several ways in which pupils can gain materials for imagery.

VIII. THE THINKING PROCESSES.

References: Betts, Chap. 10; Halleck, Chaps. 8 and 9; Buell, Chap. 10; Tanner, Chaps. 8, 9, 10; Schaeffer, *Thinking and Learning to Think* (entire book is excellent); McMurray, *Methods of the Recitation*, Chaps. 3, 4, 5; McMurray, *Elements of General Method*, Chap. 10; Thorndike, Chaps. 9 and 10; Morgan, Chaps. 5 and 6.

- 1. Thinking a process of establishing relations among ideas.
- 2. Thinking begins with comparison of two or more ideas.
- 3. Thinking involved in perception, memory, imagination, association, etc.
- 4. Differences between thinking of children and of adults.
- 5. Meaning of the concept.
- 6. Relations and differences between percepts and concepts.
- 7. Relations and differences between concepts and images.

8. Materials of thought.
9. Growth of concepts.
10. Revision of ideas as concepts become fuller and clearer.
11. The concept the goal of instruction.
12. Relations between thought and language (a) in children, (b) in lower and higher races.
13. Importance of language training.
14. Importance of the recitation as an aid to clear and exact thinking.
15. Technical terms as instruments of thought.
16. Memory and thinking.
17. Imagination and thinking.
18. Observation and thinking.
19. Judging and reasoning.
20. The inductive process of thinking.
21. The deductive process of thinking.

SUGGESTIONS AND QUESTIONS.

1. Do animals think? 2. Do children think before they learn to speak? 3. Recall all you know about oxygen. 4. Are your ideas clear and full? 5. Have you a concept of it? 6. How does your idea compare with the chemist's idea of oxygen? 7. Recall all that you can about the ideas "dog," "multiplication of decimals," "gravity." The sum of all your knowledge about each is your concept of it. 8. Recall your early ideas of "mountain," "world," "arithmetic," "right," "wrong," etc. Have they been modified since childhood? 9. Should children be taught at first all about a given idea? Why or why not? 10. Do you know the "spiral system?" 11. Is it sound psychologically? 12. Recall some conclusion which you have derived absolutely independently. 13. Study your judgments carefully to note your independence or lack of it. 14. Which is better, a correct conclusion merely recited or an incorrect one, independently gained? 15. Write out an inductive lesson upon "The formation of dew," "Multiplication of decimals." 16. What subjects can be readily taught inductively? 17. What ones deductively?

IX. FEELING AND EMOTIONS.

References: Betts, Chaps. 12, 13, 14; Halleck, Chaps. 10, 11; Buell, Chap. 11; Tanner, Chaps. 11, 12; Thorndike, Chap. 12.

1. Definition. "Feeling is the agreeable or disagreeable side of any mental state." (No attempt should be made in this elementary course to distinguish between feelings and emotions.)
2. Relations and differences between sensations and feelings.
3. Names of several feelings (a) of human beings, (b) of animals.
4. Feelings most manifested by children.

5. Comparison of feeling of boys and girls.
6. Relation of feelings upon knowledge.
7. Effect of feelings upon knowledge.
8. Effect of feelings upon actions.
9. Interest a feeling.
10. Importance of interest in every-day life.
11. Importance of interest in teaching.
12. Difference between interests of children and adults.
13. Comparison of interests of boys and girls.
14. Distinction between genuine interest and mere whim.
15. Periods of white heat of interest?
16. Natural and acquired interests.
17. Importance of right direction of interests.
18. Direction better than repression.

SUGGESTIONS AND QUESTIONS.

1. State five things in which you were especially interested as a child. 2. Five things when a youth. 3. Several things which interested you as a child, but which do not now. 4. What studies have interested you most? Why? 5. In which do you succeed best? 6. such fears as fear of the dark, creeping things, strange objects, etc., the result of instinct or of education? 7. What is the effect upon us of expressing our feelings? 8. What is the effect upon us of not giving expression to them? (Consider in the two foregoing questions such feelings as anger, love, sympathy, jealousy.) 9. Is it desirable to have pupils thoroughly interested in their work? 10. Some persons say if we dislike a subject that is what we ought to take. What do you think of the doctrine? 11. What do you think of the elective system? 12. What kind of things are children interested in? 13. Are there differences between the reading tastes of boys and girls?

X. INSTINCT.

References: Betts, Chap. 11; Tanner, Chaps. 12 and 13; Halleck, 309-315; Thorndike, Chaps. 3 and 7.

1. Meaning and definition. (Betts, p. 162.)
2. Relations and differences between instincts and reflexes.
3. Relations between habits and instincts.
4. Numerous illustrations of instincts (a) in animals, (b) in human beings.
5. Instincts of lower animals relatively fixed.
6. Instincts of human beings, plastic and modifiable.
7. Larger number of instincts possessed by man as compared with the lower animals.

8. Lower animals largely dependent upon instinct.
9. Usefulness of instincts to man.
10. Education modifies instincts.
11. Individual's education largely determined by instincts.
12. Interests directly related to capacities.
13. Instincts not exercised tend to die out.
14. Special periods when instincts can be best exercised e. g., special times for learning to walk, talk, learn foreign languages, acquire manual training, learn instrumental music, do abstract thinking, etc.
15. Importance of knowing these "budding" periods.

SUGGESTIONS AND QUESTIONS.

1. Name five instincts observed in lower animals. 2. Name five instincts you have observed in children. Five in adults. 3. Think of some instincts that appear only in infancy or early childhood? 4. Some that are not present in childhood, but are in adult life. 5. Mention some distinctive differences between domestic animals and their wild ancestors.

Mention several educational activities which seem to have been arranged to catch some instinct when "budding." 7. Mention some school activities which seem to disregard this entirely. 8. Do you think there are times when different mathematical instincts appear? 9. Has the curriculum been suitably arranged for them? 10. Suggest several modifications of the curriculum which would better recognize budding capacities. 11. Are children usually greatly interested when they possess the capacity for a subject? 12. Which is the more interested in sports, the awkward boy or the agile one?

XI. THE WILL.

References: Halleck, Chaps. 12, 13; Betts, Chap. 15; Buell, Chap. 12; Tanner, Chaps. 13, 14; Thorndike, Chaps. 13 and 14; Morgan, Chap. 10.

1. Different types of action: (a) reflex, (b) impulsive, (c) instinctive, (d) deliberative.
2. Elements of all volitional activity: (a) impulses, (b) desire, (c) choice, (d) effort toward execution.
3. Relation of each of first three types of action to voluntary action.
4. Meaning of idea-motor activities (Betts, p. 229; Halleck, p. 317).
5. Relation of idea-motor action to volition.
6. Distinction between wishing and willing.
7. Relation of inhibition to volition.
8. Different types of will.
 - a. The impulsive or explosive type (lacking in inhibition).
 - b. The obstructed will (overplus of inhibition).
 - c. The normal, healthy or balanced will.

9. Will and motive.
10. Child's entire lack of control of body.
11. Child's gradual gain in control of bodily movements.
 - a. First of larger muscles (trunk, limbs, etc.).
 - b. Later of finer muscles (hand, tongue, etc.).
12. Dangers of attempting fine work too early, (writing, drawing, sewing, weaving, etc.).
13. Tendency of child to be continuously active.
14. Danger of over-confinement and over-repression (sitting still, strained positions in writing, too long school periods, etc.).
15. Necessity for free play and use of larger muscles. (Tanner, Chap. 14; for topics, 10-15.)
16. Types of control.
 - a. Control of muscular movements.
 - b. Control of intellectual processes (thoughts).
 - c. Control of feelings.
 - d. Moral control.
17. Relation of ideas and voluntary actions.
18. Relations of feelings and voluntary actions.
19. Relation of attention to volition.
20. Relation of habit and volition.
21. Training of the will.
 - a. Exercise in choosing.
 - b. Exercise in inhibition.
 - c. Exercise in willing.
 - d. Stimulation of desirable feelings.
 - e. Knowledge of right action.
 - f. Shield from hindrances.
22. Will, conduct and character.

SUGGESTIONS AND QUESTIONS.

1. Study small children to note power of control of larger and smaller muscles.
2. Can they thread a needle, tie a knot in a string, hold a pen easily, stand still, walk easily if blindfolded, etc.?
3. Study children to see if they are of the impulsive, deliberative, or normal types of will. How should training differ in the first two cases?
4. Give several illustrations of idea-motor action.
5. What is the value of reciting proverbs, beautiful verses, and constantly keeping desirable ideals before the mind?
6. What do we mean by unconscious education?
7. Can you easily control your attention?
8. Have pupils of different ages the same power of controlling attention?
9. How long a reading lesson is profitable with most six-year-olds?
10. Is it desirable often to require children to do right things even though against their wishes?
11. What value may it be to them in later life?
12. We are told to

train up a child in the way he should go and when he is old he will not depart from it." Explain this on the basis of the psychology of habit and of will. 13. Can your pupils control their feelings, e. g., of fear, joy, sorrow, disappointment, anger, love, hate, etc.? 14. Which do they control best? 15. Answer the two preceding, considering yourself instead of your pupils. 16. What effect has your control upon pupils? 17. Which do they imitate most, you or their companions? 18. Mention early and specifically the elements you would consider (a) as making a strong will, (b) in a strong and worthy character.

IOWA TEACHERS' READING CIRCLE.

Purpose.

It is the purpose of the State Teachers' Reading Circle to provide a course of reading and study for home work along professional and general culture lines. Where the membership is voluntary, such work as it offers is not wholly optional with teachers desiring a renewal of their certificates, since the law of the State requires that all teachers shall pursue a professional line of reading. The membership ought to include all the active teachers of Iowa.

The course, as arranged, is adapted to teachers of whatever grade or department, in rural or city schools. No teacher or school officer can afford to ignore the claims of the organization upon the great body of educational workers in Iowa. It has passed far beyond the state of experiment, and is recognized as a permanent and integral part of the State educational system.

Plan of Work.

This has in view not the mere cursory reading of the adopted books. It contemplates careful re-reading and study, distributed as evenly as possible throughout the school year, and discussed informally or otherwise with fellow teachers when opportunity offers. The county superintendent will distribute among all the active members the "outlines" of works supplied by the publishers of the respective books.

The work for any four years, if satisfactorily performed, will entitle the member to a diploma. This should be valued as an evidence of four years of studious advancement, which cannot fail to add to the teacher's ability and efficiency.

Membership.

The Reading Circle membership is made up of teachers in every grade of public school work and while the membership is purely voluntary, a number of teachers in almost every county in the State have enrolled and are pursuing the work.

Management.

The Reading Circle is under the control of a board of seven members chosen by the county superintendent's section of the Iowa State Teachers' Association except the State Superintendent who is ex-officio a member, and also its president.

This board meets annually and selects a course of reading for the teachers of the State. The course aims to include always one or more books on professional lines and one or more on general culture.

The books adopted for 1908-09 are: For professional study, White's *Elements of Pedagogy*, published by the American Book Company, Chicago, Ill. Price \$1.00.

Culture book: Sherman's and Reed's *Essentials of Teaching Reading*, published by the University Publishing Company, Lincoln, Neb. Price \$1.00.

Board of Managers for 1908-1909.

Hon. John F. Riggs, president, Des Moines, Iowa.

Supt. F. D. Joseph, treasurer, Manchester, Iowa.

Supt. P. J. Schroeder, secretary, Dubuque, Iowa.

Supt. Frank M. Abbott, Creston, Iowa.

Supt. J. D. Adams, Grundy Center, Iowa.

Supt. Lora L. Richardson, Mt. Ayr, Iowa.

Supt. Emma Nye, Ottumwa, Iowa.

COUNTY SUPERINTENDENTS—TERMS 1907-1909

County	Superintendent	Terms Served	Postoffice
Alair	Omer Vandivier.....		Greenfield

ABSTRACT [E]—REPORTS OF COUNTY SUPERINTENDENTS— (CONTINUED).

INSTITUTE FACULTIES JULY 1, 1907 TO JUNE 30, 1908

Counties	Conductors	Instructors
Adair -----	F. E. Palmer -----	Adam Pickett, P. P. Sullivan, W. R. Andrews, Frank Lindeman, Katie McGuire.
Adams -----	Clara Taylor -----	Adam Pickett, J. F. Overmyer, C. V. Fraser, Adaline Brooks, Jeanette Wolcott, Thos. Homan, J. W. Fowler.
Allamakee ---	W. L. Peck -----	W. H. Ray, C. J. Adam, Chas. F. Pye, Blanche Goudy, H. L. Adams, W. H. E. Hegeman.
Appanoose ---	E. N. Gibson -----	O. Swift, H. C. Hollingsworth, E. Philbrook, M. Baker, M. O. Perry, E. Meers, Mary Brain, A. Farnsworth.
Audubon ----	Ella M. Stearns ----	F. J. Mantz, F. A. Nims, Eva Lense, Dea Statzell, Nora Brown, Miss Moffitt.
Benton -----	J. W. Jones -----	A. M. M. Doran, C. R. Scroggie, L. Viola Waller, Emma Ellis, W. B. Guthrie.
Black Hawk ---	Chas. Elliott -----	John E. Cameron, Lillian Bridgeford, Louis Schmidt, Mae E. Bond, Fannie Dickey, A. F. Harvey.
Boone -----	R. R. Cobb -----	I. C. Welty, J. King, Abbie Hunter, M. M. Beddall, C. A. Steelsmith, Hallie Hull, E. E. Bentley.
Bremer -----	John T. Rennick ----	Thos. J. Durant, L. H. Minkel, H. A. Dwelle, Mildred Yule, Beulah Klefer, Rose M. Parker.
Buchanan ----	P. C. Arildson -----	L. N. Gerber, F. D. Joseph, Edwin Dukes, Clara Travis, L. Bridgeford, Hilda Lundin.
Buena Vista ---	J. E. Cundy -----	Geo. H. Betts, Wilbur H. Bender, A. C. Fuller, L. D. Curtis, J. A. Woodruff, M. Overholser, A. V. Storm.
Butler -----	Mary A. Faint -----	C. P. Colgrove, Paul Voelker, Gall Calmerton, John Cameron, F. E. Howard, Letty Keel, A. W. Merrill, Alice Curtis, Mrs. Ella Ford-Miller.
Calhoun -----	O. E. Hibbs -----	Prof. G. E. Weaver, C. F. Garrett, Theo. Saam, C. F. Eakins, Mary Hobbs.
Carroll -----	W. J. Barloon -----	Stella Sheridan, John Beveridge, S. Y. Gillan, Mrs. O. Wendelburg, H. A. Mitchell.
Cass -----	Bertha A. Johnson ---	F. E. King, W. E. Salisbury, C. E. Blodgett, B. J. Still, S. W. Rowley, J. O. Huntley, C. M. Cole, E. Schuneman.
Cedar -----	Geo. H. Kellogg ----	C. Ray Aurner, M. B. Fayram, Eva M. Fleming, Bessie Foster, Winifred Culver, H. E. Blackmar, Cora Patton.
Cerro Gordo --	Fred Mahannah ----	Ella Ford-Miller, George Betts, W. A. Brandenburg, F. O. Cole, May G. Long, C. White, B. Renne, Frank Hicks.
Cherokee -----	Kate Logan, '08 ----	Harriett Treadwell, Nadine Crump, Ruth Adsit, Neale S. Knowles.
	L. H. Maus, '07 ----	J. H. Beveridge, Mary Richardson, Helen Wittich, Estella Boot, C. W. Harlan, A. E. Snyder, G. Finch, Dr. Phillips.
Chickasaw ---	F. J. Conley -----	E. J. Fueling, D. Patten, Ida Fitzsimmons, C. L. Woodfield, C. F. McNevin.
Clarke -----	L. C. Smith -----	I. W. Howerth, W. R. Andrews, G. E. Wright, Lulu Heath-Lester.
Clay -----	Mary E. Riley -----	Z. C. Thornburg, A. H. Avery, E. G. Clarke, C. J. Boyington, Mary K. Griffin, E. E. Strawn.
Clayton -----	C. J. Adam -----	H. L. Adams, C. F. Pye, G. E. Finch, J. N. Dahm, Lillian Bridgeford, Robt. Renow.
Clinton -----	Geo. E. Farrell ----	E. L. Coburn, A. E. Parsons, H. E. Wheeler, Grace Sullivan, Louis Elgel, J. G. Carter Troop, James Speed, F. E. Bolton, Nettie A. Sawyer.
Crawford -----	F. L. Hoffman -----	W. C. Van Ness, E. W. Fellows, J. E. Bayley, Alice Wilson.

SUPERINTENDENT OF PUBLIC INSTRUCTION

405

[illegible]

INDEX.

Accrediting colleges.....	26, 92
Normal departments.....	28, 93
Agriculture in rural schools.....	30
Annual report—computing averages.....	86
Order of reporting corporations.....	108
Apparatus	7, 211, 213, 311, 313
Appeals	9, 246, 247, 342, 343
Attendance—institute	10, 252, 254, 348, 350, 352
Public school.....	208, 210, 310, 312
Averages for annual report—to compute.....	86
Boards—School	58
Bonds—school—outstanding	228-229, 330-331
Certificates—county—number issued.....	230, 235, 232, 237
Regulations governing the issuing of.....	149-167
Registration of	236-239, 338-341
Provisional	35, 40, 101, 160
Renewal	66, 99, 163
Extension of	97
Questions used in examination.....	177
Certificates—state—number issued.....	113
Number in force.....	119
Regulations governing the issuing of.....	139-148
List of those receiving.....	120
Questions used in examination for.....	167
Certificate law—experience under.....	20
Expense of executing.....	25
One year under.....	31
Circulars—communications—official calls.....	36
Official calls.....	36
Special examinations.....	40, 103
To county superintendents—general duties of.....	41
Mothers' clubs.....	45
Iowa maps—renewals.....	48
Renewal of second grade certificates.....	66
Reports of secretary and treasurer.....	66
Teacher supply and related topics.....	72
June examination.....	76, 109
Examination in another county.....	78
Examination—August special.....	95
Examination fees.....	96
Registration of certificates.....	94
Temporary accrediting—colleges and normal departments.....	92
School building bond fund.....	90, 112
Emergency circular—provisional certificates.....	101
Enumeration—tuition—library.....	103
Order of reporting—corporations.....	108
City, town and village districts—number..	204, 206, 260, 261, 306, 308, 359-361
Classification of colleges and normal departments.....	27, 92

ing schools.....	73
olidation—not to be forced.....	74
tracts—term of.....	34, 75
tingent fund.....	8, 220-223, 322-325
apensation of county superintendents.....	9, 246, 247, 342, 343
leges—accrediting of.....	26, 92
porations—directors—teachers.....	260, 261, 359-361
porations—school.....	204, 206, 260, 261, 306, 308, 359-361
t of public schools.....	10, 11, 303, 305
nty superintendents—1907-1909—names.....	200
Compensation of.....	9, 246, 247, 342, 343
Annual report of—directions.....	49, 63, 81, 108
lomas—state—examinations for.....	113
List of holders of.....	120
ectors—number.....	260, 261, 359-361
icational board of examiners—report of.....	112-197
icational commission.....	30
icational institutions.....	266-279, 366-381
icational meetings.....	246, 247, 342, 343
ctions—subdistrict.....	51
Annual meeting.....	54
ergency circular—provisional certificates.....	101
rollment—normal institute.....	252, 254, 348, 350, 352
Public school.....	208, 210, 310, 312
meration.....	103, 205, 207, 307, 309
mination—new system adds no burden.....	33
New system fair.....	33
Saving to the counties.....	33
Time the test.....	35
mination of teachers.....	9, 230-245, 332-341
Concerning fees.....	96
Regulations—state.....	139-148
County.....	149-167
Special.....	40, 103
Regular—directions for.....	76, 89, 98, 99, 109
In another county.....	78
as.....	96, 118
ids.....	7, 8, 10, 90, 102, 212-227, 252-256
ded schools.....	280-303, 382-403
In cities of 3,000 or more.....	280, 281, 382, 383
Places of 1,500 or less.....	284-301, 386-403
nd-book.....	42
ebtedness.....	228, 229, 330, 331
ustrial education.....	29
titutes—teachers'.....	10, 42, 252-255, 348-353
Fund—receipts—expenditures.....	10, 252, 255, 349, 351, 353
Dates—places—conductors.....	61, 105, 252, 254, 348, 350, 352
Instructors in.....	256-259, 354-358
ra maps.....	48
ter of transmittal.....	3
raries.....	49, 103, 209, 211, 262-265, 311, 313, 362-365

Richard C. Barrett.....	Mitchell	1898-1904	Deceased
John F. Riggs.....	Keokuk	1904-1911	Des Moines

The office of Superintendent was abolished in 1842. Again in 1858 it was abolished and the duties were performed by the State Board of Education, of which Thos. H. Benton acted as secretary for five years.

IN MEMORIAM.

It is fitting that mention be made of the passing of Hon. Richard M. Barrett, who, for six years, filled the office of Superintendent of Public Instruction with great distinction.

Mr. Barrett was born at Waverly, Iowa, October 1, 1858, and died at Des Moines, Iowa, March 3, 1909. Following a brief teaching career as a rural teacher and then as the principal of a graded school, Mr. Barrett was elected to the office of County Superintendent of Mitchell county, Iowa, which position he held continuously for twelve years when he was called to larger duties and responsibilities as State Superintendent of Public Instruction. For the last few years of his life he served as professor of civics in the Iowa State College of Agriculture and the Mechanic Arts. Prof. A. V. Storm has well said of Mr. Barrett:

"Broad as has been the field of his activities and eminently successful as have been his labors (and he was pre-eminently a doer of things) his great value to his time and generation lay not so much in what he *did* as in what he *was*. Richard Barrett's character is one of humanity's assets which for all time will serve to make the sum total of the world's goodness greater than it ever could have been had he not lived. Clear, pure, wise, sound, tender, gentle, wholesome, lovable, well poised, unselfish, charitable, magnanimous, sympathetic and considerate, his very presence was benediction and his speech a blessing."

led from September, 1905 to June 30, 1906.

THIRTY-FIFTH BIENNIAL REPORT OF THE SUPERINTENDENT OF PUBLIC INSTRUCTION.

IN GENERAL.

The statistics submitted in this report are in many particulars unusually significant.

From the official reports made by the school secretaries it appears that the school population of Iowa has fallen from 731,154 in 1900 to 677,004 in 1910, and that the school enrollment has fallen from 566,223 in 1900 to 510,661 in 1910. During this period most of the larger towns and cities have enjoyed a satisfactory growth, hence the loss in school population and in school attendance has occurred in the rural and not in the urban districts.

For the school year ending June 30, 1910, the public school enrollment was distributed as follows:

Rural schools	249,680
Graded schools below ninth grade.....	215,746
High schools in towns of less than 1,000 population.....	16,969
High schools in towns of 1,000 and over.....	28,266

The statistics of ten years ago included the data for graded and rural schools under a single head, so the actual loss in school attendance in rural districts within the last decade can not be determined.

It is shown, however, that for the year ending in June, 1900, there were enrolled in all of the public schools, excluding cities of 1,500 population or over a total of 421,143 pupils, while for the year ending June, 1910, the enrollment, excluding the same cities as 361,963, or 59,180 less than ten years ago.

But when we compare the school enrollment in cities we find that ten years ago the cities of 1,500 population or over enrolled 15,080 pupils, while last year the same cities enrolled 148,698 pupils.

The most notable educational trend of recent years is toward secondary and higher education. Not only are our high schools increasing rapidly in number and in enrollment, but the colleges of the country have within recent years enjoyed a growth almost as remarkable. Ten years ago eighteen of the leading colleges of Iowa (including the three State colleges) reported a net enrollment of 11,964. The same colleges report for the year ending June 30, 1910, 14,932, a gain of about 25 per cent in ten years.

In the matter of expenditure in support of public education the people are most liberal. Last year the total amount paid teachers in all public schools in Iowa was \$8,335,917, an increase of \$2,728,985 over ten years ago. Within the same period the contingent expenses have increased \$853,672, being for the last year \$2,823,120, while the value of school buildings has increased from \$17,655,992 in 1900 to \$27,233,239 in 1910. These increases are the more remarkable when it is remembered that the total enrollment in all the public schools is less by 55,562 than ten years ago.

While the number of professionally trained teachers is small in comparison to the total number of teachers employed, it is gratifying to report that the number is increasing from year to year, due in no small part to the special attention given to teacher training in a large number of Iowa colleges. Within the two years ending June 30, 1910, 969 graduates of Iowa colleges have been licensed to teach in the State.

While there has been notable educational progress in many directions within the biennial period covered by this report, there are grave problems demanding solution. Some of these problems will be considered in succeeding pages. We are in a period of readjustment educationally and there is the greatest need at this time of a thorough examination by the people of educational conditions to the end that waste may be reduced and efficiency may be promoted.

THE SCHOOL LAW.

The necessity of a general revision and simplification of the school laws has been long recognized. This need was given expression by the Thirty-second General Assembly when a bill was passed authorizing the Governor to name a commission to revise and codify the school laws. The commission completed its labors only a short time before the assembling of the Thirty-third General Assembly and it was thus impossible to give the report wide distribution before

the general assembly was called upon to consider it. This fact, doubtless, had much to do with the unfriendly reception of the report in many parts of the State. A measure to be approved by the people must be understood by them.

That the true purport of the bill should be readily comprehended was hardly to be expected since it embodied an entire new school code made up, to be sure, in large part of the old statutes but with many important changes. While the commission report was not recommended for passage by the school committee of either house, it will prove of large value to future general assemblies as showing the mature judgment of an able commission on the various features of the school code.

The commission recognized the great need of a consistent and closely related body of school statutes and in the hope to secure this end, all the school laws were, as already stated, re-written and included in one bill. It does not seem to me advisable in any future revision to follow this course since it will inevitably lead to confusion in the public mind. Separate bills, clearly defined, are more apt to receive fair consideration and their purport to be more readily seen. In my opinion, the Thirty-fourth General Assembly should address itself to the serious work of revising the school laws in the parts where the need of revision is most pressing.

A long and earnest study of the public school situation in Iowa leads me to the belief that the efficiency and economy of school administration will be greatly promoted by the enactment into law of the following measures:

FIRST. There should be a simple and efficient form of rural school organization and control.

It seems incredible that for a long period of years three forms of organization should have been tolerated for the rural school districts of Iowa. The one fact of the three forms of rural school government has had much to do with the contradictions and confusion found in our school laws.

It was the belief of the first school code commission of which Horace Mann was a member that each township should constitute a school district with a school board selected at large by all the electors of the township, and that such number of schools should be maintained in the township as would accommodate all the children resident therein. Indeed this form of organization is authorized by section 2752 of the Code.

Twenty-four townships in Sweden counties have this form of organization and in almost every instance the county superintendents having supervision of these townships declare that the management of the schools is much more efficient and satisfactory than in the townships in the same counties where either the sub-district system or the rural independent system prevails. The reason why more districts have not been organized under the last paragraph of section 2362 is quite apparent.

When the State was first settled schools were organized in separate communities to meet the immediate local needs, and the small district originated in any other, this came into being. Later when settlements were less scattered and a different social order made a more advanced form of school organization possible, the proposal to abandon the existing districts was made but it met with opposition. For it is well to remember that any established order, however objectionable, will always have its adherents, hence changes of importance are never accomplished anywhere without a struggle. The friends of educational progress in the late fifties succeeded in getting a statute naming the civil township as the district unit, but an unfortunate compromise was made whereby the township might be broken up into sub-districts. While the township was thus made the unit in name, the sub-district became the unit in fact. Later, in a considerable part of the state, even the semblance of a township unit was removed and almost a third of the sub-districts of the state became independent. So we have at the present time 24 townships each with a board elected at large and the schools of the township managed in the same way the schools of our cities are managed. Then we have approximately 1097 townships divided into 9322 sub-districts, each sub-district in charge of a director, and we have approximately 341 townships divided into 2898 rural independent districts each with a board of three directors besides a school secretary and a school treasurer.

The inherent weakness of both the sub-district system and the rural independent district system has been frequently pointed out by educators for more than fifty years, but the complete failure of either system to meet the needs of rural communities has been more apparent to the general public in recent years than formerly. When farms were smaller and families larger, there were few of the small districts that did not have a sufficient number of children to make up a reasonable enrollment for one teacher. Not only were there

more children in country districts than in recent years, but more of the children attended the country schools. Formerly the large boys and girls were enrolled in the country school. Now they attend the town high school. The changes that have taken place within the past thirty years have left hundreds of the small districts with insufficient children to make up a reasonable school enrollment.

If the last paragraph of section 2752 were made the exclusive law for the school organization of all rural territory, it would often be found practicable to reduce the number of schools and still work no hardship to any child. Such an organization would completely wipe out the arbitrary division lines within the township and give the children the advantages of the nearest school—a privilege now denied in a great number of cases.

Under a simple township system, but one annual meeting would be held, and that in the township at large—the annual sub-district meeting now required being dispensed with. In this connection a significant fact was reported by the county superintendent of Woodbury County following the annual sub-district meetings in March 1910. There are 125 sub-districts in Woodbury County and in 37 of these no election was held due to the fact that no one came out to the sub-district meetings. While the per cent of districts holding no election may be somewhat less in other counties, it is well known to the county superintendents that many elections in every county go by default each year. Another weakness of our sub-district system is found in the fact that the term for which a director is chosen is but one year. The board is not in fact a continuous body since the terms of office of all the members expire at the end of the school year.

The placing of all the rural schools in each township under a board chosen at large by all the electors of the township and making the term of service three years would give us an organization immeasurably superior to either of the systems now in general use in this state, and by having this one system instead of a triple system, the school laws would be greatly simplified and reduced in volume. The fact that this form of organization is in successful operation in other states and that even in Iowa we have 24 townships under a small board elected at large, is proof that nothing radical or revolutionary would follow the change proposed.

It will be noted that the independent township organization proposed has nothing to do with centralization of schools. In no one

of the 24 townships under this form at present is there a consolidated school. Consolidation stands apart as a question to be determined by the people in interest and can be accomplished as well under one form of organization as the other. It will be many years before consolidation is widely adopted in Iowa. In the meantime, the rural schools should have the advantages of the most efficient organization possible where the principle of consolidation is not applied.

SECOND. There should be a County Board of Education, with certain powers and duties specifically defined by statute.

At the present time we have in Iowa an improvised county board of education composed of the county board of supervisors, the county auditor and the county superintendent. The chief duty of this board is to select and contract for school books where county uniformity prevails. But there are other duties that very properly belong to a county board of education. Controversies sometimes arise between the boards of contiguous school corporations over changes of boundaries, or over granting children resident in one of the districts school privileges in the other. Such controversies ought always to be determined with reference to the needs and rights of the children, but unfortunately there are many glaring instances in our state today where such questions are not settled equitably and no authority is clothed with power to determine the cases. A county board, within well defined restrictions, could be empowered to arbitrate such cases and enforce a settlement of them in the interests of the children.

The general supervision of school house construction and sanitation should also be lodged in a county board. We have many instances where local district boards have erected one room school buildings of the most approved kind and have provided for the heating and ventilation on scientific principles. But this is by no means the rule. Were the supervision of such matters placed in the hands of a county board, the benefits that now come to the exceptional districts would in time be shared by all districts.

THIRD. The office of school treasurer should be abolished.

In my report to the 32nd General Assembly I discussed at some length the wisdom of abandoning our cumbersome method of handling school finances, and recommended that the county treasurer be made the school treasurer for all the school corporations

the county, and that he be required to deposit all school balances in banks at interest. Since this recommendation was made four years ago, there has been approximately five and one half million dollars in balances in the hands of school treasurers at all times. The use of this money has been free to the school treasurers or to the banks in which it was deposited. Had the 32nd General Assembly ordered the balances deposited in banks at 2 per cent interest as recommended, the earning by this time would have aggregated at least \$440,000. In addition to this, school treasurers have been paid in salaries within the past four years not less than \$50,000.

It is not claimed that the school finances could in all cases be handled by the county treasurer without additional help, but it could be remembered that this officer now receives all school taxes and that he now has an account with every school corporation in the county. He could, with very little additional labor, perform all the duties now performed by the school treasurers. I earnestly renew my recommendation of four years ago and urge that the office of school treasurer be abolished. The whole system of accounting would thereby be greatly simplified, a very decided saving could be effected, and the many unseemly contests over the school treasurership now witnessed every school election would disappear.

FOURTH. *The very small schools should be temporarily closed.*

All must admit that a school with an actual daily attendance of less than ten pupils is too small for efficient work. But statistics found elsewhere in this report show that many more than 2000 such schools are maintained in Iowa every year. When we remember that school houses are as a rule but two miles apart, it is evident that no child in a given district is far removed from a school house or some adjacent district. The closing of the very small schools can, therefore, usually be effected without placing any child beyond a reasonable walking distance from some other school.

A law should be enacted that will close every school where the average daily attendance for the preceding school year has been as low as six, unless it can be shown to the satisfaction of the county superintendent that an attendance of ten or more pupils resident in the district is assured for the ensuing year. The law should also guarantee the right of pupils to the nearest school and if the distance is two miles or more transportation at the expense of the district should also be guaranteed.

FIFTH. *High school privileges should be offered all youth at the expense of the district of their residence.*

Approximately one-half of the children of Iowa live in districts where high schools are maintained. In such districts those prepared for high school classes receive their secondary school training at public expense. The other half of Iowa youth enjoy no such privilege, and if they receive the benefits of high school training, they must pay tuition. It seems incontrovertible that if a part of our youth have the right to high school training at public expense, all should have this right. If the home district does not maintain a high school, and the child has the ambition to go to a district where such a school is maintained, the district of his residence should be required to pay the tuition. A law guaranteeing this right would encourage many more youth to continue their education beyond the grammar grades. It would moreover increase the number of high schools in country and village districts, and tend to the strengthening of all such schools.

SIXTH. *The salary of the Superintendent of Public Instruction should be increased.*

In his last report to the General Assembly former Sup't Richard C. Barrett urged that a salary should be paid the Superintendent of Public Instruction sufficiently large to induce the very best salaried person in public school or college work to aspire to the position. Mr. Barrett argued that the annual salary should not be less than \$4000 and that the term should be four years. In this recommendation, I heartily concur. The need of a substantial advance in the salary of the Superintendent of Public Instruction is even more urgent now than when Mr. Barrett spoke with such emphasis seven years ago, since there has within very recent years been a marked increase in the cost of practically every necessity of life. In this connection I desire to urge upon the General Assembly the propriety of removing this office from partisan politics, and making it appointive. Either the Governor or the State Board of Education could be safely charged with this duty. Under our present system the selection of a state superintendent must be made from a few self appointed candidates. The expense of standing as a candidate for the office is so considerable that many highly qualified men, who under other conditions would be available, will not permit the use of their names. Were the office appointive.

he selection would be made without expense to any applicant and a larger and on the whole a stronger body of men would be presented from which the choice would be made. Such a change would be in line with that already effected in many states as evidenced by the fact that in ten states the State Superintendent is now appointed by the Governor, in four he is appointed by certain boards, and in one he is elected by the General Assembly.

SEVENTH. Sundry Sections of the School Law should be so amended as to remove unnecessary restrictions.

A. The 30th General Assembly enacted a law (section 2820-a Supplement to the Code) authorizing any school district containing or contained in an incorporated town of three thousand or less population, to become indebted for the purpose of building and furnishing a school house and procuring a site therefor to an amount not exceeding in the aggregate two and one-half per centum of the actual value of the taxable property within such independent school district. An attempt was made by the 33rd General Assembly to so amend this law as to extend its provisions to independent districts in cities over 3000 population. But what the 33rd General Assembly really did was to deprive all districts in cities of 3000 population or less of the privileges formerly granted by section 2820-a and to give these privileges to districts containing cities of 65000 or more population. This unfortunate restriction, which was evidently not intended, has resulted in serious embarrassment to a number of school corporations. To relieve this embarrassment Section 1 of Chapter 184, Acts of the 33rd General Assembly should be amended by striking out the clause limiting the powers granted to districts containing 65000 or more population and enact in lieu a clause extending these powers to all independent districts containing or contained in incorporated towns or cities.

B. Section 2806 of the Supplement to the Code limits the amount of taxes that may be levied for the teachers' fund and for the contingent fund. The 33rd General Assembly amended this section, making its provisions more liberal, but even yet the statute is not sufficiently flexible to meet the conditions in many school corporations. I have never been able to understand why the local school board should not be permitted by law to levy sufficient taxes to properly meet the contingent and other expenses. The tendency on the part of local boards is seldom, if ever, toward extravagance or wastefulness, and should this tendency appear, the electors have

a speedy remedy in the annual election of directors. In many of the districts having very few persons between the ages of 5 and 21 years it is now impossible to levy more than \$270 for the teachers' fund. This restriction limits the district to a short term of school or necessitates paying a salary so meagre as to preclude the possibility of securing an experienced teacher. Equally embarrassing is the limitation placed on the amount that may be levied for contingent fund. Boards in rural districts where there are but few pupils often find it desirable to contract with neighboring districts and transport the pupils to such districts. This frequently results in a direct financial saving and in more efficient instruction for the children. But the law provides that the expense of transportation must be paid from the contingent fund, and this fund is often too small to meet the actual demands made upon it. The limitation on the amount of taxes that may be levied for the contingent fund should either be removed altogether, or the board should be given the power to pay transportation expenses from the teachers' fund where the school is closed and all the pupils transported to a school in another corporation. In this connection, I desire to call the attention of the General Assembly to the awkward and complicated system now in use in this state in the matter of school funds. There are in reality but two general classes of school accounts—one including funds that can only be raised by a direct vote of the electors, such as authorizing the raising of revenue for the purchase of school house sites, the opening of roads to school house sites and the erection of school houses, and the other including all taxes levied by the board without a vote of the electors, and that are devoted to the paying of teachers and janitors, providing coal, the necessary school supplies, and other incidental expenses. Much confusion would be obviated if the law were so amended as to provide two funds to take the place of the four now required.

C. Section 2634-f, Supplement to the Code, authorizes the State Educational Board of Examiners to grant certificates without examination to the graduates of colleges and normal schools of high grade located in the state of Iowa where such graduates have also completed a prescribed course in education. The board should also have power to accept graduation from institutions without the state where it is shown that the scholarship and professional training of the applicant is in every way equal to that possessed by the

graduates of our state schools. The words "in the state" should be stricken out of the fifth line of section 2634-f.

D. The public school teachers of Iowa pay for institute attendance for examinations and for registration of certificates approximately \$68,000 per year. This money is applied to the support of the normal institutes and to paying the expenses of the State Educational Board of Examiners. Attention has frequently been called to the grave injustice of taxing the teachers for the purposes named. The institute enrollment fee and the registration fee should be abolished and section 2626 of the Code should be amended by striking out the words "fifty dollars" and inserting in lieu thereof the words "four hundred dollars," thus placing the support of the normal institutes primarily upon the state where it of right belongs.

E. A number of cases have been brought to the attention of the Department in which the uniting of school districts in adjoining counties, or a transfer of territory from a district in one county to a district in another county is desired by the people in interest, and where such changes would result in increased advantages to the children resident in the districts affected. Such readjustment of boundary lines cannot now be legally made. There is no valid reason why the county line should stand as a barrier to changes clearly recognized as necessary. The words "in the same county" should be stricken from lines one and eight of section 2793, Supplement to the Code, thus permitting the local school authorities to determine all such cases in the interest of the children.

EIGHTH. The law should provide greater safeguards for the health and comfort of children.

The first concern of society is the physical health and comfort of its members. Every means, then, that will promote health and lessen the dangers of disease should have the most careful consideration at the hands of the General Assembly. It may come as a surprise to many to be reminded that the Iowa statutes are practically silent on the question of school room sanitation and wholly so in the matter of medical inspection of schools. Through sheer carelessness, conditions exist in many districts that imperil the life and health of children. The fact that disease is so insidious and the sources of infection so often unobserved, leads us to go on from day to day indifferent to practices that are perilous and that result in untold suffering, loss of opportunity, loss of efficiency and even

REPORT OF THE

loss of life. To reduce this loss effectively the General Assembly should enact laws that will provide expert supervision over the construction of every school house hereafter to be erected in the state and that will provide for the proper ventilation, heating and care of school rooms. In addition, every school board should be empowered to employ medical inspectors, or specially trained nurses to visit and inspect the schools once a month or oftener, with special reference to the existence of contagious or infectious diseases, also to determine the condition of the eyes, ears, teeth, nose and throat and the general physical condition of each pupil. The specific things I would have included in a law on the subject under discussion should in addition to medical inspection at the option of the board provide:

1 For school room ventilation in such manner as to afford each child at least 1500 cubic feet of air per hour.

2 For heating the school room evenly and at a temperature ranging from 64 degrees to 69 degrees Fahrenheit.

3 For lighting in such manner as to minimize the eye strain.

4 For daily sweeping of the floors after pupils and teachers have left the building requiring the floors first to be well sprinkled with sawdust moistened with a disinfectant of indicated strength and providing that all desks, wainscoting and window sills shall be wiped off daily with a cloth moistened with a disinfectant of indicated strength.

5 For covered jars or containers for drinking water, such containers to be secured daily when in use.

6 For stringent regulations as to outside closets and requiring the contents to be emptied and buried at frequent intervals; also requiring that all closets, whether of the inside or outside type, shall be scrubbed with a disinfectant solution once a week and kept in a sanitary condition at all times.

7 For the thorough draining of all school premises and the keeping of the school premises at all times free from rubbish of all descriptions.

Iowa is far behind most of the states in respect to sanitary laws as related to the public schools. One of the most advanced states in this particular is Louisiana where medical inspection, as well as every other feature stated in the above summary, is enforced by law. Shall not Iowa take an advanced stand on this most important subject?

THE RURAL SCHOOL LIBRARY.

The number of books in the school libraries of the state aggregate at this time 1,086,287. Under the law the number must increase from year to year and this is most desirable. In my opinion this department, which has grown to very large proportions and large importance, should be put under closer and more expert supervision than is possible under the law as it now stands on the statute books. The preparation of lists of books from which the districts must make their selections is now done by the Educational Board of Examiners. This service performed, the work of the board ends. It has no systematic supervision over the thousands of school libraries after the books are purchased and installed.

Since we have in Iowa a Library Commission charged with the work of organizing and directing free traveling libraries, and since this work is under the immediate supervision of a trained library expert, it is suggested that the entire supervision of the rural school libraries be placed under the library commission and that sufficient funds be provided the commission to secure the preparation of lists of books by carefully selected persons who can give all the time necessary to the work, and that instruction in the care and use of library books be given in every normal institute by a trained librarian in the employ of the commission.

COUNTRY SCHOOL STATISTICS.

All public school statistics compiled in Iowa prior to 1905, save only as to the number and classes of corporations, included all the data for any particular item under one heading, that is, the rural schools were not differentiated from the graded schools, and the real situation as concerned the country schools was imperfectly known. Since 1905 separate reports in a few matters have been required on the two general classes of school corporations. The results as tabulated (page 50) reveal some very significant facts. If we may accept the returns made by the school secretaries as reasonably accurate, it is found that the school population in the rural districts is growing gradually but constantly less, decreasing in three years 13,735. The loss to the rural schools is still further shown by the fact that for the last school year the number of non-resident pupils attending town and city graded schools was 15,323, an increase of 1,289 over the preceding year. The table does not show how many of the one room rural schools were closed

for any particular year, but the fact that the sum of \$58,104 was received in tuition by the rural districts last year would indicate that the movement towards closing the smaller schools and providing for the children in neighboring districts is well under way. While the summary given in the table on page 50 is suggestive, it was found necessary to secure more detailed reports in order that the country school situation in the different counties of the state might be studied intelligently. We accordingly asked the rural teachers in actual service on the 16th day of December, 1908, to make for that day a postal card report to us on certain items. The day proved to be free from storms in all parts of the state, and there were no untoward circumstances that would effect the school attendance unfavorably.

In the matter of enrollment, the report showed:

(See Table B, page 38.)

- 1 school with an enrollment of one pupil;
- 9 schools each with an enrollment of two pupils;
- 35 schools each with an enrollment of three pupils;
- 60 schools each with an enrollment of four pupils;
- 137 schools each with an enrollment of five pupils;
- 168 schools each with an enrollment of six pupils;
- 224 schools each with an enrollment of seven pupils;
- 332 schools each with an enrollment of eight pupils;
- 327 schools each with an enrollment of nine pupils;
- 432 schools each with an enrollment of ten pupils;
- 469 schools each with an enrollment of eleven pupils;
- 518 schools each with an enrollment of twelve pupils;
- 494 schools each with an enrollment of thirteen pupils;
- 590 schools each with an enrollment of fourteen pupils;
- 574 schools each with an enrollment of fifteen pupils;
- 548 schools each with an enrollment of sixteen pupils;
- 460 schools each with an enrollment of seventeen pupils;
- 500 schools each with an enrollment of eighteen pupils;
- 431 schools each with an enrollment of nineteen pupils;
- 366 schools each with an enrollment of twenty pupils;
- 1943 schools each with an enrollment of 21 to 29 pupils, inclusive;
- 529 schools each with an enrollment of 30 to 39 pupils, inclusive;
- 124 schools each with an enrollment of forty or over.

In the matter of actual attendance on the 16th day of December, 1908, the report showed:

(See Table D, page 42.)

- 7 schools each with an attendance of one pupil;
- 23 schools each with an attendance of two pupils;

hools each with an attendance of three pupils;
hools each with an attendance of four pupils;
hools each with an attendance of five pupils;
hools each with an attendance of six pupils;
hools each with an attendance of seven pupils;
hools each with an attendance of eight pupils;
hools each with an attendance of nine pupils;
hools each with an attendance of ten pupils;
hools each with an attendance of eleven pupils;
hools each with an attendance of twelve pupils;
hools each with an attendance of thirteen pupils;
hools each with an attendance of fourteen pupils;
hools each with an attendance of fifteen pupils;
hools each with an attendance of sixteen pupils;
hools each with an attendance of sixteen pupils;
hools each with an attendance of seventeen pupils;
hools each with an attendance of eighteen pupils;
hools each with an attendance of nineteen pupils;
hools each with an attendance of 21 to 29 pupils, inclusive;
hools each with an attendance of 30 to 39 pupils, inclusive;
hools each with an attendance of forty or over.

ough the failure of a few county superintendents to co-
e with the state office, the reports for December 16, 1908,
out ninety of the ninety-nine counties.

A SECOND SPECIAL REPORT.

y in January 1910 a second special report was called for.
ing the actual attendance, teachers were instructed to select
t *day* during the third week of January, instead of reporting
particular day as in the first report. Probably the enrollment
the month of January is about the maximum in country
, since fewer children are kept out of school at that time
k. In the matter of enrollment during the third week in
y 1910, the report showed:

ible C, page 40.)

hool with an enrollment of one pupil;
hools with an enrollment of two pupils;
hools with an enrollment of three pupils;
hools with an enrollment of four pupils;
hools with an enrollment of five pupils;
hools with an enrollment of six pupils;
hools with an enrollment of seven pupils;
hools with an enrollment of eight pupils;
hools with an enrollment of nine pupils;
hools with an enrollment of ten pupils;

548 schools with an enrollment of eleven pupils;
573 schools with an enrollment of twelve pupils;
584 schools with an enrollment of thirteen pupils;
624 schools with an enrollment of fourteen pupils;
657 schools with an enrollment of fifteen pupils;
565 schools with an enrollment of sixteen pupils;
504 schools with an enrollment of seventeen pupils;
526 schools with an enrollment of eighteen pupils;
429 schools with an enrollment of nineteen pupils;
429 schools with an enrollment of twenty pupils;
2242 schools with an enrollment of 21 to 29 pupils, inclusive;
496 schools with an enrollment of 30 to 39 pupils, inclusive;
102 schools with an enrollment of 40 or over.

In the matter of actual attendance during the *best day* of the third week of January 1910, the reports showed:

(See Table E, page 45.)

10 schools with an attendance of one pupil;
35 schools with an attendance of two pupils;
73 schools with an attendance of three pupils;
160 schools with an attendance of four pupils;
244 schools with an attendance of five pupils;
333 schools with an attendance of six pupils;
428 schools with an attendance of seven pupils;
515 schools with an attendance of eight pupils;
555 schools with an attendance of nine pupils;
667 schools with an attendance of ten pupils;
622 schools with an attendance of eleven pupils;
664 schools with an attendance of twelve pupils;
602 schools with an attendance of thirteen pupils;
645 schools with an attendance of fourteen pupils;
594 schools with an attendance of fifteen pupils;
529 schools with an attendance of sixteen pupils;
444 schools with an attendance of seventeen pupils;
447 schools with an attendance of eighteen pupils;
378 schools with an attendance of nineteen pupils;
370 schools with an attendance of twenty pupils;
1405 schools with an attendance of 21 to 29 pupils, inclusive;
162 schools with an attendance of 30 to 39 pupils, inclusive;
25 schools with an attendance of forty or over.

The detailed reports for the ninety-nine counties from which above summaries are made are given in the tables on pages 36 to

CONSOLIDATION OF SCHOOLS.

Iowa has but few consolidated schools they are all successful and are growing constantly in favor with parents and pupils. As I am aware no consolidated school in this state once organized and put into operation has ever been abandoned. That consolidation is the ultimate solution of the country school problem is the firm belief of many educators. The consolidated school gives advantages of organization and classification of pupils that is impossible in the one room school, and it offers high school courses within easy reach of the homes of the children. It more makes possible the school as the community center and secures its rational development and largest usefulness. The following table is compiled from the latest reports received from ten consolidated schools. These reports were made for the month of February, 1910 and thus cover a period of unusually severe weather.

School	Area of district in square miles	Total number enrolled	Average attendance month Jan., 1910	Number of pupils transported	Number hacks required	Total teachers' salaries	Janitors' salary	Total drivers' salaries	Number of teachers	Salary of principal	Maximum teacher's salary	Minimum teacher's salary	Tuition of pupils per month	Sentiment of parents and pupils as reported by principal
-----	16	165	135	52	4	370	\$ 27	130	5	\$110	\$ 60	\$ 60	\$ 3.19	Favor

AGRICULTURE IN RURAL SCHOOLS.

In many years there has been a growing sentiment in favor of interest in the teaching of elementary agriculture and home economics in the public schools. The chief difficulty has been in the lack of teachers properly trained to present the work effectively. This difficulty is being in part met in the following ways: Some of our rural schools and at least one independent college have employed teachers of agriculture and domestic science; the subject of agriculture is presented by a specialist in many of our teachers' institutes; the more earnest county superintendents see that elementary agriculture are in the hands of all rural

teachers, and that the ways and means of presenting the subject are discussed in local educational meetings; and finally the extension department of the State College of Agriculture and the Mechanic Arts is doing effective work in promoting the knowledge and in awakening the enthusiasm of rural teachers and others in the subject of agriculture and domestic science. The two following reports are submitted as showing the actual results being accomplished in counties where the county superintendents have taken earnest and personal direction of this movement. Other county superintendents are carrying forward the work on similar lines.

REPORT FROM WRIGHT COUNTY.

In the fall of 1907, the subject of Farm and Home Economics was introduced in the rural schools of Wright county, Iowa. At first the teachers and people were slow to see the need of it and consequently very little progress was made during the first year. The name of "Elementary Agriculture" seemed to be a hindrance to the cause and so we proceeded to urge the work largely by means of correlation with the other regular subjects, such as geography, arithmetic, language, writing, etc. In addition to this the teachers were urged to make special preparation for the teaching of the subject in both the county normal institute and by a course of special reading.

The schools have given the subject definite place and plans in the daily program, regular classes were formed and pupils from the sixth, seventh, eighth and ninth grades were permitted to take up this work. text-books and outlines were put into the hands of both teachers and pupils.

At the present time over 90 per cent of all the schools in Wright county are doing regular and efficient work in presenting the interests of farm and home life in the daily work of the school. In addition to the above we have a number of agricultural clubs, mothers' conferences, educational rallies, county corn club, school fairs, township alumni organization, rural district lecture courses, all of which are intended to redirect the interests of the country youth to the dignity of the agricultural and domestic life.

The means used in creating a wholesome sentiment for this redirected education has been varied.

First. I would mention the specific correlation work through the regular subjects, in this way the old dry bones of the "Three R's" were vitalized and given life and at the same time farm and home interests were dignified and made a part of the regular school interests.

Second. The correlation work was given form in the way of illustrated booklets on farm and home subjects, sewing, baking, wood work and other forms of hand work is a conspicuous part of the school work. An annual exhibit of the school work of the township has been held annually for four years in connection with the township graduation exercises. There are several other very important events held in conjunction with the

raduation program and school exhibits of school work, such as field events, base-ball games, educational and rural life lectures and picnic dinners. The average rural school event will draw as large a crowd for a day's outing in the interest of child-life, their schools and homes, as they have been in the habit of getting at the 4th of July celebrations in towns in Wright county, and hundreds of the town and city people are beginning to appreciate the annual opportunities to go into rural centers for a day's outing, the result is notable for the redirected school work, better school equipment, higher salaries for the teachers, new and better school-houses, a more sane and satisfied rural citizenship, dignity in agricultural and household duties is common and the enthusiasm for rural uplift work and organization is growing by leaps and bounds.

Respectfully submitted,

O. H. BENSON,

County Superintendent of Schools.

REPORT FROM PAGE COUNTY.

In the spring of 1906, twelve of the strongest and most successful teachers in Page county were selected to introduce the study of agriculture in the schools. Prof. Holden, of Ames, met with these teachers and gave them help and suggestions for their work. These teachers reported what had been accomplished in their schools at the teachers' institute that summer.

The following year, the Page County Progressive Teachers' Club was formed which has for the past two years met monthly in different parts of the county to study special problems in relation to rural school work. The first year was devoted to the study of agriculture. Through the work of this teachers' organization, supplementary problems in farm arithmetic have been introduced in every school.

But we have been able to get the largest results through home work on the part of the boys and girls in growing corn and grain and in sewing and manual training. We have now six hundred boys and girls enrolled in this work. There is an annual boys' corn show and girls' industrial exposition and an annual boys' farm camp.

Also, for two years, we have had a county essay contest on the subject, "Farm Life, Why I Like It."

Three of the high schools in the county offer agriculture in their courses of study. The Coin high school has an experimental plot of six acres in connection with their work in agriculture and horticulture.

JESSIE FIELD,

County Superintendent of Schools.

TEACHERS' SALARIES IN RURAL SCHOOLS.

The following table shows the salaries paid rural teachers during the winter term of 1908-09 and the winter term of 1909-10. It will be observed that the first report covers but 91 of the 99 counties. Comparing the data for these counties with that of the same

TEACHERS' SALARIES IN RURAL SCHOOLS—Continued.

WORK OF THE STATE EDUCATIONAL BOARD OF EXAMINERS.

For the biennial period ending June 30, 1910, the State Educational Board of Examiners received 47,112 applications for licenses to teach. Of this number 2,517 were for state certificates and 44,595 were for uniform county certificates. To meet the expense of this and other work performed under the direction of the State Board, fees were paid into the state treasury during the biennial period aggregating \$26,583. This sum with \$1,245.47 on hand July 1, 1908, gave an available fund of \$28,828.47.

The expenses incurred by the board during the biennial period were \$26,086.05, leaving a balance July 1, 1910, of \$2,742.42.

The total number of certificates of all grades issued from July 1, 1908 to June 30, 1910, is as follows:

State certificates of all kinds.....	2,356
First grade uniform county certificates.....	3,066
Second grade uniform county certificates.....	12,624
Third grade uniform county certificates.....	7,926
Provisional certificates	7,192
Special certificates.....	224
Kindergarten certificates	96

Since 47,112 applications were considered, it would appear that 13,628 applicants were rejected. However, these figures are misleading since the rules of the Board give every applicant for a certificate two trials, if he wishes it, and a large per cent of the applicants avail themselves of the two trials. But at each trial the applicant is counted, making the number of apparent failures much greater than the number of actual failures. As showing approximately the relative number of failures as compared with the number of individuals applying for certificates, a rather complete analysis was made of the July 1910 examination.

In the June examination each year the largest number of applicants make the first trial, many of them not expecting to pass in all the subjects, knowing that a second examination in the low subjects is open to them a month later. The figures for the July examination, which represent the completed examination for most of the applicants, are therefore far more trustworthy than those that might be compiled from any other examination. The following table, made up from the July 1910 answer papers, will give as clear an understanding of the practical workings of the certificate

WORK OF THE STATE EDUCATIONAL BOARD OF EXAMINERS.

For the biennial period ending June 30, 1910, the State Educational Board of Examiners received 47,112 applications for licenses to teach. Of this number 2,517 were for state certificates and 44,595 were for uniform county certificates. To meet the expense of this and other work performed under the direction of the State Board, fees were paid into the state treasury during the biennial period aggregating \$26,583. This sum with \$1,245.47 on hand July 1, 1908, gave an available fund of \$28,828.47.

The expenses incurred by the board during the biennial period were \$26,086.05, leaving a balance July 1, 1910, of \$2,742.42.

The total number of certificates of all grades issued from July 1, 1908 to June 30, 1910, is as follows:

State certificates of all kinds.....	2,356
First grade uniform county certificates.....	3,066
Second grade uniform county certificates.....	12,624
Third grade uniform county certificates.....	7,926
Provisional certificates	7,192
Special certificates.....	224
Kindergarten certificates	96

Since 47,112 applications were considered, it would appear that 13,628 applicants were rejected. However, these figures are misleading since the rules of the Board give every applicant for a certificate two trials, if he wishes it, and a large per cent of the applicants avail themselves of the two trials. But at each trial the applicant is counted, making the number of apparent failures much greater than the number of actual failures. As showing approximately the relative number of failures as compared with the number of individuals applying for certificates, a rather complete analysis was made of the July 1910 examination.

In the June examination each year the largest number of applicants make the first trial, many of them not expecting to pass in all the subjects, knowing that a second examination in the low subjects is open to them a month later. The figures for the July examination, which represent the completed examination for most of the applicants, are therefore far more trustworthy than those that might be compiled from any other examination. The following table, made up from the July 1910 answer papers, will give as clear an understanding of the practical workings of the certificate

REPORT OF THE

law as it relates to uniform county certificates as it is possible to present.

JULY EXAMINATION, 1910.

Subject	No. papers written	No. papers marked 80 per cent or more	No. papers marked 70 to 80 per cent	No. papers marked 60 to 70 per cent	No. papers marked under 60 per cent
Orthography	5,350	2,343	1,916	126	28
Reading	3,385	1,250	1,650	480	9
Writing	4,222	2,361	1,561	307	8
Arithmetic	5,946	2,357	1,605	965	1,078
Geography	5,554	1,792	1,768	991	1,008

Physics	896	196	224	164	31
Algebra	924	353	241	105	25

CERTIFICATES ISSUED JULY EXAMINATION, 1910.

Classes of Applicants	No. of applicants	First Grade	Second Grade	Third Grade	* Provisional	Failures
		Average in 14 subjects of 85 per cent with no subject below 75	Average in 10 subjects of 75 per cent with no subject below 70	Average in 10 subjects of 65 per cent with no subject below 60	Average in 10 subjects of 65 per cent with no subject below 55	
Those with no training above that received in country schools or grades below high school in towns.	498	3	125	140	76	154
Those with some high school training, but less than that required for graduation.	3,608	96	1,296	996	578	702
Those who were high school graduates	2,025	77	875	608	271	194
Those with some normal school or college training above high school.	753	99	872	163	82	57
Total	6,914	275	2,068	1,007	1,007	1,065

*Provisional certificates are issued only upon the call of the County Superintendent when there is a shortage of teachers. While this table shows 1,007 provisional certificates authorized, but 675 of them were called for by the county superintendents up to September 15, 1910.

The last table given furnishes an interesting study. It may at first glance seem remarkable that but 275 first grade certificates were issued. But the total number writing in the first grade certificate subjects was but 924, so it appears that about 30 per cent of them succeeded in getting first grade certificates, while most of the others received lower grades of certificates. Of the absolute failures in the several groups, it is shown by the table that of those having no training above the grammar grades, 31 per cent failed; of those having some high school training, but less than that required for graduation, 19 per cent failed; of high school graduates $9\frac{1}{2}$ per cent failed; while of those having some college or normal school training above high school but 5 per cent failed.

The small number in the above table who are credited with some college or normal school training is in no way indicative of the relative per cent of Iowa teachers with advanced training, the table referring to uniform county certificates only.

OFFICIAL CALLS, CIRCULARS AND COMMUNICATIONS.

OFFICIAL CALL.

the County Superintendent:

You are hereby called officially to a meeting of County Superintendents to be held at Des Moines, Tuesday, Wednesday and Thursday, December 30 and 31, 1908. Under provision of Section 2742, your expenses will be defrayed.

JOHN F. RIGGS,
Superintendent Public Instruction.

December 10, 1908.

OFFICIAL CALL.

May 11, 12 and 13, 1909.

the County Superintendents:

You are hereby officially called to a meeting of the County Superintendents at Des Moines, Tuesday, Wednesday and Thursday, May 11th, 12th and 13th.

Your expenses to and from this meeting, and while in attendance, will be defrayed by your county under Section 2742.

JOHN F. RIGGS,
Superintendent Public Instruction.

April 30, 1909.

PROGRAM.

Room 22, Capitol Building.

May 12—9:00 A. M.

"Care of School Property." Discussion opened by County Superintendent Geo. E. Masters.

"School Officers' Meetings." Discussion opened by County Superintendent Geo. H. Kellogg.

"The Problem of the Small School." Discussion opened by County Superintendent O. E. Hibbs.

"Agriculture in the Rural Schools." Discussion opened by County Superintendent O. E. Gunderson.

REPORT OF THE

1:00 P. M.

1. "How Secure the Maximum in Efficiency from the Institute." Discussion opened by County Superintendent J. R. Wilson.
2. "Renewal of Certificates." Discussion opened by State Superintendent John P. Riggs.
2. "Reaching the Individual":
 - (a) Teacher.
 - (b) Pupil.
 Discussion opened by County Superintendent Jennie Field.
4. "How May Rural Teachers Receive Professional Training?" Discussion opened by County Superintendent E. R. Jackson.

May 13—9:44 A. M.

1. "Shall There Be a State-wide Campaign Looking to Radical Changes in Our School Laws? If so, What Shall Be the Salient Features of the Legislative Program?" Discussion opened by County Superintendents J. D. Adams, D. K. Brainard, A. J. Oblinger, W. P. Jensen and Etta J. Rider.

1:30 P. M.

1. "How Raise the Standard, Influence and Efficiency of the County Superintendency?" Discussion opened by County Superintendent A. M. Deyoe and County Superintendent A. L. Heminger.

3:00 P. M.

Report of Committee on Resolutions.

RECEPTION AND BANQUET.

Parlors of the Central Presbyterian Church, Eighth and High Streets.

May 11.

Reception, 5:00 p. m.

Banquet, 6:30 p. m.

PROGRAM.

(Following Banquet.)

- Toastmaster—Superintendent George E. Farrell.
- "The Old and the New"—Superintendent F. E. Lark.
- "When Women Vote"—Superintendent Lille Patton.
- "Seeing Things," by a new County Superintendent—Superintendent E. J. Feuling.
- "Managing Men" (Directors)—Mary S. Hostetler.
- "Managing Women" (Teachers)—Superintendent T. B. Morris.
- "A Common Cause"—Hon. Henry Sabin.

OFFICIAL CALL.

To the County Superintendent:

You are hereby officially called to a meeting of the County Superintendents at Des Moines, Wednesday, Thursday and Friday, November 3, 4 and 5, 1909.

Your expenses to and from this meeting and while in attendance will be defrayed by your county, under Section 2742.

Every County Superintendent should arrange to be present during all the sessions of this meeting. You are urged to reach Des Moines before 5 o'clock on Tuesday, November 2d, that you may be present at the banquet to be held that evening.

Please fill out the enclosed postal blank and mail to us not later than November 1st, that we may know whether you will be present at the banquet and the number of plates you wish reserved.

Yours truly,

JOHN F. RIGGS,
Superintendent Public Instruction.

October 20, 1909.

OFFICIAL CALL.

April 27 and 28, 1910.

To the County Superintendents:

In accordance with Section 2622 of the Code, you are hereby called to meet in convention at Des Moines, April 27 and 28, 1910.

Under provision of Section 2742 of the Code, your expenses will be defrayed.

The Savery Hotel will be headquarters, and the sessions of the conference will be held in the Ordinary at 10:00 a. m. and 1:30 p. m.

Respectfully,

JOHN F. RIGGS,
Superintendent of Public Instruction.

April 4, 1910.

PROGRAM.

FIRST SESSION.

10:00 A. M., April 27.—Ordinary, Savery Hotel.

Topic: The Teacher.

1. How may the County Superintendent give most aid to the young teacher?
2. Should the examination in didactics be the same for all grades of uniform county certificates?
3. Should the grade in general fitness be entered upon the certificate?
4. Renewal regulations. Professional interest credits; number required

in 1910

5. Grading teachers' wages.
 6. The training of teachers: (a) College and normal school; (b) The city high school; (c) The proposed agricultural high school; (d) Additional normal schools.
-

SECOND SESSION.

1:30 P. M., April 27.—Ordinary, Savery Hotel.

Topic: How May We Secure the Best Results in the One-Room Rural School?

1. Agricultural foundations.
 2. Correlating farm interests with school subjects.
 3. Reaching the larger boys on the farm during the winter months.
 4. Extension workers for rural schools.
 5. Grading the school.
 6. Methods of creating good school sentiment.
-

THIRD SESSION.

10:00 A. M., April 28.—Ordinary, Savery Hotel.

Topic: How May the High School Be Made of the Largest Value to the People?

1. The course of study: (a) Modifications needed. (b) Nature and extent of electives.
 2. The accrediting system.
 3. High school entrance requirements for country youth.—Entrance examinations by County Superintendents.—Grading papers, etc.
 4. The township high school.
-

FOURTH SESSION.

1:30 P. M., April 28.—Ordinary, Savery Hotel.

Topic: The County Superintendent and Law Enforcement.

1. Enforcing the compulsory attendance law.—What has been the measure of success,—What the chief difficulty,—What modification in the law is needed?
2. Enforcing the law requiring the teaching of (a) music; (b) physiology and hygiene.
3. Enforcing the library law.
4. What is to be done (a) when no director is elected; (b) when no one will serve; (c) when no board meeting can be secured?
5. Methods used in getting annual reports from secretaries and treasurers.
6. Uniformity of text books.

CIRCULARS.

ANNUAL REPORTS.

CIRCULAR NO. 9—1908.

To the County Superintendent:

As you are now about to assemble the data for your annual report we wish to call your attention to some matters connected therewith.

1. **REPORTS SHOULD BE FILED.** The reports of your school officers should be in your office now. If any have not been filed, you should inquire for them at once. Do not delay doing this, because it is easier to get a report now than a month from this time. We trust you will receive your reports promptly, because it will be necessary for us to have the reports of the county superintendents earlier than we had them last year. This is necessary on account of our having to file our report and have the same published before the end of the year; and the further fact that since the other departments will also have reports to be published ours will be delayed unless it is in the hands of the printer early.

2. **INSPECTION OF REPORTS.** (a) *Secretary's Report.* Upon receipt of the secretary's report you should examine it to determine, (1) whether there are any omissions, and (2) whether there are any inconsistencies. There are some items that every school corporation should report, and there are some that one corporation may report, while another will have no data. Your knowledge of the corporations in your county will enable you to determine whether your school officers are reporting in everything they should.

You should also examine the report to see whether there are inconsistent statements, such as an average attendance that exceeds the enrollment. You should also notice whether non-resident pupils are reported when tuition is reported, or that tuition is reported when non-resident pupils are reported.

3. *Agreement of Reports.* The reports of the secretary and treasurer of each corporation should agree as to the amount of tuition collected and paid into the treasury and the amount expended for library books. (See suggestions on backs of the blanks for these officers.)

4. *Totals—Averages.* When you find the secretary's report to be complete, or as complete as possible, you are ready to compute the totals and averages for the starred columns, which the secretary is directed not to insert. Full directions for making these computations may be found on the back of the "Products" sheet.

5. (b) *Treasurer's Report.* As soon as the treasurer's report is received it should be tested for the following:

(1) To see that the "amount on hand July 1, 1907," agrees with the amount reported last year as "on hand June 30, 1907." No other balance can be accepted.

(2) To see that the amounts "Received from district tax" for each fund agree with the county treasurer's books.

(3) To see that the amount reported as received from "semi-annual apportionment" for the teachers' fund agrees with the treasurer's books.

REPORT OF 1908

1. When these are made it is correct and make the report and the report should be made that it is correct and the amounts reported are correct.

2. The sum of the total of the report and the total amount equals the sum of the total amount.

3. **Examination Fees.** When the report of a secretary or treasurer is made it is correct and the report is correct and the sum of the report and the total amount equals the sum of the total amount. Each item relative should be checked with the report.

4. **ADDITIONAL SUGGESTIONS FOR REPORT.** When your report is complete, please send it to us give it the same careful inspection suggested by the secretary and treasurer's report. Unless you do this it is quite probable that something will be omitted. In addition to the suggestions we suggested please observe the following directions:

5. **Comparing Averages.** Full and complete directions for comparing the averages of your annual report will be found on the back of the "Summary" blank in which we referred you for directions for comparing the averages for the secretary's report.

6. **Testing.** After the data have been transcribed and checked with the report from which they are taken, the following additional test should be made with respect to the reports for the different funds: Add together the items for each corporation as entered in your report book to the left of the column headed "Total Debits and Credits." The sum should equal the "Total Debits and Credits." If it does not, the error should be traced at once. The same test should be applied to the items to the right of the "Total Debits and Credits."

When the reports of all of your treasurers have been entered, add the columns and apply the same test to the findings.

7. **REPORT OF INSTITUTE FUNDS.** The debit items of the institute fund report must agree with other portions of your report, as follows: 1. **Balance on Hand.** The "Balance on hand July 1, 1907," must agree with the amount reported last year as "on hand June 30, 1907."

2. **Examination Fees.** The number of dollars reported as examination fees must equal exactly the total number of candidates examined, including renewals not reported last year. (The June, 1908, examination and fees should not be included in your report.)

3. **Registration Fees.** The number of dollars reported as received from registration fees must equal the total number of certificates registered during the year.

4. **Enrollment Fees.** The number of dollars reported as received from "enrollment fees" must equal the total institute enrollment. If two institutes were held between the dates July 1, 1907, and June 30, 1908, it must equal the total enrollment of both.

8. **SPECIAL REPORTS.** We trust you will spare no pains to make all special reports as complete and accurate as possible. Many of these cannot be tested, and hence their accuracy will depend entirely upon you.

9. **MISCELLANEOUS.** The directions and suggestions as they appear on the backs of the different blanks sent you and in Circulars 3, 6, 7 and this one, are believed to be sufficient to enable you to prepare

a correct report. Please notice the order of reporting as set out in Circular No. 7, wherein the reports of the secretary and treasurer must agree as found in Circular No. 5, and on the back of the blanks, and what constitutes a graded school as defined in Circular No. 7.

13. THREE REPORT BOOKS—TWO REPORTS. Three report books were sent you. One is to be used as a preliminary book for assembling the data, after which it is to be copied into the other two. By following this plan your report will have the minimum of errors and erasures. Send us two copies of your report; one will be returned to you when they are found correct. This is the only plan that will insure the copy on file in your office to be an exact duplicate of the one on file in this.

Very truly yours,

JOHN F. RIGGS,

Superintendent of Public Instruction.

July 10, 1908.

JULY EXAMINATION.

CIRCULAR NO. 10—1908.

To the County Superintendent:

The answer papers and check sheets for the June examination have as a rule come to us in better shape than at any previous time. Those from some counties, however, failed to meet the requirements as set out in the Regulations Governing the Issuing of County Certificates. We therefore desire to call your attention again to the printed rules, to Circular No. 8, issued prior to the June examination, and to the following points:

1. SUBJECTS REQUIRED. The subjects a candidate must write in the July examination (or any examination) may be determined from the following rules:

(a) *First Examination.* Rule 22.

(1) *No Credit.* By reading Rule 22 it will be seen that all subjects required of a candidate must be written at the first examination. The examination may not be divided. A candidate for any grade of certificate who fails to write in one or more of the common branches required of him is entitled to no credit on account of that examination, and a candidate for a first grade certificate who has to write in advanced subjects only forfeits his right to credit in those in which he does write by failing to write in one or more of those in which he should have written. Likewise, the holder of a second grade certificate, writing for a first grade under Rule 45, is entitled to no credit if he omits any subject under 85 per cent in black or 90 per cent in red.

(2) *Partial Credit.* Many candidates have ignored this rule (22) and therefore are entitled to no credit when they appear for the second or re-examination. This is probably due to the lack of a proper understanding of the rule. For this reason such candidates will not be required to write in all of the subjects, but will be permitted to use grades of 85 per cent or higher earned in the first examination when they take the second examination within a year.

Those who write the first examination in July or at any future time will receive no credit unless they comply with Rule 22 as explained by note 1 above.

(b) *Second or Re-Examination.* Rule 23.

(1) *Explanation of Rule 23.* The second or re-examination authorized by Rule 23 is a second or re-examination in the same subjects taken in the first examination under Rule 22. It does not authorize the addition of any subject.

(2) *Modification of Rule 23—Credit Given.* Those who, in the first examination, applied for certificates requiring an examination in the common branches only, but who desire to become candidates for first grade certificates at a second examination within a year, may have credit for the grades of 85 per cent or higher earned in such first examination.

(c) *Third Examination.* Rule 24.

2. **PASSING FROM A SECOND GRADE CERTIFICATE TO A FIRST.** Rule 45.

3. **ENTERING GRADES.** In entering grades for which a candidate is entitled to credit observe the following:

(a) *Use Lower Spaces.* Enter all grades in the lower or starred spaces. Leave the upper spaces for our use.

(b) *Black and Red Grades.* Be careful to enter grades earned under the educational board of examiners in *black ink*, and those from certificates issued by county superintendents in *red ink*. Rules 29-a and 29-b.

(c) *Grades Entitled to Credit.* In bringing forward grades from a former examination remember:

(1) *One Examination.* Grades from but ONE examination may be brought forward, except under Rule 45.

(2) *Last Examination.* The grades brought forward shall have been earned in the LAST preceding regular examination written by the candidate within a year, except when writing under Rule 45.

(3) *One Combination.* When grades from a regular examination have been used ONCE in combination with grades from another regular examination, they may not be used again in combination, except under Rule 45.

4. **FOREIGN CERTIFICATES—NO CREDIT.** Candidates for first, second and third grade county certificates can receive no credit for grades on certificates issued in other states. Grades from such certificates should not be entered on the grade sheet.

5. **CANDIDATES LACKING EXPERIENCE.** Candidates whose grades entitle them to first grade certificates, but who lack in experience, will receive second grade certificates and may pass to first grade certificates as provided in Rule 38-c. Please observe this. Unless your candidates desire to obtain certificates under this rule, they should not take the examination for a first grade certificate until they have had sufficient experience.

6. **REQUESTING QUESTIONS.** Questions for first, second and third grade certificates will be sent without special request. If you have candi-

dates for special county certificates or for renewal of uniform county certificates, it will be necessary for you to request the questions twenty days before the examination begins in order to be sure that you will receive them. (Rules 40-f and 44-d.) When questions are requested less than twenty days prior to the examination they will be sent, provided same have been prepared. If none are prepared, the board of examiners will not undertake to prepare them after that time.

7. **QUESTIONS FOR JULY.** Questions for the July examination will be shipped you by prepaid express on Wednesday, July 22d.

8. **DIDACTICS-PHYSIOLOGY.** Owing to the fact that the questions in didactics and physiology intended for the July examination were inadvertently sent to a few counties in June, it was thought best to prepare other lists in these subjects. The new lists are dated "July, 1908," to distinguish them from the others. Therefore, for the examination in didactics and physiology you will use only the lists dated "July, 1908." We mention this because some of the packages for July were made up before it was thought necessary to prepare the new lists. For such counties the lists to be used will be sent by mail under separate cover.

9. **IN CONCLUSION.** It is of the utmost importance that the conductor of the examination understand fully the rules governing the examination. It is exceedingly important that no mistake be made in determining the subjects applicants shall write in July, since it is the last regular examination before the opening of the fall schools. It is impossible to make exceptions or concessions on account of mistakes when printed directions are given.

10. **STATE CERTIFICATE EXAMINATION.** (a) *Admission of Candidates.* To be entitled to write for a State Certificate of any kind a candidate must present to the conductor for the examination a letter certifying his application to be complete and the fee received.

In order to procure a letter admitting one to the examination the candidate must file with the Superintendent of Public Instruction (1) the entrance register properly filled out, (2) the required credentials, and (3) the examination fee of \$2.00.

This has always been the rule. Any variations that have been allowed during the past year have been concessions owing to the fact that some did not understand the rule. In this examination, and in the future, you will admit no one to a state examination unless (1) the candidate presents a letter of admission, and (2) you have questions for such examination.

(b) *Requesting Questions.* Questions for examination for State Certificate should be requested twenty days before the examination begins. If requested after that time, they will be sent, if any have been prepared, but if none have been prepared the educational board of examiners will not undertake to prepare them after that time.

(c) *Notify Candidates.* If you have prospective candidates for State Certificates who have not completed their applications you should notify them to do so at once.

Very truly yours,

JOHN F. RIGGS,
President Board of Examiners.

July 20, 1908.

RENEWAL OF UNIFORM COUNTY CERTIFICATES.

CIRCULAR NO. 11—1908.

*Examination in Elementary Psychology
As a Condition for the
Renewal of Uniform County Certificates
of the
First and Second Grades.*

Section 2734-g of the School Laws provides that first grade uniform county certificates shall be renewable without examination, "provided the applicants shall show by examination or otherwise that at least one line of professional inquiry has been successfully conducted during the life of the certificate, it being made the duty of the board to forward with each certificate, subject to renewal, outlines setting forth various lines of professional study. It is further provided that each application for renewal shall be accompanied by such proof of successful experience and professional spirit as the educational board of examiners may require."

Section 2734-h of the School Laws provides that second grade uniform county certificates shall be entitled to one renewal "under the same rules as govern the renewal of first grade certificates."

The educational board of examiners long since prepared outlines on elementary psychology for the use of teachers holding renewable certificates. These outlines were first published in the pamphlet entitled "Facts Teachers Should Know," and a quantity of the pamphlet placed in the hands of county superintendents for distribution to the persons entitled to them.

A few second grade uniform county certificates expire this year. As one of the conditions for the renewal of such certificates a satisfactory examination in elementary psychology is required.

No one can hope to successfully pass this examination unless he has given a reasonable amount of study to the subject.

The careful reading of a text on psychology and special attention given to the suggestions and questions found in connection with the outline published by the board, should render success in the examination reasonably certain. It is not the intention of the board to make the examination difficult.

Since all persons holding uniform county certificates eligible to renewal at this time may not have understood the full purport of the requirements for renewal, those failing in the examination in psychology will be

granted provisional certificates when requested by the county superintendent and will be given the opportunity to write again in psychology at the time of any regular examination during the life of such provisional certificate. The application and fee required by rule 44-a shall be filed before each attempt.

We deem it fair to make this concession for the present. In the meantime persons holding renewable certificates should be fully advised by their county superintendents that a systematic study of elementary psychology is necessary.

JOHN F. RIGGS,
President Board of Examiners.

July 30, 1908.

AUGUST SPECIAL EXAMINATION.

CIRCULAR NO. 12—1908.

To the County Superintendent:

Rule 2-a provides for one special examination in any month except in those in which a regular examination is held. Under section 2734-a, a special examination may be requested only when there is a shortage of teachers in a county.

For those counties in which a shortage of teachers exists after the reports of the June and July examinations are received, special examinations will be appointed for Friday and Saturday, August 28 and 29, provided the county superintendent desires the same and makes application for it. At the time of making application for the examination the county superintendent should state the number of questions that will be needed.

It is very important that you thoroughly advertise this examination and try to get all who expect to teach before the October examination to write at this time. If it can be done without expense to the county, notices should be run in the local newspapers.

Very truly yours,

JOHN F. RIGGS,
Superintendent Public Instruction.

August 8, 1908.

GREETING.

CIRCULAR NO. 1—1909.

To County Superintendents:

To the thirty county superintendents who have just entered office, and to the sixty-nine who are continued after one or more terms of service, the Department of Public Instruction extends hearty greetings and best wishes.

It is our earnest hope that the two years just before us shall witness greater improvement in the common schools than has been secured in any equal period in our past history. There is an awakening among the people to the need of more efficient schools. In this agitation for improvement the county superintendent should be the leader within his county,

taking advantage of every available means to encourage helpful discussion through the press and in local educational meetings, and in bringing together teachers and patrons for the exchange of opinions, and for mutual assistance in the common work of training the children and youth of the state for intelligent and useful citizenship.

The enormous labor and annoyance to county superintendents incident to the transition from the county system to the state system of licensing teachers is now about at an end, making it possible for you to spend more time in the work of school supervision than has been possible with any of your predecessors. The law has placed emphasis on the need of school visitation, making it compulsory and granting a maximum allowance each month for the superintendent's expenses while in the performance of his duty.

Your attention is directed to pages 31 to 36 of the 31st and to pages 66 and 67 of the 32d biennial reports of the Superintendent of Public Instruction, where some pertinent suggestions are made touching the county superintendent's work in school visitation, in conducting teachers' meetings, in handling disputes that often issue in appeal cases, and other timely topics. In addition to the subjects treated in the reports to which reference has just been made, I desire here to call your particular attention to the one-hundredth anniversary of the Birth of Abraham Lincoln which will be observed throughout the country on Friday, February 12.

There should be in every school in your county a copy of "Special Days for 1908-1909." This pamphlet contains many selections suitable for use in the preparation of a special day program for February 12. I earnestly advise that you call the attention of your teachers by circular letter to the approaching one-hundredth anniversary of the birth of Abraham Lincoln, and to the pamphlet above referred to, and urge each teacher to put forth special effort to have the anniversary suitably commemorated in her school.

Expressing the earnest desire of this department to be helpful to you in your work, and wishing you the largest possible success, I am,

Very truly yours,

JOHN F. RIGGS.

January 7, 1909.

Superintendent of Public Instruction.

JANUARY EXAMINATION.

CIRCULAR NO. 2—1909.

To the County Superintendent:

As you are probably aware, the regular county examination for January occurs on Wednesday, Thursday and Friday, the 27th, 28th and 29th. In order that every county superintendent might have access to the Regulations governing this examination, we recently distributed what was left of the Regulations Governing the Issuing of Uniform County Certificates. These pamphlets contain all of the rules governing the examination, with the exception of the following:

ADDITION TO RULE 23. CREDIT GIVEN. Those who, in the first examination, applied for certificates requiring an examination in the common branches only, but who desire to become candidates for first grade certificates at a second examination within a year, may have credit for the grades of 85 per cent or higher earned in such first examination. (Reprinted from circular No. 10, 1908.)

It is of the greatest importance that the conductor of the examination understand these rules, or that the questions raised are answered in accordance with them.

THE FIRST THING. The first thing to be done as a preliminary to the examination is to assign numbers to the applicants by placing the numbers on the preliminary blanks which the candidates must fill out. (For rules governing the assignment of numbers, see 11-a to 11-d.) The next step is to have each candidate fill out a preliminary blank as required in rule 11, and as the final step in the preliminary arrangements the superintendent should collect the examination fee from each. Rule 12 provides that the candidate should be impressed with the necessity of placing his *examination number* upon every sheet of paper on which he writes answers. When the preliminaries are collected, notice carefully the *age* of each candidate. If any candidate is under eighteen, it is necessary that the *date* of the eighteenth birthday should appear on the preliminary. In this connection please note that rule 6 must be strictly complied with.

DETERMINING SUBJECTS. It is of utmost importance that the candidate be instructed to write in all of the subjects in which he *should* write. In case of any doubt, it is far better that the candidate write in more subjects than are required than to leave out even one subject that is required of him. A candidate who writes in more of the subjects than are absolutely required will receive credit for the new grade, if better than the old one, but if not, the old grade will stand. On the other hand, one who fails to write in a required subject may not claim credit for any of the grades earned, because rule 22 expressly forbids the dividing of an examination. Rule 22, which provides for the first examination; rule 23, with the amendment quoted above, which provides for the second; rule 24, which specifies what must be done in a third examination, and rule 45 will determine all questions with respect to the subjects that must be written, unless the candidate offers a renewable certificate issued by a county superintendent prior to October 1, 1905, in which case reference should be made to rules 43 to 43-g. In case it becomes necessary to determine the average grade required for any certificate, or the minimum grade accepted, consult rules 27 and 27-a.

PROGRAM OF EXAMINATION. The program of examination is found in rule 9, with modifications, in 9-a and 10. The questions for each half day are placed in envelopes, specifying the half day to which they belong, and also the program for that half day's examination. If a mistake is made in making up the list of questions, open the sample list sent in small envelope under separate cover.

THE GRADE SHEETS. Preparing the grade (check) sheets is a very important duty of the county superintendent, for which full instructions

REPORT OF THE

may be found in rules 28, 29, 29-a, 29-b, 29-c and 29-d. We can not impress you too strongly with the importance of the grade sheets showing accurate data.

SENDING RETURNS. When the examination in a subject is over and the answer papers have been checked as provided in rule 29-d, the papers of that subject should be fastened together in a package by themselves, as required in rule 30. When the entire examination is over, all of the answer papers should be collected and shipped, as provided in rules 31, 31-a and 31-b. (The papers of candidates for renewal should not be included in these packages.) It is important that the returns be sent us at the earliest possible moment. The order of sending the results of the examination back to the county superintendents is the same, as nearly as practicable, as the order in which the packages and grade sheets are received here.

PSYCHOLOGY EXAMINATION. As stated in a circular recently mailed you, the examination in elementary psychology for the renewal of uniform county certificates will be given at 10 o'clock the Saturday following the regular examination. The candidates for renewal may prepare the applications for renewal and pay the fee before that hour, as indicated on the envelope containing the questions. Two grades of questions are sent—one for the renewal of second grade uniform county certificates, the other for the renewal of first grade uniform county certificates.

If you have any candidates for first grade certificates who have previously earned the necessary grades, but who at the time of earning the grades had not sufficient experience, they should write at this time the examination in elementary psychology required for the renewal of first grade certificates. (See rule 38-c.)

The names of these candidates should *not* appear on the grade sheet, and the answer papers and applications for renewal should be sent under separate cover. (The papers for the regular examination should be sent before this examination occurs.) Candidates writing the psychology examination may not write under the same application in any of the subjects required for certificates. If they desire to write in any of the subjects required for certificates, they must do so under the rules and as if they were not candidates for renewal.

In conclusion we again urge that everything be done with promptness and extreme care and in compliance with the printed rules.

Yours truly,

JOHN F. RIGGS,
President Board of Examiners.

January 20, 1909.

MARCH MEETINGS.

CIRCULAR NO. 3—1909.

To the County Superintendent:

As the time for the March meetings draws near we would suggest that you call the attention of the directors of your sub-districts to the *sub-district meeting* on the *first Monday in March*, and to the presidents

and secretaries of school boards to the *annual meeting*, which occurs on the *second Monday in March*.

THE SUB-DISTRICT MEETING. The directors of sub-districts should have their attention called to Sections 2747, 2748, 2751 and 2753 and the notes to those sections. Special mention might be made that *tie votes* should be settled by lot before the meeting adjourns. (Note 10, Section 2751.) In connection with this it would be well to advise these officers that the director-elect may qualify on or before July 1 (Section 2758), and that he will not assume the duties of his office until July 1, 1909 (Section 2757).

ANNUAL MEETING OF THE CORPORATION. The attention of the presidents and secretaries of all school corporations should be called to the law relating to the annual meeting of the corporation. The law concerning this meeting is found in Sections 2746, 2747, 2748, 2749, 2752, 2754, 2755 and 2756. Special mention should be made of the fact that none of the powers enumerated in Section 2749, and Note 1 to that section, may be exercised, unless notice has been posted that such proposition will come before the meeting, as required in Sections 2746 and 2755. We believe that the sections referred to, together with the notes appended, will make it possible that their meeting may be legally conducted.

In connection with this it might also be well to call the attention of these officers to the fact that directors chosen for rural independent districts, and directors at large, for school townships, will not assume the duties of their office until July 1, 1909 (Section 2757), and can qualify on or before that date (Section 2758), while directors chosen for independent city, town or village corporations will assume the duties of their office on the third Monday in March (Section 2757), and must qualify on or before that date (Section 2758). The attention of the voters should also be called to the fact that *tie votes* for any office shall be settled by lot before the adjournment of the meeting.

BLANKS. The county superintendent should have in his office a supply of notices for the different meetings and blanks to enable officers to conduct them properly. These should be sent out in time for posting the notices.

Yours truly,

JOHN F. RIGGS,
Superintendent of Public Instruction.

February 5, 1909.

HAND-BOOK EXAMINATION.

CIRCULAR NO. 5—1909.

To the County Superintendent:

Hereafter in the preparation of questions in didactics for regular teachers' examination, fifteen questions will be given, the first ten to be answered by applicants who have not taught and the last ten by all other applicants.

The first five questions in each list will be based in whole or in part on the Hand-Book. It is of great importance that every teacher in a

REPORT OF THE

any village school be thoroughly conversant with the Hand-Book, but copies of this book may not be given to any one as his or her personal property. You are, however, at liberty to loan to teachers or to prospective members the extra copies you have on hand.

We have but a limited supply of the Hand-Book for distribution to county superintendents, and it will not be possible to secure a new edition this year. That the copies we have may be equally distributed, we would be glad to have you write us by return mail stating:

- First, the actual number of Hand-Books now in your office, and
- Second, the additional number you are likely to need this year.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

March 4, 1909.

COUNTY CERTIFICATES—RENEWALS.

CIRCULAR NO. 7—1909.

THE LAW GOVERNING THE RENEWAL OF COUNTY CERTIFICATES
AS AMENDED BY HOUSE FILE NO. 436—BY INMAN.

Sec. 2734g. *First Grade Certificates—Renewal.* Applicants who have taught successfully for at least thirty-six weeks and whose examination entitles them to the first grade certificate, shall receive the same for a term of three years from the date thereof, and such certificates shall be renewable without examination, provided the applicants shall show by testimonials from superintendents who have had immediate supervision of their professional study, that at least one line of professional inquiry has been successfully conducted during the life of the certificate, it being made the duty of the board to forward with each certificate, subject to renewal, outlines setting forth various lines of professional study. It is provided further that each application for renewal shall be accompanied by such proof of successful experience and professional spirit as the educational board of examiners may require.

Sec. 2734h. *Second Grade Certificates—Renewal.* Applicants whose examination entitles them to the second grade certificate only, shall receive the same for two years, with the privilege of renewal without further examination, under the same rules as govern the renewal of first grade certificates, provided the average and minimum standings of such certificate are not lower than the average and minimum standing required for a first grade certificate.

WHEN EFFECTIVE. The law as it appears above will be in effect on and after July 4, 1909. It will in no wise affect certificates issued prior to that date.

EFFECT OF THE CHANGE. After July 4, 1909, the holder of a first or second grade county certificate can procure a renewal of the same only by pursuing at least one line of professional work under the supervision of a county or city superintendent and filing a certificate of such superintendent to that fact. The county or city superintendent may employ such means as he thinks best to determine whether the

candidate for renewal is entitled to the certificate of professional attainment. I am of the opinion that under the law as amended these officers may satisfy themselves of the professional work of the candidate by examination or otherwise, and that the Educational Board of Examiners can give no examination to determine professional growth.

SECOND GRADE RENEWALS. The law as amended will make all second grade certificates having the average and minimum standings of a first grade certificate renewable indefinitely.

Second grade certificates issued prior to July 4, 1909, being guaranteed one renewal by the law authorizing their issue, will be renewed once. When these renewals expire those meeting the minimum and average requirements for a first grade certificate will be entitled, under the amended law, to further renewal, while those which do NOT meet these requirements will not be entitled to further renewal.

Second grade certificates issued after July 4, 1909, and meeting the minimum and average requirements for a first grade certificate, will be entitled to indefinite renewal under the law as amended, while those issued after that date that do NOT meet these requirements will be entitled to NO renewal. All second grade certificates will be issued for two years.

CHANGE IN REGULATIONS. As indicated in our circular of March 31, rules 44 to 44-e of the Regulations Governing the Issuing of County Certificates will be made to conform to the law as it appears above. Accordingly, the Educational Board of Examiners will give no examination in psychology for the renewal of county certificates, but in lieu of such examination it will accept the certificate of a county or city superintendent under whose supervision the applicant for renewal has pursued his professional study. It is my opinion that the county or city superintendent who makes the above required certificate may satisfy himself of the candidate's professional growth by examination or otherwise. In accordance with this change in the plan of renewal, the examination in psychology announced for May 1st is canceled.

BLANKS for the county and city superintendent's statement of professional growth will be furnished through the county superintendents by the Educational Board of Examiners.

REGULATIONS. A new edition of the Regulations is in the course of preparation, and will be ready for distribution the latter part of May.

JOHN F. RIGGS,
President Board of Examiners.

April 20, 1909.

SYNOPSIS OF RECENT SCHOOL LEGISLATION.

CIRCULAR NO. 8—1909.

SYNOPSIS OF THE CHANGES IN THE LAWS AFFECTING PUBLIC SCHOOLS, ENACTED BY THE THIRTY-THIRD GENERAL ASSEMBLY.

ATTENDANCE—COMPULSORY. (1) House File 424—by Boe—amending Section 2823-a, excuses children from school to attend religious services or for religious instruction.

(2) House File 406—by Perkins—amending the same section, makes the compulsory attendance period twenty-four weeks and further empowers boards in cities of the first and second class to require attendance during the entire time the schools are in session.

(3) House File 455—by Holmes—amending Section 2823-e, authorizes boards in towns and cities of the second class to employ a marshal or a police officer to act as truant officer and to allow not to exceed five dollars per month as compensation for such service.

BONDS. (1) House File 448—by McDonald—amending Section 1304 of the Supplement to the Code, exempts school bonds from taxation.

(2) House File 507—by Sullivan—amending Section 2812-e, makes the maximum rate of interest on school bonds five per cent, and authorizes boards to issue bonds, issued in excess of \$400,000, for a term of not to exceed twenty years.

CERTIFICATES—Renewal. (1) House File 436—by Inman—amending Section 2734-g, provides that candidates for the renewal of uniform county certificates shall present a certificate of professional study signed by the superintendent under whom the professional work was done.

(2) The same bill, by amending Section 2734-h, provides for the indefinite renewal of second grade certificates having the average and minimum grades of a first grade certificate. (The provision for the renewal of second grade certificates falling below this requirement is repealed.)

DOORS. Senate File 72—by Burgess—provides that the entrance and exit doors of all public schoolhouses and the entrance doors to all class and assembly rooms in all cities and towns shall open outward.

FRATERNITIES. Senate File 387—by the Committee on Schools—provides that unless sanctioned by the school board it will be unlawful for a pupil of any public school to be a member of any secret fraternity or society or to take part in organizing one. It will be a misdemeanor for one not enrolled in a school to solicit for such organization on the school premises. School boards are given ample power to enforce the provisions of this law.

FUNDS. Senate File 281—by White—amending Section 2806 of the Supplement to the Code, authorizes school boards to estimate not to exceed twenty dollars per person of school age in the corporation for the teachers' fund, and seven dollars for the contingent fund.

DEBTEDNESS. Senate File 290—by Dowell—repealing Sections a, 2820-b, 2820-c and 2820-d, authorizes independent districts in cities 1,000 or more to become indebted for school purposes not to exceed one-half per cent of the actual value of the taxable property.

LIBRARY CATALOGUE. House File 494—by Stillman—amending Section 2823-p of the Supplement to the Code, authorizes the Educational Board of Examiners to determine when library catalogues shall be printed.

WHEN IN FORCE. All of the above acts take effect July 4, 1909.

SCHOOL LAW PAMPHLET. As soon as chapter numbers have been assigned to these bills, we will prepare the usual school law pamphlet as supplemental to the School Laws of 1907. This pamphlet can not be printed until late in June.

JOHN F. RIGGS,
Superintendent of Public Instruction.

July 1, 1909.

ANNUAL MEETING OF SCHOOL BOARD.

CIRCULAR NO. 10—1909.

TO THE Board of Directors:

The statutes of Iowa dedicate the first working day in July to the business of settling up the financial affairs of all school corporations for the school and fiscal year just passed and to planning for the new year just opening.

THE OLD YEAR.

THE MOST IMPORTANT DUTY. Accordingly the first great duty will confront the boards of independent city, town and village corporations and the retiring boards of school townships and rural independent districts on July 1 will be the settling with the secretary or treasurer of their respective corporations to determine the financial condition of the corporation and to see that the records of these officers correctly report the business of the corporation during the year. It is of the utmost importance that this duty should be performed with the same care, that the district may not suffer loss thereby. In order to facilitate the business of making the financial settlement it is recommended that you, at least of the larger corporations, appoint a committee to examine the books of these officers and to compare one with the other prior to the annual meeting and to make a report to you concerning the same on July 1.

POINTS TO BE OBSERVED. In making the settlement with the treasurer the following points should be observed:

Balances. You should observe that the balances at the beginning of the year just closed are the same as those on hand when you settled with the treasurer last year.

Orders on County Treasurer. Observe that the school treasurer has discharged himself with all orders on the county treasurer turned over to him.

3. *Miscellaneous Receipts—Tuition.* Observe that he has charged himself with all other receipts paid to the corporation, including tuition.

4. *Paid Teachers.* Note that the amount paid teachers, male and female, is correctly reported.

5. *Miscellaneous Disbursements.* See that the other expenditures, including the amount paid for library books, are correctly reported. Make the item "Paid for other purposes" in each fund as small as possible by specifying all of the other disbursements under the proper title.

6. *School Building Bond Fund.* All money collected to pay on school building bonds should be charged to the school building bond fund and not to the school house fund. Also, all amounts paid on school building bonds should be credited to the school building bond fund and not to the school house fund.

7. *Indebtedness.* Please observe that the total indebtedness on June 30, 1909, is correctly reported to the county superintendent on the blank furnished the treasurer through that officer.

8. *Inventory.* Make an inventory of the school houses and apparatus and see that the same is correctly reported to the county superintendent by the secretary.

9. *Agreement of Reports.* The records of the secretary and those of the treasurer should agree as to each fund, the amounts received from each source and the amounts expended for each purpose. We desire also that you note particularly that the reports of these officers agree with respect to library books and tuition.

10. *Adjournment.* In school townships and rural independent districts the retiring boards should meet and transact the business before them sufficiently early to enable them to adjourn in time for the new board to organize and transact the business that may come before it. THE NEW BOARD MUST ORGANIZE ON JULY 1st.

THE NEW YEAR.

ORGANIZATION OF NEW BOARDS. The retiring board of each rural independent district and school township having completed its labors and adjourned, the directors-elect for these corporations will organize for the year just beginning. The organization is effected by the election of a president from among the members, and a secretary and treasurer from outside of the board. (Section 2757.) The boards of independent city, town and village corporations having organized in March, will not elect a president at this time, but will elect a secretary for each of such corporations. In independent village corporations, the board will elect a treasurer also. (Section 2757.) Treasurers for cities and towns are chosen by the electors in March. (Section 2754.)

THE MOST IMPORTANT DUTY. The most important duty devolving upon the new boards after their organization is to plan for the schools of their respective corporations for the ensuing year. This involves the determining of the number of schools that shall be maintained, the length of the school year, and the election of teachers.

SMALL SCHOOLS. In every county there are many small schools—schools of five or less. Many of these could be closed temporarily without hardship to any one, often with advantage to the pupils and always with economy to the school corporation. You are urged to take these matters into consideration when determining the number of schools that shall be maintained, to see if there may not be one or more schools in your corporation that can be closed both to the advantage of the pupils and the corporation. What can be saved in this way might be used to extend the school year or to induce more competent teachers to take charge of your schools.

NON-USER. When a school is closed with the consent of the county superintendent, or when the school premises are kept in repair, and the school house is kept insured, or when the board by resolution declares a school closed temporarily, the district does not become a non-user under the provisions of Section 2816, and therefore does not lose title to the site. You can therefore temporarily close your small schools without forfeiting the title to the school sites by observing any one of the above conditions.

SYNOPSIS OF THE CHANGES IN THE LAWS AFFECTING PUBLIC SCHOOLS, ENACTED BY THE THIRTY-THIRD GENERAL ASSEMBLY.

ATTENDANCE—COMPULSORY. (1) House File 424—by Boe—amending Section 2823-a, excuses children from school to attend religious services or for religious instruction.

(2) House File 406—by Perkins—amending the same section, makes the compulsory attendance period twenty-four weeks and further empowers boards in cities of the first and second class to require attendance during the entire time the schools are in session.

(3) House File 455—by Holmes—amending Section 2823-e, authorizes boards in towns and cities of the second class to employ a marshal or a police officer to act as truant officer and to allow not to exceed five dollars per month as compensation for such service.

BONDS. (1) House File 448—by McDonald—amending Section 1304 of the Supplement to the Code, exempts school bonds from taxation.

(2) House File 507—by Sullivan—amending Section 2812-e, makes the maximum rate of interest on school bonds five per cent, and authorizes boards to issue bonds, issued in excess of \$400,000, for a term of not to exceed twenty years. In effect by publication April 19, 1909.

CERTIFICATES—Renewal. (1) House File 436—by Inman—amending Section 2734-g, provides that candidates for the renewal of uniform county certificates shall present a certificate of professional study signed by the superintendent under whom the professional work was done.

(2) The same bill, by amending Section 2734-h, provides for the indefinite renewal of second grade certificates having the average and minimum grades of a first grade certificate. (The provision for the renewal of second grade certificates falling below this requirement is repealed.)

DOORS. Senate File 72—by Burgess—provides that the entrance and exit doors of all public school houses and the entrance doors to all class and assembly rooms in all cities and towns shall open outward.

FRATERNITIES. Senate File 387—by the Committee on Schools—provides that unless sanctioned by the school board it will be unlawful for a pupil of any public school to be a member of any secret fraternity or society or to take part in organizing one. It will be a misdemeanor for one not enrolled in a school to solicit for such organization on the school premises. School boards are given ample power to enforce the provisions of this law.

FUNDS. Senate File 281—by White—amending Section 2806 of the Supplement to the Code, authorizes school boards to estimate not to exceed twenty dollars per person of school age in the corporation for the teachers' fund, and seven dollars for the contingent fund.

INDEBTEDNESS. Senate File 290—by Dowell—repealing Sections 2820-a, 2820-b, 2820-c and 2820-d, authorizes independent districts in cities of 65,000 or more to become indebted for school purposes not to exceed two and one-half per cent of the actual value of the taxable property. In effect by publication May 21, 1909.

NOTE 1. Unless otherwise stated, the above acts become effective July 4, 1909.

NOTE 2. As soon as we can procure chapter number of these acts we will publish a school law pamphlet for distribution among school officers.

SCHOOL LEGISLATION ATTEMPTED.

EDUCATIONAL COMMISSION. The Educational Commission appointed by the Governor under authority of an act of the Thirty-second General Assembly reported a bill to the Thirty-third General Assembly embodying a complete revision of the School Laws. In many particulars a decided change from our present school laws was recommended—some of these changes being of the greatest importance to the welfare of the schools. The bill, however, met decided opposition, chiefly because there were certain sections of it objectionable to the people, and since all these were included in one measure, the entire bill was opposed by those who objected to any of its parts.

NEED OF REVISION. That our school laws should be thoroughly revised is a fact generally admitted by those who have given the matter intelligent study, and it may be fairly assumed that the agitation for improved and simplified school statutes will continue until the needed reforms are effected; but in future attempted legislation, it is probable that not one, but several bills, will be offered, so each may stand on its own merits.

COUNTY SUPERINTENDENTS' CONFERENCE. Ninety-two county superintendents met in conference with the State Superintendent May 11, 12 and 13. Many questions vital to the schools were discussed, and ways and means considered whereby the county superintendent may be of greater assistance to teachers and pupils.

The law now requires the county superintendent to visit every country school in his county each year, and to co-operate with teachers and school officers in improving conditions where necessary.

One session of the conference was devoted to a discussion of needed school legislation, and the following resolutions were adopted by a decisive vote:

RESOLUTIONS ADOPTED BY THE COUNTY SUPERINTENDENTS' CONFERENCE.

Taking a more hopeful view than is often expressed concerning our public school system, especially that part of the system so often severely condemned and known as the rural schools, and believing that they are not wholly bad and in as deplorable a condition as some are inclined to think, we yet declare that it is our honest conviction that a revision of certain sections of our School Laws is eminently desirable, and that some changes in the course of study pursued in the rural schools would greatly enhance their usefulness and efficiency.

It is hereby recommended by the county superintendents of Iowa, in conference assembled, that no radical revision of the School Laws be attempted, and we plead for unity of spirit and action among all the educational forces of the state on such questions as may be determined to be of special importance for revision or change. Therefore be it resolved, that we

First, recommend a recodification or a simplification of such sections of the School Laws as appear to be conflicting and difficult of interpretation.

Second, that we favor a larger unit of organization for school purposes, which shall be not less than the township, governed by a board elected at large.

Third, that we recommend the plan of furnishing high school privileges with practical courses of study for the country youth.

Fourth, that we recommend the establishment and maintenance of training schools whose function shall be to prepare teachers for the common schools.

Fifth, that we favor closer and better supervision of rural schools than is possible under present conditions as being essential, and that we strongly urge the appointment of a deputy competent and authorized to assist in the matter of school visitation under the direction of the county superintendent.

Sixth, we recommend that the county superintendent be empowered to call annual or semi-annual conventions of school officers, believing the influence and efficiency of the office would be greatly increased thereby; that it shall be made the duty of said officers to attend such conventions and that they be allowed necessary traveling expenses incurred upon such attendance.

Seventh, that we favor a reorganization of the State Board of Educational Examiners as to its membership, by placing the power largely in the hands of those directly entrusted with the supervision of the common schools, namely, the city and county superintendents.

Eighth, that we as county superintendents decide upon and adhere to a uniform system of requirement or evidence of professional study for the renewal of first and second grade uniform county certificates.

Ninth, Be It Further Resolved, That the present method of handling the school funds is unsatisfactory and in many instances interferes with the working efficiency of the schools.

Tenth, that we recommend a uniform plan of conducting eighth grade examinations, questions to be formulated by a committee of county superintendents, and furnished by the state department.

Eleventh, Resolved, That some sort of recognition be extended to such districts as meet a certain standard in the construction and maintenance of school buildings as to heating, ventilation, amount and kind of apparatus, and other matters essential to the running of a good school.

CONCLUSION. No public officials perform duties of greater import to the welfare of the people and of the state than do the boards of directors, nor is there any position where there is greater demand for the exercise of sound common sense and a disinterested public spirit than in electing teachers and planning for the schools. May you choose wisely and plan well.

Very truly yours,

JOHN F. RIGGS,

Superintendent of Public Instruction.

June 1, 1909.

RECENT SCHOOL LEGISLATION.

CIRCULAR NO. 11—1909.

EXTRACTS FROM THE SCHOOL LAWS AS AMENDED BY THE THIRTY-THIRD GENERAL ASSEMBLY.

SUPPLEMENTAL TO THE SCHOOL LAWS OF 1907.

Published by the

Superintendent of Public Instruction Under Authority of the Executive Council. For Use of School Boards and School Officers.

DISTRIBUTION OF LAWS.

Volumes bound in paper covers shall be furnished to each school director, to be turned over by the director to his successor in office. See Section 2624.

Each school officer, upon the termination of his term of office, shall immediately surrender to his successor all books, papers and moneys pertaining or belonging to the office, taking a receipt therefor. See Section 2770.

PREFACE.

To aid in the proper administration of the law concerning public schools, we publish herein the more important sections as amended by the Thirty-third General Assembly.

Chapter 81, concerning exemption from taxation, Chapter 189, concerning the times of publication of the library catalogue, and Chapter 220, relating to entrance and exit doors, are published as they passed the General Assembly.

JOHN F. RIGGS,
Superintendent of Public Instruction.

June 15, 1909.

THE LAW.

RENEWAL OF UNIFORM COUNTY CERTIFICATES.

Sec. 2734-g. *First grade certificates—renewal.* Applicants who have taught successfully for at least thirty-six weeks, and whose examination entitles them to the first grade certificates, shall receive the same for a term of three years from the date thereof, and such certificate shall be renewable without examination, provided the applicants shall show by testimonials from superintendents who have had immediate supervision of their professional study that at least one line of professional inquiry has been successfully conducted during the life of the certificate, it being made the duty of the board to forward with each certificate, subject to renewal, outlines setting forth various lines of professional study. It is provided further that each application for renewal shall be accompanied by such proof of successful experience and professional spirit as the Educational Board of Examiners may require. [33 G. A., ch. 181, § 1; 31 G. A., ch. 122, § 7.]

Sec. 2734-h. *Second grade certificates—renewal.* Applicants whose examination entitles them to the second grade certificate only, shall receive the same for two years, with the privilege of renewal without further examination, under the same rules as govern the renewal of first grade certificates, provided the average and minimum standings of such certificates are not lower than the average and minimum standing required for a first grade certificate. [33 G. A., ch. 181, § 2; 31 G. A., ch. 122, § 8.]

TAXES.

Sec. 2806. *School taxes.* The board of each school corporation shall at its regular meeting in July, or at a special meeting called for that purpose between the time designated for such regular meeting and the third Monday in August, estimate the amount required for the contingent fund, not exceeding seven dollars for each person of school age; but each school corporation may estimate not exceeding seventy-five dollars for each school thereof, and such additional sum as may be necessary, not exceeding five dollars for each person of school age for transporting children to and from school; and also such additional sum as may be authorized in the chapter on uniformity of text-books; also such sum as may be required for the teachers' fund, which, including the amount received from the semi-annual apportionment, shall not exceed twenty dollars for each person of school age therein, but each corporation may estimate not exceeding two hundred and seventy dollars, including such

apportionment, for each regular school therein. No tax shall be estimated by the board after the third Monday in August in each year. School corporations containing territory in adjoining counties may vote and estimate all taxes for school purposes in mills. The board shall apportion any tax voted by the annual meeting for school house fund among the several sub-districts in such a manner as justice and equity may require, taking as the basis of such apportionment the respective amounts previously levied upon said sub-districts for the use of such fund. [33 G. A., ch. 182; 31 G. A., ch. 136, § 14; 28 G. A., ch. 108; 15 G. A., ch. 67, § 1; C. '73, §§ 1738, 1777-8, 1780; R., §§ 2033-4, 2037-44, 2088.]

BONDS.

Sec. 2812-e. *Form—duration—rate of interest—where registered.* All of said bonds shall be substantially in the form provided for county bonds, but subject to changes that will conform them to the action of the board providing therefor, shall run not more than ten years, except that in independent districts having, at the time of issuance of any bonds, other bonds outstanding amounting to not less than four hundred thousand dollars, any bonds in excess of such amount may in the discretion of the board be made to run for any period or periods not exceeding twenty years, and may be sooner paid if so nominated in the bond; be in denomination of not more than one thousand dollars (\$1,000) or less than one hundred dollars (\$100) each, to bear a rate of interest not exceeding five (5) per centum per annum, payable semi-annually, to be signed by the president and countersigned by the secretary of the board of directors, and shall not be disposed of for less than par value, nor issued for other purposes than this chapter provides. All of said bonds shall be registered in the office of the county auditor. The expenses of engraving and printing of bonds may be paid out of the contingent fund. [33 G. A., ch. 83, § 1; 32 G. A., ch. 152, § 4.]

In effect by publication, April 19, 1909.

COMPULSORY ATTENDANCE.

Sec. 2823-a. *Duties of parents or guardians—penalty.* Any person having control of any child of the age of seven (7) to fourteen (14) years, inclusive, in proper physical and mental condition to attend school, shall cause such child to attend some public, private or parochial school, where the common school branches of reading, writing, spelling, arithmetic, grammar, geography, physiology and United States history are taught, or to attend upon equivalent instruction by a competent teacher elsewhere than school, for at least twenty-four (24) consecutive school weeks in each school year, commencing with the first week of school after the first day of September, unless the board of school directors shall determine upon a later date, which date shall not be later than the first Monday in December; but the board of directors in any city of the first and second class may require attendance for the entire time the schools are in session in any school year. Provided, that this section shall not apply to any child who lives more than two

(2) miles from any school by the nearest traveled road except in those districts in which the pupils are transported at public expense, or who is excused for sufficient reasons by any court of record or judge thereof or while attending religious service or receiving religious instruction. Any person who shall violate the provisions of this section shall be guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not less than three (\$3) dollars nor more than twenty (\$20) dollars for each offense. [33 G. A. ch. 186, 187; 30 G. A., ch. 116, § 1; 29 G. A., ch. 128, § 1.]

Sec. 2823-e. *Truant officers.* The board of directors of each school corporation may, and in school corporations having a population of twenty thousand (20,000) or more shall, at their annual meeting in each year, appoint one or more truant officers, who shall serve for one year, and who may be a constable or a member of the police force, whose duty it shall be to report violations of this act to the secretary of the school corporation, and see to the enforcement of the provisions of this act. It shall be the duty of said truant officer or officers to apprehend and take into custody without warrant any child of the age of seven (7) to fourteen (14) years, inclusive, who habitually frequents or loiters about public places during school hours without lawful occupation, or cannot produce a certificate as provided in section two (2) hereof, also any truant child who absents himself or herself from school, and place him or her in charge of the teacher having charge of any school, which said child is entitled to attend, and which school may be designated to said officers by the person having legal control of such child. Provided, however, in case the school so designated by the parent or person having the care and control of said child be a public school it shall be such as directed by the rules and regulations of the school board and the statutes of the state, and if other than a public school, the maintenance of said child in such school shall be without expense to the school corporation or state. Upon failure of such child to properly attend, or when on report of the teacher having the custody of such child, said child is shown to not properly conduct itself in the school where placed as herein provided, the child may be removed therefrom by the board of directors and placed either in a public school or a truant school conducted in said district. The truant officer or officers shall be entitled to such compensation for service rendered under this act as shall be fixed by the board of directors appointing him or them, which compensation shall be paid from the contingent fund of said district. In towns and cities of the second class the independent school district may employ the marshal or other police officer of such city or town to act as truant officer, and pay him a salary in addition to that received from such city or town of not to exceed five (\$5.00) dollars per month. [33 G. A., ch. 188; 30 G. A., ch. 116, § 2; 29 G. A., ch. 128, § 5.]

CHAPTER 184.

S. F. 230.

INDEBTEDNESS OF INDEPENDENT SCHOOL DISTRICTS.

AN ACT to repeal section twenty-eight hundred twenty-a (2820-a), twenty-eight hundred twenty-b (2820-b), twenty-eight hundred twenty-c (2820-c), and twenty-eight hundred twenty-d (2820-d), of the supplement to the code, 1907, and to enact a substitute therefor relative to the limit of indebtedness of independent school districts.

Be it enacted by the General Assembly of the State of Iowa:

Section 1. *Repeal—indebtedness authorized in certain independent school districts.* That sections twenty-eight hundred twenty-a (2820-a), twenty-eight hundred twenty-b (2820-b), twenty-eight hundred twenty-c (2820-c), and twenty-eight hundred twenty-d (2820-d) of the supplement to the code, 1907, be and the same are hereby repealed and the following enacted in lieu thereof:

"Any independent school district containing or contained in city having a population of sixty-five thousand or more shall be allowed to become indebted, for the purpose of building and furnishing a school-house or houses and procuring a site therefor, to an amount not exceeding in the aggregate, including all other indebtedness, two and one-half per centum of the actual value of the taxable property within such independent school district, such value to be ascertained by the last county tax list previous to the incurring of such indebtedness, anything contained in section thirteen hundred six-b (1306-b) of the supplement to the code, 1907, to the contrary notwithstanding.

Sec. 2. *Petition for election.* Provided, that before such indebtedness can be contracted in excess of one and one-quarter per centum of the actual value of the taxable property ascertained as provided in this act, a petition signed by a number of qualified electors equal to forty (40) per cent of the number voting at the last general election of such independent district, shall be filed with the president of the board of directors, asking that an election shall be called, stating the purpose for which the money is to be used, and that the necessary schoolhouse or houses cannot be built and furnished within the limit of one and one-quarter per centum of the valuation. Provided, in all cases contemplated in this section, a petition signed by twenty-five hundred (2,500) or more of the qualified electors of such independent district shall be deemed sufficient, and only those electors, including women, who are also owners of real property in such independent district, shall be qualified to sign such petition.

Sec. 3. *Question submitted.* The president of the board of directors, on receipt of such petition, shall within ten (10) days call a meeting of the board who shall call such election, fixing the time and place thereof, which may be at the time and place of holding the regular school election. Four weeks' notice of such election shall be given by publication once each week, in some newspaper published in the said town or city or if none be published therein, in the next nearest town or city

the county. At such election the ballot shall be prepared and used substantially the following form:

Shall the (naming the independent district) issue bonds in the sum of.....dollars (\$....) for the purpose of constructing or equipping school-houses.

c. 4. *Bonds.* If a majority of all the electors voting at such election vote in favor of the issuance of such bonds, the board of directors shall issue the same and make provision for the payment of same and the interest thereon as provided in sections twenty-eight hundred twelve-d (2812-d), twenty-eight hundred twelve-e (2812-e), twenty-eight hundred twelve-f (2812-f) and twenty-eight hundred thirteen (2813) of the supplement to the code, 1907.

c. 5. *Pending litigation—pending transactions.* But this act shall not otherwise affect pending litigation nor act or acts of any school board under the statute or statutes herein repealed, but the transaction, if any, shall be completed with the same force and effect as if the statute were not repealed.

c. 6. *In effect.* This act being deemed of immediate importance shall be in full force and effect on and after its publication in the Register and Leader and Des Moines Capital, newspapers published at Des Moines,

Approved April 6, A. D. 1909.

I hereby certify that the foregoing act was published in the Register and Leader and Des Moines Capital May 21, A. D. 1909.

W. C. HAYWARD,
Secretary of State.

CHAPTER 185.

PROHIBITING SECRET FRATERNITIES IN THE PUBLIC SCHOOLS.

S. F. 387.

ACT to prohibit secret fraternities and societies being formed in the public schools of this state, empowering and making it the duty of the school directors to adopt rules and regulations relating thereto and to enforce the same, and making it an offense to solicit pupils to join them and prescribing the penalty therefor. [Additional to chapter fourteen (14) of title thirteen (XIII) of the code, relating to the system of common schools.]

As enacted by the General Assembly of the State of Iowa:

Section 1. *Pupils prohibited from joining or organizing.* That from and after the passage of this act it shall be unlawful for any pupil, admitted as such, and attending any public high school, district, primary, graded school, which is partially or wholly maintained by public funds, to join, become a member of, or to solicit any other pupil of any school to join, or become a member of any secret fraternity or society wholly or partially formed from the membership of pupils attend-

ing any such school or to take part in the organization or formation of any such fraternity or society, except such societies or associations as are sanctioned by the directors of such schools.

Sec. 2. Enforcement—rules and regulations. The directors of all such schools shall enforce the provisions of section 1 of this act, and shall have full power and authority to make, adopt and modify all rules and regulations which, in their judgment and discretion, may be necessary for the proper governing of such schools and enforcing all the provisions of section 1 of this act.

Sec. 3. Suspension or dismissal. The directors of such schools shall have full power and authority, pursuant to the adoption of such rules and regulations made and adopted by them, to suspend, or dismiss any pupil or pupils of such schools therefrom, or to prevent them, or any of them, from graduating or participating in school honors when, after investigation, in the judgment of such directors, or a majority of them, such pupil or pupils are guilty of violating any of the provisions of section 1 of this act, or who are guilty of violating any rule, rules, or regulations adopted by such directors for the purpose of governing such schools or enforcing section 1 of this act.

Sec. 4. Rushing or soliciting—penalty—jurisdiction. It is hereby made a misdemeanor for any person, not a pupil of such schools, to be upon the school grounds, or to enter any school building for the purpose of "rushing" or soliciting, while there, any pupil or pupils of such schools to join any fraternity, society, or association organized outside of said schools. All municipal courts and justice courts in this state shall have jurisdiction of all offenses committed under this section, and all persons found guilty of such offenses shall be fined not less than two dollars nor more than ten dollars, to be paid to the city or village treasurer, when such schools are situated inside of the corporate limits of any city or village, and to the county treasurer, when situated outside of the corporate limits of any such city or village, or upon failure to pay such fine, to be imprisoned for not more than ten days.

Approved April 12, A. D. 1909.

CHAPTER 81.

EXEMPTION FROM TAXATION.

H. F. 448.

AN ACT to amend section one thousand three hundred four (1304) of the supplement to the code, 1907, in relation to the classes of property exempt from the assessment of taxes.

Be it enacted by the General Assembly of the State of Iowa:

Section 1. Municipal, school and drainage bonds or certificates. That section one thousand three hundred four (1304) of the supplement to the code, 1907, be amended by adding after the semi-colon, and before the words, "public grounds" in the fifth line of paragraph one (1) of said section, the following: "Municipal, school and drainage bonds or certificates hereafter issued."

2. *Certain deductions not permitted.* No deduction from the net of the stock of any bank or trust company shall be permitted because of such bank or trust company holding such bonds and certificates as may be exempted above.

Approved April 16, A. D. 1909.

CHAPTER 189.

TITLE OF BOOKS FOR USE IN SCHOOL DISTRICT LIBRARIES.

H. F. 494.

BE IT enacted by the General Assembly of the State of Iowa: That section two thousand eight hundred twenty-three-p (2823-p) of the supplement to the code, 1907, relating to furnishing of books suitable for use in school district libraries.

Enacted by the General Assembly of the State of Iowa:

Section 1. *List—when prepared.* That section two thousand eight hundred twenty-three-p (2823-p) of the supplement to the code, 1907, be amended by striking out the words "annually or biennially" in the second said section and inserting in lieu thereof the words "at its discretion."

Approved April 15, A. D. 1909.

CHAPTER 220.

ENTRANCE AND EXIT DOORS.

S. F. 72.

BE IT enacted by the General Assembly of the State of Iowa: That section forty-nine hundred ninety-nine-a nine (4999-a9) of the supplement to the code, 1907, relating to protection against fire and providing a means of escape.

Enacted by the General Assembly of the State of Iowa:

Section 1. *Entrance and exit doors to open outward.* The law as it appears in section forty-nine hundred ninety-nine-a nine (4999-a9) of the supplement to the code, 1907, is hereby amended by adding to said section the following:

"The entrance and exit doors of all hotels, churches, lodge halls, court assembly halls, theaters, opera houses, colleges and public school buildings and the entrance doors to all class and assembly rooms in all school buildings, in all cities and incorporated towns, shall open outward."

Approved March 12, A. D. 1909.

SING RULE 44.

CIRCULAR NO. 12—1909.

County Superintendent:

Unfortunately many applicants who have attempted to earn first grade salaries under Rule 44 have failed to understand the plain provisions of the rule, and in consequence much disappointment and, in some cases, loss has resulted.

REPORT OF THE

This circular is written in the hope to impress County Superintendents with the necessity of calling the attention of every applicant writing in the future under Rule 44 to just what is required in each individual case.

Respectfully,

JOHN F. RIGGS.

Superintendent of Public Instruction.

October 1, 1906.

HOW TO PASS FROM A SECOND GRADE CERTIFICATE TO A FIRST

GRADE CERTIFICATE UNDER RULE FORTY-FOUR.

FIRST TRIAL UNDER RULE 44. The applicant presents to the County Superintendent a second grade certificate in force or that has expired not more than sixty days before the date of the examination at which this trial is made. All per cents on such certificate of 85 or above, if in black ink, or 90 per cent and above, if in red ink, will be carried forward.

In case the applicant has on file in the office of the Superintendent of Public Instruction a record of 85 per cent or above in black ink, or 90 per cent or above in red ink, in any one or more of the advanced subjects, such grades will also be carried forward. In all subjects the grades of which cannot be carried forward under the above concessions, an examination will be required, AND THE EXAMINATION MUST BE

TAKEN IN EVERY ONE OF SUCH SUBJECTS AT THE FIRST TRIAL.

No credit will be given unless all required subjects are taken.

SECOND TRIAL. In case a first grade certificate cannot be issued as the result of this first trial, the applicant can at any regular examination within one year have a SECOND TRIAL, at which he will be required to write only in the subjects attempted at the first trial in which a grade of 75 per cent or above was not secured in such first trial, provided that by so doing an average of 85 per cent is secured. No credit will be given for the second trial, unless all subjects under 75 per cent are written.

THIRD TRIAL. If the applicant still fails to secure a first grade certificate and makes a THIRD TRIAL under Rule 44, such applicant must begin as though no previous examinations had been taken under this rule, except that in case the applicant holds two or more second grade certificates, THE ONLY ONE THAT CAN BE USED IN THE THIRD TRIAL UNDER RULE 44 IS THE OLDEST ONE IN FORCE AT THE TIME OF THE EXAMINATION, OR THAT HAS EXPIRED NO MORE THAN SIXTY DAYS BEFORE.

SUBSEQUENT TRIALS. Since it is probable that there will be many cases where applicants attempt repeatedly to pass to a first grade certificate under Rule 44, it is important to remember that the FIRST and SECOND; the THIRD and FOURTH; the FIFTH and SIXTH, and so on, can be combined; that no other combination is permissible, and that but ONE SECOND GRADE CERTIFICATE can be used in each combination. In the first attempt under Rule 44 the teacher selects the second grade certificate she will offer, but in the third or fifth or subsequent odd num-

bered attempts, as the case may be, the certificate offered must be the oldest one in force, or that has expired not more than sixty days before.

EIGHTH GRADE EXAMINATION.

CIRCULAR NO. 13—1909.

To the County Superintendents:

At their recent meeting held during the last session of the Iowa State Teachers' Association, the County Superintendents started a commendable movement for uniformity in the test for promotion from rural to high schools.

At this meeting a committee consisting of Superintendents E. R. Jackson, Bessie B. Buchanan and C. M. Miller was appointed to formulate a plan for uniform eighth grade examinations. This committee met in the office of the Superintendent of Public Instruction December 2, 1909, and prepared regulations to govern such examinations.

I believe great good will come from this movement, and I would urge county superintendents to conduct their eighth grade examinations in accordance with these regulations. To enable them to do so, I publish herewith the report of the committee.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

December 15, 1909.

REPORT OF COUNTY SUPERINTENDENTS' COMMITTEE ON EIGHTH GRADE EXAMINATIONS.

Your committee, appointed at the meeting of the State Teachers' Association, to formulate a uniform plan for Eighth Grade Examinations, beg leave to recommend the following plan to be adopted by the County Superintendents of Iowa, to be put in operation beginning with February, 1910:

I. *Time and Number of Examinations.*—Two final examinations shall be held each year,—the first one on the last Friday and Thursday preceding of February; the second on the first Thursday and Friday in May.

II. *Subjects Required.*—(a) Major subjects: Arithmetic, Grammar, History, Geography, Physiology.

(b) Minor subjects: Reading, Spelling, Writing, Music.

Note 1—Minor subjects are so specified because of difficulty in testing a pupil's ability satisfactorily by examination in these branches.

Note 2—County Superintendents may add to above list such subjects as may be especially desired in each county.

III. *Eligibility. February Examination.*—To be eligible to enter these examinations a pupil must (a) have been enrolled in school for at least six weeks preceding the date of the examination; (b) must have been during that time regularly classified in the Eighth Grade; (c) and the teacher must twenty days prior to the examination report the names of all applicants to the County Superintendent, certifying to their eligibility and recommending them for admission to the examination.

Note—Pupils of Eighth Grades in city or parochial schools may be admitted to these examinations by arrangement between the County Superintendent and the superintendent or principal in charge.

IV. *Eligibility.—May Examination.*—New applicants, entering the May examination, will be governed by the same rules of eligibility as for February tests. Pupils failing in not more than three (3) *major subjects* in the February test may receive credit in the May test for all grades of 75 per cent or above. Grades below 75 per cent shall not be credited in the second trial.

Pupils failing in more than three (3) major subjects must write in all subjects in the second trial.

V. *Preparation of Questions.*—The State Superintendent shall appoint a committee of three (3) County Superintendents at the annual Spring Conference to prepare lists of questions for the following school year, these lists to be printed under the direction of the State Superintendent and distributed as required by the counties of the state as requested by the County Superintendents.

VI. *Plan of Conducting Examinations.*—We recommend that wherever feasible, the examinations be held at central points, in charge of special conductors appointed by the County Superintendent. If such plan is not feasible, the County Superintendent shall use his best judgment in adopting a plan such as will insure fairness and justice to all applicants.

VII. *Graded Papers.*—All papers must be graded under the immediate supervision of the County Superintendent, and all final markings must be passed upon by the County Superintendent.

VIII. *Supplying Questions to Conductors.*—Enough lists to supply each applicant with one set of questions shall be sent by the County Superintendent to the conductors in charge in time for the examinations. The questions required for each half day shall be inclosed in separate sealed envelopes, which may not be opened until the beginning of the half-day session specified.

IX. *Program.*—The following program shall be followed:

- A. M., Thursday: Reading, Grammar.
- P. M., Thursday: History, Spelling, Physiology.
- A. M., Friday: Arithmetic, Special Subjects.
- P. M., Friday: Geography, Music.

Note 1—Afternoon subjects may not be taken up in forenoon. Each half day's work must be kept a unit.

Note 2—Answer papers shall be collected by the conductors in charge immediately upon conclusion of the work and shall in no case be returned to pupils for correction.

X. *Penmanship and Reading Grades.*—Conductors shall grade applicants in Oral Reading on scale of 100 per cent, this grade to be averaged with grade in Written Reading marked on same basis.

Grade in Penmanship shall be judged from general appearance of all papers written by candidate, all such papers to be written with pen and ink.

XI. *Supplementary Rules.*—Whenever these rules may seem insufficient to meet special conditions, the County Superintendent may supplement them with such additional regulations, not inconsistent with the foregoing, as seem desirable.

E. R. JACKSON, Chairman;
BESSIE B. BUCHANAN,
C. M. MILLER,

Committee.

SUPPLEMENTAL—CIRCULAR NO. 13—1909.

PASSING GRADES.—Any applicant securing an average of 75 per cent with no grade below 70 per cent shall be entitled to receive a diploma or certificate of graduation from the County Superintendent of the county in which such applicant took the examination.

SUB-DISTRICT MEETING.

CIRCULAR NO. 1—1910.

To the Director of the Sub-district:

We publish below full directions for conducting the sub-district meeting, with reference to the law governing such questions as may arise. We hope you will see that this circular is at your sub-district meeting and that the information contained therein is given the widest possible publicity at that meeting, so that what is done may be done in compliance with the law and with the full knowledge of the voters of the sub-district.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

February 1, 1910.

SUB-DISTRICT MEETING.

1. NOTICE.

At least five days' notice shall be given by posting in at least three public places in the district. (Section 2751.) If a special schoolhouse tax is to be voted on the property of the sub-district, ten days' notice must be given. (Section 2753.) This year the notices should be posted March 1st, but under no circumstances later than March 2d.

2. DATE.

The meeting of the voters of the sub-district shall be held on the first Monday in March. (Section 2751.)

3. BY WHOM POSTED.

Notices for the regular sub-district meeting shall be posted by the director. If there be no director, they shall be posted by the secretary of the board. (Section 2751.)

4. HOUR OF BEGINNING.

The sub-district meeting shall not organize earlier than nine o'clock a. m. (Section 2751.)

5. HOUR OF CLOSING.

The sub-district meeting shall not adjourn earlier than twelve o'clock m. (Section 2751.)

6. DURATION OF MEETING.

The polls shall remain open at least two hours. (Section 2754.)

7. ORGANIZING AND CONDUCTING.**I. Call to Order.**

Call the meeting to order. Any qualified voter may do this.

II. Judges.

Elect a chairman and secretary from among the voters present (Section 2751.)

III. Polls Open.

Chairman shall declare the polls open for the purpose of electing a director for the sub-district and for such other business as may come before the meeting, stating each proposition.

IV. Closing.

When the hour for closing arrives the chairman should declare the polls closed and the judges of election should then proceed to canvass the vote.

V. Declaring the Result.

The chairman and secretary as judges of election will certify the result to the secretary of the school township and issue to the successful candidate for the office of director a certificate of election. (Section 2753.)

8. JUDGES MAY VOTE.

The chairman and secretary of the sub-district meeting may vote the same as other electors. (Note 8, Section 2751.)

9. JUDGES NOT REQUIRED TO QUALIFY.

The chairman and the secretary of the sub-district meeting are not required to qualify. (Note 7, Section 2751.)

10. TIE VOTE.

A tie vote shall be publicly determined by lot forthwith, before adjournment, under the direction of the judges. (Section 2754.)

11. BY BALLOT.

The director of a sub-district shall be chosen by ballot. (Section 2751.) All propositions coming before the meeting shall be voted upon by ballot. (Const., Art. 2, Sec. 6, page 81, Code of 1897.)

12. CAUCUS.

An informal ballot or caucus can be no part of the sub-district meeting. If it is desired to select candidates, this must be done before the organization of the district meeting. But *one lawful ballot* may be cast or *one vote* taken. (Note 13, Section 2751.)

13. WHO MAY VOTE.

To have the right to vote at the annual sub-district meeting, one must have the same qualifications as for voting at the general election, and must at the time be a resident of the sub-district. (Section 2747.)

QUALIFICATIONS OF ELECTORS.

be entitled to the right of suffrage, a person must be (1) a male, (2) a citizen of the United States, (3) at least twenty-one years of age, (4) a resident of the state six months next preceding the election, and (5) a resident of the county sixty days. (Constitution, Article 2, Section 1, 69 Iowa, and 75 Iowa, 220. See Note 1, Section 2747, School Laws 1907.) Foreign born citizens must have completed naturalization to be eligible to

WOMEN VOTING.

Women may vote on propositions to levy school house taxes. (Section 133 Iowa, 94; 138 Iowa, 730.)

CITIZENSHIP.

Persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States, and of the state wherein they reside. (Constitution of United States, Amendment

WHO MAY BE DIRECTOR OF A SUB-DISTRICT.

The director may be of either sex, and must, at the time of election or appointment, be a citizen and a resident of the sub-district and over twenty-one years old, and if a male, he must be a qualified voter of the district. (Section 2748.)

VACANCIES.

Vacancies may be created in the office of director of a sub-district by (1) death; (2) resignation; (3) accepting the office of secretary or clerk; (4) removal from the sub-district; (5) failure of one who holds over to requalify. (Section 1266.)

VACANCIES; HOW FILLED.

Vacancies are filled (1) by the board of directors until the next meeting, and (2) by the electors for the remainder of the term. If a vacancy exists for your sub-district or one has been filled by the board prior to this meeting, some one should be chosen to serve out the remainder of the term from the date of the sub-district meeting until July 1, 1910. (Section 2758, 2771.) This should be done at the same time that the director for the term commencing July 1 is chosen and on the same ballots. One candidate should be designated as "director for the term commencing July 1, 1910," and the other as "director to fill vacancy." (Section 2746.) One person may be candidate "to fill vacancy" and at the same time a candidate for the "term beginning July 1."

TERM.

The term of the director elected at the sub-district meeting begins July 1 following the date of election and continues for one year. (Section 2757.) One elected or appointed to fill a vacancy assumes the duties of the office as soon as he qualifies, and must qualify within ten days after election or appointment. (Section 1275.)

FAILURE TO ELECT; HOLD-OVER.

In case of the failure of a sub-district to elect a director at the regular meeting, the director in office on June 30th may hold over by requali-

fyng within ten days. Or if a director-elect fails to qualify by the close of July 1st, unless he is his own successor, the old director may hold over by requalifying within ten days. (Sections 1265 and 1275.)

22. WHEN TO QUALIFY.

The person elected director for the term which commences July 1st has until the close of that day in which to qualify. (Section 2756.) A person elected or appointed to fill a vacancy has ten days from the date of his election or appointment. (Section 1275.) A director who holds over has ten days from the date of the organization of the board. (Section 1275.)

23. POWERS OF ELECTORS AT SUB-DISTRICT MEETINGS.

- I. To elect a chairman and secretary. (Section 2751.)
- II. To elect a director for the sub-district. (Section 2751.)
- III. To vote additional school house tax on the subdistrict. (Section 2753.)

24. LIMIT OF SPECIAL TAX.

The amount of the special tax voted at the sub-district meeting and the school house tax voted by the school township shall not exceed fifteen mills on the dollar. (Section 2753.)

25. SPECIAL TAX CERTIFIED.

The secretary of the sub-district meeting shall immediately certify to the secretary of the school township any special tax voted by the electors of the sub-district. (Section 2753.)

26. VOTE OF SUB-DISTRICT IS NOT NOTICE.

A vote of the electors at a sub-district meeting is not legal notice that such proposition will come before the electors at the school township meeting as contemplated in Sections 2746 and 2749.

ANNUAL MEETING.

CIRCULAR NO. 2—1910.

To the Secretary of the Board:

The time for the annual meeting of the electors of your school corporation draws near. We wish to call your attention to the statutory provisions concerning this meeting and urge you to do all in your power to so notify the electors that all propositions which the board, or the electors by petition, desire presented, may legally come before the meeting.

JOHN F. RIGGS,

Superintendent of Public Instruction.

February 1, 1910.

ANNUAL MEETING.

1. NOTICE.

It is mandatory upon the secretary to post notices for the annual meeting in at least five public places in the corporation not less than ten days before the date of the meeting. (Section 2746.) For corporations of 5,000 or more inhabitants a notice shall be posted in each precinct and published in a newspaper once each week for at least two weeks. (Section 2755.)

. DATE.

The annual meeting of the voters of the corporation shall be held on the second *Monday* in *March*. (Section 2746.)

. IMPORTANCE OF NOTICE.

It is of the greatest importance that notice be given as indicated in paragraph 1 above and as required by Sections 2746 and 2755, since the supreme Court has held that none of the powers enumerated in Section 749 may be exercised by the voters unless proper notice has been given. (118 Iowa, 207.)

. SECRETARY MUST BE DIRECTED TO POST NOTICES.

The secretary may not give notice that any proposition will be submitted at the annual meeting unless directed to do so by the board of directors. (133 Iowa, 120.)

. BOARD MAY DIRECT.

Unless petitioned, it is discretionary with the board of directors whether a proposition will be submitted. (Section 2749.)

. WHEN PROPOSITION MUST BE SUBMITTED.

When petitioned as provided in Section 2749 it is mandatory upon the board to provide for submitting any proposition included in the petition. Since Section 2746 requires ten days' notice to be given, it is necessary that petitions be filed with the board more than ten days before the annual meeting to enable it to direct the secretary to give proper notice that such propositions will be submitted.

. HOUR OF BEGINNING.

In school corporations of five thousand or more inhabitants the polls shall open at 9:00 a. m. (Section 2756.) In all other corporations the polls shall open at 1:00 p. m. (Section 2754.)

. DURATION OF MEETING.

In school corporations having five thousand or more inhabitants the polls shall remain open from 9:00 a. m. to 7:00 p. m. (Section 2756.) In independent city or town districts not included in above class they shall remain open at least five hours. (Section 2754.) In rural independent districts and school townships they shall remain open at least two hours. (Section 2754.)

. ORGANIZATION OF MEETING.

The president and secretary of the board, with one of the directors, shall act as judges of election. In the absence of any of these officers, the electors present shall fill the vacancy from their numbers. (Section 2746.) For corporations of five thousand or more the board shall select one of its members and two voters of the precinct as judges of election. (Section 2756.)

(10. DIRECTOR; ELECTION OF.

In all independent school corporations directors shall be chosen at the annual meeting on the second Monday in March. (Section 2746.) If a vacancy exists, or if one has been filled by the board prior to this meeting, the electors in addition to choosing a director for the regular term should also elect persons to fill the vacancies. (Section 2771.) The ballot

should designate whether the person is a candidate for the full term or to fill vacancy. (Section 2746.)

11. SCHOOL TOWNSHIP—DIRECTORS—ELECTED AT LARGE.

School townships having an even number of districts elect a director-at-large at the annual meeting. Those not divided into sub-districts elect three directors at the annual meeting. (Section 2752.)

12. TERM.

The term of office of director in school townships is one year. In independent districts it is three years.

13. WHO MAY BE DIRECTOR.

A director may be of either sex, and must, at the time of election or appointment, be a citizen and a resident of the corporation and over twenty-one years old, and if a male, he must be a qualified voter of the corporation. (Section 2748.)

14. WHO MAY VOTE.

To have the right to vote at the annual meeting, one must have the same qualifications as for voting at the general election, and must be at the time a resident of the school corporation. (Section 2747.)

15. QUALIFICATIONS OF ELECTORS.

To be entitled to the right of suffrage, a person must be (1) a male, (2) a citizen of the United States, (3) at least twenty-one years of age, (4) a resident of the state six months next preceding the election, (5) of the county sixty days, and must be a resident of the corporation. (Constitution, Article 2, Section 1. 69 Iowa, 368, and 75 Iowa, 220. See Note 1, Section 2747, School Laws, 1902.) Foreign born citizens must have completed naturalization to be eligible to vote.

16. CITIZENSHIP.

All persons born or naturalized in the United States and subject to the jurisdiction thereof are citizens of the United States, and of the State wherein they reside. (Constitution of the United States, Amendment XIV.)

17. REGISTRATION.

Registration is necessary in independent city corporations of five thousand or more inhabitants. (Section 2755 and Report Attorney-General, 1906, page 174.)

18. WOMEN VOTING.

Women who have the qualifications of voters except as to sex may vote on propositions for the issuing of bonds or for levying school house tax. (Section 2747.)

19. TIE VOTE.

A tie vote shall be publicly determined by lot, forthwith before adjournment, under the direction of the judges. (Section 2754.)

20. CERTIFICATE OF ELECTION.

The judges of election shall issue certificates of election to the directors chosen. (Section 2746.)

21. POWERS OF ELECTORS AT THE ANNUAL MEETING.

When due notice has been given as provided in Section 2746, the electors

the power, when assembled at the annual meeting, to perform the following duties:

I. *Change of Text-Books.* To direct a change of text-books. (Section 2749, paragraph 1.)

II. *Disposition of School Property.* To direct the sale or make other disposition of any schoolhouse or site belonging to the corporation, and the application to be made of the proceeds of such sale. (Section 2749, paragraph 2.)

III. *Added Branches.* To add branches to the course of study. (Section 2749, paragraph 3.)

IV. *Use of School Building.* To instruct the board that school buildings may or may not be used for meetings of public interest. (Section 2749, paragraph 4.)

V. *Transfer of Funds.* To direct the transfer of any surplus in the schoolhouse fund to the teachers' or contingent funds. (Section 2749, paragraph 5.)

VI. *Roads.* To authorize the board to obtain at the expense of the corporation roads for proper access to its schoolhouses. (Section 2749, paragraph 6.)

VII. *Schoolhouse Tax.* To vote a schoolhouse tax, not to exceed ten mills on the dollar. (Section 2749, paragraph 7.)

VIII. *School Building Bonds.* To authorize the board to issue school building bonds. (Section 2812-d.)

IX. *County Uniformity.* To vote on a proposition for county uniformity when such proposition is submitted by the County Board of Education. (Section 2831.)

X. *Free Text-Books.* To authorize the school board to purchase text-books to be loaned to pupils when the board has been petitioned by one-third or more of the voters of the corporation and thirty days' notice has been given. (Section 2836.)

LIMIT OF INDEBTEDNESS.

The school corporation may not become indebted to exceed one and one-fourth per cent of the actual value of the taxable property in the corporation. (Section 1306-b.)

Note—Sections 2820-a, 2820-b, 2820-c and 2820-d were repealed by the forty-third General Assembly so the statutory limit of indebtedness for corporations under 65,000 is one and one-fourth per cent, as stated above. The constitutional limit is five per cent.

TAX LEVY NOT INDEBTEDNESS.

The law does not consider taxes levied as outstanding indebtedness. Note 3, Section 2812-c.)

POLL BOOK.

At the annual meeting the secretary shall record in a book provided that purpose the names of all persons voting thereat, the number votes cast for each candidate, and for and against each proposition submitted. (Section 2761.)

BY BALLOT.

All propositions must be voted upon by ballot. (Section 2749.) Mem-

bers of the board in all independent districts shall be chosen by ballot (Section 2754.) A director-at-large for a school township shall be chosen by ballot. (Sections 2749, 2751, 2752 and 2823.) All elections by the people shall be by ballot. (Constitution, Article 2, Section 6, page 81, Code of 1897.)

26. FORM OF PROPOSITION.

All propositions shall be voted upon in substantially the following form: "Shall a change of text-books be directed?" (or other question, as the case may be); and the voter shall designate his choice by writing the word "yes" or "no" in an appropriate place on the ballot. (Section 2749.)

27. ORGANIZATION OF BOARDS.

The boards of *school townships, rural independent districts and independent district townships*, will organize July 1, 1910. The present board will continue to act until that date.

The boards of independent city, town and village corporations will organize on the third Monday of March.

Persons elected to fill vacancies on any board will assume the duties of their office as soon as they qualify. They must qualify within ten days from the date of their election or appointment. (Section 1295.)

28. TREASURER.

In independent city and town corporations a treasurer shall be chosen at the same time and in the same manner that directors are chosen. The term of office begins July 1 following the election and continues two years.

29. FINANCIAL STATEMENT.

It is the duty of the board to exhibit at the annual meeting, by posting a statement of the receipts and expenditures since the last annual meeting. In independent city or town corporations the statement may be published two weeks before the annual meeting by one insertion in one or more papers published in the corporation. (Sections 2789, 2781.)

RENEWALS—EXAMINATIONS.

To the County Superintendent:

Heretofore candidates for the renewal of uniform county certificates have not been permitted to write any of the subjects in connection with the renewal of the certificate. We wish to adhere to that rule, and those who desire a renewal of their present second-grade uniform county certificates will not be offered an examination in any of the subjects. When the certificate received in renewal is about to expire, if it does not meet the minimum and average standing required for a first grade certificate, the holder will then be permitted to pass to a renewable second grade certificate by writing in the subjects having black ink grades under 85 or red ink grades under 90 per cent.

Should the holder of a second grade certificate insist on writing the examination, he may do so under the rules already in force, as follows:

1. If but one examination has been written to procure the second grade certificate, and the second attempt is made within a year, under rule 23, the candidate will be permitted to combine the results of the two examinations.

2. If more than a year has elapsed since the first examination, or if two examinations were combined to procure the second grade certificate, rule 24 will apply and the candidate will be required to write in all of the subjects required in the first examination, unless he attempts to pass to a first grade certificate, as provided in rule 45 (rule 44 in rules of June, 1909), in which case he will write in all subjects required for a first grade certificate in which he has black ink grades below 85 and red ink grades below 90 per cent.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

May 18, 1909.

ANNUAL REPORT.

To the County Superintendent:

We sent you three blank books for your annual report. One is to be used as a preliminary report book in which to assemble the data, making corrections and balancing the financial reports. When everything is assembled and found to be correct, copy the preliminary report into both of the other books, always copying from the preliminary book. See paragraph 1, page 81, Report of 1907-1908.

The first important thing to be observed in the preparation of your annual report is the "Order of Reporting Corporations." The order of reporting is indicated at the top of each page of the report book that is to contain a list of the corporations. You will notice that the class called "Joint Districts" is indicated only on the page made up from the secretaries' reports. When a school treasurer reports to you, that corporation should not be reported as a "Joint District" even though it has territory in other counties. It should be put in one of the other three classes of corporations. See paragraph 2, page 81, and Circular No. 7, 1908, page 108, Report of 1907-1908.

Instead of attempting to address you at length concerning the preparation of your report at this time, we suggest that you read Circular No. 15, 1907, pages 81 to 89, and Circular No. 7, 1908, page 108, Report of 1907-1908.

We trust you will feel free to ask any question you may wish answered concerning the preparation of your report.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

May 21, 1909.

TO THE CONDUCTOR OF A UNIFORM COUNTY EXAMINATION:

RESPONSIBILITY.

A great responsibility rests upon the Conductor of a County Examination. The Conductor is expected to advise candidates as to what subjects they should take, and other questions concerning the work of the examination. He should also endeavor to see that all candidates write in all subjects necessary for them to write. It is, therefore, very important that

you become familiar with all of the rules concerning examinations. Fortunately, however, there are a few rules that answer nearly all of the questions, and hence a thorough understanding of these is often sufficient.

We invite your attention particularly to the following:

AGE OF CANDIDATES.

Rule 6 governs the admission of candidates to the examination, and must be followed absolutely. *Do not send in any papers of persons under age.* If any are admitted under age, refund the fee, and take their papers from the rest as soon as you discover the mistake.

EXAMINATION MAY NOT BE DIVIDED.

Rule 18 prohibits the dividing of an examination. This rule is important, because when a candidate fails to write in all of the subjects that he should write in, he is not entitled to credit for what he has done. Writing in the common branches in one examination, and the advanced branches in another, is a divided examination and contrary to the rule. However, persons who write the common branches in the first examination, and wish to take the advanced branches in a second, may have credit for the grades of 85 or better earned in the first examination, provided it has not been more than a year since that was taken.

TO DETERMINE THE SUBJECTS THAT MUST BE TAKEN.

Rule 22 specifies the subjects that must be taken in the first examination.

Rule 23 specifies what must be taken in the second examination within a year.

Rule 24 specifies what must be taken at the third examination.

Rule 44 states what the holders of second grade certificates may do when they desire to pass to the first grade certificate.

PRELIMINARY BLANKS.

Use the preliminary blanks sent you for the July examination. It is essential for us to have more definite information concerning previous examinations than the old form gave. It is also necessary that a candidate who wishes a "second examination" to be called a "first examination" to say so to comply with note 4 to rule 23. To accomplish this, see that all such candidates answer question eight of the preliminary sent. See our circular of July 22d also.

RENEWALS.

We desire no renewal papers sent us in the package with the papers for the June examination. *Papers for the renewal of certificates should be sent separately.* We desire the applications for renewal for each county to be collected by the county superintendent and sent us in as large quanti-

ties as convenient, but never send them with examination papers. Enter no renewals on the grade sheet. No grade sheet is required for renewals.

Very truly yours,

JOHN F. RIGGS,

Superintendent of Public Instruction.

July 24, 1909.

Note.—Under date of June 19, 1909, a similar circular was sent to Conductors of County Examinations.

NON-RENEWABLE CERTIFICATES.

To the County Superintendent:

Yesterday we mailed you the certificates from the October examination. You will notice we have stamped the non-renewable second grade certificates. By so doing the holders of such certificates will understand fully what to expect. Two courses are open to them.

(1) Write under rule 43 for a Renewable Second Grade Certificate, or

(2) Under rule 44 for a First Grade Certificate. This must be done at a regular examination during the life of the certificate, or within sixty days after its expiration.

JULY CERTIFICATES.

Section 2734-h, as amended by Section 2, Chapter 181, Acts of the Thirty-third General Assembly, specifies that Second Grade Certificates having the average and minimum grades required for a First Grade Certificate are renewable. This amendment went into effect July 4, 1909. The July examination was held since this amendment became a law, and hence Second Grade Certificates issued from that examination are subject to classification as renewable or non-renewable.

Rule 27 fixes the average grade for a First Grade Certificate at 85 per cent and the minimum grade at 75 per cent. Then all Second Grade Certificates dated since July 4, 1909, and having any grade under 75 per cent, or an average under 85 per cent, are non-renewable.

Yours very truly,

JOHN F. RIGGS,

President Board of Examiners.

November 16, 1909.

SCHOOLHOUSE DOORS.

To the County Superintendent:

We submit herewith a copy of the opinion of Honorable H. W. Byers, Attorney General, concerning the construction of Chapter 220, Acts of the Thirty-third General Assembly:

"I am in receipt of your letter of the 22d instant in which you request our opinion on the following question:

"Does Chapter 220, Acts of the Thirty-third General Assembly, require the entrance and exit doors of school buildings outside of cities and towns to open outward?"

"While the construction of the statute is somewhat peculiar, yet, in our

REPORT OF THE

intent. It was undoubtedly the intention of the legislature to place these requirements only upon school buildings within the limits of cities and towns.

Very truly yours,

JOHN F. RIGGS,
Superintendent of Public Instruction.

March 30, 1910

ARBOR DAY,

Friday, April 29, 1910.

PROCLAMATION OF

HIS EXCELLENCY, B. F. CARROLL,

Governor of Iowa.

AND ANNOUNCEMENT OF

JOHN F. RIGGS,

Superintendent of Public Instruction.

To the Teachers and School Patrons of Iowa:

I have the honor to transmit herewith the proclamation of His Excellency B. F. Carroll, Governor of the State of Iowa, appointing Friday, April 29, 1910, as Arbor Day. I urge teachers, school officers, patrons and citizens to devote at least a part of that day to appropriate special exercises in the schools.

It is particularly fitting that on an appointed day each year we unite in beautifying the school premises, and in planting trees and shrubs and flowers.

For several years this department has furnished the schools through the County Superintendents supplies of special day pamphlets to be placed in the school libraries. From them teachers may obtain material for special exercises on this occasion.

Respectfully,

JOHN F. RIGGS,
Superintendent of Public Instruction.

Iowa Moines, Iowa, March 31, 1910.
By the Governor

A PROCLAMATION.

It is fitting and proper at the time of year when Iowa is enjoying one of the most remarkable spring seasons in her history, and when the state is taking a leading part in a nation-wide movement for the conservation and development of the diversified resources of our country, to call the attention of our people to Arbor Day, a day set aside by custom and annual observance for the planting of trees.

Dating back to the early settlement of Iowa, when the hardy pioneer drove his team of oxen, hitched to a prairie schooner, into our state, and established his home upon the wide-sweeping and fertile Iowa prairies,

the planting of trees has been a most commendable custom. Bare plains have been made beautiful; handsome forest groves dot the landscape where dwell a happy and prosperous people. Many of our venerable pioneers can look upon the spreading branches and handsome symmetry of large and noble trees of their own planting with justifiable pride and without regret for the labor and pains necessary to grow them.

In conformity not only with the custom grown old by observance, but with the principles of conservation in which tree culture is an important and necessary factor, and to encourage the growing of trees and the forestation of our state, I, B. F. Carroll, Governor of Iowa, do hereby proclaim

APRIL 29, 1910, AS ARBOR DAY,

and respectfully urge its observance in a fitting and consistent manner for the planting of trees, shrubbery and climbing vines to make the environment of home, church, school and city more beautiful. I especially request that the public schools stimulate the sentiment of the day by appropriate exercises, instilling into the minds of our youth the benefit derived from the cultivation of our natural flora and the retention of our forest groves, and I further recommend that the farmers and land owners of our state take advantage of this day for the planting of orchards, forests and groves, and that added interest be taken in the matter of tree planting and tree culture.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Iowa.

Done at Des Moines, Capital of the State,
this thirty-first day of March, A. D. 1910.

B. F. CARROLL,
Governor of Iowa.

WITNESSES:

W. C. HAYWARD,
Secretary of State.

ABSTRACT OF REPORTS OF COUNTY SUPERINTENDENT

INSTITUTE FACULTIES JULY 1, 1908 TO JUNE 30, 1909

Counties	Conductors	Instructors
Alex	Omer Vandivier, 1908	F. E. Palmer, Katie McGuire, P. P. Sullivan, Frank Lindeman, L. J. White, D. B. Earl.
	Omer Vandivier, 1909	Adam Pickett, Katie McGuire, L. J. White, Frank Lindeman, D. B. Earl, M. M. McIntire.
Albany	Clara Taylor	I. W. Fowler, H. W. Chehock, Emma S. Nye, Jeanette Wolcott, Adaline Brooks, Sibyl Lincoln.
Albemarle	W. L. Peck	J. M. Phillips, John Hilliard, Minnie L. Wilson, Charles F. Pye, Mae C. Decker, W. H. Hegemann.
Appamunock	Mrs. S. S. Webster	J. N. Gibson, Orsini Swift, E. L. Phillbrook, Mary E. Brown, A. C. Parsons, J. C. Coulson, A. Farnsworth, J. W. Miller.
Archbold	Ella M. Stearns	J. A. Nims, F. J. Mants, D. E. Brainard, G. E. Weaver, Eva Lense, Anna Temple, Nora Preston.
Barren	J. W. Jones	Frank V. Irish, Dr. W. B. Guthrie, A. M. M. Dornon, Emma Ellis, L. Viola Walker.
Bartholomew	Charles Elliott	C. P. Colgrove, Laura Phillips, Annie Dickey, Mrs. W. W. Brooks, Ella Edelen, A. W. W. Chamberlin, Harry Moore.
Bartow	A. E. Cobb	J. C. Barrett, E. B. Young, M. M. Beddall, C. T. Reed, J. W. Meyer, Katherine Arnold, Hattie Hall, J. B. Curry, C. A. Steelsmith.
Bartow	Kate E. Sullivan	J. P. Colgrove, L. H. Minkie, Thos. J. Durant, Anna E. McGovern, Ella M. Treat, E. C. Roberts, Cora Brotherton.
Bartow	F. C. Archbold	J. N. Gerber, Edwin Dukes, Frances Umpleby, Mrs. J. L. Beuchle, Clara Travis, M. J. Goodrich.
Bartow Visas	Mary A. Faint	I. C. Hollingsworth, W. A. Brandenburg, Mrs. Ella Ford Miller, Benjamin Boardman, Settig Keerl, Willis J. Bell, Mrs. N. Knowles.
Bartow	O. E. Hudds, 1908	J. L. Cobb, Lee Caldwell, F. C. Ensign, Lou Watson, C. F. Eakins, Mabel Grant, Belle Tennant.
	A. A. Griffin, 1909	Lee Caldwell, F. L. Kolb, C. F. Eakins, Ella F. Miller, Walter Athern, L. Mae Strong.
Bartow	W. T. Robinson	H. Beveridge, H. A. Mitchell, Kathleen Kennebec, Hessie Lillie.
Bartow	Gertha A. Johnson	J. E. King, W. E. Salisbury, C. E. Blodgett, S. W. Rowley, T. B. Homan, Mary Kelley.
Bartow	Geo. H. Kellogg	Geo. H. Betts, B. B. Cobb, Eva M. Fleming, Katherine Duffy, C. W. Bangs, C. B. Aurner.
Bartow Gondo	Fred Mahanah	Mrs. Ella Ford Miller, W. A. Brandenburg, Letty E. Keerl, Earl E. Boree, Geo. H. Betts, W. S. Athearn.
Bartow	Kate K. Logan	Grant E. Finch, A. V. Storm, L. H. Maus, Neal S. Knowles, Harriette Bever, C. W. Moss, Martha A. Sherwood, Helen Wittich.
Chickasaw	J. J. Conley	J. Patten, C. L. Woodfield, Thos. Conley, Ida Fitzsimmons, E. J. Feuling.
Clarke	L. C. Smith	A. R. Andrews, Adam Pickett, G. E. Wright, Clarice Baird.
Clay	Mary E. Riley, 1908	V. N. Clifford, A. C. Fuller, A. P. Heald, W. K. Griffin, C. C. Willard, A. H. Porter.
	Mary E. Riley, 1909	V. H. Bender, M. Z. Pingrey, Eck. Roberts, O. M. Elliott, A. H. Porter, W. E. Chase, Katherine Reynolds, Winnifred Nebb.
Clayton	C. J. Adam	Robt. Rienow, G. E. Finch, C. F. Pye, J. W. Dahm, H. L. Adams, Lula Bacher.
Clinton	Geo. E. Farrell	Dr. Frederick E. Bolten, Prof. James Speed, Prof. C. E. Avis, Prof. Louis, Engel, Edna Lyman, Ethel Estabrook, Gertrude Bodman.

Counties	Superintendents	Instructors
Clatsop	H. I. Rudolph	Elizabeth Payne, Nellie Poorman, E. L. Rich- ardson, F. B. Stewart, J. C. Howell, G. E. Farley, J. E. Olander.
Clatsop	Laura S. Killbuck	Miss Emma Belle Rodgers, W. N. Clifford, A. S. McKenna, Frances Search, Mollie Brown, E. J. H. Baird.
Clatsop	E. Miller	Miss Emma Charlotte Sweeney, H. C. Johnson, W. C. Miller, A. G. Smith, W. A. Willis, E. E. Schickman, C. W. Wassam.
Clatsop	Miss Emma	Miss Kate Pinner, W. A. Brandenburg, Belle McDonald, J. E. Foster, F. C. Popham, W. J. Lewis, Doug Gibson.
Clatsop	E. Miller	Young Emma, E. C. Roberts, Mrs. Ida Robb, W. S. Young, John J. Williams, Jessie Cassidy, J. H. Atkinson, J. R. Mc- Tigue.
Clatsop	W. J. Backus	W. J. Backus, E. L. Coburn, L. H. Gerber, J. H. Miller, J. P. Overmyer.
Clatsop	W. J. Backus	W. J. Backus, W. N. Farris, Frances Arnold, Miss F. Foster, C. A. Cruikshank, Dr. R. R. R. E. Cameron.
Clatsop	E. J. Backus	Miss Emma, Sam Herbert, W. W. White, J. W. Watson, C. O. Rogers, G. E. Finch, W. M. Moore, J. C. Walter, Estella Swan, T. O. Allen, Nellie F. Barrett, Geo. W. Quinn, J. Williams, R. M. Lampman, F. N. Brown, E. C. Barrett, W. E. Hays, J. J. Johnson, Marie, Bonelle, Emma C. Monterey.
Clatsop	T. J. Backus	Miss G. Foster, Agnes Hannum, Geo. R. Dunlap, F. H. Fowler, W. S. Wilson, T. J. Backus, C. A. Fullerton, Bruce Francis, C. J. Backus.
Clatsop	T. J. Backus	F. J. Backus, Elsie Rasmisel, Lou Watson, E. J. Backus.
Clatsop	T. J. Backus	E. J. Backus, M. Stokes, Dorothy Hamilton, F. W. Egan, S. Y. Gillan.
Clatsop	T. J. Backus	G. E. Roberts, P. B. Woods, G. E. Weaver, Edna M. Maxwell.
Clatsop	T. J. Backus	Miss Emma, Mrs. Hattie Moore Mitchell, A. V. Smith, Mrs. Margaret L. Weaver, Frances K. Smith.
Clatsop	T. J. Backus	F. J. Backus, J. L. Conger, M. C. Galpin, A. E. Parsons, W. B. Gregg, L. C. Bryan, W. E. MacCall, Margaret Overholser, T. R. P. Goss.
Clatsop	T. J. Backus	Miss H. Sawyer, F. L. Whitney, F. H. Stoddard, L. Love, Elsa M. White.
Clatsop	T. J. Backus	V. S. Smith, F. E. Bolton, S. Y. Gillan, Mrs. H. M. Bell, Fanchon Moffett.
Clatsop	T. J. Backus	H. C. Owsen, H. C. Hollingsworth, Carrie Van Gilder, Maisy Schriener, F. E. King, F. E. George, Lillian Newton.
Clatsop	T. J. Backus	C. A. Pope, W. F. Chevalier, John R. H. Lathrop, Ella M. Witter, Lulu Stevens, Rancho Gandy, C. W. Wassam.
Clatsop	T. J. Backus	Miss Walker, O. M. Elliott, Luca Phillips, Geo. F. Moffitt, S. H. Buntley, Emma C. Monterey.
Clatsop	T. J. Backus	Miss J. Kendall, O. M. Elliott, A. H. Avery, C. B. Morrell, Mrs. L. H. Heetland, Mary D. Bass.
Clatsop	T. J. Backus	Charlotte Sweeney, Mrs. Jessie Gaynor, W. M. Davidson, C. F. Garrett, Mrs. Rilla Waugh, W. N. Clifford, Lura Phillips, Rose M. Parker, J. P. Senning, A. F. Bittener.
Clatsop	T. J. Backus	Eleanor Lally, S. J. Backus, E. J. Feuling, H. E. Blackman, A. H. Porter, Anna Rut- ledge, F. W. Hicks.

ABSTRACT [E] REPORTS OF COUNTY SUPERINTENDENTS

INSTITUTE FACULTIES JULY 1, 1908 TO JUNE 30, 1909

Counties	Conductors	Instructors
Plymouth ----	G. C. Countryman	C. P. Colgrove, Nadine Crump, Lura Phillips, Rose, N. Parker, J. P. Sennling, A. F. Bittener.
Pocahontas --	W. P. Jensen-----	F. C. Ensign, C. P. Colgrove, E. C. Roberts, Avis Wescott, A. S. Reid, Letty E. Keerl.
Polk -----	C. E. Akers-----	J. C. Hockenberry, E. F. Miller, L. Huntington, C. H. York, C. Nicholl, F. Deming, L. S. Ross, O. H. Longwell, J. H. Hofer, D. R. Augsburg, N. H. Blakesley, W. H. Gemmill, Elizabeth Dean, W. F. Barr, W. S. Athearn.
Pottawattamie	E. R. Jackson-----	W. N. Clifford, Stella Louise Wood, A. A. Reed, Geo. H. Betts, H. C. Hollingsworth, J. H. Beveridge, M. E. Crosier, Grace Barr.
Poweshiek ---	Estella Coon -----	Eugene Henely, T. M. Clevenger, F. E. Ford, Warren E. Pollard, Bessie Wallace, Della Phillips.
Ringgold ----	Mrs. I. Richardson	L. Viola Waller, E. F. Miller, Margaret L. Weber, W. H. Brandenburg, W. F. Barr, W. S. Stanton, J. W. Wilkerson.
Sac -----	John R. Slacks-----	A. T. Hukill, G. W. Lee, D. Patton, H. L. Fells, C. E. Burton, Edith C. Buck.
Scott -----	M. C. Petersen, 1908	I. L. Conger, Edna Dudley, R. C. Barrett, A. McGinn, H. P. Nellson, Rose M. Parker.
Shelby -----	M. C. Petersen, 1909	F. E. Lark, Allen Petersen, Edna Dudley, W. M. Davidson, S. L. Hector, H. P. Nielsen, Vera Howard.
Sioux -----	I. C. Welty-----	F. E. King, I. J. Scott, F. A. Nims, H. A. Welty, T. B. Morris, Adalia Whiting.
Tama -----	J. A. McCurdy-----	C. E. Fleming, Ross Masters, J. E. Maxwell, F. L. Mahannah, Cornelia H. York.
Taylor -----	E. E. Kuhn-----	F. O. Belzer, E. R. Stanford, F. E. Howard, Laura Bowman, Allan Peterson, Ella Wood.
Union -----	F. M. Abbott, 1908. Sylvia Cook, 1909.	Eleanor Lally, Geo. D. Eaton, O. E. French, Geo. D. Eaton, Geo. W. Jones, John T. Velin, Eleanor Lally.
Van Buren----	A. L. Heminger-----	A. T. S. Owen, R. L. Reid, Mrs. Alice Immegart, C. N. Spicer, Cora Mel Patten, Katherine Stichter, David Williams.
Wapello ----	Emma S. Nye-----	W. F. Barr, R. C. Barrett, W. N. Clifford, F. C. Ensign, H. C. Hollingsworth, W. C. Wilcox, E. B. Sherman, Mrs. Theodosia Harrison, Mrs. G. T. Thompson.
Warren -----	J. W. Radebaugh---	O. E. Smith, A. N. Smith, S. A. Kreel, R. F. Woods, W. M. McGee, Carrie Van Gilder.
Washington --	Flo M. Purvis-----	Bruce Francis, R. D. Daugherty, Ida Fesenbeck, Rose Parker, Anne Dixon, E. B. Sherman, H. E. Case.
Wayne -----	M. Jane Reddick---	W. L. Fugh, Inez, F. Kelso, Paul F. Voelker, Minnie Rozelle, J. R. Congill.
Webster -----	E. E. Cavanaugh---	C. V. Findlay, J. F. Monk, Mrs. M. Weber, W. S. Athearn, Miss Holton, Geo. Fidd, T. B. Morris, Clara Bessie Wilcox.
Winnebago ---	L. C. Brown-----	R. C. Barrett, W. W. Overmyer, O. E. Dixon, C. R. Golly, Fred T. Hanson, Bertha Droron, Stella Henderson.
Winneshiek ---	Sigurd Reque -----	E. C. Roberts, Elizabeth Pattee, Eva Fleming, A. H. Porter, Ella Treat, H. C. Johnson, Edwin Burrows.
Woodbury ----	O. E. Gunderson, '08	Blanche Goudy, Geo. Sawyer, W. H. Hege-
Worth -----	O. E. Gunderson, '09	mann, H. A. Dwelle. C. A. Mellby, Mrs. H. O. Williams, Mrs. Noma Osman, Mrs. David Store, A. V. Storm, H. A. Dwelle.
Wright -----	O. H. Benson-----	Lura Bowman, I. F. Meyers, Charlotte Reed, Geo. H. Betts, John Cameron, L. G. Focht, W. H. Blenkly, Margaret Bowes, S. T. Nevelyn.

ABSTRACT [E] REPORTS OF COUNTY SUPERINTENDENTS—CON.

INSTITUTE FACULTIES, JULY 1, 1909, TO JUNE 30, 1910

Counties	Conductor	Instructors and Lecturers
Adair -----	Omer Vandiver-----	Instructors: F. E. Palmer, Adam Pickett, J. M. Ireland, Arthur MacMurray, Frank Lindeman, D. R. Earl, M. M. McIntire, May Scott. Lecturers: F. E. Palmer, Arthur MacMurray.
Adams -----	Clara Taylor-----	Instructors: Hattie Moore-Mitchell J. F. Overmyer, J. W. Fowler, G. E. Weaver, Marion H. Dampman, Lillian Newton. Lecturers: Hattie Moore-Mitchell, G. E. Weaver, Mrs. Ida B. Wise.
Allamakee --- Appanoose ---	Mrs. S. S. Webster-----	Instructors: E. L. Philbrook, L. C. Rumsel, Mary E. Brown, Orsini Swift, E. N. Gibson, J. L. Coulson, G. Eunice Meers, A. Farnsworth. Lecturer: Walter S. Athearn.
Audubon -----	Ella M. Stearns-----	Instructors: R. A. Griffin, Dora Larson, K. G. Lancelot, J. W. Tovenner, Cora Steele, Bertha Caldwell. Lecturers: G. R. Bliss, C. H. French.
Benton -----	J. W. Jones-----	Instructors: W. B. Guthrie, John E. Stout, A. M. M. Dornon, L. Viola Waller, Irma Keene, Ella Brubaker. Lecturers: W. B. Guthrie John E. Stout.
Black Hawk --	H. A. Moore -----	Instructors: W. H. Bender, Clarence Wasam, W. S. Mitchell, C. A. Fullerton, C. W. Roadman, Rose Ioggie, G. W. Samson.
Boone -----	R. R. Cobb-----	Instructors: Dr. O. H. Cessna, Clara E. Thompson, C. T. Reed, Gertrude Illgen Fritz, J. E. Marshall, Lols Moberg, Hallie Hull, E. E. Bentley. Lecturers: E. D. Starbuck, F. E. Lark, A. V. Storm.
Bremer -----	Kate E. Sullivan-----	Instructors: L. H. Minkle, D. G. Hunt, Thomas J. Durant, Herbert K. Thompson, Mrs. Mary Woodring, Frances A. Arnold, Avis Grawe, Maude Fretza. Lecturers: Frank C. Travers, Rev. W. G. Crowder, Herbert K. Thompson.
Buchanan -----	G. R. Lockwood-----	Instructors: A. E. Bennett, Edwin Dukes, Mrs. J. L. Buechele, Blanche Goudy, A. E. Parsons. Lecturers: Dr. A. E. Bennett, Dr. A. E. Kepford.
Buena Vista --	J. E. Cundy-----	Instructors: H. C. Moeller, L. D. Curtis, A. C. Fuller, G. W. Walters, Ethel Matthews. Lecturers: A. V. Storm, W. H. Bender, C. P. Colgrove.
Butler -----	Mary A. Faint-----	Instructors: Frank E. Howard, NeWe Shields, Irving H. Hart, A. R. McCook, Mrs. Elizabeth Carmichael, Laura Bowman. Lecturers: G. W. Samson, A. E. Kepford, Ida B. Wise, C. P. Colgrove, Dean W. F. Barr, Elizabeth Hughes.
Calhoun ----- Carroll -----	W. T. Bohnenkamp-----	Instructors: H. A. Mitchell, J. W. Meyer, A. H. Porter, Kathleen Kennebec, Gertrude Stephany, Charles E. Shelton. Lecturers: H. A. Mitchell, Charles E. Shelton, Rev. Everds, Rev. Taylor, A. H. Porter.
Cass -----	Bertha A. Johnson-----	Instructors: F. E. King, C. E. Blodgett, W. E. Salisbury, Ernest Iler, S. W. Rowley, Frank Pellett, Mary Kelly. Lecturer: F. E. King.
Cedar -----	Geo. H. Kellogg-----	Instructors: A. M. M. Dornon, Blanche Goudy, John E. Stout, C. R. Aurner. Lecturers: W. C. Wilcox, John E. Stout, Jane Lewis.
